

ASBESTOS WASTE TRANSPORT COMPANIES

The following is an unofficial list, compiled by the RI Department of Health's Asbestos Control Program, of companies that have expressed a willingness to accept residentially generated asbestos waste for proper disposal. The Department of Health does not license or certify asbestos waste transport businesses, or regulate this activity. Therefore, this list does not constitute an endorsement of any type, nor is it necessarily complete. Proper packaging and labeling of asbestos waste for disposal should be discussed with the company selected. Questions regarding residential asbestos removal procedures should be directed to the Asbestos Control Program at (401) 222-3601. Questions regarding asbestos waste disposal should be directed to the RI Department of Environmental Management, Office of Waste Management at (401) 222-2797.
