Audited Consolidated Financial Statements and Other Financial Information

Care New England Health System and Affiliates
Years Ended September 30, 2009 and 2008
With Report of Independent Auditors
Independent Auditors’ Report

The Board of Trustees
Care New England Health System

We have audited the accompanying consolidated balance sheets of Care New England Health System and Affiliates (“Care New England”) as of September 30, 2009 and 2008, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of Care New England’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Care New England’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Care New England’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Care New England Health System and Affiliates at September 30, 2009 and 2008, and the consolidated results of its operations, changes in net assets, and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

As discussed in Note 8 to the accompanying consolidated financial statements, in 2009, Care New England changed its method of accounting for the appreciation on endowments.

January 15, 2010

1. Description of Organization

Corporate Structure

Care New England Health System (“CNE”, “Care New England”, or the “Health System”), a not-for-profit corporation, was established in February 1996 as the holding company for the development of an integrated delivery network which consists of Butler Hospital, Kent County Memorial Hospital, and Women & Infants Hospital of Rhode Island (collectively, the “Hospitals”), and the Kent County Visiting Nurse Association, d/b/a VNA of Care New England (the “Agency”).

The accompanying consolidated financial statements include the accounts of CNE and its affiliates, over which CNE has corporate governance:

- Butler Hospital (“Butler”) and its affiliate, Carriage House, LLC (“Carriage”)
- Kent County Memorial Hospital (“Kent”) and its affiliates, Kent Hospital Foundation, Kent Ancillary Services, LLC, and Toll Gate Indemnity, Ltd. (“Toll Gate”)
- Women & Infants Corporation (“WIC”) and its affiliates, Women & Infants Development Foundation, Palomar Group, Inc. (“Palomar”), Women & Infants Hospital of Rhode Island (“WIH”), W&I Indemnity, Ltd. (“W&I Indemnity”), WIH Faculty Physicians, Inc., and Women & Infants Ancillary Services, LLC
- Kent County Visiting Nurse Association and its affiliate, Healthtouch, Inc. (together, the “Agency”)
- Care New England Wellness Centers, LLC

Significant intercompany accounts have been eliminated in consolidation.

Mission and Nature of Business

Care New England supports the three Hospitals, the Agency, and other affiliated organizations.

The mission of Butler Hospital is to provide treatment of psychiatric illness in an atmosphere of dignity and respect, and to contribute to knowledge through education and research, while continuously improving the ways Butler serves its patients and the community. Butler is a 117-bed, not-for-profit psychiatric teaching hospital, affiliated with Brown University, providing services for the care of patients from Rhode Island and nearby Massachusetts. As a complement to its role in service and education, Butler actively supports research by members of its staff. Butler is accredited by The Joint Commission (“TJC”).
1. Description of Organization (continued)

The mission of Kent County Memorial Hospital is to continually improve the health and well-being of the people and communities it serves, offering its essential services without regard for the ability to pay. Kent is a 359-bed, not-for-profit general hospital providing a full range of services for the acute care of patients principally from Kent County, Rhode Island. During 2008, Kent received approval from the American Osteopathic Association to establish two residency programs. In July 2008, Kent welcomed the first group of residents into the Emergency Medicine and Family Practice residency programs. Kent is affiliated with, and provides clinical training to, the students of the University of New England College of Osteopathic Medicine. Kent is accredited by TJC and the Commission on Accreditation of Rehabilitation Facilities. Toll Gate is a wholly owned subsidiary of Kent that was incorporated during 2004. Toll Gate insures primary and excess hospital professional and general liability risks for the Hospital and its employees on an occurrence basis. Toll Gate insures the Hospital’s contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians’ professional liability on an occurrence basis. Toll Gate also insures the Hospital’s contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians’ professional liability on both a claims-made and occurrence basis.

The mission of Women & Infants Corporation is to support Women & Infants Hospital of Rhode Island and all other affiliated organizations. The mission of Women & Infants Hospital of Rhode Island is to improve the health and well-being of women and infants, and to provide essential services regardless of ability to pay. WIH is a 247-bed, not-for-profit regional center for women and infants’ care in Rhode Island and environs. It has university affiliations and serves as the tertiary care center for neonatology, as well as obstetrics, maternal fetal medicine, gynecology, and an array of internal medicine services for all of Rhode Island and portions of the neighboring states of Massachusetts and Connecticut. As a complement to its role in service and education, WIH actively supports research by members of its staff. WIH is accredited by TJC. W&I Indemnity is a wholly owned subsidiary of WIH. W&I Indemnity insures excess hospital professional liability risks for the Hospital and its employees on an occurrence basis, and excess hospital professional liability risks for the Care New England Health System solely to the extent not covered by commercial insurance purchased by Care New England, Butler, or Kent. W&I Indemnity insures the Hospital’s contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians’ and residents’ medical malpractice liability on an occurrence basis. W&I Indemnity also insures the Hospital’s contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians’ medical malpractice liability on both a claims-made and occurrence basis.
1. Description of Organization (continued)

The mission of Kent County Visiting Nurse Association, d/b/a VNA of Care New England, is to provide and administer a comprehensive, multidisciplinary, therapeutic, hospice and public health nursing program. The Agency is a not-for-profit corporation, providing home care services to the residents of Rhode Island and nearby Massachusetts. Healthtouch, Inc. is a not-for-profit corporation providing private duty nursing and personal care services, primarily to residents of Rhode Island.

2. Significant Accounting Policies

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Care New England considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, excluding amounts whose use is limited by Board designation or other arrangements under trust agreements.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized and unrealized gains and losses on investments, other-than-temporary impairments in the value of securities, interest, and dividends) is included in the excess of revenues and gains over expenses unless the income or loss is restricted by donor or law.
2. Significant Accounting Policies (continued)

Alternative investments consist of limited partnership interests in hedge funds and shares of common collective trust funds. The Health System’s policy is to record its ownership interest in these investments of less than 3% at cost. The Health System has no ownership interests in excess of 3%, which could require such interests to be reported under the equity method of accounting. Under the equity method, the Health System would recognize its share of the increase or decrease in the investments’ fair value in non-operating income. Certain of the partnerships may hold some securities without readily determinable fair values, and consequently, the general partner may estimate fair value for such securities. These estimates may differ significantly from the values that would have been used had a ready market existed, and may also differ significantly from the values which such investments may be sold, and the differences may be material.

Income and realized net gains (losses) on investments of endowments and specific purpose funds are reported as follows:

- Increases (decreases) in permanently restricted net assets if the terms of the gift require that they be added to the principal of permanently restricted net assets;

- Increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on the use of the income or the income has not yet been appropriated; or

- Increases (decreases) in the unrestricted net assets in all other cases.

Assets Limited as to Use

Assets limited as to use primarily include assets held by trustees under indenture agreements and insurance programs, deferred compensation arrangements, and designated assets set aside by one or more of the Boards of Trustees (the “Boards”), over which the Boards retain control and may, at their discretion, subsequently use for other purposes. Amounts required to meet current obligations of the Hospitals have been reclassified to current assets.

Inventories

Inventories of drugs and supplies are stated at the lower of cost (first-in, first-out) or market.
2. Significant Accounting Policies (continued)

Property and Equipment

Property and equipment acquisitions are recorded at cost. Donated property and equipment is recorded at fair value at the date of receipt. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Installation costs, including labor, benefits, and travel, are capitalized as a component of information systems installations. Depreciation is recorded using the straight-line method based on the estimated useful life of each class of depreciable asset, as recommended by the American Hospital Association.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support and are excluded from the excess of revenues over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Pledges

Pledges, less an allowance for uncollectible amounts, are recorded as receivables in the year made. Pledges receivable over a period greater than one year are stated at net present value. Pledges are recorded as additions to the appropriate net asset classification.

Deferred Financing Costs

Expenses related to issuance of bonds are deferred and amortized on a straight-line basis over the period during which the bonds are expected to be outstanding.

Self-Insurance Reserves

The reserves for self-insured professional and general liability claims are estimated based on actuarial studies and the Hospitals’ and industry experience. The reserves include estimates of the ultimate cost for both reported claims and claims incurred but not yet reported. The Hospitals have established separate indemnification companies and trust funds for payment of certain self-insured claims.
2. Significant Accounting Policies (continued)

Care New England is self-insured for losses arising from workers’ compensation claims. Loss reserves are estimated based on actuarial studies and the Health System’s and industry experience.

For the employees of the Hospitals and the Agency, with the exclusion of the unionized employees at Women & Infants Hospital, Care New England is self-insured for losses arising from health insurance claims. Self-insured losses for both reported claims and claims incurred but not yet reported are estimated based on actuarial studies and the Health System’s actual experience.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Excess of Revenues Over Expenses

The consolidated statements of operations and changes in net assets include excess of revenues and gains over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues and gains over expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and changes in the pension and postretirement liability.

Net Patient Service Revenue

The Hospitals and the Agency have individual agreements with many third-party payors that provide payments at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per-diem payments.

Net patient service revenue is reported at estimated net realizable amounts from patients, third-party payors, and others for services rendered, and includes estimated retroactive revenue adjustments due to such things as future audits and reviews. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known, or as years are no longer subject to such adjustments.
2. Significant Accounting Policies (continued)

Other Revenue

Other revenue includes underwriting income, rental income, cafeteria sales, laboratory services provided to non-patients, sales of home medical equipment, vendor rebates and discounts, and various services provided to physicians and other organizations.

Charity Care

The Health System provides care to patients who meet certain criteria under their charity care policies without charge or at amounts less than established rates. Because the Health System does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient revenue.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date when the condition is satisfied. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions.

Income Taxes

Care New England, the Hospitals, the Agency, Healthtouch, Women & Infants Faculty Physicians, Inc., Women & Infants Corporation, Women & Infants Development Foundation, Palomar, and Kent Hospital Foundation are not-for-profit corporations, and have been recognized as tax exempt on related income pursuant to Section 501(c)(3) of the Internal Revenue Code. W&I Indemnity, Ltd. and Toll Gate Indemnity, Ltd. are foreign corporations with no material tax liability. Other affiliates are single-member limited liability companies which are treated as part of their sole member for tax purposes.
2. Significant Accounting Policies (continued)

New Accounting Pronouncements

Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board (“FASB”) issued The FASB Accounting Standards Codification (the “Codification”). The Codification is the single source of authoritative non-governmental U.S. generally accepted accounting principles, and is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Health System adopted the Codification as of September 30, 2009. The adoption of the Codification was not material to the Health System’s consolidated balance sheet as of September 30, 2009, or its consolidated statement of operations and changes in net assets for the year ended September 30, 2009.

Fair Value Measurements

In September 2006, the FASB issued Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurements and Disclosures (“Topic 820”). Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosure about fair value measurements. Topic 820 is effective for fiscal years beginning after November 15, 2007. The adoption of Topic 820 did not have a material effect on the Health System’s consolidated balance sheets as of October 1, 2008, or September 30, 2009, or on the consolidated statements of operations and changes in net assets or cash flows for the year ended September 30, 2009. See Note 20 for related fair value disclosures. In February 2009, the FASB issued Topic 820-10-55-23B, which delayed the effective date of Topic 820 for non-financial assets and liabilities, except for items that are recognized or disclosed at fair value on a recurring basis, until fiscal years beginning after November 15, 2008. Accordingly, the Health System will apply the provisions of Topic 820 to non-financial assets and liabilities beginning with the fiscal year ended September 30, 2010.
2. Significant Accounting Policies (continued)

Endowment

In August 2008, the FASB issued ASC Topic 958-205-05-10, *Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act, and Enhanced Disclosures for All Endowment Funds* (“Topic 958-205-05-10”). This Topic provides guidance on the net asset classification of donor-restricted endowment funds for not-for-profit organizations subject to a state-enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (“UPMIFA”), and requires additional disclosures for the endowment funds of all not-for-profit organizations. Based on the effective date of the Rhode Island version of UPMIFA, and in relation to the effective date of Topic 958-205-05-10, the Health System adopted this Topic for the year ended September 30, 2009. The adoption of Topic 958-205-05-10 resulted in a cumulative effect adjustment, which increased temporarily restricted net assets and decreased permanently restricted net assets by $16,306,000 at September 30, 2009. See Note 8 for related Topic 958-205-05-10 disclosures.

Postretirement Benefit Plan Assets

In March 2008, the FASB issued ASC Topic 517-20-65-2, *Employers’ Disclosures about Postretirement Benefit Plan Assets*. This Topic amends Topic 958-715-50-1 to provide guidance on an employer’s disclosures about plan assets of a defined benefit pension or other postretirement plan. The Health System is required to adopt the provisions of the Topic beginning with the fiscal year ended September 30, 2010.

Derivative Instruments and Hedging Activities

In March 2008, the FASB issued ASC Topic 815-10-65-1, *Disclosures about Derivative Instruments and Hedging Activities – an amendment of Topic 815-10-50* (“Topic 815-10-65-1”). Topic 815-10-65-1 builds upon the existing disclosure requirements of ASC Topic 815-10-50, *Accounting for Derivative Instruments and Hedging Activities* (“Topic 815-10-50”), by requiring enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under Topic 815-10-50 and its related interpretations, and how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. The Health System is required to adopt Topic 815-10-65-1 for its fiscal year ending September 30, 2010.
2. Significant Accounting Policies (continued)

Subsequent Events

In May 2009, the FASB issued ASC Topic 855, *Subsequent Events* (“Topic 855”). Topic 855 establishes general standards of accounting and disclosure requirements for subsequent events, events that occur after the balance sheet date but before the financial statements are issued. In addition, certain events subsequent to the balance sheet date may require recognition in the financial statements as of the balance sheet date based on the requirements of Topic 855. The Health System adopted the provisions of Topic 855 as of September 30, 2009, and evaluated the impact of subsequent events through January 15, 2010, representing the date at which the financial statements were issued. No material subsequent events occurred.

Reclassifications

Certain items in the 2008 financial statements have been reclassified to conform to the current year presentation.

3. Uncompensated Care and Community Services

The Health System maintains records to identify and monitor the level of charity care and community services it provides, including the amount of charges forgone for services and the estimated cost incurred to provide those services. The revenues forgone and estimated costs and expenses incurred to provide charity care for the years ended September 30 are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2009</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Revenues forgone, based on established rates</td>
<td>$25,494</td>
<td>$20,011</td>
</tr>
<tr>
<td>Expenses and costs incurred</td>
<td>$11,294</td>
<td>$ 8,777</td>
</tr>
</tbody>
</table>

In addition to the above-mentioned medical care rendered, the Hospitals and the Agency provide numerous other services free of charge to the community. These services include such things as transporting patients to the healthcare facilities, interpretation of medical information to various languages, volunteer services to other not-for-profit agencies, emergency and disaster relief services, various health and educational programs, research and teaching facilities, healthcare screening services, therapeutic patient services, and provision of direct services to patients with multiple psychosocial needs.
3. Uncompensated Care and Community Services (continued)

Approximated revenues forgone, or cost of the services provided to the community

<td>$7,010</td>
</tr>
</tbody>
</table>

The Hospitals and the Agency also provide services to other indigent patients under the Medicaid/Rite Care Program, which reimburses healthcare providers at amounts which are less than the costs of services provided to the recipients. Hospital-employed physicians also render medical services to the community which are not billable, and for which no remuneration is received.

In addition to the cost of charity care and other community service programs, the Hospitals and the Agency provided approximately $29,932,000 and $28,150,000 for uncollectible patient accounts during the years ended September 30, 2009 and 2008, respectively.

4. Pledges Receivable

Unconditional promises to give are recorded at present value as current and long-term assets based on expected time of collection. Future expected collections of these pledges as of September 30 are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2009</th>

Care New England, the Hospitals, and the Agency routinely invest their surplus operating funds in various overnight repurchase agreements, money market funds, and fixed income U.S. agency bonds, which are classified as current investments.
5. Summary of Investments (continued)

Through its consolidated Treasury Management System, Care New England, on behalf of the Health System, has invested surplus operating cash in auction rate securities with varying maturity dates, which are backed by student loans. These loans are guaranteed for repayment by the federal government. During 2008, the auctions at which these securities were sold began to fail, requiring CNE to hold these securities indefinitely. However, payments of interest from the underlying loan pool remain current. As of September 30, 2009 and 2008, these securities are recorded as long-term investments in the consolidated balance sheets and Care New England has recorded an other-than-temporary impairment loss of $1,517,125 and $875,000, respectively, based on an independent valuation of the securities. During 2009, $775,000 of the auction rate securities was liquidated at face value. As a result of the liquidation, the Health System recognized a non-operating gain of $27,125. Care New England intends to hold the remaining securities until such time as the auctions resume.

6. Property and Equipment

A summary of property and equipment at September 30 follows:

<table>
<thead>
<tr>
<th></th>
<th>2009 (In Thousands)</th>

</tbody>
</table>

During November 2005, WIH received a Certificate of Need approval from the Rhode Island Department of Health to build a five-floor addition to the Hospital. The addition contains 80 neonatal intensive care beds, 30 additional obstetrical services beds, and space for support services. The addition was funded through the issuance of tax-exempt debt, use of equity, and philanthropic donations. The addition became operational on September 16, 2009. The total cost of the addition was approximately $76,835,000.
6. Property and Equipment (continued)

As of September 30, 2009, the Health System estimates the total cost of completion of construction and projects in progress to be approximately $8,840,000. The funding to complete these projects will come from Board-designated funds, philanthropic donations, tax-exempt debt, and operating cash.

WIH leases land for its facility from Rhode Island Hospital (“RIH”), for a nominal annual payment, under a 99-year lease agreement which expires December 31, 2085.

Butler owns approximately 110 acres of land, which was purchased with donated funds in the mid-19th century. This land has a book value of one dollar.

In the late 1940s, Kent acquired 57 acres of land, which is recorded at the acquisition price of $90,165.

Conditional asset retirement obligations recorded amounted to $1,550,000 and $1,503,000 as of September 30, 2009 and 2008, respectively. These obligations are recorded in other non-current liabilities in the accompanying consolidated balance sheets. There are no assets that are legally restricted for purposes of settling asset retirement obligations. During 2009 and 2008, there were no significant retirement obligations incurred or settled. Accretion expense of $62,000 and $55,000 was recorded during the years ended September 30, 2009 and 2008, respectively.

7. Long-Term Debt and Capital Leases

During February, 2008, CNE and its other Obligated Group members, Butler, Kent, WIC, and WIH issued a total of $84,940,000 in RIHEBC Hospital Financing Revenue Bonds (the “Bonds”). These Bonds were issued as CNE 2008 Series A ($46,730,000) and CNE 2008 Series B ($38,210,000). The proceeds from the CNE 2008 Series A bonds were used to (1) refund the outstanding CNE 2002 Series A bonds, and (2) pay certain expenses related to the issuance of the CNE 2008 Series A bonds. The proceeds from the CNE 2008 Series B bonds were used to (1) defease a portion of the outstanding CNE 2002 Series B bonds, and (2) finance a portion of WIH’s Certificate of Need project consisting of the construction, equipping, and furnishing of a five-story addition to WIH’s existing hospital building, (3) finance a portion of routine capital improvements, and (4) pay certain expenses related to the issuance of the CNE 2008 Series B bonds. The CNE 2002 Series B bonds were defeased by depositing a portion of the proceeds of the CNE 2008 Series B bond proceeds and money contributed by the Obligated Group in an account held by the trustee for the CNE 2002 Series B bonds to provide funds as and
when necessary to pay the principal and interest on the CNE 2002 Series B bonds. The refunding trust has sufficient fixed income securities to meet the required payments on the outstanding balance of $4,850,000 as of September 30, 2009.

As a result of the refunding of the CNE 2002 Series A bonds and the defeasance of the CNE 2002 Series B bonds, the Health System recognized a loss of approximately $817,000 in the fiscal year ending September 30, 2008.

A summary of long-term debt at September 30 is as follows:

<table>
<thead>
<tr>
<th></th>
<th>2009</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Variable rate</td>
<td>$46,730,000</td>

</tr>
<tr>
<td>bonds</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

RIHEBC 2008 Series A bonds, mandatory sinking fund redemptions ranging from $1,250,000 in 2009 to $2,735,000 in 2032. The bonds bear interest at a daily, weekly, or monthly rate, which is payable on the first business day of each month, and on maturity or redemption dates and the fixed rate conversion date. In no event will the interest rate borne by the bonds exceed 10% per annum. Since issuance in 2008, the bonds have borne a weekly interest rate. CNE has pledged gross receipts backed by a bank letter of credit which expires on February 1, 2015. The Series A bonds are subject to tender at the option of the owners thereof. To the extent the tendered bonds are not able to be remarketed, the letter of credit bank has committed to purchase the bonds. Amounts advanced by the bank to pay the purchase price on bonds being purchased and not reimbursed to the bank on the date of such drawing will be converted to a credit agreement loan and amortized over three years. CNE, Butler, Kent, WIC, and WIH are jointly and severally liable for repayment.

$44,270 $45,520
Variable rate $38,210,000 RIHEBC 2008 Series B bonds, mandatory sinking fund redemptions ranging from $2,250,000 in 2009 to $660,000 in 2013. The bonds bear interest at a daily, weekly, or monthly rate, which is payable on the first business day of each month, and on maturity or redemption dates and the fixed rate conversion date. In no event will the interest rate borne by the bonds exceed 10% per annum. Since issuance in 2008, the bonds have borne a weekly interest rate. CNE has pledged gross receipts backed by a bank letter of credit which expires on February 1, 2015. The Series B bonds are subject to tender at the option of the owners thereof. To the extent the tendered bonds are not able to be remarketed, the letter of credit bank has committed to purchase the bonds. Amounts advanced by the bank to pay the purchase price on bonds being purchased and not reimbursed to the bank on the date of such drawing will be converted to a credit agreement loan and amortized over three years. CNE, Butler, Kent, WIC, and WIH are jointly and severally liable for repayment.

Term, $340,000 RIHEBC Equipment Note due March 2003 through February 2010, in monthly installments of $4,687 at a fixed interest rate of 4.25%. Collateralized by the equipment purchased with the proceeds by the Agency and guaranteed by the Health System.

Term, $300,000 RIHEBC Equipment Note due July 1, 2004 through June 1, 2014, in monthly installments of $3,141 at a fixed interest rate of 4.72%. Collateralized by the equipment purchased with the proceeds by the Agency and guaranteed by the Health System.

Term, $2,250,000 BankRI mortgage note due July 2005 through June 2015, in monthly installments of $14,538 with a final payment of $1,734,954 due June 2015, at a fixed interest rate of 6.03%. Collateralized by the real estate purchased.

Under the terms of the revenue bonds, CNE and the Hospitals are required to make periodic debt service payments with a trustee, which are included with assets limited as to use. The revenue bond indenture and letter of credit agreement also places limits on the incurrence of additional borrowings, and require that the Obligated Group satisfy certain measures of financial performance as long as the bonds are outstanding.

In 2004, CNE entered into an interest rate swap agreement with Bank of America Investments, effectively converting the $50,000,000 RIHEBC CNE 2002 Series A variable rate debt to a fixed rate of 2.99% for the period of October 1, 2005 through August 1, 2011.
7. Long-Term Debt and Capital Leases (continued)

As part of the refinancing, CNE has (1) maintained the interest rate swap agreement that was entered into in 2004 with Bank of America Investments which effectively converts $45,400,000 of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 3.02% for the period of February 1, 2008 through August 1, 2011, (2) entered into an interest rate swap agreement with Deutsche Bank Group which effectively converts all of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 4.216% for the period of August 1, 2011 through July 1, 2032, and (3) entered into an interest rate swap agreement with Morgan Stanley Capital Services which effectively converts all of the RIHEBC CNE 2008 Series B variable rate bonds to a fixed rate of 3.857% for the period of February 1, 2008 through August 31, 2037.

The Health System uses the interest rate swap agreements in order to manage its interest rate risk associated with its outstanding debt. These swaps effectively convert interest rates on variable rate bonds to fixed rates. The interest rate swap agreements meet the definition of derivative instruments. However, the change in the market value and cash flow impact of the derivative instruments were accounted for as a non-operating activity.

The following table summarizes the 2008 Series A and B debt activity for the fiscal years ended September 30:

<table>
<thead>

Care New England had available $15,000,000 during 2009 and $10,000,000 during 2008 through a line of credit with a financial institution. There were no outstanding balances on the lines of credit as of September 30, 2009 and 2008.

The Hospitals classify certain non-cancelable leases as capital leases, and include the property under lease in their property and equipment. Amortization expense for these assets is included in depreciation and amortization expenses in the consolidated statements of operations and changes in net assets. Ownership of the leased property converts to the Hospitals at the end of the lease term. Assets and related accumulated depreciation under the capital leases are included in property and equipment (Note 6).

Future minimum lease payments due under capital lease arrangements at September 30, 2009 are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>2010</td>
<td>$ 3,050</td>

The Health System follows the requirements of the Rhode Island enacted version of the UPMIFA as they relate to its permanently restricted endowments. The Health System’s endowments consist of numerous individual funds established for a variety of purposes. Its endowments consist solely of donor-restricted endowment funds. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.
8. Temporarily and Permanently Restricted Net Assets (continued)

The State of Rhode Island requires the preservation of the purchasing power of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The Health System classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Health System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purpose of the Health System and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, and (6) the investment policies of the Health System.

For the year ended September 30, 2009, the Health System had the following changes in the endowment net assets:

<table>

8. Temporarily and Permanently Restricted Net Assets (continued)

In addition to permanently restricted endowments, Kent is an income beneficiary of various trusts. On September 30, 2009 and 2008, the market value of the trust assets, which are recorded as permanently restricted net assets, totaled $9,840,045 and $10,129,831, respectively. Distributions of income are made at the discretion of the trustees.

It is the policy of the Health System that any appropriations from the appreciation in endowment funds are periodically requested of and approved by the Board of Trustees.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Health System to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets are immaterial as of September 30, 2009. These deficiencies resulted from unfavorable market fluctuations. The individual donor-restricted endowment funds with deficiencies will retain future income and appreciation to restore the required fair value of the assets.

During fiscal 2009 and 2008, net assets were released from donor restrictions by incurring expenses satisfying the following restricted purposes:

<table>

9. Pension Plans

The Health System has two separate pension plans. One plan covers the employees of CNE and the Hospitals, with the exception of the unionized employees of WIH (who are covered under a multiemployer union plan) and certain WIH-employed physicians. The other plan covers the employees of the Agency.

Care New England Pension Plan

The Care New England Pension Plan (the “Plan”), established on October 1, 1998, is a defined benefit cash balance plan that covers all of the employees of CNE, and all of the Hospitals’ employees, with the exception of the unionized employees and certain employed physicians at WIH. The benefits for the unionized employees at Butler are computed under a separate formula that was in effect when the Butler plan was a stand-alone non-contributory defined benefit plan. The Hospitals incur and fund their respective pension plan expenses within the guidelines established by the Employee Retirement Income Security Act of 1974.

Included in changes in unrestricted net assets at September 30, 2009 and 2008 are the following amounts that have not yet been recognized in net periodic pension cost: unrecognized prior service credit of $3,923,131 and $4,651,534, and unrecognized actuarial loss of $44,084,451 and $9,152,165.

The prior service credit and actuarial loss included as changes in unrestricted net assets and expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2010 is $728,403 and $1,906,636, respectively.

Net periodic pension cost includes the following components at September 30:

<table>
<thead>
<tr>
<th></th>
<th>2009</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service cost</td>

</tbody>
</table>

Plan Assets

The Plan’s investment objectives are to achieve long-term growth in excess of inflation, and to provide a rate of return that meets or exceeds the actuarial expected long-term rate of return on plan assets. In order to minimize risk, the Plan attempts to minimize the variability in yearly returns. The Plan diversifies its holdings among sectors, industries, and companies. No more than 6% of the Plan’s portfolio (measured on market value) may be held in an individual company’s stocks or bonds.

To develop the expected long-term rate of return on plan assets assumption, the Health System considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

The Health System’s pension plan asset allocations (based on market value) at September 30, by asset category, are as follows:

<table>
<thead>
<tr>
<th>Asset Category</th>

</tbody>
</table>
9. Pension Plans (continued)

Contributions

The Health System contributed $8,000,000 and $5,000,000 to the Plan in 2009 and 2008, respectively. The Health System expects to contribute $12,475,000 to the Plan in 2010.

Estimated Future Benefit Payments

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

<table>
<thead>
<tr>

</tbody>
</table>

Care New England 403(b) Plan

As a result of the Pension Plan Protection legislation, regulatory changes impacting matching credits previously recorded in the CNE Pension Plan were discontinued effective January 1, 2009. As a result, CNE established the Care New England 403(b) Plan to account for future matching credits. The plan covers employees that meet certain eligibility requirements. For the period of January 1, 2009 to September 30, 2009, the Health System recorded an expense of $1,997,000.

WIH Union Plan

Payments to a multiemployer pension plan covering union employees at WIH for the years ended September 30, 2009 and 2008 were $6,493,000 and $6,003,000, respectively.
9. Pension Plans (continued)

Kent County Visiting Nurse Association Pension Plan

The Agency has a non-contributory defined benefit pension plan covering all employees who have satisfied certain eligibility requirements that was frozen effective December 31, 2007, and replaced with a contributory retirement savings plan. Benefits under the defined benefit plan were based on years of service and employee’s compensation levels.

Included in the charge to net assets at September 30, 2009 is an unrecognized actuarial loss of $2,208,000. The actuarial loss expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2010 is $0.

The Agency’s pension (income) expense was ($24,000) in 2009 and $260,000 in 2008.

Actuarial liabilities and pension costs were determined using actuarial assumptions consistent with the CNE plan. To develop the expected long-term rate of return on plan assets assumption, the Agency considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

Plan assets, valued at fair value, consist of 1% cash and equivalents and 99% mutual funds.

The Agency made required contributions to the Plan of $399,000 and $392,000 in 2009 and 2008, respectively. The Agency is expected to make $27,000 in contributions to the Plan during 2010. The following benefit payments, which reflect expected future services, as appropriate, are expected to be paid:

<table>
<thead>
<tr>

<td>229</td>
</tr>
<tr>
<td>Years 2015 – 2019</td>
<td>1,869</td>
</tr>
</tbody>
</table>
9. Pension Plans (continued)

Effective January 1, 2008, the Agency established a 403(b) Retirement Savings Plan that covers employees who have met certain eligibility requirements. Discretionary contributions to the plan are based on years of service and compensation levels. For the period of October 1, 2008 through September 30, 2009, the Agency recorded an expense of $233,000, and for the period of January 1, 2008 through September 30, 2008, the Agency recorded an expense of $185,000.

10. Patient Service Revenue

For the majority of the System’s revenue, the Hospitals and the Agency have agreements with third-party payors that provide for payments to the Hospitals and the Agency at amounts different from their established rates. At the time of rendering service to the patients, the Hospitals and the Agency obtain assignment of benefits payable under the patient’s health insurance program, plan, or policy (e.g., Medicaid, Blue Cross, health maintenance organizations, commercial insurance, Medicare, and others). The following is a breakdown of gross patient service revenue by payor type for the years ended September 30:

<table>
<thead>
<tr>
<th>Payor Type</th>
<th>2009</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medicare and Medicare Managed Care</td>
<td>30%</td>
<td>30%</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>100%</strong></td>
<td><strong>100%</strong></td>
</tr>
</tbody>
</table>

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there will always be a possibility that the recorded estimates of net revenue could change by a significant amount in the future. The Hospitals and the Agency believe they are in compliance with all applicable laws and regulations. Cost reports filed annually with third-party payors are subject to audit prior to final settlement. The Hospitals and the Agency are compliant with all reimbursement filings. A summary of cost report activity as of September 30, 2009 is as follows:

*Medicare:* Cost reports for the Hospitals and the Agency have been filed through 2008 and settled through 2007 for the Agency, and 2006 for Butler and Kent, and 2005 for WIH.
10. Patient Service Revenue (continued)

State of Rhode Island (Medicaid): Cost reports have been filed for Kent and WIH through 2008, and Butler through 2007, and settled through 2006 for Butler and Kent, and 2003 for WIH.

The filing of these cost reports and associated settlements require the use of estimates. Net patient service revenue was increased by $6,110,000 and $4,670,000 in 2009 and 2008, respectively, to reflect changes in the estimated settlements for certain prior years. Changes in other prior year estimates increased operating expenses by approximately $4,000,000 in 2009 and $1,900,000 in 2008.

11. Disproportionate Share

The government has long recognized the financial burdens which are borne by hospitals which serve an unusually large number, or “disproportionate share”, of low-income patients. Kent and WIH received disproportionate share payments of $25,017,000 and $21,393,000 from the State of Rhode Island’s Medicaid program for the years ended September 30, 2009 and 2008, respectively. Kent and WIH also recorded disproportionate share payments of $4,618,000 and $4,125,000 from Medicare during 2009 and 2008, respectively.

12. Concentration of Credit Risk

As of September 30, 2009 and 2008, Care New England, the Hospitals, and the Agency had cash and cash equivalents in excess of Federal Depository Insurance limits at major financial institutions. These financial institutions have a strong credit rating, and management believes that credit risks related to these deposits are minimal.

The Hospitals and the Agency receive a significant portion of its payment for services rendered from a limited number of governmental and commercial third-party payors, including Medicare, Medicaid, and Blue Cross. The organization has not historically incurred any significant concentrated credit losses in the normal course of business.
12. Concentration of Credit Risk (continued)

In addition, the organizations routinely grant credit to patients without requiring collateral or other security. The mix of receivables, net of contractual allowances, from patients and third-party payors at September 30, 2009 and 2008, was as follows:

<table>
<thead>
<tr>
<th></th>
<th>2009</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medicare and Medicare Managed Care</td>
<td>11%</td>
<td>12%</td>

<tr>
<td>Other third-party payors</td>
<td>14</td>
<td>12</td>
</tr>
<tr>
<td></td>
<td>100%</td>
<td>100%</td>
</tr>
</tbody>
</table>

The Health System provides an allowance for uncollectible accounts to address the risks of non-payment of accounts receivable.

13. Postretirement Plans

Kent sponsors two unfunded non-contributory defined benefit postretirement plans that cover certain salaried and non-salaried employees. One plan provides medical and dental benefits, and the other provides for the payment of life insurance premiums. In 1996, Kent amended the plans to eliminate benefits for all employees, except for certain employees with at least 25 years of service at that date.

Included in the charge to net assets are the following amounts that have not yet been recognized in net periodic postretirement benefit cost as of September 30, 2009 and 2008, respectively: unrecognized net transition obligation of $549,000 and $646,000 and unrecognized actuarial gain of $144,000 and $286,000. The unrecognized net transition obligation and actuarial gain expected to be recognized in net periodic postretirement costs during the fiscal year ended September 30, 2010 are $97,000 and $0, respectively.

The postretirement benefit cost for these plans was $192,000 in 2009 and $179,000 in 2008.
14. Commitments and Contingencies

Operating Leases

Care New England, the Hospitals, and the Agency have entered into operating lease agreements with several vendors for the lease of certain equipment and office space. Future minimum lease payments under non-cancelable operating leases as of September 30, 2009 are:

<table>
<thead>
<tr>
<th>Year Ending September 30:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2010</td>
<td>$5,118</td>
</tr>
<tr>
<td>2011</td>
<td>4,112</td>
</tr>
<tr>
<td>2012</td>
<td>3,564</td>
</tr>
<tr>
<td>2013</td>
<td>3,105</td>
</tr>
<tr>
<td>2014</td>
<td>2,711</td>
</tr>
<tr>
<td>Later years</td>
<td>35,316</td>
</tr>
<tr>
<td><strong>Total minimum lease payments</strong></td>
<td><strong>$53,926</strong></td>
</tr>
</tbody>
</table>

Total rent expense for operating leases for the years ended September 30, 2009 and 2008 amounted to $3,791,000 and $3,320,000, respectively.

Butler has entered into several agreements with various parties, mostly non-profit organizations, to lease space on the Butler campus. Rental income in the amount of $3,026,000 and $2,982,000 for the fiscal years ending September 30, 2009 and 2008, respectively, is included in other operating revenues in the statements of operations.

Litigation

CNE and the Hospitals have been individually named as codefendants in several complaints. It is the opinion of management that the liability, if any, to CNE and the Hospitals in excess of insurance coverage will have no material adverse effect on the consolidated financial position of Care New England.

Collective Bargaining Agreements

At September 30, 2009, approximately 40% of the Health System’s employees were covered by collective bargaining agreements. Collective bargaining agreements covering all such employees are in effect through 2010.
15. Professional and General Liability Claims

Due to strategic and economic issues, as well as the potential for limited availability of commercial insurance policies, the Care New England entities have moved over time to covering the majority of their professional and general liability insurance to self-insured approaches. The adequacy of the coverage provided, reserves, and the funding levels are evaluated annually by independent actuaries who review the soundness of the programs and recommend future funding levels. Potential losses are estimated based on industry as well as entity experience, and a provision for these losses is recorded.

Butler annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage. Butler’s professional liability coverage for claims in excess of its primary coverage limits is provided by W&I Indemnity.

Kent Hospital established Toll Gate Indemnity in September 2004, as an off-shore captive insurance entity to insure primary and excess hospital professional and general liability risks, as well as to supply indemnification coverage for certain eligible medical staff.

WIH annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage.

In addition to the trust fund, WIH established W&I Indemnity, as an off-shore captive insurance entity to provide coverage for claims in excess of its underlying policy, as well as to insure the contractual liability arising from indemnification agreements with certain eligible medical staff.

The provisions for anticipated losses were based upon expected undiscounted values. Trust fund and captive assets are available for the payment of claims.

CNE Wellness Centers, LLC and the Agency purchase general and professional liability insurance from Toll Gate Indemnity.
16. Other Self-Insurance Reserves

Care New England has established a workers’ compensation trust fund to cover all past and future self-insured claims of workers’ compensation activity for CNE, the Hospitals, and the Agency. The reserve for workers’ compensation losses is based on an actuarial study and actual experience. At September 30, 2009 and 2008, the amounts accrued for estimated self-insurance costs have not been discounted.

CNE, on behalf of itself, the Hospitals, and the Agency, has entered into a self-insurance program for health insurance risks. This program covers the health insurance claims for all of CNE’s, the Hospitals’, and the Agency’s employees, with the exception of the unionized employees at WIH. The provisions for health insurance losses are based on actuarial assumptions and actual claims experience.

17. Affiliation with Rhode Island Hospital

In 1981, RIH and WIH approved an agreement providing for the affiliation of the two Hospitals. The affiliation agreement provides for a program of shared medical services, thereby greatly increasing the scope of comprehensive acute-care services available to WIH in maternal, gynecological, and neonatal care. In accordance with the agreement, the Hospital relocated to the property of RIH.

18. Affiliation with Accredited Medical Schools

Butler and WIH are affiliated with Brown University. The affiliation agreements provide that Butler and WIH will be the principal academic medical centers for psychiatry and healthcare unique to women and newborns, respectively. Kent is affiliated with the University of New England College of Osteopathic Medicine.

19. Functional Expenses

CNE provides healthcare services to residents within their geographic service areas. Expenses related to providing these services for the years ended September 30 are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2009</th>
<th>2008</th>
</tr>
</thead>
<tbody>
<tr>
<td>Healthcare services</td>
<td>$602,502</td>

<td>145,398</td>
<td>135,974</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$747,900</strong></td>
<td><strong>$693,330</strong></td>
</tr>
</tbody>
</table>
20. Fair Value of Financial Instruments

As described in Note 2, on October 1, 2008, the Health System adopted the methods of calculating fair value defined in Topic 820 to value its financial assets and liabilities, where applicable. Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value. Topic 820 applies to other accounting pronouncements that require or permit fair value measurements and does not require new fair value measurements. Fair value measurements are applied based on the unit of account from the reporting entity’s perspective. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements.

Topic 820 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- **Level 1:** Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.
- **Level 2:** Observable inputs that are based on inputs not quoted in active markets, but corroborated by market data.
- **Level 3:** Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, the Health System uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers non-performance risk in its assessment of fair value.
20. Fair Value Measurements (continued)

Financial instruments carried at fair value as of September 30, 2009 are classified in the table below in one of the three categories described above (in thousands):

<table>
<thead>
<tr>
<th>Assets</th>
<th>Level 1</th>
<th>Level 2</th>
<th>Level 3</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cash and cash equivalents</td>
<td>$ 19,260</td>
<td>$ -</td>
<td>$ -</td>
<td>$ 19,260</td>
</tr>
<tr>
<td>Institutional money market</td>
<td>-</td>
<td>2,649</td>
<td>-</td>
<td>2,649</td>
</tr>
<tr>
<td>U.S. government notes and bonds</td>
<td>20,721</td>
<td>-</td>
<td>-</td>
<td>20,721</td>
</tr>
<tr>
<td>Fixed income securities</td>
<td>-</td>
<td>12,814</td>
<td>-</td>
<td>12,814</td>
</tr>
<tr>
<td>Equity securities</td>
<td>57,215</td>
<td>-</td>
<td>10,255</td>
<td>67,470</td>
</tr>
<tr>
<td>Auction rate securities</td>
<td>-</td>
<td>-</td>
<td>22,734</td>
<td>22,734</td>
</tr>
<tr>
<td>Mutual funds</td>
<td>69,991</td>
<td>1,644</td>
<td>-</td>
<td>71,635</td>
</tr>
<tr>
<td>Other</td>
<td>28,826</td>
<td>-</td>
<td>-</td>
<td>28,826</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>$ 196,013</td>
<td>$ 17,107</td>
<td>$ 32,989</td>
<td>$ 246,109</td>
</tr>
</tbody>
</table>

| Liabilities                   |         |         |         |         |
| Interest rate swap agreements |         |         | 6,141   |         |
| **Total**                     | 6,141   |         |         |         |

Fair value for Level 1 is based upon quoted market prices. Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers, and brokers.

The amounts reported in the table above exclude alternative investments valued at approximately $7,852,000 as of September 30, 2009, and assets invested in the Health System’s defined benefit pension plan (Notes 5 and 9).

The following methods and assumptions were used in estimating the fair value of financial instruments:

*Accounts payable and accrued expenses:* The carrying amount reported in the consolidated balance sheets for accounts payable and accrued expenses approximates its fair value.

*Estimated third-party payor settlements:* The carrying amount reported in the consolidated balance sheets for estimated third-party payor settlements approximates its fair value.
20. Fair Value Measurements (continued)

*Long-term debt:* The Health System’s long-term debt obligations are reported in the accompanying statements of financial position at principal value less unamortized discount or premium, which totaled approximately $87 million at September 30, 2009, excluding capital leases. The estimated fair value of the Health System’s long-term debt as of September 30, 2009 approximated its carrying value.

During the year ended September 30, 2009, the changes in the fair value of the financial instruments measured using significant unobservable inputs (Level 3) were comprised of the following:

<table>
<thead>
<tr>
<th>Fair Value Measurements Using Significant Unobservable Inputs (Level 3) (In Thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Beginning balance (at October 31, 2008): $32,816</td>
</tr>
<tr>
<td>Total unrealized gains (losses):</td>
</tr>
<tr>
<td>Included in income from operations: 75</td>
</tr>
<tr>
<td>Included in non-operating gains: 63</td>
</tr>
<tr>
<td>Included in changes in net assets: (37)</td>
</tr>
<tr>
<td>Purchases, issuances, and settlements: 126</td>
</tr>
<tr>
<td>Transfers in and/or out of Level 3: (54)</td>
</tr>
<tr>
<td>Ending balance (at September 30, 2009): $32,989</td>
</tr>
</tbody>
</table>

21. Proposed Affiliation with Lifespan

On July 26, 2007, Care New England Health System and Lifespan Corporation entered into an Affiliation Agreement. Under the Agreement, Care New England Health System would merge into Lifespan Corporation. Lifespan Corporation is an integrated healthcare delivery system, established in August 1994, which includes Rhode Island Hospital, The Miriam Hospital, Emma Pendleton Bradley Hospital, Newport Healthcare Corporation, and their related affiliates. The merger requires the approval of the Federal Trade Commission, the Rhode Island Department of Health, and the Rhode Island Attorney General. This process is currently on-going, and management is presently unable to predict an outcome or estimated date of completion.
Independent Auditors’ Report on Other Financial Information

The Board of Trustees
Care New England Health System

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The accompanying consolidating balance sheets, statements of operations and changes in net assets, and statements of cash flows and supplemental schedules requested by the Rhode Island Department of Health are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information has been subjected to the auditing procedures applied in our audits of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.
