**DATE:**

---

**IMPORTANT – PLEASE READ THIS BEFORE FILLING OUT FORM**

This notification form is to be submitted immediately following the emergency in-kind replacement of a system component. For this purpose, “emergency” is defined as a component failure that has caused an unplanned system shutdown. The following documentation must accompany this notification form:

- Documentation to show that the replacement component installed meets the applicable ANSI/NSF Standard 60 or 61. *An emergency in-kind replacement component lacking appropriate certification will not be permitted to remain in service.*
- Documentation to demonstrate that the replacement component is a bona fide in-kind replacement. *A substitution that appears to be a modification or upgrade will require additional submittals and full engineering review.*

Submit package to:
Center for Drinking Water Quality, RIDOH, 3 Capitol Hill, Room 209, Providence, RI 02908-5097
