Out of Care Referral Form for HIV Patients

The Rhode Island Department of Health has been funded by the Centers for Disease Control and Prevention to improve the health of persons with HIV by locating and re-engaging patients lost to care and retaining them in care long-term. Please complete this form for HIV-positive patients who have not been seen by your staff in the last 6 or more months - or sooner if your client/patient is at an increased risk of being lost to HIV medical care and cannot be located by your staff, or if there is other reason for concern. Thank you for working with us to ensure that people with HIV are successfully engaged with the appropriate medical care.

Please complete one form per patient and MAIL (DO NOT FAX) as patients are identified to:
Attn: Return To Care Program **(CONFIDENTIAL)**
Center for HIV, Hepatitis, STDs, and TB Epidemiology
