INITIAL APPLICATION QUESTIONS

1. Please provide a detailed summary of the proposed conversion which shall include a discussion of the date of implementation, purchase price, source of funds, debt, and commitments for and development of new services and/or facilities that are associated with the proposed conversion.

Care New England Health System, a Rhode Island non-profit corporation ("CNE"), operates a health care system serving Rhode Island and is the sole member of Butler Hospital ("Butler"), Kent County Memorial Hospital ("Kent"), Women & Infants Corporation, which is the sole member of Women & Infants Hospital of Rhode Island ("WIH"), and Kent County Visiting Nurses Association d/b/a VNA of Care New England ("VNA of Care New England"). CNE is the ultimate corporate parent of certain other associated entities that provide and support health care and health care-related services. CNE is tax-exempt under section 501(c)(3) of the Internal Revenue Code.

Southeastern Healthcare System, Inc., a Rhode Island non-profit corporation ("MHRI Parent"), is the parent organization of a health care system serving Rhode Island and Massachusetts, comprised of a number of directly or indirectly owned or controlled affiliates and subsidiaries, including The Memorial Hospital d/b/a Memorial Hospital of Rhode Island, a Rhode Island non-profit corporation ("MHRI"). It is tax-exempt under section 501(c)(3) of the Internal Revenue Code. MHRI has been determined to be a financially distressed hospital by the Director of Health.

To implement the conversion (the "Affiliation"), CNE will become the sole corporate member of MHRI Parent and MHRI Parent and MHRI will cause their respective governing bodies to be comprised of the individuals who from time to time serve as members of the CNE Board of Directors. CNE's Board of Directors will be expanded to include three individuals nominated by MHRI and elected by the CNE Board of Directors. In addition, the president of MHRI's medical staff will become an ex-officio member of the CNE Board of Directors. These arrangements mirror the existing governance structures of Butler, Kent and WIH. After the Affiliation is implemented, MHRI will remain a separate licensed hospital with access to the same centralized corporate services as CNE provides to the other hospitals in the CNE system.

The Affiliation will occur within 72 hours following the satisfaction of all of the conditions to closing as set forth in the Affiliation Agreement by and among CNE, MHRI Parent, and MHRI, dated as of January 2, 2013 (the "Affiliation Agreement"), which conditions include obtaining all material consents, authorizations, orders, and approvals of governmental entities or other parties required to perform the Affiliation Agreement. The parties anticipate that the closing of the Affiliation will occur on or about July 1, 2013.

No cash or similar financial consideration will be paid at the closing of the Affiliation (the "Closing"). After the Closing, CNE will either (i) call, discharge, or refinance MHRI's bond debt (approximately $11 million as of September 2012), or (ii) work with MHRI to form the most effective credit group structure, as determined by CNE. CNE will fund any operating shortfall of MHRI or its affiliates, through September 30, 2016, from CNE operating funds or other assets should CNE determine that such funding is necessary. CNE estimates that the potential shortfall may be approximately $27 million to $36 million. CNE anticipates that, following September 30, 2016, it will support MHRI financially in the same manner that CNE supports its other hospital members. CNE has a relatively low debt position, and current projections indicate that implementing the Affiliation will not cause CNE to fall out of compliance with CNE's existing financial covenants. CNE has cash on hand adequate to absorb the anticipated operating shortfall of MHRI.

The Transacting Parties are studying how best to configure their services in the new combined system and anticipate that investigation will create new opportunities for integration. At this juncture, however, the Transacting Parties have not finalized plans to implement specific additional services or facilities.

2. Please provide each of the following applicable documents and amendments for each of the Transacting Parties and affiliated hospital(s):

(a) Charter;

(b) Certificate and Articles of Incorporation and By-laws;

(c) Certificate of Partnership and Partnership Agreement;

(d) Certificates or Articles of Organization and Operating Agreement;

(e) Other organizational documents

If any of the above documents are proposed to be revised or modified in any way as a result of the proposed conversion, include the proposed revisions or modifications.

See Exhibit 2 for the current organizational documents for each of the Transacting Parties and their affiliated hospitals, as well as the proposed draft revisions to the organizational documents for CNE, MHRI, and MHRI Parent.

3. With regard to the officers, members of the boards of directors, trustees, executives, and senior managers of each of the Transacting Parties and their affiliates, please provide the following for the past 2 years: (a) name; (b) address; (c) phone number; (d) occupation; and (e) tenure.

See Exhibit 3 for 3(a), (d), and (e), and see Confidential Exhibit 3 for 3(a) – (e) (where the exhibits indicate "N/A", there are no individuals holding those positions). Harbor Group Home, LLC had no executives or managers but rather was a member-managed limited liability company under Rhode Island law. Though currently dissolved, the former members of Harbor Group Home, LLC are provided in response to Question 6(B).

4. Provide the (a) name; (b) address; (c) phone number; and (d) occupation of the proposed members of the board of directors, trustees, executives and senior managers after the conversion of the Transacting Parties and their affiliates, identifying any additional members or removal of members.

See Exhibit 3 (for 4(a), (d), and (e)) and see Confidential Exhibit 3 (for 4(a) – (e)) for current directors, executives and senior managers of CNE, Butler, Kent and WIH.

After the conversion: (a) those individuals currently serving as directors, executives and senior managers of CNE, Butler, Kent and WIH will continue to serve in their respective positions; (b) three individuals nominated by MHRI and approved by CNE will serve as "At-Large Directors" on the governing boards of the Transacting Parties and their hospital affiliates; and (c) the President of the MHRI medical staff will serve as an "Ex-Officio Director" on the governing boards of the Transacting Parties and their hospital affiliates.

The individuals proposed to serve as At-Large Directors and the Ex-Officio Director after the conversion have not yet been determined. Changes, if any, among the executives and senior managers at MHRI and MHRI Parent after the conversion have not yet been determined.

5. Please describe the governance structure of the new hospital after conversion, including a description of how members of any board of directors, trustees or similar type group will be chosen.

CNE will become the sole corporate member of MHRI Parent, making CNE the corporate parent of all of the entities within the Memorial system, including MHRI, but otherwise leaving their existing corporate structure intact. CNE, directly or indirectly, will hold reserved powers over MHRI, MHRI Parent and its affiliates.

The members of the MHRI Parent's and MHRI's Board of Trustees will be comprised of those individuals who from time to time serve as members of the CNE Board, and MHRI Parent's and MHRI's officers will be identical to the CNE officers. The CNE Board will be expanded to include four additional members, including three "At-Large Directors" nominated by MHRI and approved by CNE, and one "Ex-Officio Director," the President of the MHRI Medical Staff. The Ex-Officio Director and the At-Large Directors shall be subject to the same standards of conduct and board policies as all other directors serving on the CNE Board. The "At-Large Directors" will serve on the CNE Board for terms commencing on the date of the closing of the Affiliation (the "Closing Date") and ending on the date of the first annual meeting of the CNE Board following the third anniversary of the Closing Date, or until their earlier death, resignation or removal. If, during the period following the Closing Date and prior to the first annual meeting following the third anniversary of the Closing Date, an At-Large Director dies. resigns or is removed from the CNE Board, his or her successor will be appointed by the CNE Board from among the individuals who served on the MHRI Board of Trustees prior to the Closing Date. Such successor will serve for the unexpired portion or his or her predecessor's existing term.

CNE, MHRI Parent and MHRI will amend and restate their governing documents to reflect the changes contemplated above. Individuals who formerly served on the MHRI Parent or MHRI Board of Trustees will be eligible to participate on certain CNE committees. All appointees to the CNE system committees shall be based on individual interest, skills and experience and will be subject to the approval of the CNE Board (and/or, if necessary, the approval of the governing board of the CNE System entity). The foregoing individuals will have the same terms, and will be subject to the same term limits as other similarly-situated members of the applicable CNE system committee. Each of the foregoing individuals also will be subject to the same standards of conduct and policies as other individuals serving on the applicable CNE system committee.

Originally established with Harvard Pilgrim Health as a joint venture, MHRI Parent became the sole owner of Primary Care Centers of New England, Inc. when Harvard Pilgrim ceased operations.

SHS Ventures, Inc. is a Massachusetts nonprofit corporation the sole member of which is MHRI Parent and which was formed to employ licensed professionals at the Plainville, Massachusetts location of Primary Care Centers of New England, and to provide management and related services to that facility.

Blackstone Health, Inc. ("BHI") is a non-profit corporation the sole member of which is MHRI Parent and which was organized to provide community based

health services that are responsive to the needs and demographic makeup of the Blackstone Valley community and other communities. In furtherance of such purpose, BHI operates 15 meal sites and an adult day-care center, providing nursing, case management, therapeutic recreation, and daily living services for the benefit and welfare of elderly and disabled residents of the communities it serves. BHI has a food service license (FSV05752) and the adult day care center which it operates under the name "New Horizons Adult Day Center" has an adult day care center license (ADC00013).

MHRI Physicians, for which MHRI serves as the hospital member, is a non-profit corporation which operates the physician hospital organization at MHRI, which was created as a provider partnership between MHRI and its affiliated physicians to implement an integrated management services organization at MHRI for its physician services. MHRI Physicians arranges for the delivery and provision of health care services through independent contracts with physicians, hospitals, other health care providers, and third party payers.

MHRI is the sole member of MHRI Ancillary Services, LLC, a Rhode Island limited liability company ("MAS") that was formed in 2010 to provide off-site phlebotomy services. MAS currently holds no assets and has no employees. MAS has no operating agreement to govern its affairs. Currently, MAS contracts with MHRI to operate one off-site phlebotomy location.

7. Please provide all documents, reports, meeting minutes and presentations relevant to the Transacting Parties' board of directors' decision to propose the conversion.

See Confidential Exhibit 7, which includes all meeting minutes of the Transacting Parties' boards of directors, including all board committees and sub-committees, relevant to the decision to propose the conversion. See also Exhibit 10 (Documents 10-A and 10-B) and Confidential Exhibit 10 (Documents 10-C through 10-H).

A

8. (A) Please provide conflict of interest policies and procedures.

Please see Exhibit 8(A) for CNE's Conflicts of Interest and Confidentiality Policy, Compliance Program and Code of Conduct. Following the Affiliation, these policies will be applicable to MHRI as a member of the CNE System.

B

8. (B) Please provide current, signed conflict of interest forms from all incumbent or recently incumbent officers, members of the board of directors, trustees or senior managers of the Transacting Parties. (Please note that "incumbent or recently incumbent" means those individuals holding the position at the time the application is submitted and any individual who held a similar position within one year prior to the application's acceptance).

See Confidential Exhibit 8(B).

9. Please provide copies of audited income statements, balance sheets, and other financial statements for the past 3 years for the Transacting Parties and their affiliated hospitals where appropriate and to the extent they have been made public, audited interim financial statements and income statements together with detailed descriptions of the financing structure of the proposed conversion including equity contribution, debt restructuring, stock issuance and partnership interests; and interim up-to-date unaudited income statements and balance sheets (where audited financial statements are unavailable).

See Exhibit 9. No cash or similar financial consideration will be paid at the Closing. After the Closing, CNE will either (i) call, discharge, or refinance MHRI's bond debt (approximately $11 million as of September 2012), or (ii) work with MHRI to form the most effective credit group structure, as determined by CNE. CNE will fund any operating shortfall of MHRI or its affiliates, through September 30, 2016, from CNE operating funds or other assets should CNE determine that such funding is necessary. CNE estimates that the potential shortfall may be approximately $27 million to $36 million. CNE anticipates that, following September 30, 2016, it will support MHRI financially in the same manner that CNE supports its other hospital members.

CNE has a relatively low debt position, and current projections indicate that implementing the Affiliation will not cause CNE to fall out of compliance with CNE's existing financial covenants. CNE has cash on hand adequate to absorb the anticipated operating shortfall of MHRI.

MHRI Parent anticipates that its audited consolidated financial statements for the year ended September 30, 2012 will be available by April 15, 2013.

10. Please provide copies of reports analyzing the proposed conversion by any of the Transacting Parties during the past 3 years, including but not limited to, reports by appraisers, accountants, investment bankers, actuaries, other experts.

See Exhibit 10 (Documents 10-A and 10-B) and Confidential Exhibit 10 (Confidential Documents 10-C through 10-H).

11 Please provide copies of all documents related to:

(a) Identification of all charitable assets;

(b) Accounting of all charitable assets for the past 3 years; and

(c) Distribution of the charitable assets including, but not limited to, endowments, restricted, unrestricted and specific purpose funds as each relates to the proposed transaction.

In response to Questions 11(a) and 11(b), please see Confidential Exhibit 11. The Transacting Parties understand that the Department desires information on (at minimum) all assets of MHRI and MHRI Parent identified in the consolidated financial statements of MHRI Parent as limited as to use, which is a larger pool than the pool of charitable assets of MHRI. With respect to assets limited as to use, the Transacting Parties identify and accounted for those assets as follows.

Gifts to MHRI which are not limited in use (either with an income restriction or a purpose restriction) and which MHRI treats as available for investment or general operations, in its discretion, generally are referred to as "Unrestricted Endowment Funds." See spreadsheets identifying and accounting for those funds over the past 3 years attached as Confidential Exhibit 11.

Gifts to MHRI which are limited in use through an income restriction and/or a purpose restriction are generally referred to as "Restricted Endowment Funds." The principal amounts of those funds are retained and invested, and the income is used as required by the governing instrument, which (generally) is for general hospital purposes. Most of the Restricted Endowment Funds are invested in the MHRI endowment, as indicated on the spreadsheets attached as Confidential Exhibit 11, which identify and account for those funds over the past 3 years. There are five Restricted Endowment Funds which are maintained in outside trust accounts: the Law, Preston, Richardson, Sayles, and Wood funds.

MHRI voluntarily restricts the use of some otherwise unrestricted funds, fundraising-generated funds, and income from other sources (such as physician stipends, grant funding of projects, and similar non-charitable income) to specific purposes, most often at the request of MHRI staff. These funds, which are subject to ethical, but not legally-enforceable, restrictions on use, generally are referred to as "Temporary Fund Balances" or "Board Restricted Funds." Spreadsheets identifying and accounting for those funds over the past 3 years are attached as Confidential Exhibit 11.

MHRI at one time had a so-called "free bed" program, under which individuals donated a set amount to provide a "free bed" at the hospital, often in memory of a loved one. Many "free bed" donations were recognized with plaques. The "free bed" program, now closed, was most popular between the 1920s and 1950s and

generated about $400,000 of donations during its existence. MHRI has used these funds to offset the free hospital services it provides (including several million dollars per year in charity care), in addition to numerous other services provided to the community at no charge (including language interpretation, physician referral, community health screenings, health and wellness education, and support groups).

In response to Question 11(c), all charitable assets which are Restricted Endowment Funds will be retained by MHRI post-closing and used for the purposes required by the donor (for the most part, for general hospital purposes of MHRI).

Similarly, all Temporary Fund Balances and similar assets which are subject to ethical, but not legally-enforceable, restrictions on use, will be retained by MHRI post-closing and used for the specific purposes for which they were donated and/or to which they are dedicated by MHRI.

To the extent that any Board Designated Funds (as defined in the Affiliation Agreement) remain unspent as of the closing, they will be used as the initial capital to fund the MHRI Foundation.

It is not anticipated that any Unrestricted Endowment Funds will be available post-closing, since these funds have been used to address current operating deficits of MHRI, and it is anticipated that similar shortfalls will continue through the closing date.

12. Please provide descriptions of the plan(s) as to how the affiliated hospitals will provide consolidated healthcare services and administrative services during the first 3 years following the conversion.

Following the Affiliation, CNE plans to integrate MHRI into the combined CNE system to bolster an integrated delivery system in which patient care is coordinated across a full continuum of health care providers. Among CNE's key considerations in pursuing the Affiliation are bringing together strong multi-specialty medical providers with MHRI's leading family and internal medicine practices, growing and strengthening academics and research programs, and enhancing the affiliation with Brown University. CNE anticipates building on the services provided at MHRI and the CNE hospitals with a view towards enhancing current, and developing new, programs to increasing synergies among the hospitals which allow for improved services while also moderating cost trends.

CNE and MHRI are studying how best to configure their services in the new combined system. Although the parties anticipate that there will be consolidation at a single site of some services that are currently provided at both a CNE hospital and MHRI, the parties do not envision eliminating any clinical service that the two parties to the conversion presently offer. Consolidation of services will only occur when doing so makes clinical and operational sense.

For example, CNE anticipates that following the Affiliation, MHRI will be CNE's primary academic teaching base for Brown University with respect to the primary care specialties of family medicine and internal medicine.

CNE also intends to incorporate MHRI into CNE's electronic medical record system.

On the administrative side, CNE will provide MHRI with the same centralized corporate services (such as legal, compliance, risk management, human resources, and managed care contracting services) that CNE provides to the other hospitals within the CNE system.

See also Confidential Exhibit 10.

13. Please provide copies of plans relative to staffing levels of all categories of employees during the first 3 years at the new hospital(s) following the implementation of the proposed conversion. Please, further, complete Appendix A 1.

See Confidential Exhibit 10.

14. Please complete Appendix D regarding plans for all hospital departments or services that will be eliminated, or significantly reduced at the new hospital during the first 3 years at the new hospital(s) following the implementation of the proposed conversion.

CNE and MHRI are studying how best to configure their services in the proposed combined system. Currently, it is not anticipated that any services will be reduced or terminated on a system-wide basis, so that all services currently offered at MHRI will continue to be offered, either at MHRI or elsewhere in the CNE system, in a manner accessible to those in the MHRI service area. CNE and MHRI may consolidate certain services as part of their integration, but they will only do so when it makes clinical and operational sense to do so. Moreover, any consolidation of services that CNE and MHRI undertake will be done with an eye towards freeing resources - clinical, managerial, administrative, and physical - to offer new or enhanced services to the community that will improve quality and/or access to care.

CNE and MHRI fully expect that their ongoing examination of the combined system will lead to additional opportunities for integration, including potential changes in services provided. Any such opportunities will be analyzed by CNE and MHRI with a view towards enhancing current, and developing new, programs to increasing synergies among the system's hospitals which allow for improved services and access to care while also moderating cost trends. CNE and MHRI have identified some areas of service that likely will be relocated from MHRI and, post-Affiliation, be provided by other existing licensed entities in the CNE system, including cardiac catheterization and certain imaging related procedures. See also Appendix D.

15. Please provide the binding transaction documents, such as an asset purchase/transfer agreement, affiliation agreement and/or memorandum of understanding and all exhibits and schedules (including any updates or supplements).

See Exhibit 15.

16. Please discuss whether this proposal will require the review by any relevant federal authority and, if so, please identify such review(s) and provide its current status.

The proposed Affiliation is reportable under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, 15 U.S.C. § 18a (the "HSR Act") and therefore requires the filing of a Hart-Scott-Rodino filing with the Federal Trade Commission and the United States Department of Justice. The parties submitted a Hart-Scott-Rodino filing with the Federal Trade Commission and the United States Department of Justice effective as of January 22, 2013. The Federal Trade Commission granted early termination of the statutory waiting period under the HSR Act as of 10:44 am on February 14, 2013.

17. Please identify any state or federal licensure or certification citations and/or enforcement actions taken against the Transacting Parties and their affiliates within the past 3 years and the status or disposition of each.

See Exhibit 17.

18. Please provide a list of pending or adjudicated citations, violations or charges against the Transacting Parties and their affiliates brought by any governmental agency or accrediting agency within the past 3 years and the status or disposition of each.

See Exhibit 18.

19. Please provide a list of any investigations by federal, state or municipal agencies against the Transacting Parties and their affiliates within the past 3 years and the status or disposition of each.

See Exhibit 19.

20. Please describe in detail any plans for cross-privileging of medical staff affiliated with either of the Transacting Parties and their affiliates before and after the proposed conversion.

The Transacting Parties do not intend that there will be cross-privileging of medical staff either before or after the Affiliation.

21. Please provide a description of the plan as to how the Transacting Parties and their affiliates will provide community benefits during the first 3 years of operation after the proposed transaction is completed.

As non-profit institutions, the Transacting Parties and their affiliate hospitals exist to continually improve the health and well-being of the people and communities of southeastern New England. To that end, the Transacting Parties and their affiliate hospitals provide a wide range of distinctive programs and services to ensure a high-quality continuum of care.

Both MHRI and the CNE hospitals are all currently actively involved in developing formal community health needs assessments working through the Hospital Association of Rhode Island, Holleran and Healthy Communities Initiative. These assessments should be completed by September 30, 2013.

Each of the CNE hospitals and MHRI have a history of providing community benefits, whether measured in terms of jobs, income and business activities or in terms of their implementation, support and management of charity care programs, public education services, health fairs, screenings or other collaborations with community leaders to improve public health and the quality of life of community residents.

CNE offers robust health information on its websites and through its publications and public outreach campaigns on important health issues.

Butler provides space for community support groups and offers a variety of free health screenings and education programs. The Butler Hospital Patient/Family Education Center, developed in association with the Alliance for the Mentally Ill and the Manic Depressive and Depressive Illness Association, provides free information on behavioral disorders, substance abuse, and other medical issues. Butler also supports on-line mental health screenings for depression, bipolar disorder, generalized anxiety disorder, post-traumatic stress disorder, and substance abuse.

Apart from direct patient care, Kent is actively involved in educating the community, with an array of programs and services. Kent sponsors a number of important health events throughout the year, including free breast and skin cancer screenings. Kent is also an active participant in the statewide mentor program, statewide stroke conference, emergency management conference, and wound care and hyperbaric medicine conference.

WIH offers a robust array of community services aimed at improving maternal and child health and the general well-being of women and their families throughout the region. WIH operates Centers for Health Education in Woonsocket, East Greenwich, and South Kingstown, Rhode Island, and North Attleboro and Swansea, Massachusetts. These Centers house lending libraries and offer a wide

range of educational programs and events. WIH also sponsors telephone support lines – the HealthLine and WarmLine – as free community services, which provide advice and resource information by registered nurses on women's health, pregnancy and postpartum issues, breastfeeding support and newborn care. WIH runs a variety of support groups for women, families, and new mothers, as well as groups focusing on pregnancy loss support, breast cancer support, gynecological cancer support, and Crohn's disease and colitis support, among others. WIH provides a number of intervention services which seek to improve maternal and child health, including Project Link, which provides a comprehensive safety net of medical and social services for pregnant and parenting women affected by substance abuse issues, and the Family Van, a mobile health center that provides a constellation of educational and primary care services to the community's underserved patient population.

MHRI's mission calls for the continual assessment of its communities' unique needs, collaborating with others, and providing the leadership necessary to create real and lasting solutions to real and imminent health care issues. As a community hospital, MHRI has a long history of reaching out beyond the hospital corridors to offer programs and services that fulfill its commitment to the communities it serves, ultimately leading to a healthier, safer state. Through this history, MHRI and its physicians have significant experience and expertise in working with underserved populations, providing high quality, culturally-sensitive care for a diverse population. This includes its current primary care outreach efforts in Pawtucket (New Horizons – Adult Day Center) and Plainfield, Massachusetts (Southeastern Medical Center). It also includes the Notre Dame Ambulatory Care Center, located in Central Falls, which provides a much-needed community benefit by offering primary and urgent care services from bi-lingual physicians during hours that are convenient to patients, including weekends and evenings. Services offered include primary and urgent care, x-rays, blood work, mammograms, women's cancer screenings, a pain center, and physical, occupational and speech therapy, as well as assisting patients in accessing outside referrals. MHRI's Faculty Development Leadership Fellowship provides family physicians with the skills and resources to be visionary leaders in primary care practice and education. The Faculty Development Leadership Fellowship focuses on leadership, quality improvement, systems redesign, care of vulnerable populations, cultural competence and evidence based management of chronic conditions. MHRI intends that the Faculty Development Leadership Fellowship will provide a community benefit by training proactive, altruistic leaders who will work to optimize chronic illness care and to reduce barriers to health care access and quality. CNE and MHRI expect that the support MHRI receives through the Affiliation will allow MHRI to maintain and expand upon these efforts to enhance community benefits.

CNE has formed an Academic Council to create a forum for cooperation and collaboration to advance its academic mission. The incorporation of MHRI and MHRI's academic leaders to CNE's Academic Council will enhance both CNE's and the community's academic interests, including with respect to CNE's academic affiliation with Brown University. All of the hospitals are actively engaged in educating and training the next generation of physicians and other health care

providers, as well as participating in the development of new medical knowledge through research.

The foregoing are examples of ways in which MHRI and CNE and it hospitals have delivered community benefits. MHRI's own assessment will be expected to build upon its current primary care outreach efforts in the Pawtucket, Rhode Island (New Horizons – Adult Day Center), Central Falls, Rhode Island (Notre Dame Ambulatory Center) and Plainfield, Massachusetts (Southeastern Medical Center) communities it serves.

22. Please identify whether or not the JCAHO accreditation is currently in good standing for each of the Transacting Parties and each of their affiliate hospital(s). If not, then please discuss in detail the reasons and provide copy of the JCAHO survey.

The Transacting Parties are not accredited by the Joint Commission because they do not directly provide healthcare. The Joint Commission accreditations of each of their affiliate hospitals (Butler, Kent, WIH, and MHRI) are in good standing.

A

23. Please provide detailed information and documentation sufficient to demonstrate the following:

a) that the character, commitment, competence, and standing in the community, or any other communities served by the proposed Transacting Parties are satisfactory;

CNE and MHRI have continually worked to assess community needs and respond accordingly with needed programs and interventions, and have worked to improve public health and the quality of life for the state and region. This is manifested in multiple ways, including staff involvement in community organizations, the role both MHRI and CNE plays as educators for those aspiring to careers in health, the sponsorship of community events, and the rich array of classes and programs at CNE's institutions. MHRI and all of the CNE hospitals are accredited by The Joint Commission.

Butler is affiliated with The Warren Alpert Medical School of Brown University and is the flagship hospital for its department of psychiatry, which has been recognized by its peers as one of the top ten in the United States. Butler is a national leader in the development of acute psychiatric and substance abuse treatment and is involved in a variety of research efforts which has earned it a national reputation as a major teaching and research facility.

Kent was identified as a recipient of the 2012 HealthGrades Patient Safety Excellence Award, indicating that its patient safety ratings are in the top 5% of U.S. hospitals. In a new study released recently by HealthGrades, Kent is one of only 263 hospitals in the country to receive this designation and the only hospital in Rhode Island. Kent is a member of the American Hospital Association, the KUMC Research Institute, the American Association of Blood Banks, the American College of Cardiology, SNHPA, the Northeast Osteopathic Medical Education Network, and the National Perinatal Information Center.

A U.S. News Best Hospital in Gynecology and Best Children's Hospital for 2011 in Neonatology, WIH was ranked number one in the Providence metro area and a top-performer in cancer treatment, and has achieved a 5-star rating in Maternity Care for 2011 from HealthGrades. The primary teaching affiliate of The Warren Alpert Medical School of Brown University for obstetrics, gynecology and newborn pediatrics, as well as a number of specialized programs in women's medicine, WIH is the eighth largest stand-alone obstetrical service in the country with over 8,400 deliveries per year. WIH is home to the nation's only mother-baby perinatal psychiatric partial hospital, as well as the nation's only fellowship program in obstetric medicine. WIH has been designated as a Breast Center of Excellence from the American College of Radiography; a Center for In Vitro Maturation Excellence by SAGE In Vitro Fertilization; a Center of Biomedical Research Excellence by the National Institutes of Health; and a Neonatal Resource Services Center of Excellence. WIH is one of the largest and most prestigious research facilities in high

risk and normal obstetrics, gynecology and newborn pediatrics in the nation, and is a member of the National Cancer Institute's Gynecologic Oncology Group and the National Institutes of Health's Pelvic Floor Disorders Network.

CNE has recently undertaken the following larger capital projects:

- **On the Butler campus, CNE recently broke ground on a new 26-bed adult inpatient unit. This 49,000-square-foot patient care center is the largest private construction project underway in Rhode Island, and is expected to open in the summer of 2013.**
- **On the Kent campus, a 60,000-square-foot Ambulatory Surgery and Medical Office Building is being constructed to enable the hospital to provide high-quality, patient-focused services in a state-of-the-art facility. The ASC will handle the majority of outpatient surgeries as well as endoscopic and pain management procedures currently performed in the main hospital.**
- **In the fall of 2009, WIH opened a new wing which houses a 30-bed antenatal care unit and an 80-bed single-family room NICU, one of the largest in the nation. This year, WIH will renovate its Infusion Center at the Program for Women's Oncology. This project is designed to replace older units that lacked space to comfortably accommodate patients with new facilities that will provide modern, technologically advanced healing environments for WIH patients.**

MHRI is a teaching affiliate of The Warren Alpert Medical School of Brown University and the chief site for the medical school's primary care academic program housed in the Center for Primary Care. Created in 1969, this relationship has brought thousands of the best young medical students, interns, residents and research fellows in the country through MHRI's doors for study and practice. MHRI has grown into the second largest teaching hospital in Rhode Island, with the majority of the full-time medical staff affiliated with the medical school, and dozens of residents in various specialties. As a result of this partnership, MHRI conducts more than fifty research projects supported by more than $2.5 million in federal funds, ranking MHRI among the top research hospitals in Rhode Island. The Cancer Center of Memorial has been recognized by the Quality Oncology Practice Initiative certification program, an affiliate of the American Society of Clinical Oncology. MHRI's Sleep Center has received a five-year program accreditation from the American Academy of Sleep Medicine.

Both CNE and MHRI are nonprofit, tax-exempt, community-based health care organizations with longstanding deep commitments to the communities they serve. Their missions, visions, and values are well aligned. Please see CNE's and MHRI's respective missions, visions, and values attached as Exhibit 23(a).

B

b) that sufficient safeguards are included in the proposed conversion to assure the affected community continued access to affordable care;

Both MHRI and the CNE hospitals participate in both the Medicare and Medicaid programs and will continue to do so. Further, the Transacting Parties will endeavor to make charity care available to the communities MHRI serves, including the Blackstone Valley, at a level comparable to the level of charity care provided by other similarly-situated entities within CNE. Of course, MHRI will continue to comply with applicable law regarding the provision of charity care. Attached as Exhibit 23(b) is CNE's charity care policy.

C

c) that the new hospital will provide health care and appropriate access with respect to traditionally underserved populations, including racial and ethnic minority populations, in the affected community;

MHRI and CNE and its hospitals take pride in their long and distinguished history of service to Rhode Island. MHRI and CNE have continually worked to assess community needs and respond accordingly with needed programs and interventions to improve access for traditionally underserved populations.

Not only do all CNE hospitals participate in Medicare and Medicaid – the usual measure of access to traditionally underserved populations – but because of its unique combination of specialty services at WIH and Butler, CNE provides the greatest care access portal to women and to those suffering from serious behavioral disorders within the state of Rhode Island. MHRI participates in both Medicare and Medicaid as well.

In addition, MHRI and CNE's hospitals facilitate access to health care to those who are not adequately insured through its charity care programs. CNE's programs accounted for more than $14.5 million in services (at cost) to the populations served.

D

d) that there will be procedures or safeguards in place to ensure that ownership interests in the new hospital will not be used as incentives for hospital employees or physicians to refer patients to the hospital;

MHRI is and will remain a non-profit corporation; as such, no individual or entity may have an ownership interest in MHRI. Furthermore, CNE has an established Code of Conduct which, among other things, requires all CNE employees and physicians to conduct business in accordance with state and federal law and prohibits the payment or acceptance of anything of value in exchange for patient referrals. As part of its compliance efforts, CNE regularly provides training regarding compliance matters and its compliance professionals conduct routine audits.

Copies of CNE's Code of Conduct and Compliance Program are attached at Exhibit 8A.

e) that the Transacting Parties have made a commitment to ensure the continuation of collective bargaining rights, if applicable, and retention of the workforce;

CNE and MHRI are committed to respecting collective bargaining rights and, once MHRI joins CNE, CNE and MHRI will continue to respect collective bargaining rights. Each hospital in the CNE system handles its own labor negotiations, and the fact that MHRI currently is in contract negotiations presents a more complex set of issues than normal due to the pending Affiliation. However, MHRI intends to ensure that the impact of the Affiliation on terms and conditions of employment is fully addressed, and that any changes in the workforce will be implemented in a manner consistent with applicable collective bargaining agreements.

f) that the Transacting Parties have appropriately accounted for employment needs at the facility and addressed workforce retraining needed as a consequence of any proposed restructuring;

MHRI maintains a strong and capable workforce. In addition, following the Affiliation, MHRI and its staff will be able to leverage CNE's existing workforce management and training processes and procedures in order to improve MHRI's ability to effectively attract, hire, develop, and retain personnel in ways that best support a high-performing health care system. Among the workforce training processes and procedures currently utilized by CNE and which will be made available to MHRI's workforce following the Affiliation are:

1. **CNE can provide access to a scalable and flexible Learning Management System (LMS) which is specifically designed by healthcare professionals to ensure maximum efficiency when managing, tracking, and reporting on staff development, training, and compliance.**

   Courses are delivered online through the NetLearning LMS, a part of Cengage Learning, and are available 24/7 — for just-in-time training when and where it's needed. Some of NetLearning's courses have received the American Society for Training and Development (ASTD) E-Learning Courseware Certification.

   For a decade, NetLearning has provided a total training solution for the CNE workforce. NetLearning's course library includes over 4,000 courses — thousands of hours of education — and is constantly expanding its selection. Once MHRI joins CNE, the MHRI workforce will have access to this resource.

2. **Through a partnership with Harvard Business School's ManageMentor® program (HMM), managers from the Transaction Parties and their affiliates will have access to a state-of-the art, online learning and performance support and collaboration tool for managers from one of the country's most respected voices in business.**

   Managers can access content in 44 management and leadership topic areas, including lessons from over 50 global leaders and over 150 personal leadership stories from Harvard University faculty, trusted experts, and next-generation emerging leaders. Managers can access content through a variety of formats, including videos, articles, and online course material. They can search for content by task, role, or by the amount of time they have.

   There are RSS feeds that will keep managers up to date on the latest news related to various topics within the program and they can collaborate with their peers using the discussion forums, comments section, and recommending content for others to read. There are grab-and-go tools that make it easy for managers to develop their team, do group projects, and have productive discussions with

direct reports regarding retraining need as a consequence of any proposed restructuring – all in a fast and easy-to-use format.

3. **CNE is in the process of standardizing an approach to assess and develop employees and teams to better engage its workforce members and leaders following the Affiliation.**

   To ensure the success of this effort, managers from the Transacting Parties and their affiliates will be educated on core competencies, coaching for organizational and personal success, career progression and development of high-performing teams.

   The foundation of the education programs will be consistent to ensure all audiences receive the same understanding of competencies, assessment and development. The education will consist of four ½-day programs:
   - **Introduction to Competencies**
   - **Coaching for Development**
   - **Competency Based Interviewing**
   - **Team Assessment and Development**

G

g) that the public interest will be served considering the essential medical services needed to provide safe and adequate treatment, appropriate access and balanced health care delivery to the residents of the state;

MHRI has been determined by the Director of Health to be a financially distressed hospital. The proposed transaction will provide financial and administrative support to MHRI to allow it to continue to provide high quality and accessible essential medical services to the residents of the Blackstone Valley. The proposed transaction, if approved, would therefore contribute to a balanced health care delivery system in the state by maintaining the current level of services offered in the service areas of MHRI and CNE.

In combining clinical programs and sharing best practices and clinical protocols across the combined system, CNE's goal is to improve the quality of care delivered at all of its locations. As part of the proposed transaction, MHRI will become CNE's primary academic teaching base for Brown University with respect to the primary care specialties of family and internal medicine. In addition, the Transacting Parties have explicitly acknowledged the importance of maintaining a robust surgical practice at MHRI.

h) that issues of market share especially as they affect quality, access, and affordability of services in the proposed conversion are satisfactory.

The proposed conversion will not adversely affect quality, access, or affordability of services. Indeed, CNE's and MHRI's plans for the conversion call for improving performance in each of these areas.

As an initial matter, CNE and MHRI offer some of the same services, but the two systems generally specialize in different areas, with CNE having a stronger presence in women's services and behavioral health while MHRI has a greater presence in primary care services. Indeed, the CNE hospital most like MHRI, Kent, is located the most distant from MHRI of all CNE hospitals, and the primary service areas for Kent and MHRI do not overlap. While the service areas for WIH and Butler do overlap with that of MHRI, those two CNE hospitals offer very few general acute care services like those offered at MHRI.

Regardless, the proposed conversion will not adversely affect the quality of health care services offered by CNE or MHRI. By combining clinical programs and sharing best practices and clinical protocols across the new system, CNE's goal is to reduce variation in treatment and improve the quality of care delivered at all of its locations. Indeed, clinical literature suggests that pooling patient volumes for treatment can result in better quality care and outcomes, as physicians, nurses, and other caregivers sharpen and retain skills and apply the experience that comes from treating patients with the same diseases and conditions more frequently.

The proposed conversion also will not adversely impact access to care. While CNE and MHRI are studying how best to configure their services in the new combined system, the parties do not envision eliminating any clinical service that the two parties to the conversion presently offer. CNE and MHRI may consolidate certain services as part of their integration, but they will only do so when it makes clinical and operational sense to do so. Moreover, any services that CNE and MHRI do consolidate will be done with an eye towards freeing resources, clinical, managerial, administrative, and physical, to offer new or enhanced services to the community that will improve access to care.

Lastly, the proposed conversion will not adversely impact the affordability of services. CNE and MHRI both believe that the proposed conversion creates the opportunity for synergies that will moderate cost trends in a way that neither organization could achieve on its own. These synergies will result from achieving savings by combining clinical programs and "back-office" operations, among other areas. Moreover, competition from other providers and payors' ongoing shift from fee-for-service reimbursement to value-based purchasing will require and motivate CNE to maintain and improve the affordability of the services that the new system offers.

For all of these reasons, the proposed conversion will have a satisfactory effect on quality, access, and affordability of services.

The Board of Directors may, at any time, elect to the position of "**Director Emeritus**," a former director of the Board who, in the judgment of the Board, has served with special distinction on the Board. Section 3.7 **Vacancy – Elected Directors**. Subject to the term limits set forth in Section 3.4, any vacancy in an Elected Director position shall be filled by the Board at the next annual meeting or any special meeting of the Board called for that purpose. Section 3.8 **Meetings of the Board**. An annual meeting of the Board of Directors shall be held during December in each year on such date and at such time and place as may be determined by the Board of Directors; which annual meeting may occur simultaneous with, or directly prior to or directly following, the regular meeting of the Board held during December. Unless the Board otherwise determines, there shall be regular monthly meetings of the Board; which regular meetings shall be held at such time and such place as may be determined by the Board of Directors. A special meeting of the Board of Directors shall be called by the Secretary

Section 3.9 **Place of Meetings – Board**. All annual, regular and special meetings of the Board shall be held at such place, either within or outside the State of Rhode Island as shall be determined by the Board of Directors and stated in the notice for such meeting.

The schedule (including dates, place and hour) of the regular monthly meetings of the Board for a year shall be delivered to each Director in advance of the first regular meeting for such year. Except as otherwise expressly required by law, the Articles of Incorporation or these Bylaws, the Secretary (or other person as directed by the Board of Directors) shall deliver written notice of any annual or special meeting to each Director, which written notice shall state the place, day and hour of the meeting and shall be delivered in person or by mailing, overnight delivery, electronically mailing or telephoning the same to each Director's last address, electronic mail address or telephone number appearing on the records of the Corporation not less than seven (7) days prior to the date of the special meeting; provided, however, that a special meeting may be called upon forty-eight (48) hours notice if such notice is given personally or by telephone to each Director. Notice of any meeting of the Board does not need to state the business to be transacted at, nor the purpose of, such meeting. Notice will be deemed delivered at the time when same is deposited in the United States mail, delivered to the delivery service, electronic mail sent or message left by telephone.

Section 3.11 **Waiver of Notice – Board**. A Director may waive notice of any meeting either before or after a meeting by providing to the Secretary a written waiver which shall be placed in the Corporation's records. Attendance by a Director at a meeting shall constitute waiver of notice of that meeting, except where such attending Director objects at the beginning of such meeting to the transaction of business because the meeting is not lawfully called or convened.

Section 3.12 **Quorum – Board**. A quorum shall exist at a meeting of the Board of Directors if a majority of the then-current Directors are present in person. In the absence of a quorum at any meeting of the Board of Directors, the Directors present in person at such

(a) sale, mortgage or discontinuation of use of all or substantially all of the real property or assets of the Corporation or any Affiliate;

(b) merger with or acquisition of the Corporation by another entity, or material acquisition by the Corporation or any Affiliate of another provider or system of providers;

Section 3.14 **Participation by Telephone – Board**. To the extent a Director is unable to attend an annual, regular or special meeting in person and such Director has provided notice to the office of the President and Chief Executive Officer of his or her circumstances, then such Director may participate in such annual, regular or special meeting by means of a conference telephone or other similar communications equipment pursuant to which all Directors participating in such meeting may simultaneously hear each other and such participation shall be deemed participation "in person."

Section 3.15 **Written Consents – Board**. Except as otherwise expressly required by law, the Articles of Incorporation or these Bylaws, the Board may take action without a meeting if written consents setting forth the action are requested from and signed by all the Directors, which written consents may be signed in one or more counterparts, each of which shall be an original, but all of which together shall comprise one and the same written consent and which written consent(s) shall be placed in the records of the Corporation.

Section 3.16 **Reimbursement of Expenses – Board**. The Board of Directors may resolve to pay the reasonable out-of-pocket expenses incurred by a Director in the performance of his or her duties as a Director. This Section 3.16 shall not preclude any Director from serving the Corporation in any other capacity and receiving compensation therefor.

The resignation of a committee member shall take effect upon the receipt of written notice or at such time as specified in the written notice. Unless otherwise specified in the written notice, acceptance of the resignation shall not be necessary to make it effective. Subject to any term limit determined by the Board for such committee member position, any vacancy in a committee member position shall be filled by the Board. Notice of any committee meeting does not need to state the business to be transacted at, nor the purpose of, such committee meeting. Notice will be deemed delivered at the time when same is deposited in

the United States mail, delivered to the delivery service, electronic mail sent or message left by telephone. If a committee charter addresses some or all of the provisions in this Section 4.4, the provisions in the committee charter shall prevail.

Section 4.6 **Quorum – Committees**. A quorum shall exist at a meeting of a committee if at least one-third (1/3) of the then-current members of such committee are present in person. Notwithstanding the foregoing, a quorum shall exist at a meeting of the Executive Committee, the Governance and Nominating Committee or the Compensation Committee if one-half (1/2) of the then-current members of such committee are present in person.

Section 4.7 **Action at Meetings; Written Consents – Committees**. The affirmative vote of a majority of the members of a committee present in person at a meeting at which a quorum is present shall be required to take action on any question brought at such meeting. Any action which may be taken at a meeting of a committee may be taken without a meeting if written consents setting forth the action are requested from and signed by all the members of such committee, which written consents may be signed in one or more counterparts, each of which shall be an original, but all of which together shall comprise one and the same written consent and which written consent(s) shall be placed in the records of the Corporation. If a committee charter addresses some or all of the provisions in this Section 4.7, the provisions in the committee charter shall prevail.

Section 4.8 **Participation by Telephone – Committees**. Indemnification

Section 10.1 **Agreement of the Corporation**. In order to induce the individual members (if any), Directors, officers and committee members of the Corporation to serve as such (each an "**Indemnified Person**"), the Corporation agrees, subject to the exclusions hereinafter set forth, to indemnify an Indemnified Person against, and hold the Indemnified Person harmless from, any Loss or Expense (each as defined in Section 10.2).

Section 10.2 **Definitions**. Capitalized terms used in this Article 10, shall have the meanings set forth below:

(a) "**Covered Act**" means any act or omission by an Indemnified Person in the Indemnified Person's official capacity with the Corporation and while serving as such or while serving at the request of the Corporation as a member of the governing body, officer, employee or agent of another corporation, limited liability company, partnership, joint venture, trust or other enterprise.

(b) "**Excluded Claim**" has the meaning set forth in Section 10.4.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made against the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

RIDOH 0174

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

Section 10.3 **Advance Payment of Expenses**. The Corporation will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Corporation. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Corporation to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 10.4 **Exclusions**. The following shall be considered "**Excluded Claims**" and the Corporation will not be liable to pay any Loss or Expense related to any` Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Corporation (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Corporation;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

(iii) any transaction from which the Indemnified Person derived an improper personal benefit; or

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 10.5 **Notice to the Corporation; Insurance**. Promptly after receipt by an Indemnified Person of notice of the commencement of or the treat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Corporation under these Bylaws, notify the Corporation of the commencement thereof. If, at the time of the receipt of such notice, the Corporation has any directors' and officers'

RIDOH 0175

liability insurance (or equivalent insurance or other protection known by another term) in effect, the Corporation will give prompt notice of the commencement of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Corporation will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Corporation will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Corporation is materially prejudiced in its ability to defend against the Proceeding by reason of such failure; or (b) failure to promptly notify the Corporation causes a delay in notifying any applicable insurer (as described in this Section 10.5) resulting in a denial of coverage.

Section 10.6 **Indemnification**.

(a) Payments on account of the Corporation's indemnity against Loss will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Corporation so determines that the Loss results from an Excluded Claim (although no such determination is required by the Corporation prior to payment of a Loss by the Treasurer of the Corporation), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 10.6(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 10.6(a)(i) or by a committee of the Board established in a manner described in Section 10.6(a)(ii), or (B) if the requisite quorum of the full Board cannot be obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such

RIDOH 0176

determination permitted to be made by this Section 10.6(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made pursuant to Section 10.6(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Corporation will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against him or her with respect to any Covered Act, whether or not the Corporation would have the power to indemnify such Indemnified Person against such liability under the provisions of these Bylaws. The Corporation will be subrogated to the rights of such Indemnified Person to the extent that the Corporation has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided herein.

Section 10.7 **Settlement**. The Corporation will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Corporation's prior written consent. The Corporation will not unreasonably withhold or delay its consent to any proposed settlement. If the Corporation so consents to the settlement of any Proceeding, or unreasonably withholds or delays such consent, it will be conclusively and irrefutably presumed for all purposes that the Loss or Expense does not constitute an Excluded Claim. If the Corporation reasonably withholds its consent solely on the grounds that the Proceeding constitutes an Excluded Claim, the Indemnified Person may accept the settlement without the consent of the Corporation, without prejudice to such Indemnified Person's rights to indemnification in the event the Corporation does not ultimately prevail on the issue of whether the Proceeding constitutes an Excluded Claim.

Section 10.8 **Rights Not Exclusive**. The rights provided in this Article 10 will not be deemed exclusive of any other rights to which an Indemnified Person may be entitled under any agreement, vote of disinterested Directors or otherwise, both as to action in the Indemnified Person's official capacity and as to action in any other capacity while serving in such position,

and will continue after such Indemnified Person ceases to serve the Corporation as an Indemnified Person.

Section 10.9 **Enforcement**.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be enforceable notwithstanding that an adverse determination has been made as provided in Section 10.6.

(b) In the event that any action is institute by an Indemnified Person under these Bylaws, such Indemnified Person will be entitled to be paid all court costs and expenses, including reasonable attorneys' fees, incurred by such Indemnified Person with respect to such action, unless the court determines that each of the material assertions made by such Indemnified Person as a basis for such action was not made in good faith or was frivolous.

Section 10.10 **Severability**. If any provision in this Article 10 is determined by a court to require the Corporation to perform or fail to perform an act which is in violation of any applicable law, this Article 10 shall be limited or modified in its applicable to the minimum extent necessary to avoid a violation of law, and, as so limited and modified, this Article 10 shall be enforceable in accordance with its terms.

Section 10.11 **Successors and Assigns**. The provisions of this Article 10 will be (a) binding upon all successors and assigns of the Corporation (including any transferee of all or substantially all of its assets); and (b) binding on and inure to the benefit of the heirs, executors, administrators and other personal representatives of an Indemnified Person.

Section 10.12 **Amendment of this Article 10** No amendment or termination of this Article 10 will be effective as to an Indemnified Person without prior written consent of that Indemnified Person and, in any event, will not be effective as to any Covered Act of an Indemnified Person occurring prior to the amendment or termination.

Article 11

RIDOH 0218

AN ACT to incorporate The Rhode Island Asylum for the Insane.

Whereas, a codicil to the last will and testament of the late Nicholas Brown, which bears date the third day of March in the year of our Lord one thousand eight hundred and forty-one, contains the following provision, viz:

"And whereas, it has long been deeply impressed on my mind, that an insane or lunatic hospital or retreat for the insane, should be established upon a firm and permanent basis, under an act of the legislature, where that unhappy portion of our fellow beings who are by the visitation of Providence, deprived of their reason, may find a safe retreat, and be provided with whatever may be most conducive to their comfort and to their restoration to a sound state of mind: Therefore, for the purpose of aiding an object so desirable, and in the hope that such an establishment may soon be commenced, I do hereby set apart, and give and bequeath the sum of thirty thousand dollars toward the erection or endowment of an insane or lunatic hospital or retreat for the insane, or by whatever other name it may be called: to be located in Providence or its vicinity. And I do hereby order and direct my said executors to pay the said sum of thirty thousand dollars in the promotion and advancement of an institution for that object; trusting and confiding in my executors, that they will carefully examine and be satisfied that the establishment is placed on a firm and legal basis, and that the payment of the above amount will be made at such times, and in such sums, as will best promote the desired object and be least prejudicial to the settlement of my own estate; hoping that my sons and other friends will co-operate in the humane and benevolent design, that the benefits of the institution may soon be realized."

Therefore, for the purpose of furthering the humane and christian object contemplated in the foregoing provision of the last will and testament of the late Nicholas Brown:

It is enacted by the General Assembly as follows:

Section 1. Benjamin Aborn, Josiah Chapin, Amasa Manton, George W. Hallett, Amory Chapin, Thomas Burgess, John Carter Brown, Moses B. Ives, Robert H. Hazard, Stephen Branch, and their associates who may hereafter be admitted members of the corporation hereinafter created, according to the by-laws thereof, are incorporated and made a body corporate and politic, by the name and style of *The Rhode Island Asylum for the Insane;* and by that name and style shall have perpetual succession; be capable of suing and being sued; pleading and being impleaded; answering and being answered unto; defending and being defended against to final judgment and execution, in all courts of law and equity; and may have and use a common seal to be by them devised, altered and renewed at their pleasure.

Section 9.1 **Execution of Documents**. All checks, drafts, bills of exchange or other orders for the payment of money, obligations, notes, or other evidences of indebtedness, bills of lading, warehouse receipts, insurance certificates, contracts and other instruments of the Corporation, shall be signed or endorsed by such officer or officers, employee or employees, of the Corporation as shall from time to time be determined by resolution of the Board.

Article 10

Limitation of Liability

Section 10.1 **Limitation of Liability**. Pursuant to Section 7-6-9 of the Nonprofit Corporation Act, no individual serving without compensation as a Director, officer or committee member shall be personally liable to the Corporation or its members based solely on his or her conduct in the execution of the office or duties; provided, however that this Section 10.1 shall not eliminate the liability of a Director, officer or committee member to the extent such liability is imposed by applicable law for (a) malicious, willful or wanton misconduct; (b) breach of such Director's, officer's or committee member's duty of loyalty to the Corporation; and (c) any transaction from which there is an improper personal benefit. This Section 10.1 shall not eliminate the liability of a Director, officer or committee member for any act or omission occurring prior to the date upon which this provision becomes effective. No amendment to or repeal of this Section 10.1 shall apply to or have any effect on the liability or alleged liability, or any acts or omissions, of any Director, officer or committee member occurring prior to such amendment or repeal.

Article 11

Indemnification

Section 11.1 **Agreement of the Corporation**. In order to induce the Individual Members (if any), Directors, officers and committee members of the Corporation to serve as such (each an "**Indemnified Person**"), the Corporation agrees, subject to the exclusions hereinafter set forth, to indemnify an Indemnified Person against, and hold the Indemnified Person harmless from, any Loss or Expense (each as defined in Section 11.2).

Section 11.2 **Definitions**. Capitalized terms used in this Error! Reference source not found., shall have the meanings set forth below:

(a) "**Covered Act**" means any act or omission by an Indemnified Person in the Indemnified Person's official capacity with the Corporation and while serving as such or while serving at the request of the Corporation as a member of the governing body, officer, employee or agent of another corporation, limited liability company, partnership, joint venture, trust or other enterprise.

RIDOH 0241

(b) "**Excluded Claim**" has the meaning set forth in Section 11.4.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made against the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

Section 11.3 **Advance Payment of Expenses**. The Corporation will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Corporation. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Corporation to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 11.4 **Exclusions**. The following shall be considered "**Excluded Claims**" and the Corporation will not be liable to pay any Loss or Expense related to any Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Corporation (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Corporation;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

RIDOH 0242

(iii) any transaction from which the Indemnified Person derived an improper personal benefit; or

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 11.5 **Notice to the Corporation; Insurance**. Promptly after receipt by an Indemnified Person of notice of the commencement of or the treat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Corporation under these Bylaws, notify the Corporation of the commencement thereof. If, at the time of the receipt of such notice, the Corporation has any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) in effect, the Corporation will give prompt notice of the commencement of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Corporation will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Corporation will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Corporation is materially prejudiced in its ability to defend against the Proceeding by reason of such failure; or (b) failure to promptly notify the Corporation causes a delay in notifying any applicable insurer (as described in this Section 11.5) resulting in a denial of coverage.

Section 11.6 **Indemnification**.

(a) Payments on account of the Corporation's indemnity against Loss will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Corporation so determines that the Loss results from an Excluded Claim (although no such determination is required by the Corporation prior to payment of a Loss by the Treasurer of the Corporation), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 11.6(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 11.6(a)(i) or by a committee of the Board established in a manner described in Section 11.6(a)(ii), or (B) if the requisite quorum of the full Board cannot be obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such determination permitted to be made by this Section 11.6(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made pursuant to Section 11.6(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Corporation will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against him or her with respect to any Covered Act, whether or not the Corporation would have the power to indemnify such Indemnified Person against such liability under the provisions of these Bylaws. The Corporation will be subrogated to the rights of such Indemnified Person to the extent that the Corporation has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided herein.

Section 11.7 **Settlement**. The Corporation will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Corporation's prior written consent. The Corporation will not unreasonably withhold or delay its consent to any proposed settlement. If the Corporation so consents to the settlement of any Proceeding, or unreasonably withholds or delays such consent, it will be conclusively and irrefutably presumed for all purposes that the Loss or Expense does not constitute an Excluded Claim. If the Corporation reasonably withholds its consent solely on the grounds that the

RIDOH 0244

Proceeding constitutes an Excluded Claim, the Indemnified Person may accept the settlement without the consent of the Corporation, without prejudice to such Indemnified Person's rights to indemnification in the event the Corporation does not ultimately prevail on the issue of whether the Proceeding constitutes an Excluded Claim.

Section 11.8 **Rights Not Exclusive**. The rights provided in this Article 11 will not be deemed exclusive of any other rights to which an Indemnified Person may be entitled under any agreement, vote of disinterested Directors or otherwise, both as to action in the Indemnified Person's official capacity and as to action in any other capacity while serving in such position, and will continue after such Indemnified Person ceases to serve the Corporation as an Indemnified Person.

Section 11.9 **Enforcement**.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be enforceable notwithstanding that an adverse determination has been made as provided in Section 11.6.

(b) In the event that any action is institute by an Indemnified Person under these Bylaws, such Indemnified Person will be entitled to be paid all court costs and expenses, including reasonable attorneys' fees, incurred by such Indemnified Person with respect to such action, unless the court determines that each of the material assertions made by such Indemnified Person as a basis for such action was not made in good faith or was frivolous.

Section 11.10 **Severability**. If any provision in this Article 11 is determined by a court to require the Corporation to perform or fail to perform an act which is in violation of any applicable law, this Article 11 shall be limited or modified in its applicable to the minimum extent necessary to avoid a violation of law, and, as so limited and modified, this Article 11 shall be enforceable in accordance with its terms.

Section 11.11 **Successors and Assigns**. The provisions of this Article 11 will be (a) binding upon all successors and assigns of the Corporation (including any transferee of all or substantially all of its assets); and (b) binding on and inure to the benefit of the heirs, executors, administrators and other personal representatives of an Indemnified Person.

Section 11.12 **Amendment of this Article 11** No amendment or termination of this Article 11 will be effective as to an Indemnified Person without prior written consent of that Indemnified Person and, in any event, will not be effective as to any Covered Act of an Indemnified Person occurring prior to the amendment or termination.

Article 12

Section 12.1 **Non-Profit Status**. The Corporation is not organized for profit, and no part of the net earnings of the Corporation shall inure to the benefit of or be distributable to, any member, trustees, officers or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in the Charter and these Bylaws. In the event of any liquidation or dissolution of the Corporation, no trustee or officer shall be entitled to any distribution or division of the Corporation's property or the proceeds thereof, and upon such liquidation, the Board of Directors, after the payment of all its debts and obligations, shall distribute all of the assets of the Corporation in such manner, and to such organization(s) organized and operated for charitable, scientific and educational purposes as shall at the time qualify as an exempt organization(s) under the Code, or to such cities, towns and subdivisions thereof, as the Board shall determine.

Section 12.2 **Relationship to Care New England**. The Corporation functioned autonomously until 1996, when it combined with Kent County Memorial Hospital and Women & Infants Hospital of Rhode Island to form Care New England, a non-profit holding company of which the three (3) hospitals are controlled affiliates. While each hospital within the Care New England system continues to be governed by its governing board in accordance with its corporate mission, Care New England is the sole member of the Corporation and the individuals serving as the directors of the Corporation are those individuals then-serving as the directors of the Care New England board of directors. Further, the approval of Care New England is required for significant corporate and strategic actions on the part of the Corporation.

Article 11

Indemnification

Section 11.1 **Agreement of the Corporation**. In order to induce the Individual Members (if any), Directors, officers and committee members of the Corporation to serve as such (each an "**Indemnified Person**"), the Corporation agrees, subject to the exclusions hereinafter set forth, to indemnify an Indemnified Person against, and hold the Indemnified Person harmless from, any Loss or Expense (each as defined in Section 11.2).

Section 11.2 **Definitions**. Capitalized terms used in this Error! Reference source not ound., shall have the meanings set forth below:

(a) "**Covered Act**" means any act or omission by an Indemnified Person in the Indemnified Person's official capacity with the Corporation and while serving as such or while serving at the request of the Corporation as a member of the governing body, officer, employee or agent of another corporation, limited liability company, partnership, joint venture, trust or other enterprise.

RIDOH 0314

(b) "**Excluded Claim**" has the meaning set forth in Section 11.4.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made against the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

Section 11.3 **Advance Payment of Expenses**. The Corporation will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Corporation. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Corporation to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 11.4 **Exclusions**. The following shall be considered "**Excluded Claims**" and the Corporation will not be liable to pay any Loss or Expense related to any Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Corporation (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Corporation;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

(iii) any transaction from which the Indemnified Person derived an improper personal benefit; or

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 11.5 **Notice to the Corporation; Insurance**. Promptly after receipt by an Indemnified Person of notice of the commencement of or the treat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Corporation under these Bylaws, notify the Corporation of the commencement thereof. If, at the time of the receipt of such notice, the Corporation has any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) in effect, the Corporation will give prompt notice of the commencement of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Corporation will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Corporation will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Corporation is materially prejudiced in its ability to defend against the Proceeding by reason of such failure; or (b) failure to promptly notify the Corporation causes a delay in notifying any applicable insurer (as described in this Section 11.5) resulting in a denial of coverage.

Section 11.6 **Indemnification**.

(a) Payments on account of the Corporation's indemnity against Loss will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Corporation so determines that the Loss results from an Excluded Claim (although no such determination is required by the Corporation prior to payment of a Loss by the Treasurer of the Corporation), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 11.6(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 11.6(a)(i) or by a committee of the Board established in a manner described in Section 11.6(a)(ii), or (B) if the requisite quorum of the full Board cannot be obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such determination permitted to be made by this Section 11.6(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made pursuant to Section 11.6(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Corporation will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against him or her with respect to any Covered Act, whether or not the Corporation would have the power to indemnify such Indemnified Person against such liability under the provisions of these Bylaws. The Corporation will be subrogated to the rights of such Indemnified Person to the extent that the Corporation has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided herein.

Section 11.7 **Settlement**. The Corporation will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Corporation's prior written consent. The Corporation will not unreasonably withhold or delay its consent to any proposed settlement. If the Corporation so consents to the settlement of any Proceeding, or unreasonably withholds or delays such consent, it will be conclusively and irrefutably presumed for all purposes that the Loss or Expense does not constitute an Excluded Claim. If the Corporation reasonably withholds its consent solely on the grounds that the

Proceeding constitutes an Excluded Claim, the Indemnified Person may accept the settlement without the consent of the Corporation, without prejudice to such Indemnified Person's rights to indemnification in the event the Corporation does not ultimately prevail on the issue of whether the Proceeding constitutes an Excluded Claim.

Section 11.8 **Rights Not Exclusive**. The rights provided in this Article 11 will not be deemed exclusive of any other rights to which an Indemnified Person may be entitled under any agreement, vote of disinterested Directors or otherwise, both as to action in the Indemnified Person's official capacity and as to action in any other capacity while serving in such position, and will continue after such Indemnified Person ceases to serve the Corporation as an Indemnified Person.

Section 11.9 **Enforcement**.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be enforceable notwithstanding that an adverse determination has been made as provided in Section 11.6.

Committees

Section 4.1 **Committees**. The Board of Directors shall have a Quality Committee. The Board of Directors may designate such other committees to serve at its pleasure and to have such powers and perform such functions as the Board of Directors may assign to them. The resolution designating such other committees shall set forth the composition of each such committee and the functions to be performed by it. All committee members (along with the Directors and officers of the Corporation), shall be subject to the Care New England's Conflicts of Interest and Confidentiality Policy, as may be amended from time to time by the board of

directors of Care New England. Unless otherwise determined by the Board, all committees shall adopt a committee charter which shall include the purposes, duties and responsibilities and membership of such committee; provided, that such committee charter (and any amendments thereto) shall be subject to review by the Governance and Nominating Committee and approval by the Board.

Section 4.2 **Term and Election – Committee Members**. For the Quality Committee and any other committee designated by the Board, the Board shall elect individuals to serve on such committees from those nominees recommended by the Governance and Nominating Committee. Those committee members serving on the Quality Committee shall serve for a term of one (1) year and may not serve on the Quality Committee for more than three (3) consecutive one (1) year terms. Unless otherwise determined by the Board, the term of each committee member of any other committee designated by the Board will be one (1) year and there shall be no limit on the number of terms a committee member may serve.

Section 4.3 **Resignation, Removal and Vacancy – Committee Members**. A committee member may resign at any time by giving written notice to the Board, the Chairperson, a Vice-Chairperson, the President and Chief Executive Officer, or the Secretary or may be removed with or without cause by the Board. The resignation of a committee member shall take effect upon the receipt of written notice or at such time as specified in the written notice. Unless otherwise specified in the written notice, acceptance of the resignation shall not be necessary to make it effective. Subject to any term limit determined by the Board for such committee member position, any vacancy in a committee member position shall be filled by the Board. An individual elected to fill a vacancy will serve for the unexpired term of his or her predecessor

Section 4.4 **Meetings – Committees**. Committees may hold meetings (regular and/or special) either within or outside the State of Rhode Island as shall be determined by such committee or the Board of Directors and stated in the notice for such meeting. A special meeting of a committee shall be called by the applicable chairperson upon the request of two (2) members of the applicable committee or the Board of Directors. Regular meetings of a committee shall be held at such intervals as set forth in the applicable committee's charter. The applicable

chairperson (or other person as directed by the applicable chairperson) shall deliver written notice of any special meeting to each member of such committee, which written notice shall state the place, day and hour of the meeting and shall be delivered in person or by mailing, overnight delivery, electronically mailing or telephoning the same to the committee member's last address, electronic mail address or telephone number appearing on the records of the Corporation not less than seven (7) days prior to the date of the special meeting; provided, however, that in the event of an emergency, a special meeting may be called upon forty-eight (48) hours notice if such notice is given personally or by telephone to each member of such committee. Notice of any committee meeting does not need to state the business to be transacted at, nor the purpose of, such committee meeting. Notice will be deemed delivered at the time when same is deposited in the United States mail, delivered to the delivery service, electronic mail sent or message left by telephone. If a committee charter addresses some or all of the provisions in this Section 4.4, the provisions in the committee charter shall prevail.

Section 4.5 **Waiver of Notice – Committees**. A committee member may waive notice of any meeting either before or after a meeting by providing to the Secretary a written waiver which shall be placed in the Corporation's records. Attendance by a committee member at a meeting shall constitute waiver of notice of that meeting, except where such attending committee member objects at the beginning of such meeting to the transaction of business because the meeting is not lawfully called or convened.

Section 4.6 **Quorum – Committees**. A quorum shall exist at a meeting of a committee if at least one-third (1/3) of the then-current members of such committee are present in person.

Section 4.7 **Action at Meetings; Written Consent – Committees**. The affirmative vote of a majority of the members of a committee present in person at a meeting at which a quorum is present shall be required to take action on any question brought at such meeting. Any action which may be taken at a meeting of a committee may be taken without a meeting if written consents setting forth the action are requested from and signed by all the members of such committee, which written consents may be signed in one or more counterparts, each of which shall be an original, but all of which together shall comprise one and the same written

consent and which written consent(s) shall be placed in the records of the Corporation. If a committee charter addresses some or all of the provisions in this Section 4.7, the provisions in the committee charter shall prevail.

Section 4.8 **Participation by Telephone – Committees**. To the extent a committee member is unable to attend a regular or special meeting in person and such committee member has provided notice to the applicable chairperson of his or her circumstances, then such committee member may participate in such regular or special meeting by means of a conference telephone or other similar communications equipment pursuant to which all committee members participating in such meeting may simultaneously hear each other and such participation shall be deemed participation "in person."

Section 4.9 **Quality Committee**. The Board of Directors shall have a Quality Committee which shall consist of (unless otherwise determined by the Board) not fewer than three (3) members of the Board and one (1) or more physician and nursing leaders who have demonstrated knowledge regarding quality of hospital and health services. The specific duties and responsibilities of the Quality Committee shall be set forth in the Quality Committee charter.

Section 4.10 **Reimbursement of Expenses – Committee Members**. The Board of Directors may resolve to pay the reasonable out-of-pocket expenses incurred by a committee member in the performance of his or her duties as a committee member. This Section 4.10 shall not preclude any committee member from serving the Corporation in any other capacity and receiving compensation therefor.

Article 5

Officers

Section 5.1 **Officers**. The officers of the Corporation shall be a Chairperson, one (1) or more Vice-Chairpersons, a President and Chief Executive Officer, one (1) or more Vice Presidents, a Secretary, a Treasurer, and such other officers or assistant officers as may be appointed from time to time by the Board. Any two (2) or more offices may be held by the same person, with the exception of the offices of President and Chief Executive Officer and Secretary.

Section 5.2 **Election and Term – Officers**. The officers of the Corporation shall be elected by the Board at the annual meeting from those nominees recommended by the Governance and Nominating Committee and shall, unless otherwise determined by the Board serve for a term of one (1) year. Except with respect to the Chairperson, there is no limit on the number of terms an officer may serve. The Chairperson may not serve in that position for more than three (3) consecutive one (1) year terms; provided that the Board may waive such limitation in circumstances in which continuity in leadership would serve the best interests of the Corporation.

Section 5.3 **Resignation – Officers**. Any officer may resign at any time by giving written notice to the Board, the Chairperson, a Vice-Chairperson, the President and Chief Executive Officer, or the Secretary. The resignation of an officer shall take effect upon the receipt of written notice or at such time as specified in the written notice. Unless otherwise specified in the written notice, acceptance of the resignation shall not be necessary to make it effective.

Section 5.4 **Removal – Officers**. Any officer may be removed with or without cause by the Board. Any such removal will be without prejudice to the contract rights, if any, of the officer removed. Election or appointment as an officer will not of itself create contract rights.

Section 5.5 **Vacancy – Officers**. Subject to any term limit set forth in Section 5.2, any vacancy in an officer position shall be filled by the Board. An individual elected to fill a vacancy will serve for the unexpired term of his or her predecessor.

Section 5.6 **Authority and Duties – Officers**.

(a) The Chairperson shall preside at all meetings of the Members and of the Board and shall have such other authorities and duties as are delegated from time to time by the Board.

(b) The President and Chief Executive Officer shall be the chief executive officer of the Corporation and, subject to the direction and judgment of the Board, shall have general supervision and control of all officers, agents, and employees of the Corporation and the management of its business interests, including the appointment of the senior management group of the Corporation. The President and Chief Executive Officer shall have the necessary authority

RIDOH 0404

and shall be held responsible for the administration of the Corporation in all of its activities and departments, subject to the Articles of Incorporation, these Bylaws and such policies as may be adopted and such orders as may be issued by the Board or any of its committees to which it has delegated power for such action. Notwithstanding any provision to the contrary, the President and Chief Executive Officer shall serve at the pleasure of the President and Chief Executive Officer of the Corporate Member, and any action with respect thereto shall be taken after consultation with the board of directors of the Corporate Member.

(c) Each officer (other than the Chairperson and the President and Chief Executive Officer) shall have the authority and shall perform the duties customarily appurtenant to their respective offices, and shall have such other authorities and duties as are delegated from time to time by the Board.

Article 6

Medical Staff; Medical Staff Bylaws

Section 6.1 **Organization and Duties of the Medical Staff**. The Board shall organize the physicians and appropriate other persons granted practice privileges at Women & Infants Hospital of Rhode Island ("**WIH**") into a self-governing medical staff (the "**Medical Staff**"). The Board shall delegate to the Medical Staff the responsibility and authority to oversee the quality of care, treatment and services provided by practitioners with clinical privileges; which responsibility and authority includes investigation of matters relating to the selection and appointment to the Medical Staff, granting of clinical privileges and any corrective action and submitting to the Board (or any committee delegated with such authority by the Board) recommendations on the foregoing with such supporting documentation as will enable the Board (or any committee delegated with such authority by the Board) to take action thereon.

Section 6.2 **Medical Staff Association Bylaws**. The Medical Staff shall organize, adopt and maintain medical staff association bylaws (the "**Medical Staff Bylaws**"), consistent with these Bylaws, WIH rules and regulations and applicable law, for the governance of the Medical Staff; which Medical Staff Bylaws shall include at least the following:

(a) Methods of selection, election or appointment of all officers and other executive committee members and officers;

RIDOH 0405

Any recommendations of the Medical Staff to amend, or amend and restate, the Medical Staff Bylaws shall be subject to approval by the Board. When adopted, the Medical Staff Bylaws shall be considered a part of the rules and regulations of WIH.

Article 7

Section 7.2 **Annual Reports**. Annually, at the close of the fiscal year, the Treasurer of the Corporation shall cause to be prepared a report showing the status of all operating revenues and expenses, and of all endowment funds, the income received therefrom during the preceding fiscal year, and the purposes for which said income was used. The annual report and

RIDOH 0406

the endowment report shall, at all times, be kept available for inspection by any person during ordinary business hours at the office of the President and Chief Executive Officer.

Article 8

Execution of Documents

Section 8.1 **Execution of Documents**. All checks, drafts, bills of exchange or other orders for the payment of money, obligations, notes, or other evidences of indebtedness, bills of lading, warehouse receipts, insurance certificates, contracts and other instruments of the Corporation, shall be signed or endorsed by such officer or officers, employee or employees, of the Corporation as shall from time to time be determined by resolution of the Board.

Article 9

Limitation of Liability

Section 9.1 **Limitation of Liability**. Pursuant to Section 7-6-9 of the Nonprofit Corporation Act, no individual serving without compensation as a Director, officer or committee member shall be personally liable to the Corporation or its members based solely on his or her conduct in the execution of the office or duties; provided, however that this Section 9.1 shall not eliminate the liability of a Director, officer or committee member to the extent such liability is imposed by applicable law for (a) malicious, willful or wanton misconduct; (b) breach of such Director's, officer's or committee member's duty of loyalty to the Corporation; and (c) any transaction from which there is an improper personal benefit. This Section 9.1 shall not eliminate the liability of a Director, officer or committee member for any act or omission occurring prior to the date upon which this provision becomes effective. No amendment to or repeal of this Section 9.1 shall apply to or have any effect on the liability or alleged liability, or any acts or omissions, of any Director, officer or committee member occurring prior to such amendment or repeal.

Article 10

Indemnification

Section 10.1 **Agreement of the Corporation**. In order to induce the Individual Members (if any), Directors, officers and committee members of the Corporation to serve as

RIDOH 0407

such (each an "**Indemnified Person**"), the Corporation agrees, subject to the exclusions hereinafter set forth, to indemnify an Indemnified Person against, and hold the Indemnified Person harmless from, any Loss or Expense (each as defined in Section 10.2).

Section 10.2 **Definitions**. Capitalized terms used in this Article 10 shall have the meanings set forth below:

(a) "**Covered Act**" means any act or omission by an Indemnified Person in the Indemnified Person's official capacity with the Corporation and while serving as such or while serving at the request of the Corporation as a member of the governing body, officer, employee or agent of another corporation, limited liability company, partnership, joint venture, trust or other enterprise.

(b) "**Excluded Claim**" has the meaning set forth in Section 10.4.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made against the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

Section 10.3 **Advance Payment of Expenses**. The Corporation will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Corporation. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Corporation to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded

RIDOH 0408

Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 10.4 **Exclusions**. The following shall be considered "**Excluded Claims**" and the Corporation will not be liable to pay any Loss or Expense related to any Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Corporation (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Corporation;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

(iii) any transaction from which the Indemnified Person derived an improper personal benefit; or

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 10.5 **Notice to the Corporation; Insurance**. Promptly after receipt by an Indemnified Person of notice of the commencement of or the treat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Corporation under these Bylaws, notify the Corporation of the commencement thereof. If, at the time of the receipt of such notice, the Corporation has any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) in effect, the Corporation will give prompt notice of the commencement of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Corporation will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Corporation will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Corporation is materially prejudiced in its ability to defend against the Proceeding by reason of such failure; or (b) failure to promptly

notify the Corporation causes a delay in notifying any applicable insurer (as described in this Section 10.5) resulting in a denial of coverage.

Section 10.6 **Indemnification.**

(a) Payments on account of the Corporation's indemnity against Loss will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Corporation so determines that the Loss results from an Excluded Claim (although no such determination is required by the Corporation prior to payment of a Loss by the Treasurer of the Corporation), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 10.6(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 10.6(a)(i) or by a committee of the Board established in a manner described in Section 10.6(a)(ii), or (B) if the requisite quorum of the full Board cannot be obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such determination permitted to be made by this Section 10.6(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made pursuant to Section 10.6(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Corporation will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against him or her with respect to any Covered Act, whether or not the Corporation would have the power to indemnify such

RIDOH 0410

Indemnified Person against such liability under the provisions of these Bylaws. The Corporation will be subrogated to the rights of such Indemnified Person to the extent that the Corporation has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided herein.

Section 10.7 **Settlement**. The Corporation will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Corporation's prior written consent. The Corporation will not unreasonably withhold or delay its consent to any proposed settlement. If the Corporation so consents to the settlement of any Proceeding, or unreasonably withholds or delays such consent, it will be conclusively and irrefutably presumed for all purposes that the Loss or Expense does not constitute an Excluded Claim. If the Corporation reasonably withholds its consent solely on the grounds that the Proceeding constitutes an Excluded Claim, the Indemnified Person may accept the settlement without the consent of the Corporation, without prejudice to such Indemnified Person's rights to indemnification in the event the Corporation does not ultimately prevail on the issue of whether the Proceeding constitutes an Excluded Claim.

Section 10.8 **Rights Not Exclusive**. The rights provided in this Article 10 will not be deemed exclusive of any other rights to which an Indemnified Person may be entitled under any agreement, vote of disinterested Directors or otherwise, both as to action in the Indemnified Person's official capacity and as to action in any other capacity while serving in such position, and will continue after such Indemnified Person ceases to serve the Corporation as an Indemnified Person.

Section 10.9 **Enforcement**.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be enforceable notwithstanding that an adverse determination has been made as provided in Section 10.6.

(b) In the event that any action is institute by an Indemnified Person under these Bylaws, such Indemnified Person will be entitled to be paid all court costs and expenses, including reasonable attorneys' fees, incurred by such Indemnified Person with respect to such

action, unless the court determines that each of the material assertions made by such Indemnified Person as a basis for such action was not made in good faith or was frivolous.

Section 10.10 **Severability**. If any provision in this Article 10 is determined by a court to require the Corporation to perform or fail to perform an act which is in violation of any applicable law, this Article 10 shall be limited or modified in its applicable to the minimum extent necessary to avoid a violation of law, and, as so limited and modified, this Article 10 shall be enforceable in accordance with its terms.

Section 10.11 **Successors and Assigns**. The provisions of this Article 10 will be (a) binding upon all successors and assigns of the Corporation (including any transferee of all or substantially all of its assets); and (b) binding on and inure to the benefit of the heirs, executors, administrators and other personal representatives of an Indemnified Person.

Section 10.12 **Amendment of this Article 10** No amendment or termination of this Article 10 will be effective as to an Indemnified Person without prior written consent of that Indemnified Person and, in any event, will not be effective as to any Covered Act of an Indemnified Person occurring prior to the amendment or termination.

Article 11

Non-Profit Status; Relationship to Care New England

Section 11.1 **Non-Profit Status**. The Corporation is not organized for profit, and no part of the net earnings of the Corporation shall inure to the benefit of or be distributable to, any member, trustees, officers or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in the Charter and these Bylaws. In the event of any liquidation or dissolution of the Corporation, no trustee or officer shall be entitled to any distribution or division of the Corporation's property or the proceeds thereof, and upon such liquidation, the Board of Directors, after the payment of all its debts and obligations, shall distribute all of the assets of the Corporation in such manner, and to such organization(s) organized and operated for charitable, scientific and educational purposes as shall

at the time qualify as an exempt organization(s) under the Code, or to such cities, towns and subdivisions thereof, as the Board shall determine.

Section 11.2 **Relationship to Care New England**. In 1992, the Corporation restructured itself and created a parent holding company, Women & Infants Corporation, the Corporate Member. The Corporation and the Corporate Member functioned autonomously until 1996, when they combined with Kent County Memorial Hospital and Butler Hospital to form Care New England, a non-profit holding company of which the Corporate Member and the three (3) hospitals are controlled affiliates. While each hospital within the Care New England system continues to be governed by its governing board in accordance with its corporate mission, Care New England is the sole member of the Corporate Member and the individuals serving as the directors of the Corporate Member are those individuals then-serving as the directors of the Care New England board of directors. Further, the approval of Care New England is required for significant corporate and strategic actions on the part of the Corporation.

Article 12

Amendments

Section 12.1 **Amendments**. These Bylaws may be amended or amended and restated by written consent or approval by the Board in accordance with Section 3.8 or Section 3.10, as applicable and the approval of Care New England.

Article 10

Indemnification

Section 10.1 **Agreement of the Corporation**. In order to induce the individual members (if any), Directors, officers and committee members of the Corporation to serve as such

(each an "**Indemnified Person**"), the Corporation agrees, subject to the exclusions hereinafter set forth, to indemnify an Indemnified Person against, and hold the Indemnified Person harmless from, any Loss or Expense (each as defined in Section 10.2).

Section 10.2 **Definitions**. Capitalized terms used in this Article 10, shall have the meanings set forth below:

(a) "**Covered Act**" means any act or omission by an Indemnified Person in the Indemnified Person's official capacity with the Corporation and while serving as such or while serving at the request of the Corporation as a member of the governing body, officer, employee or agent of another corporation, limited liability company, partnership, joint venture, trust or other enterprise.

(b) "**Excluded Claim**" has the meaning set forth in Section 10.4.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made against the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

Section 10.3 **Advance Payment of Expenses**. The Corporation will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Corporation. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Corporation to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded

Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 10.4 **Exclusions**. The following shall be considered "**Excluded Claims**" and the Corporation will not be liable to pay any Loss or Expense related to any Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Corporation (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Corporation;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

(iii) any transaction from which the Indemnified Person derived an improper personal benefit; or

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 10.5 **Notice to the Corporation; Insurance**. Promptly after receipt by an Indemnified Person of notice of the commencement of or the treat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Corporation under these Bylaws, notify the Corporation of the commencement thereof. If, at the time of the receipt of such notice, the Corporation has any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) in effect, the Corporation will give prompt notice of the commencement of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Corporation will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Corporation will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Corporation is materially prejudiced in its ability to defend against the Proceeding by reason of such failure; or (b) failure to promptly

notify the Corporation causes a delay in notifying any applicable insurer (as described in this Section 10.5) resulting in a denial of coverage.

Section 10.6 **Indemnification**.

(a) Payments on account of the Corporation's indemnity against Loss will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Corporation so determines that the Loss results from an Excluded Claim (although no such determination is required by the Corporation prior to payment of a Loss by the Treasurer of the Corporation), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 10.6(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 10.6(a)(i) or by a committee of the Board established in a manner described in Section 10.6(a)(ii), or (B) if the requisite quorum of the full Board cannot be obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such determination permitted to be made by this Section 10.6(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made pursuant to Section 10.6(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Corporation will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against him or her with respect to any Covered Act, whether or not the Corporation would have the power to indemnify such

Indemnified Person against such liability under the provisions of these Bylaws. The Corporation will be subrogated to the rights of such Indemnified Person to the extent that the Corporation has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided herein.

Section 10.7 **Settlement**. The Corporation will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Corporation's prior written consent. The Corporation will not unreasonably withhold or delay its consent to any proposed settlement. Section 10.8 **Rights Not Exclusive**. The rights provided in this Article 10 will not be deemed exclusive of any other rights to which an Indemnified Person may be entitled under any agreement, vote of disinterested Directors or otherwise, both as to action in the Indemnified Person's official capacity and as to action in any other capacity while serving in such position, and will continue after such Indemnified Person ceases to serve the Corporation as an Indemnified Person.

Section 10.9 **Enforcement**.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be enforceable notwithstanding that an adverse determination has been made as provided in Section 10.6.

(b) In the event that any action is institute by an Indemnified Person under these Bylaws, such Indemnified Person will be entitled to be paid all court costs and expenses, including reasonable attorneys' fees, incurred by such Indemnified Person with respect to such

action, unless the court determines that each of the material assertions made by such Indemnified Person as a basis for such action was not made in good faith or was frivolous.

Section 10.10 **Severability**. If any provision in this Article 10 is determined by a court to require the Corporation to perform or fail to perform an act which is in violation of any applicable law, this Article 10 shall be limited or modified in its applicable to the minimum extent necessary to avoid a violation of law, and, as so limited and modified, this Article 10 shall be enforceable in accordance with its terms.

Section 10.11 **Successors and Assigns**. The provisions of this Article 10 will be (a) binding upon all successors and assigns of the Corporation (including any transferee of all or substantially all of its assets); and (b) binding on and inure to the benefit of the heirs, executors, administrators and other personal representatives of an Indemnified Person.

Section 10.12 **Amendment of this Article 10** No amendment or termination of this Article 10 will be effective as to an Indemnified Person without prior written consent of that Indemnified Person and, in any event, will not be effective as to any Covered Act of an Indemnified Person occurring prior to the amendment or termination.

(b) "**Excluded Claim**" has the meaning set forth in Section 7.04.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made against ~~any~~the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative.

Section 7.03. Advance Payment of Expenses. The Corporation will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Corporation. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Corporation to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 7.04. Exclusions. The following shall be considered "Excluded Claims" and the Corporation will not be liable to pay any Loss or Expense related to any Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Corporation (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Corporation;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

(iii) any transaction from which the Indemnified Person derived an improper personal benefit.

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 7.05. Notice to the Corporation; Insurance. Promptly after receipt by an Indemnified Person of notice of the commencement of or the threat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Corporation under these Bylaws, notify the Corporation of the commencement or threat thereof. If, at the time of the receipt of such notice, the Corporation has any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) in effect, the Corporation will give prompt notice of the commencement or threat of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Corporation will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Corporation will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Corporation is materially prejudiced in its ability to defend against the Proceeding by reason of such failure; or (b) failure to promptly notify the Corporation causes a delay in notifying any applicable insurer (as described in this Section 7.05) resulting in a denial of coverage.

Section 7.06. Indemnification.

(a) Payments on account of the Corporation's indemnity against Loss will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Corporation so determines that the Loss results from an Excluded Claim (although no such determination is required by the Corporation prior to payment of a Loss by the Treasurer of the Corporation), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 7.06(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 7.06(a)(i) or by a committee of the Board established in a manner described in Section 7.06(a)(ii), or (B) if the requisite quorum of the full Board cannot be obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such determination permitted to be made by this Section 7.06(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Corporation except if, in the specific case, a determination is made pursuant to Section 7.06(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Corporation will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against ~~such person and incurred by such person in any such capacity or arising out of such person's status as such~~him or her with respect to any Covered Act, whether or not the Corporation would have the power ~~or obligation~~ to indemnify such ~~person~~Indemnified Person against such liability under the provisions of these Bylaws. The Corporation will be subrogated to the rights of such Indemnified Person to the extent that the Corporation has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided herein.

Section 7.07. Settlement. The Corporation will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Corporation's prior written consent. The Corporation will not unreasonably withhold or delay its consent to any proposed settlement. If the Corporation so consents to the settlement of any Proceeding, or unreasonably withholds or delays such consent, it will be conclusively and irrefutably presumed for all purposes that the Loss or Expense does not constitute an Excluded Claim. If the Corporation reasonably withholds its consent solely on the grounds that the Proceeding constitutes an Excluded Claim, the Indemnified Person may accept the settlement without the consent of the Corporation, without prejudice to such Indemnified Person's rights to indemnification in the event the Corporation does not ultimately prevail on the issue of whether the Proceeding constitutes an Excluded Claim.

Section 7.08. Rights Not Exclusive. The rights provided in this Article ~~VI or~~VII will not be deemed exclusive of any other rights to which an Indemnified Person may be entitled under ~~the Act. any~~ agreement, vote of disinterested Directors or otherwise, both as to action in the Indemnified Person's official capacity and as to action in any other capacity while serving in such position, and will continue after such Indemnified Person ceases to serve the Corporation as an Indemnified Person.

Section 7.09. Enforcement.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be

enforceable notwithstanding that an adverse determination has been made as provided in Section 7.06.

(b) In the event that any action is instituted by an Indemnified Person under these Bylaws, such Indemnified Person will be entitled to be paid all court costs and expenses, including reasonable attorneys' fees, incurred by such Indemnified Person with respect to such action, unless the court determines that each of the material assertions made by such Indemnified Person as a basis for such action was not made in good faith or was frivolous.

Section 7.10. Severability. If any provision in this Article VII is determined by a court to require the Corporation to perform or fail to perform an act which is in violation of any applicable law, this Article VII shall be limited or modified in its applicable to the minimum extent necessary to avoid a violation of law, and, as so limited and modified, this Article VII shall be enforceable in accordance with its terms.

Section 7.11. Successors and Assigns. The provisions of this Article VII will be (a) binding upon all successors and assigns of the Corporation (including any transferee of all or substantially all of its assets); and (b) binding on and inure to the benefit of the heirs, executors, administrators and other personal representatives of an Indemnified Person.

Section 7.12. Amendment of Article VII. No amendment or termination of this Article VII will be effective as to an Indemnified Person without prior written consent of that Indemnified Person and, in any event, will not be effective as to any Covered Act of an Indemnified Person occurring prior to the amendment or termination.

~~ARTICLE XI~~

INDEMNIFICATION

Section 11.12.01. ~~Each person who was, is, or is threatened~~Agreement of the Hospital. In order to ~~be~~ induce the Corporators (if any), Directors, officers and committee members of the Hospital to serve as such (each an "Indemnified Person"), the Hospital agrees, subject to the exclusions hereinafter set forth, to indemnify an Indemnified Person against, and hold the Indemnified Person harmless from, any Loss or Expense (each as defined in Section 12.02).

Section 12.02. Definitions. Capitalized terms used in this Article XII shall have the meanings set forth below:

(a) "**Covered Act**" means any act or omission by an Indemnified Person in the Indemnified Person's official capacity with the Hospital and while serving as such or while serving at the request of the Hospital as a member of the governing body, officer, employee or agent of another corporation, limited liability company, partnership, joint venture, trust or other enterprise.

(b) "**Excluded Claim**" has the meaning set forth in Section 12.04.

(c) "**Expenses**" means any reasonable expenses incurred by an Indemnified Person in connection with the defense of any claim made ~~a named defendant or respondent in~~against the Indemnified Person for Covered Acts including, without limitation, legal, accounting or investigative fees and expenses (including the expense of bonds necessary to pursue an appeal of an adverse judgment).

(d) "**Loss**" means any amount which an Indemnified Person is legally obligated to pay as a result of any claim made against such Indemnified Person for Covered Acts including, without limitation, judgments for, and awards of, damages, amounts paid in settlement of any claim, any fine or penalty or, with respect to an employee benefit plan, any excise tax or penalty.

(e) "**Proceeding**" means any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative~~,~~.

Section 12.03. Advance Payment of Expenses. The Hospital will pay the Expenses of an Indemnified Person in advance of the final disposition of any Proceeding except to the extent that the defense of a claim against such Indemnified Party is undertaken pursuant to any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) maintained by the Hospital. The advance payment of Expenses will be subject to such Indemnified Person's first agreeing in writing with the Hospital to repay the sums paid by it hereunder if it is thereafter determined that the Proceeding involved an Excluded Claim or that such Indemnified Person was otherwise not entitled to indemnification under these Bylaws.

Section 12.04. Exclusions. The following shall be considered "Excluded Claims" and the Hospital will not be liable to pay any Loss or Expense related to any Excluded Claim:

(a) With respect to a Proceeding in which a final non-appealable judgment or other adjudication by a court of competent jurisdiction determines that the Indemnified Person is liable to the Hospital (as distinguished from being liable to a third party) for:

(i) any breach of the Indemnified Person's duty of loyalty to the Hospital;

(ii) acts or omissions not in good faith or which involve any malicious, willful or wanton misconduct or knowing violation of law; or

(iii) any transaction from which the Indemnified Person derived an improper personal benefit.

(b) If a final, non-appealable judgment or other adjudication by a court of competent jurisdiction determines that such payment is unlawful.

Section 12.05. Notice to the Hospital; Insurance. Promptly after receipt by an Indemnified Person of notice of the commencement of or the threat of commencement of any Proceeding, such Indemnified Person will, if indemnification with respect thereto may be sought from the Hospital under these Bylaws, notify the Hospital of the commencement or threat thereof. If, at the time of the receipt of such notice, the Hospital has any directors' and officers' liability insurance (or equivalent insurance or other protection known by another term) in effect, the Hospital will give prompt notice of the commencement or threat of such Proceeding to the insurer in accordance with the procedures set forth in the policy or policies in favor of such Indemnified Person. The Hospital will thereafter take all the necessary or desirable action to cause such insurer to pay, on behalf of such Indemnified Person, all Loss and Expenses payable as a result of such Proceeding in accordance with the terms of such policies. Failure to promptly notify the Hospital will not adversely affect the Indemnified Person's right to indemnification hereunder unless and only to the extent that (a) the Hospital is materially prejudiced in its ability to defend against the Proceeding by reason of ~~the fact that such person is, or was, a Trustee or an officer of the Hospital, or who, while a Trustee or an officer of the Hospital, is or was serving at the request of the Hospital as a Trustee, officer, employee or agent of another foreign or domestic corporation, joint venture, trust, other enterprise or employee benefit plan, shall be indemnified against judgments, penalties, fines, settlements and reasonable expenses (including attorneys' fees) actually incurred by such person in connection with any such action, suit or proceeding to~~ such failure; or (b) failure to promptly notify the Hospital causes a delay in notifying any applicable insurer (as described in this Section 12.05) resulting in a denial of coverage.

Section 12.06. Indemnification.

(a) Payments on account of the Hospital's indemnity against Loss will be made by the Treasurer of the Hospital except if, in the specific case, a determination is made that the indemnification of the Indemnified Person is not proper in the circumstances because such Loss results from an Excluded Claim. If the Hospital so determines that the Loss results from an Excluded Claim (although no such determination is required by the Hospital prior to payment of a Loss by the Treasurer of the Hospital), the determination shall be made:

(i) by the Board by a majority vote of a quorum consisting of Directors not at the time parties to the Proceeding; or

(ii) if a quorum cannot be obtained for purposes of Section 12.06(a)(i), then by a majority vote of a committee of the Board duly designated to act in the matter by a majority vote of the full ~~extent~~ Board (in which designated Directors who are parties to the Proceeding may participate) consisting solely of three (3) or more Directors not at the time parties to the Proceeding; or

(iii) by independent legal counsel designated (A) by the Board in a manner described in Section 12.06(a)(i) or by a committee of the Board established in a manner described in Section 12.06(a)(ii), or (B) if the requisite quorum of the full Board cannot be

obtained therefor and a committee cannot be so established, by a majority vote of the full Board (in which vote Directors who are parties to the Proceeding may participate). If made, any such determination permitted ~~under the Act. The indemnification~~ to be made by this Section 12.06(a) will be made within sixty (60) days of an Indemnified Person's written request for payment of a Loss.

(b) Payment of an Indemnified Person's Expenses in advance of the final disposition of any Proceeding will be made by the Treasurer of the Hospital except if, in the specific case, a determination is made pursuant to Section 12.06(a) that indemnification of such Indemnified Person is not proper in the circumstances because the Proceeding involved an Excluded Claim.

(c) The Hospital will have the power to purchase and maintain insurance on behalf of any Indemnified Person against liability asserted against him or her with respect to any Covered Act, whether or not the Hospital would have the power to indemnify such Indemnified Person against such liability under the provisions of these Bylaws. The Hospital will be subrogated to the rights of such Indemnified Person to the extent that the Hospital has made any payments to such Indemnified Person in request to any insured Loss or Expense as provided ~~by~~herein.

Section 12.07. Settlement. The Hospital will have no obligation to indemnify any Indemnified Person for any amounts paid in settlement of any Proceeding affected without the Hospital's prior written consent. The Hospital will not unreasonably withhold or delay its consent to any proposed settlement. If the Hospital so consents to the settlement of any Proceeding, or unreasonably withholds or delays such consent, it will be conclusively and irrefutably presumed for all purposes that the Loss or Expense does not constitute an Excluded Claim. If the Hospital reasonably withholds its consent solely on the grounds that the Proceeding constitutes an Excluded Claim, the Indemnified Person may accept the settlement without the consent of the Hospital, without prejudice to such Indemnified Person's rights to indemnification in the event the Hospital does not ultimately prevail on the issue of whether the Proceeding constitutes an Excluded Claim.

Section 12.08. Rights Not Exclusive. The rights provided in this Article ~~XI shall~~XII will not be deemed exclusive of any other rights to which ~~those persons seeking indemnification~~ an Indemnified Person may be entitled under any ~~bylaw,~~ agreement, vote of disinterested Directors or otherwise, ~~and shall continue~~ both as to action in the Indemnified Person's official capacity and as to action in any ~~person who~~other capacity while serving in such position, and will continue after such Indemnified Person ceases to serve the Hospital as an Indemnified Person.

Section 12.09. Enforcement.

(a) An Indemnified Person's right to indemnification hereunder will be enforceable by such Indemnified Person in any court of competent jurisdiction and will be enforceable notwithstanding that an adverse determination has ~~ceased to be a Trustee~~been made as provided in Section 12.06.

Care New England Health System (the "**Corporation**") is committed to maintaining the highest standards of integrity, honesty and ethical responsibility in all aspects of our operations and professional and business conduct. The Corporation recognizes that such operations and professional and business conduct involves the expertise and dedication of its employees and members of the community and further recognizes that, in certain instances, the personal and/or business interests of such employees and members of the community may give rise to potential conflicts of interest. This Conflicts of Interest and Confidentiality Policy (the "**Policy**") has been developed with the objective of implementing procedures that involve identification, disclosure, monitoring, and oversight of potentially conflicting interests in order to reconcile any such conflicting interests with an individual's fiduciary duties to the Corporation and its Affiliates (as such term is defined in Section 1.1).

This Policy is intended to supplement but not replace the State of Rhode Island General Laws applicable to conflicts of interests for non-profit corporations set forth in Section 7-6-26.1 of the Rhode Island Non-Profit Corporation Act, as the same may be amended from time to time or any successor provision thereto, and any federal laws governing conflicts of interest applicable to non-profit and charitable organizations.

Article 1
Scope

Section 1.1 Scope. This Policy applies to each director, officer, and member of a committee of Care New England Health System (the "**Corporation**"), and each director, officer, and

RIDOH 0559

member of a committee of Butler Hospital, Butler Hospital Foundation, Women & Infants Corporation, Women & Infants Hospital of Rhode Island, Women & Infants Development Foundation, Kent County Visiting Nurses Association, VNA Foundation, Kent County Memorial Hospital, and Kent Hospital Foundation (each an "**Affiliate**" and collectively, the "**Affiliates**"). As used in this Policy, each director, officer, and member of a committee of the Corporation and/or an Affiliate will be referred to herein as a "**Covered Person**" or collectively, as the "**Covered Persons**").

Article 2
General Duty; Purpose

Section 2.1 General Duty.

(a) As a director, officer or member of a committee of the Corporation and/or an Affiliate, each Covered Person has a duty to discharge his or her duties in good faith and with such care as an ordinarily prudent person in a like position would use under similar circumstances. Further, as a director, officer or member of a committee of the Corporation and/or an Affiliate, each of which is a tax-exempt, charitable organization, all Covered Persons must act in the best interests of the Corporation and its Affiliates. To act in the best interests of the Corporation and its Affiliates, each Covered Person must act in a manner that he or she reasonably believes to be consistent with, and in furtherance of, the charitable purposes of the Corporation and its Affiliates.

(b) In connection with the foregoing, each Covered Person is prohibited from using information obtained as a result of his or her position with the Corporation and/or an Affiliate for personal gain or to assist others in profiting in any way at the expense of the Corporation or any Affiliate, and each Covered Person must disclose in accordance with this Policy any actual or potential personal interest or activity of such Covered Person that influences or appears to influence such Covered Person's ability to act in the best interests of the Corporation or any Affiliate.

Section 2.2 Purpose. The purpose of this Policy is to:

(a) to ensure fair treatment of the Corporation and its Affiliates;

(b) to protect the interests of the Corporation and/or an Affiliate when the Corporation and/or an Affiliate is proposing to enter into a transaction or arrangement that might benefit the private interest of a Covered Person; and

(c) to ensure the protection and preservation of confidential and/or proprietary information that may be disclosed or made available to a Covered Person as a result of his or her position with the Corporation and/or an Affiliate.

RIDOH 0560

Article 3
Duty to Disclose Relationships

Section 3.1 Annual Disclosure. Each Covered Person will, prior to beginning service as a director, officer or member of a committee of the Corporation and/or an Affiliate and on an annual basis thereafter, complete and sign a statement (the "**Related Party Questionnaire**") in which such Covered Person:

(a) discloses the existence and nature of any Relationships (as such term is defined in Section 3.3) with an entity or an individual that does business with, or is a competitor of, the Corporation and/or an Affiliate;

(b) confirms that he or she has received a copy of, and has read and understands, this Policy;

(c) agrees to comply with all of the provisions of this Policy; and

(d) acknowledges and understands that the Corporation and the Affiliates have been organized, and will at all times be operated, in a manner that is consistent with their charitable purposes and that the Corporation and the Affiliates must engage primarily in activities that accomplish one or more of such charitable purposes.

Section 3.2 Ongoing Disclosure. Each Covered Person will have the ongoing duty to disclose the existence and nature, and any material facts, of a Relationship with an entity or an individual when such Covered Person:

(a) has knowledge that a board or committee of the Corporation or any Affiliate is proposing to enter into a transaction or arrangement with such entity or individual; and

(b) is in a position to influence or is in a position that may appear to influence a decision by such board or committee.

In such an event, the Covered Person will disclose the Relationship to the applicable board or committee as soon as practicable, but in any case the disclosure must be made prior to consideration of the transaction or arrangement by such board or committee. Prior submission of the Related Party Questionnaire pursuant to Section 3.1 will not satisfy the duty to disclose in this Section 3.2 as a Relationship may have arisen during the period between submissions of a Related Party Questionnaire.

Section 3.3 Relationship. The following would constitute a "**Relationship**" with an entity or an individual that does business with, or is a competitor of, the Corporation and/or an Affiliate, or an entity or an individual with which the Corporation or any Affiliate proposes to enter into a transaction or arrangement (*e.g.* health care systems, other health care providers, entities which finance the delivery of health care services (such as managed care companies, HMOs, and PPOs), vendors and suppliers):

(a) A Covered Person or an immediate family member of a Covered Person has (directly or through business) a current or pending, as an applicant or candidate, employment arrangement or other similar compensation arrangement (*e.g.* independent contractor agreement, consulting agreement, management agreement, other service agreements) with such entity or individual;

(b) A Covered Person or an immediate family member of a Covered Person currently has or is involved in a transaction that could result in an ownership or investment interest (directly or through business) with such entity or individual (this excludes an ownership or investment interest in a non-controlling minority interest in a publicly held entity);

(c) A Covered Person or an immediate family member of a Covered Person receives any other compensation from such entity or individual (*e.g.* receipt of gifts or other items each having a value of **twenty-five dollars ($25)** or more (or having a value of **twenty-five dollars ($25)** or less but exceeding an annual aggregate (12 consecutive months) of **two hundred dollars ($200)**), or acceptance of meals or entertainment having a value of **seventy-five dollars ($75)** or more (or having a value of **seventy-five dollars ($75)** or less but exceeding an annual aggregate (twelve consecutive months) of **two hundred dollars ($200)**); or

(d) A Covered Person or an immediate family member of a Covered Person is in a position to influence or is in a position that may appear to influence a decision by such entity or individual (*e.g.* service on a board or committee or familial relationship with an individual).

The presence of a Relationship does not necessarily mean that a Covered Person has a conflict of interest; rather, a Covered Person has a conflict of interest only if it is determined by the applicable board or committee that the presence of such Relationship gives rise to a conflict of interest.

Article 4
Evaluation of Relationships

Section 4.1 Evaluation of Related Party Questionnaires. As part of the Corporation's compliance program, all Related Party Questionnaires submitted pursuant to Section 3.1 will be reviewed by the office of the Director, CNE Compliance Services (the "**Compliance Office**"), in conjunction with the Corporation's legal department (as the Director, CNE Compliance Services (the "**CNE Compliance Officer**") deems necessary). The CNE Compliance Officer will determine whether any disclosures on a Related Party Questionnaire require implementation of a conflict of interest management plan with respect to such disclosure and if so, will make such management plan recommendations to the Audit & Compliance Committee of the Corporation (the "**Audit Committee**"). Any Audit Committee action to implement or modify a management plan will be made by members of the Audit Committee that are disinterested in the matter under review.

Section 4.2 Evaluation of Ongoing Disclosures. In the event a disclosure is made by a Covered Person pursuant to Section 3.2, then the applicable board or committee will:

RIDOH 0562

(a) discuss (which may or may not, as determined by a majority of disinterested members of such board or committee, involve excusing the Covered Person disclosing the Relationship from the meeting) the Relationship disclosed by the Covered Person at the meeting at which the disclosure is made (or, if the disclosure was made prior to the meeting, then at the applicable board or committee meeting following such disclosure);

(b) after discussion, such board or committee will determine, by majority vote of the disinterested members of such board or committee, whether the Relationship gives rise to a conflict of interest; and

(c) if such board or committee determines that the Relationship gives rise to a conflict of interest, then such board or committee will determine whether to enter into the proposed transaction or arrangement giving rise to the conflict of interest in accordance with Section 5.4.

Article 5
Procedures for Addressing a Conflict of Interest

Section 5.3 Conflict of Interest – Management Plan. Any consideration of a transaction or arrangement by a board or committee that involves a Covered Person that has a conflict of interest management plan will be taken in accordance with such conflict of interest management plan and taking into consideration those items set forth in Section 5.4(b)(i) through Section 5.4(b)(iv).

Section 5.4 Conflict of Interest – Ongoing Disclosure. In the event the applicable board or committee determines that a conflict of interest exists as a result of a disclosure by a Covered Person pursuant to Section 4.2, then such board or committee will:

(a) excuse the Covered Person with the conflict of interest from that portion of the meeting(s) where the proposed transaction or arrangement will be discussed;

(b) engage in an open discussion to determine whether the proposed transaction or arrangement that involves the conflict of interest:

(i) is in the best interests of the Corporation or Affiliate, as the case may be;

(ii) is for the Corporation's or Affiliate's, as the case may be, own benefit;

(iii) is fair and reasonable to the Corporation or Affiliate, as the case may be; and

(iv) is on terms no less favorable than is available from unrelated third parties on an arms-length basis.

RIDOH 0563

(c) determine, by majority vote of the disinterested members of such board or committee, whether to enter into such transaction or arrangement taking into consideration those items set forth in Section 5.2(b)(i) through Section 5.2(b)(iv).

Notwithstanding Section 5.2(a), the chairperson of the applicable board or committee may, at his or her discretion and consistent with any applicable management plan, allow the Covered Person with the conflict of interest to remain at the meeting during the discussion portion of the meeting(s) set forth in Section 5.4(a) and Section 5.4(b); provided, however, that such Covered Person will be excused prior to the final deliberation and vote pursuant to Section 5.4(c).

Section 5.5 Investigation of Alternatives. A board or committee may, prior to making a decision with respect to a proposed transaction or arrangement that involves a conflict of interest pursuant to Section 5.4(c), determine that it is appropriate to investigate alternatives to such proposed transaction or arrangement and may appoint a disinterested person or committee to investigate alternatives to the proposed transaction or arrangement and defer taking action on the proposed transaction that involves the conflict of interest until such time as the disinterested person and/or committee has had the opportunity to investigate alternatives and make a report to the applicable board or committee.

Article 6
Violations of the Policy

Section 6.6 Violations of the Policy. If any board, committee or Covered Person has reasonable cause to believe that a Covered Person has violated any provision in this Policy, including failure to disclose a Relationship, then such board, committee or Covered Person will inform the CNE Compliance Officer and the chairperson of the applicable board or committee, except to the extent that the alleged violation involves the CNE Compliance Officer and/or the chairperson of the applicable board or committee, in which case such board, committee or Covered Person will inform the President and Chief Executive Officer of the Corporation, the Audit Committee or the Board of Directors of the Corporation (the "**CNE Board**"), as deemed appropriate. The CNE Compliance Officer or the applicable board or committee (or in the event the alleged violation involves the CNE Compliance Officer and/or the chairperson of the applicable board or committee, the CNE CEO, the Audit Committee or the CNE Board), as applicable:

(a) will notify the Covered Person alleged to have violated the Policy of the basis for such belief;

(b) will afford the Covered Person an opportunity to explain the alleged violation;

(c) may conduct such further investigation as the CNE Compliance Officer or the CNE Board, as applicable determines necessary; and

(d) determine what action (*e.g.* disciplinary, corrective or recommendation to the CNE Board or Audit Committee in the case of the CNE Compliance Officer), if any, is necessary to protect the interests of the applicable Corporation or the Affiliate.

RIDOH 0564

Potential violations of this Policy will be properly documented and, as necessary, recorded in the applicable board or committee minutes in accordance with Section 8.1(c).

Article 7
Compensation Related Conflicts

Section 7.7 Compensation-Related Conflicts. A Covered Person who receives compensation, directly or indirectly, from the Corporation or an Affiliate for services may not vote on matters that may directly or indirectly relate to such Covered Person's compensation; provided, however that such Covered Person may provide information regarding compensation to any board or committee.

Section 7.8 Physicians. Physicians who receive compensation from the Corporation or an Affiliate, whether directly or indirectly, or as employees or independent contractors, may not serve on any committee whose duties and responsibilities include matters related to compensation. However, a physician may provide information regarding compensation to any committee.

Article 8
Minutes

Section 8.1 Minutes. The review and any specific actions regarding any management plans described in Section 4.1, the disclosures and procedures described in Section 3.2, Section 4.2, and Section 5.4 and any actions by the CNE Board or Audit Committee in connection with potential violations of this Policy will be recorded in the applicable board or committee minutes. Such minutes will include, as applicable:

(a) The names of the Covered Person, the nature of the potential conflict of interest, such board's or committee's decision as to whether a conflict of interest existed and any actions taken by such board or committee to make such decision;

(b) The names of the persons who were present for discussions and votes relating to the proposed transaction and arrangement, the content of discussion, including any alternatives to the proposed transaction and arrangement, and a record of any votes taken in connection with the proceedings, including abstentions and recusals; and

(c) The names of the Covered Person who allegedly violated this Policy, the names of the persons who were present for the discussions relating to the alleged violation, the content of discussion, and a record of any votes taken with respect to whether a violation in fact occurred and the disciplinary or other corrective action taken in connection therewith, if any.

Article 9
Reviews; Use of Experts

Section 9.2 Reviews. To ensure that the Corporation and the Affiliates operate in a manner that is consistent with their charitable purposes and that the Corporation and the Affiliates do not

RIDOH 0565

engage in activities that could jeopardize the tax-exempt status of the Corporation or any of the Affiliates, the Corporation will ensure that the CNE Compliance Officer conducts periodic reviews of the operations of the Corporation and the Affiliates. Such periodic reviews will be conducted at such times as determined by the CNE Compliance Officer and/or the CNE Board and may include a review to ensure that any compensation arrangements, partnership arrangements, joint ventures and/or other arrangements with third parties are consistent with applicable policies, are properly documented and reflect reasonable payment for goods and services, further charitable purposes and do not result in inurement or impermissible private benefit or in an excess benefit transaction.

Section 9.3 Use of Experts. Outside advisors may, but need not be, used in conducting the period reviews provided for in Section 9.2. If outside advisors are used, their use will not relieve the CNE Board of its responsibility for ensuring that periodic reviews are conducted.

Article 10
Confidentiality

Section 10.1 Confidentiality.

(a) Each Covered Person, during his or her service to the Corporation and/or an Affiliate and thereafter, shall maintain in confidence, shall keep absolutely secret, and shall not disclose to any person or entity, or make any copy of or reproduce in any form or otherwise publicize, any Confidential Information, without the prior written consent of the Corporation. "**Confidential Information**" includes all information, documents, agreements, reports, work-product, analysis, compilations, studies or any other data disclosed to the Covered Person by the Corporation, an Affiliate or any of its/their affiliates, members, shareholders, officers, directors, trustees, managers, employees, agents, consultants and/or other representatives during the course of such Covered Person's service to the Corporation and/or an Affiliate, including, but not limited to: (i) the programs, policies, trade secrets, patient lists, physician lists, patient programs, patient charts, records, files, documents, and computer data of the Corporation and any of its affiliates; and (ii) information relating to the Corporation's and any of its affiliate's business processes and practices, financial and billing matters, techniques, employees, programming and formation information, trade "know how," third party and other contacts, pricing policies, operational methods, marketing plans or strategies, business acquisition plans, new personnel acquisition plans, technical processes, and other information of any kind that a Covered Person may have access to as a result of his or her service to the Corporation and/or an Affiliate.

(b) Additionally, each Covered Person (i) shall not use any Confidential Information to compete with, obtain an advantage against, or use adversely to the Corporation or any Affiliate in any transaction or arrangement or any legal proceeding; (ii) shall comply with any security measures that may be requested by the Corporation; and (iii) shall return all Confidential Information in tangible form and in his or her possession, or will delete or destroy the same, upon the request of and as directed by, the Corporation.

Section 10.2 Exclusion from Confidentiality. Notwithstanding Section 10.1(a), Confidential Information does not include: (a) information that is or becomes generally available to the public or common knowledge other than as a result of a breach of Section 10.1(a) by a Covered

RIDOH 0566

Person; (b) information that is lawfully received by a third party with no restriction on further disclosure; or (c) information that is required to be disclosed by law or by a judicial, administrative or regulatory authority.

RIDOH 0569

I. COMPLIANCE POLICY STATEMENT

Care New England Health System ("CNE") is dedicated to maintaining excellence and integrity in all aspects of its operations and its professional and business conduct. Accordingly, CNE is committed to conformance with high ethical standards and compliance with all governing laws and regulations not only in the delivery of health care but in its business affairs and its dealings with employees, administrative staff, physicians, agents, third party payers and the communities it serves. It is the personal responsibility of all who are associated with CNE to honor this commitment in accordance with the terms of the CNE Code of Conduct, and related policies, procedures and standards developed by CNE in connection with the Corporate Compliance Program.

II. PURPOSE OF COMPLIANCE PROGRAM

The CNE Corporate Compliance Program (the "Program") is intended to provide reasonable assurance that CNE:

- complies in all material respects with all federal, state, local laws, third party payors and regulations that are applicable to its operations;
- satisfies the conditions of participation in health care programs funded by the state and federal government and the terms of its other contractual arrangements;
- detects and deters criminal conduct or other forms of misconduct by trustees, officers, employees, medical staff, agents and contractors that might expose CNE to significant civil liability;
- promotes self-auditing and self-policing, and provides for, in appropriate circumstances, voluntary disclosure of violations of laws and regulations; and
- establishes, monitors, and enforces high professional and ethical standards.

III. SCOPE OF COMPLIANCE PROGRAM

The provisions of the Program apply to all medical, business, and legal activities performed by CNE employees, medical staff, residents, agents and contractors. The expectations for CNE employees regarding compliance with the Program are as follows:

- comply with the CNE mission statement, vision and the CNE Code of Conduct;
- familiarize themselves with the purpose of the Program;
- perform their jobs in a manner which demonstrates commitment to compliance with all applicable laws and regulations;
- report known or suspected compliance issues to the Chief Compliance Officer or his/her designee and investigate or participate in investigations to the point of resolution of all alleged violations; and
- strive to prevent errors and provide suggestions to reduce the likelihood of errors.

IV. CNE COMPLIANCE PROGRAM ELEMENTS

The CNE Compliance Program (Program) is based on the U.S. Department of Health and Human Services Office of Inspector General ("OIG") Compliance Program Guidance for Hospitals, published in February 1998 and the Supplemental Guidance published in January 2005. The Program contains several elements. All elements are designed to prevent, detect, and respond to business conduct that does not conform to applicable laws or regulations.

Initial Guidance

- **Code of Conduct** - the development and distribution of the Code and related reporting procedures, as well as the development of new or revised written policies and procedures that further promote CNE's commitment to compliance.

- **Structure and Oversight of the Compliance Program and Establishment of a Compliance Officer.**

- **Education and Training Program** – to provide general compliance information to potentially the entire employee population as well as focused technical training of those functional areas that have the ability to put CNE at a greater degree of compliance exposure.

- **Compliance Hotline** - to receive complaints confidentially and to provide protection from retaliation to all individuals who report in good faith concerns via a ***Compliance Hotline*** call or other methods of communication.

- **Sanction or Disciplinary Action Enforcement** - the enforcement of appropriate sanctions or disciplinary actions against employees, physicians, or on-site agents or contractors who violate compliance policies, applicable laws or regulations or federal health care program requirements.

- **Monitoring** - the performance of audits and risk assessments to monitor compliance and assist in the reduction of identified problem areas.

- **Investigation and Remediation** - the investigation and remediation of identified systemic problems and the development of policies addressing the non employment or retention of Medicare sanctioned individuals.

CNE intends that its Program will significantly reduce the risk of unlawful conduct in our operations. This program will demonstrate our good faith effort to comply with applicable statutes, regulations, and other Federal health care program requirements.

Supplemental Guidance

CNE operates in a complex environment, needs to recognize numerous regulatory bodies, and is exposed to various risks. Multiple individuals and groups throughout the organization are charged with managing our compliance with various agencies, such as accreditation commissions and state employment mandates. All necessary resources are engaged to fully discharge our various responsibilities throughout the organization. The Program is designed to focus on those areas of potential risk that are most relevant as a result of our participation in Federal and State healthcare

programs. Accordingly, while not an all-inclusive list, the following are addressed through the Program:

- Submission of accurate claims and the Federal False Claims Act
- Health Insurance Portability and Accountability Act Privacy and Security Rules (HIPAA)
- The referral statutes: The Physician Self-Referral Law (a.k.a. the "Stark" Law) and the Federal Anti-Kickback Statute
- The Emergency Medical Treatment and Active Labor Act (EMTALA)
- Inducements to Medicare or Medicaid beneficiaries
- Payments to reduce or limit services, including suspect gainsharing arrangements
- Quality of care which fails to meet professionally recognized standards of health care
- Billing Medicare or Medicaid substantially in excess of usual charges
- Conflict of Interest

V. CNE CODE OF CONDUCT (excerpted from the CNE Code of Conduct Policy)

The Code of Conduct contains principles articulating the policy of CNE and standards which are intended to provide additional guidance and to further clarify this policy. All employees are responsible for ensuring that their behavior and activity is consistent with the Code of Conduct.

Although the Code of Conduct is most likely to have application to employees, it also applies to all trustees, directors, employees and volunteers unless a narrower scope of applicability is specified for any specific Principle or Standard. For purposes of the Code, CNE includes Covered Individuals associated with that entity or with any of its controlled affiliates; Butler Hospital, Kent County Memorial Hospital, Women & Infants Hospital, VNA of Care New England, Care New England Wellness Centers, LLC, and HealthTouch, Inc.

Core Principles

The core principles upon which the accompanying CNE Code of Conduct are based on the following:

- Honesty in all matters;
- Compliance with applicable laws and regulations;
- Respect and consideration for other people; and
- Advancement of the best interests of the company and its affiliates.

Purpose

The Code of Conduct has been adopted by the CNE Board of Directors to provide standards by which persons acting on behalf of CNE or its affiliates should conduct themselves to protect and promote organization-wide integrity and to enhance CNE's ability to achieve its mission.

Who is covered by this policy

This policy applies to all trustees, directors, employees and volunteers of CNE and those entities controlled by CNE. (These individuals are called "Covered Individuals" in this document.) Those engaged to represent or speak on behalf of CNE or its affiliates are also expected to conduct themselves in accordance with this policy.

Code of Conduct Standards

Legal Compliance

- All Covered Individuals should comply with all applicable federal, state and local laws and regulations when acting on behalf of Care New England. If you believe you may be facing a decision involving a possible violation of these laws you should seek advice from the Office of General Counsel or the office of the Compliance Officer.

Business Ethics

- Covered Individuals must accurately and honestly represent CNE and must not engage in any activity or scheme intended to defraud anyone of money, property or honest services.

Business Relationships

- Business transactions with vendors, contractors and other third parties must be made based upon quality, price and the best interests of CNE, free from improper or extraneous influences.

Confidentiality

- Every CNE Covered Individual has an obligation under applicable legal and ethical standards to actively protect and safeguard confidential, sensitive and proprietary information and to prevent its unauthorized disclosure.

Conflicts of Interest

- Directors, trustees and officers of CNE having the rank of Associate Vice President or above owe a duty of undivided and unqualified loyalty to the organization. Persons holding such positions may not use their positions to profit personally or to assist others in profiting in any way at the expense of CNE. All such persons are expected to avoid actual or apparent impropriety which might arise from the influence of their activities on CNE's business decisions or from disclosure or private use of CNE's business affairs or plans. Covered Individuals should avoid participation in decisions regarding engagements of organizations that will create or perpetrate conflicts of interest on their part.

Protection of Assets

- All employees must strive to preserve and protect CNE's assets by making prudent and effective use of its resources and by properly and accurately reporting its financial condition.

VI. OBLIGATION TO REPORT

As an organization, we are committed to delivering superior healthcare within the appropriate regulatory framework and in compliance with all applicable laws, statutes, regulations and guidance. All members of our health system community have a fundamental responsibility to report possible compliance issues. Any CNE employee who reports suspected misconduct and does so with a reasonable belief that the activity is a violation of a state, federal, local law or regulation is protected from retaliation by our non-retaliation policy # CNE-GC-04, 9/1/2009. This policy protects employees

RIDOH 0573

from adverse actions or credible threats of adverse actions taken against them as a result of a good faith allegation of misconduct.

Reporting Procedures

Examples of Violations of the Code of Conduct

Any illegal, unethical, or improper activities need to be reported, investigated and rectified. Violations of the CNE Code of Conduct and the Compliance Program include, but are not limited to, violations of any of the following:

- medical reimbursement regulations;
- research-related regulations and policies ;
- health, safety and environmental laws;
- harassment/discrimination laws;
- conflicts of interest;
- unauthorized access and/or wrongful disclosure of confidential information;
- other HIPAA related privacy matters;
- internal accounting controls; and
- government contracts.

Disciplinary Action

Disciplinary action for violations of the Code of Conduct and other CNE policies and procedures shall be enforced through the CNE disciplinary policies and procedures. Disciplinary actions will be determined on a case-by-case basis and may include dismissal from employment. CNE will cooperate with law enforcement authorities in connection with the investigation and prosecution of the offender.

How to Report a Violation of the Code of Conduct

As a member of the CNE community, you have a responsibility to "Do The **RIGHT THING.**" It is the duty of each member of the CNE community to uphold the standards set forth in the Code of Conduct and to report violations by following the reporting procedures outlined by CNE as then in effect. Alleged violations of the Code of Conduct or other policies and procedures of CNE will be investigated by persons designated by and pursuant to procedures established by CNE.

You should report a violation of the Code of Conduct to your immediate supervisor, manager. Officers, managers and supervisors of CNE have a special duty to adhere to the principles set forth in the Code of Conduct, to support other members of the CNE community in their adherence to the Code, to recognize and detect violations of the Code, and to enforce the standards set forth herein.

If you are not comfortable talking with your supervisor or not satisfied with the answer, go to the next higher level. We encourage you to seek out another CNE resource such as Human Resources, Risk Management, General Counsel or the Compliance Office. If your previous reports have not been acted upon, or for any other reason, you should call or notify:

Whistleblower Protections Under the Law

- **Federal Whistleblower Laws**

  In 1986, Congress added anti-retaliation protections to the False Claims Act (31 U.S.C. Sec. 3730(h)). The law provides protection against retaliation for any employee who is discharged, demoted, suspended, threatened, harassed, or discriminated against in the terms and conditions of employment for the employees legal actions involving investigation, initiation, testimony, or assistance in an action filed or to be filed under the False Claims Act. The protection against retaliation extends to whistleblowers whose allegations could legitimately support a False Claims Act case even if the case is never filed. The statue of limitations is six years in most jurisdictions.

- **State Whistleblower Protection Laws**

  The Rhode Island Whistleblower's Protection Act (R.I. General Laws § 28-50—1 to § 28-50-9) protects employees from discharge, threat, or discrimination against compensation, terms, conditions, location, or employment privileges because an employee reports or is about to report a violation, or is requested to participate in an investigation, hearing, inquiry, or court action. If the employee knows or has reason to know that the report is false, there is no protection under this law.

VII. COMPLIANCE OFFICER

The Compliance Officer ("CCO") reports to the the Board of Trustees through the Board's Audit Committee, the Chief Legal Counsel, and the President and Chief Executive Officer of Care New England (see attachment A). The CCO has primary responsibility for developing and implementing the compliance program as commissioned by the Audit Committee. The CCO is assisted by others in the Compliance Office. The CCO's primary responsibilities include:

- overseeing and monitoring the implementation of the CNE Compliance Program. The CCO will work with the CEO and appropriate hospital administrators to develop a Compliance Workplan to guide implementation of the Compliance Program;

- reporting to the Board's Audit Committee on the progress of Compliance Program implementation. Included in such reports will be new compliance issues, plans for investigation, status of previously initiated investigations, timing and adequacy of corrective action plans implemented, and designs for ongoing and future monitoring;

- performing an annual review of the Program Description and periodically revising the Compliance Program in light of changes in the needs of the organization, and in the laws and policies and procedures of government and private payor health plans and third party payors;

- developing, coordinating, and participating in an educational and training program that focuses on the elements of the Program, and ensures that all appropriate employees and management are knowledgeable of, and comply with, pertinent federal and state standards;

- ensuring that independent contractors and agents who furnish services to CNE are aware of the applicable requirements of the Program with respect to coding, billing, and marketing;

- coordinating personnel issues with CNE's Human Resource and Medical Staff Office personnel to ensure that the National Practitioner Data Bank and Cumulative Sanction Reporting have been monitored on a monthly basis with respect to all employees, medical staff and independent contractors;

- assisting CNE financial management by coordinating internal compliance review and monitoring activities, including annual or periodic reviews of certain departments that have the potential to become involved in compliance issues;

- independently investigating and acting on matters related to compliance, including the design and coordination of internal investigations that respond to reports of problems or suspected violations, and any resulting corrective action with CNE departments, providers and sub-providers, agents and, if appropriate, independent contractors. The CCO and his/her designee have the authority to review all documents and other information that are relevant to compliance activities;

- monitoring the ***Compliance Hotline*** to ensure that members of the CNE community are able to report suspected improprieties without fear of retribution, and implementing processes to investigate, resolve and document all issues reported via the ***Compliance Hotline*** or other methods of communication; and

- responding, in conjunction with General Counsel, to external agency requests regarding compliance issues.

VIII. CORPORATE COMPLIANCE COMMITTEE

CNE shall have a Corporate Compliance Committee ("Compliance Committee") that meets quarterly, comprised of representatives from appropriate clinical and administrative areas. The Compliance Committee members should have broad backgrounds and experience levels and expertise in operations, monitoring quality, service delivery and legal/regulatory compliance. The primary purpose of the Compliance Committee is to provide tactical leadership to the Program. This includes assessing risk areas, recommending audits and reviewing the results.

IX. BOARD OVERSIGHT

CNE's Board of Trustees, acting through its Audit Committee, exercises regular oversight with respect to the Program. Specific oversight activities include the following: 1) receiving reports directly from the CCO on a periodic (at least quarterly) basis; and 2) workplans, audits, and reviews of the Program effectiveness.

X. EDUCATION AND TRAINING

The CCO has developed a policy on the dissemination and implementation of the Program and other compliance education/training initiatives. The policy states that:

- All employees will be introduced to and trained in the Program, the CNE Code of Conduct and compliance policies and procedures. Such training will reinforce the need for strict compliance with the law and will advise employees that any failure to comply will be documented on the employees' performance evaluation and may result in disciplinary action.

- Within 90 days of their dates of hire, new employees will be introduced to the Code of Conduct, informed of the Program and informed of the ways in which they may access the CCO and the ***Compliance Hotline*** service.

- Focused in-service training will be provided annually to employees involved in the assignment of diagnosis and procedure codes for billing government and the party payor programs.

- CNE will make compliance training available to physicians, to the extent feasible, and will use its best efforts to encourage physician attendance and participation.

- Attendance at all training programs will be monitored, properly documented, and maintained.

- Training materials and a system to document that such training has occurred will be developed jointly by the Compliance Office and Human Resources (HR).

XI. CNE COMPLIANCE COMMUNICATION

Methods of communication for employees in order to promote prompt disclosure and investigation of potential violations of law and of the Program are as follows:

Direct Access to the Compliance Office

CNE recognizes that an open line of communication between the Compliance Office and CNE personnel is critical to the success of the Program. In addition to using ***Compliance Hotline***, members of the CNE community are strongly encouraged to report incidents of potential fraud or to seek clarification regarding legal or ethical concerns directly from the Compliance Office. The CNE Compliance Officer can be directly contacted at (401) 453-7534.

Employees who, in good faith, report possible compliance violations will not be subjected to retaliation or harassment as a result of their reports. Retribution related to reporting of compliance concerns is prohibited and anyone who engages in such prohibited activity will be subject to disciplinary action. Concerns about possible retaliation or harassment should be reported to the CNE CCO or his/her designee. All such communications will be kept as confidential as possible but there may be times when the reporting individual's identity may become known or may have to be revealed if governmental authorities become involved.

The CCO will seek advice and guidance directly from General Counsel to assist in the investigation of fraud and abuse reports concerning members of the CNE community who may have participated in illegal conduct or committed other misconduct or offenses.

Compliance Hotline – (1-877 TELL- CNE)

A key element of the CNE Compliance Program is the telephone service called the ***Compliance Hotline*** that can be accessed by dialing **1-877-835-5263**. The ***Compliance Hotline*** is a completely confidential resource that can be used anonymously to allow all members of the CNE community to voice concerns over any situation that may conflict with CNE's commitment to excellence or to report misconduct that could give rise to legal liability if not corrected. An impartial independent company transcribes information reported by callers and communicates this information to the CCO or his/her

designee so that appropriate verification, investigation and resolution can take place. A unique code is assigned to each call for follow-up communication by the anonymous caller.

A log is maintained of all ***Compliance Hotline*** calls, the results of investigations and continued monitoring, if applicable. Reports of ***Compliance Hotline*** calls, summarized by category and by operational area, will be provided at least annually to identify any significant trends or patterns for members.

The CCO provides regular reports to the Board's Audit Committee that summarizes ***Compliance Hotline*** usage as well as any material findings from investigations resulting from calls and other similar communications.

New Employee and Volunteer Policy

For new employees and volunteers, we will conduct a reasonable and prudent background investigation, including reference and criminal background check as part of the application process. The application process specifically requires the applicant to disclose any criminal conviction, as defined by federal law.

The Program prohibits the execution of contracts with companies or individuals that have been recently convicted of a criminal offense related to health care, or that are listed by a federal agency as disbarred, excluded, or otherwise ineligible for participation in federal heath care programs. In addition, pending the resolution of any criminal charges or proposed debarment or exclusion, such individuals or companies may be removed from direct responsibility for, or involvement in, any federal health care program. Prospective employees who have been officially reinstated into the Medicare and Medicaid programs may be considered for employment upon reinstatement.

With regard to current employees, volunteers, or independent contractors, if resolution of the matter results in conviction, debarment or exclusion, we will terminate our employment or contract arrangement.

Record Retention

CNE is committed to complying with the record and documentation requirements under federal or state law and to the maintenance and retention of records and documentation necessary to confirm the effectiveness of CNE's Program. Such documentation includes, but is not limited to, a ***Compliance Hotline*** log, minutes of Compliance Committee meetings, educational presentation overviews, handouts and attendance sheets and documentation of ongoing auditing and monitoring efforts.

XII. INVESTIGATION AND REMEDIATION

The CCO has the authority to investigate any potential compliance issues, and to direct others to do so and shall report the results to the President and CEO of CNE. The CCO or his/her designee will:

- promptly initiate an investigation of a potential compliance issue to make a case-by-case determination as to whether a violation has occurred. The CCO will either personally conduct the investigation or refer the complaint to a more appropriate area either within CNE or outside, such as internal or outside legal counsel, auditors or health care consultants with needed expertise. The CCO may request assistance in the investigation from the person or persons who filed a complaint, other personnel or external sources, as appropriate.

- request general counsel to participate in the investigation and provide legal advice in any such matter, as appropriate. When the investigation is referred to general counsel, the fact gathering is to be conducted under counsel's direction and control. All members of the CNE community are obligated to cooperate and to communicate with counsel in confidence.

- prepare a report of each investigation which will include documentation of the issue and, as appropriate, a description of the investigative process, copies of interview notes and key documents, a log of the witnesses interviewed and the documents reviewed, the results of the investigation, any disciplinary action and the corrective action implemented to prevent recurrence. Reports of each investigation and the status of the corrective action will be presented to CNE Board's Audit Committee on a quarterly basis, or as necessary.

- work with relevant areas within CNE to ensure return of discovered overpayments to the relevant government programs.

- report violations of criminal, civil or administrative law to the appropriate federal and/or state authority and CNE's Boards Audit Committee within a reasonable time period after determining that there is credible evidence of such violation.

XIII. MONITORING

As outlined in Section VII, one of the principal responsibilities of the CCO is to oversee and monitor the implementation of the Program. The CCO develops a Compliance Workplan to track implementation of the Program. The Compliance Workplan will include an annual identification of areas which require monitoring, with proposed timetables and personnel assignments. Progress reports of the ongoing monitoring activities, including identification of suspected noncompliance, will be maintained by the CCO and shared with the Compliance Committee, and the CNE Board's Audit Committee.

Monitoring techniques that will be used by the CCO include, but are not limited to the following:

- compliance audits focused on those areas within CNE that have potential exposure to government enforcement actions as identified in (i) Special Fraud Alerts issued by the Office of Inspector General (OIG), (ii) OIG Annual Workplan, (iii) Medicare administrative contractor reviews and (iv) law enforcement initiatives;

- periodic reviews in the areas of Program dissemination, communication of CNE's compliance standards and Code of Conduct, availability of ***Compliance Hotline*** and adequacy of compliance training and education to ensure that the Program's compliance elements have been satisfied in terms of CNE conformance. The review process will be conducted through on-site interviews and survey questionnaire completion by key management in operations, medical records, coding, billing and patient care; and

- subsequent reviews to ensure that corrective actions have been effectively and completely implemented.

XIV. CORRECTIVE ACTION PLANS

When a compliance issue that has been identified requires remedial action, the appropriate department or administrative personnel responsible for the activity should develop a corrective action plan which specifies the tasks to be completed, completion dates, and responsible parties. In developing such a plan, the responsible personnel will obtain advice and guidance from the CCO, general counsel and other appropriate personnel, as necessary. Each corrective action plan must be approved by the CCO or his/her designee prior to implementation. The CCO has the obligation to report directly to the CNE Board's Audit Committee on (i) the implementation of all corrective action plans; (ii) compliance issues for which corrective action plans have not been implemented; and (iii) the results of the corrective action plans.

A corrective action plan should ensure that the specific issue is addressed and that similar problems will not occur in other areas or departments, to the extent possible. Corrective action plans may require that compliance issues be handled in a designated way, that relevant training takes place, that restrictions be imposed on particular employees, or that the matter be disclosed externally. Sanctions or discipline, in accordance with the standard disciplinary policies and procedures of CNE may also be recommended.

XV. SANCTIONS

CNE believes that all members of the CNE community are responsible for complying with the CNE Corporate Compliance Program, Code of Conduct and related policies and procedures. Corrective action for noncompliance will be initiated by the appropriate management personnel, who must notify Human Resources in accordance with the standard disciplinary policies and procedures of CNE. Enforcement will be administered by the parties identified by the CCO in consultation with the immediate supervisor and, if appropriate, Human Resources. Disciplinary actions will be determined on a case-by-case basis and will be taken appropriately, equitably and consistently, given the underlying circumstances and the degree of negligence or reckless conduct.

Physicians who violate the Program will be disciplined in accordance with the peer review procedures established in the medical staff bylaws of CNE.

XVI. COMPLIANCE EFFECTIVENESS REVIEW

Indentify, monitor and implement New OIG guidance on an ongoing basis and present to the Audit Committee for proper approval.

Periodic reviews of the effectiveness of the CNE Compliance Program shall be conducted by outside counsel, auditors or consultants, and internal reviews coordinated by the CCO of CNE shall be conducted annually.

XVII. SUMMARY

The CNE commitment to excellence and integrity means more than just doing the best job possible. It is our commitment to **Doing The RIGHT THING.**

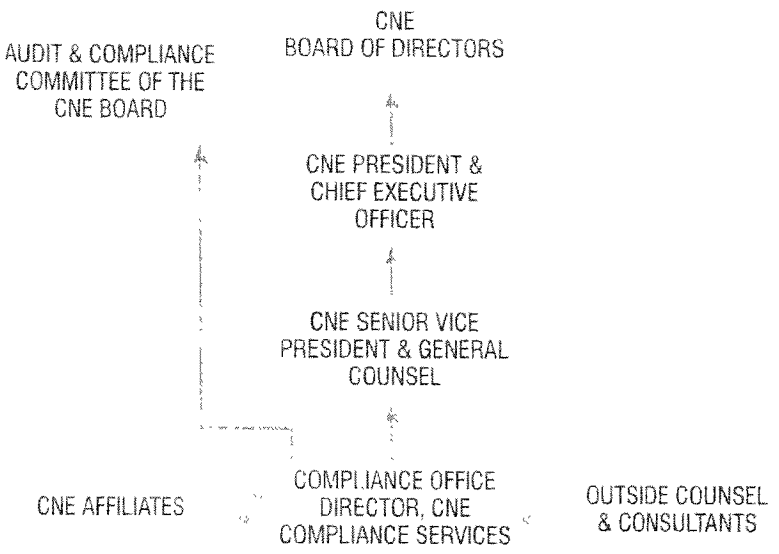
The Compliance Officer reports to the Senior Vice President and General Counsel ("CNE General Counsel") on compliance matters and does so in accordance with the protocols set forth in CNE's Compliance Officer-General Counsel Communication Policy. However, the Compliance Officer has, at all times, unrestricted and direct access to the President and Chief Executive Officer of CNE (the "CNE CEO"), the Audit Committee, and/or the full CNE Board and may choose, in his or her discretion, to bypass the CNE General Counsel and report a compliance matter directly to the CNE CEO, the Audit Committee and/or the full CNE Board. Above is a basic diagram of the Compliance Program's internal organization reporting structure.



How to Report—ComplianceLine

As a member of the Care New England team, Individuals have the responsibility to *Do The RIGHT THING*. Individuals are encouraged to ask questions and have a duty to report any suspected ethical or compliance issues and/or other potentially improper conduct, even if it does not directly involve the Individual.

Individuals have an obligation to report any suspected ethical or compliance issues and/or other potentially improper conduct to their immediate supervisor/manager. Supervisors and managers, as well as officers, of CNE and its Affiliates have a special duty to adhere to the standards of this Code, to support other Individuals in their adherence to this Code, to recognize and detect violations of this Code and to enforce the standards set forth in this Code.

However, CNE recognizes that there may be situations when a question or concern cannot be properly addressed through the normal chain of command; or an Individual may feel uncomfortable talking with a supervisor/manager; or may not feel satisfied with the answer; and/or simply wishes to remain anonymous. Under such circumstances, CNE encourages Individuals to seek out another CNE resource such as Human Resources, Risk Management, or the CNE Legal Department. Additionally, Individuals are always encouraged to ask questions and/or report their concerns to the Compliance Officer and/or the CNE Compliance Office by dialing the *ComplianceLine* at 1877HELLCNE (1.877.835.5263) or sending an email to: *cnecompliance@carene.org*.

RIDOH 0589

The *ComplianceLine* is available 24 hours a day/7 days a week and calls to the *ComplianceLine* are not recorded electronically. If an Individual calls the *ComplianceLine*, the Individual may remain anonymous and confidentiality will be, to the extent permitted by law, protected for any caller that chooses to identify themselves. Further, CNE has a strict non-retribution and non-retaliation policy. This means that no action of retaliation or reprisal will be taken against any Individual who in good faith raises any questions or reports any suspected ethical or compliance issue and/or other potentially improper conduct. *Please see CNE Policy "Problem Reporting & Non-retaliation #CNE-CC-05.*

What are some examples of ethical or compliance issues and/or improper conduct?

Ethical or compliance issues and/or improper conduct can arise in a variety of situations, such as:

- improper billing practices;
- improper referral relationships;
- unethical conduct related to research;
- non-compliance with health, safety and environmental laws;
- harassment or discrimination;
- conflicts of interest;
- unauthorized access or wrongful disclosure of confidential information;
- improper internal accounting controls; and
- non-compliance with licenses, accreditations, government contracts.

The list above is not an exhaustive list of areas where ethical or compliance issues and/or improper conduct may arise. However, we look to you, as a valued member of the Care New England team, to act in an ethical and legal manner and exercise good judgment to *Do The RIGHT THING.*

If I encounter a situation that I believe is improper or raises ethical or compliance issues, do I have a responsibility to report such situation?

Yes, as an Individual you have an obligation to report. In fact, knowledge of such a situation without properly reporting would also be a violation of this Code because this type of behavior would be considered willful blindness. Therefore, if you are unsure about whether something raises an ethical or compliance issue or what a law, regulation or policy means, then you should ask your supervisor/manager or the Compliance Officer. In general, it is best to ask about or report any act or omission that makes you uncomfortable or that seems to require excessive rationalization or justification. The fact that "everyone does it" is not an excuse for a violation.

If I call the ComplianceLine at 1.877.TO.DO.CNE (1.877.863.6263) to report such situation, may I remain anonymous?

Yes, calls to the *ComplianceLine* are not recorded electronically. If you choose to identify yourself, confidentiality will be protected to the extent permitted by law.

RIDOH 0590

What does it mean to raise a question or report suspected ethical or compliance issues and/or other potentially improper conduct "in good faith"?

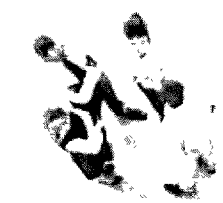
"In good faith" can be defined as a sincere belief or an honest intention; it would not include actions taken with malice or a deliberate intention to defraud or mislead.

What should I do if I feel retaliated against?

CNE will not tolerate retaliation in any form. If you feel retaliated against, you should report it immediately to the Compliance Officer and/or the CNE Compliance Office by dialing the ***ComplianceLine*** at 1.877.TELLCNE (1.877.835.5263) or sending an email to: *cnecompliance@carene.org*.

Disciplinary Action

Disciplinary action for violations of this Code and other policies or procedures of CNE or an Affiliate applicable to a particular Individual will be enforced in accordance with CNE's disciplinary policies and procedures. Disciplinary actions will be determined on a case-by-case basis and may include dismissal from employment. *For more information regarding the CNE disciplinary policy and procedure, see CNE Disciplinary Process #CNE-4003.*



Certificate of Compliance Process

CNE will require all new directors, officers, committee members, employees and volunteers of CNE sign a Certificate of Compliance as part of their orientation process in which they (i) certify that they have read the Code and have had the opportunity to ask any questions with regards to its contents and understand fully how the policies relate to their position; (ii) acknowledge that it is their obligation and agreement to adhere to and be bound by the requirements set forth in the Code; (iii) certify that, throughout their association with CNE, they will continue to comply with the terms of the Code and participate in annual and other periodic, in person or on-line, compliance training as requested by CNE; and (iv) understand that violations of the Code or other policies or procedures related to their position may lead to disciplinary action, including dismissal from employment. Current directors, officers, committee members, employees and volunteers of CNE that did not sign a Certificate of Compliance as part of their orientation process may be asked to do so at an annual or other period compliance training session or during an on-line compliance training session.

RIDOH 0591

Quality of Care

CNE's goal is to provide quality health care services to all of our patients in a safe and healing environment. We treat all patients with respect and dignity and provide care that is both necessary and appropriate. In the admission, transfer or discharge of patients, and in the care we provide, we do not discriminate based on gender, race, color, creed, national origin, ancestry, sexual orientation or source of payment for care. While we strive to render care in an efficient manner, clinical care decisions are not based on any of the above classifications or on patient financial means or business economics.

Patient Rights

Each patient of CNE and its Affiliates is provided with a statement of Patient Rights and Responsibilities and a Notice of Privacy Practices. These statements include the right of patients to make decisions regarding their medical care, the right to refuse or accept treatment, the right to informed decision making and the right to privacy of their health information maintained by CNE or any of its Affiliates. These statements conform to applicable federal and state laws, including the Health Insurance Portability and Accountability Act of 1996, as amended ("HIPAA") (described in more detail below).

CNE is committed to creating a treatment environment where patients and their families will be able to understand their individual illnesses and make informed decisions concerning their medical care. Each patient or patient representative is provided a clear explanation of care, including diagnosis, treatment plan, and an explanation of the risks and benefits associated with each available treatment. Patients receive care from appropriately licensed and credentialed professionals.

Patient Health Information Protection—Under HIPAA

HIPAA requires that officers, employees and contractors of CNE and its Affiliates are each responsible for maintaining the confidentiality of all patient and employee protected health information ("PHI").

In accordance with our information access and HIPAA policies and procedures, employees, affiliated physicians or other business associates (as defined by HIPAA and included in CNE policies) may access patient information only to the extent necessary to perform their jobs. Unless authorized by law or by the patient, only individuals who require patient information to furnish care, perform quality control activities, bill or collect payments for services, or furnish other administrative services are permitted access to PHI.

Any unauthorized disclosure of PHI, which reasonably compromises the security or privacy of PHI is a potential breach that must be appropriately addressed. If you become aware of a breach or potential breach of any protected or sensitive information, it is necessary that the situation be immediately reported to your supervisor/ manager, the CNE Security and Privacy Officer, the Compliance Officer and/or the ***ComplianceLine*** by dialing 1.877.TELLCNE (1.877.835.5263) or sending an email to: *cnecompliance@carene.org* so that all federal and state notification requirements may be carried out by CNE's Risk Management and Compliance Services. If the disclosure of the PHI results in a breach of information, CNE investigates and complies with all federal and state, regulations. Failure to immediately report may subject CNE to fines and penalties under HIPAA.

What if I accidentally disclose PHI, such as sending a fax to an incorrect fax number?

Any instance of misdirected PHI should be immediately reported to the CNE Privacy Officer, the CNE Compliance Officer and/or the ***ComplianceLine*** by dialing 1.877.TELLCNE (1.877.835.5263) or sending an email to: *cnecompliance@carene.org* and you should be prepared to provide detailed information about what PHI was involved so that an appropriate review can be completed.

RIDOH 0592

Emergency Treatment -Under EMTALA

CNE's hospital Affiliates follow all applicable laws and regulations, including the Emergency Medical Treatment and Active Labor Act ("EMTALA"), in providing an emergency medical screening examination and (if necessary) stabilization to all patients, regardless of ability to pay. Provided we have the capacity and capability, anyone with an emergency medical condition is treated. In an emergency situation or if the patient is in labor, we will not delay the medical screening and necessary stabilizing treatment in order to seek financial and demographic information. We do not admit, discharge or transfer patients with emergency medical conditions simply based on their ability or inability to pay or any other discriminatory factor. Patients with emergency medical conditions are only transferred to another facility at the patient's request or if the patient's medical needs cannot be met at the CNE facility (e.g., we do not have the capacity or capability) and appropriate care is knowingly available at another facility. Patients are only transferred in strict compliance with state and federal EMTALA regulatory and statutory requirements.

Gifts from Patients

Individuals may not solicit tips, personal gratuities or gifts from patients or accept monetary gratuities, but may accept other gratuities and gifts having a value not exceeding $50.

Accuracy, Retention and Disposal of Documents and Records

CNE and each Affiliate is responsible for the integrity and accuracy of all documents and records related to CNE and any Affiliate. This responsibility is important not only to comply with any applicable federal and state laws and regulations but also to ensure that the necessary documents and records are available to support our business practices and actions. No one may alter or falsify information on any document or record. Records must never be destroyed in an effort to deny governmental authorities that which may be relevant to a government investigation.

Medical and business documents and records are retained in accordance with the law and our record retention policy, which includes comprehensive retention schedules. "Medical and business documents" include, but are not limited to, paper documents such as letters and memos, computer-based information such as e-mail or computer files on disk or tape, and any other medium that contains information about CNE, an Affiliate or its/their business activities. It is important to retain and destroy records only according to our record retention policy. Individuals must not tamper with any medical or business documents or records. Finally, under no circumstances may any Individual use patient, colleague or any other individual's or entity's information for their personal benefit (e.g. perpetrate identity theft). *For more information regarding CNE's document retention policies, see CNE Policy Retention of Records #CNE-CC-11 and CNE Policy Legal Holds and Non-Destruction of Records #CNE-RM-01.*

Financial Reporting

CNE has established and maintains a high standard of accuracy and completeness in documenting, maintaining, and reporting financial information. This information serves as a basis for managing our business and is important in meeting our obligations to patients, colleagues, suppliers, and others. It is also necessary for compliance with tax and financial reporting requirements. All financial information must reflect actual transactions and conform to generally accepted accounting principles. All funds or assets must be properly recorded in the books and records of CNE and its Affiliates, as applicable. CNE maintains a system of internal controls to provide reasonable assurances that all transactions are executed in accordance with management's authorization and are recorded in a proper manner so as to maintain accountability of the organization's assets.

Compliance with IRS Tax-Exempt Requirements

CNE and certain of its Affiliates are tax-exempt, charitable organizations. As such, CNE and its Affiliates have a legal and ethical obligation to act in compliance with federal, state and local laws applicable to tax-exempt entities, to engage in those activities that will further their charitable purposes, and to ensure that their resources are used in a manner that furthers the public good, rather than the private or personal interests of any individual or entity. As a result of those obligations, CNE and its Affiliates will not enter into any compensation arrangement that is in excess of fair market value, will accurately report required information to appropriate taxing authorities and will file all tax and information returns in a manner consistent with applicable laws.

Antitrust and Unfair Competition

Individuals are expected to comply with laws regulating competition and trade practices. CNE has strict restrictions on communications with competitors. Generally, Individuals are not to discuss with competitors non-public "competitively sensitive topics," such as: information regarding CNE's or any Affiliate's competitive position or business strategies, payment and reimbursement information, and information relating to negotiations with employees or third parties. Discussions about these types of topics should be protected and shared only with those Individuals who need to know the information to perform their job.

RIDOH 0594

What kind of practices might be considered anti-competitive behavior or an unfair business practice?

Because the antitrust laws are so complex and their application can depend upon the conditions in local markets, we cannot specifically tell you what practices might be considered anti-competitive behavior or an unfair business practice; however, generally we should not engage in any of the following practices:

- do not discuss or agree with any competitor to raise, lower, fix, stabilize or in any way affect fees, prices, or costs of services;
- do not discuss or agree with any competitor to limit the quality or quantity of services provided;
- do not discuss or exchange any information with any competitor regarding market power, market shares, or ways to dominate the market;
- do not compare or otherwise discuss with any competitor contract negotiations involving other competitors;
- do not discuss ways to eliminate or reduce competition or ways to exclude other competitors;
- do not propose refusals to deal with or boycotts of particular competitors; and
- do not discuss or agree with any competitor to divide or allocate markets or consumers.

If you have questions, we encourage you to consult with your supervisor/manager or the CNE Legal Department for guidance.

Survey Specialists

From time to time, government agencies, accrediting bodies and other entities conduct surveys in our facilities. In preparation for or in doing a survey or inspection, Individuals will conduct themselves in a direct, open and honest manner and must never conceal, destroy or alter any documents. Individuals should not take any action in relationships with accrediting bodies that would, directly or indirectly, mislead the accreditor or its survey teams and Individuals must never attempt or cause another Individual to fail to provide accurate information or obstruct, mislead or delay the communication of information or records relating to a possible violation of law.

RIDOH 0595

Coding and Billing

CNE is committed to honesty, accuracy and integrity in all billing, coding and documentation activities of CNE and each Affiliate and compliance with all applicable federal and state laws related to billing, including, but not limited to the Federal False Claims Act (described below). As a result, CNE and each Affiliate:

- will only submit for payment or reimbursement claims for services actually rendered and that are documented in a patient's medical record and using billing codes that accurately describe the services provided and supported by applicable medical necessity requirements; and
- will not submit any claim for payment or reimbursement that is false, fraudulent, inaccurate or fictitious.

What are some examples of unethical or non-compliant billing practices?

Unethical or non-compliant billing practices include:

- billing for items not provided or services not actually rendered;
- billing twice for the same service or item (i.e. double billing);
- upcoding (i.e. billing for a service at a rate higher than that warranted by the services actually performed and documented);
- billing for services or items that do not meet "medical necessity" criteria;
- unbundling (i.e. separately billing for services or items that should be included in a global or composite rate);
- billing Medicare/Medicaid for services or items that are not reimbursable under those programs;
- billing Medicare patients higher charges than non-Medicare patients;
- submitting false cost reports and cost shifting;
- failing to refund credit balances; and
- giving or paying to, or soliciting or accepting from potential referral sources.

The list above is not an exhaustive list of unethical or non-compliant billing practices that may arise. As a result, we look to you, as a valued member of the Care New England team, to act in an ethical and legal manner and exercise good judgment to *Do The RIGHT THING.*

Cost Reports

CNE is required by federal and state laws and regulations to submit certain reports of our operating costs and statistics. CNE has complied, and will continue to comply, with all applicable federal and state laws, regulations, and guidelines relating to all cost reports. These laws, regulations, and guidelines define the cost of services provided to program beneficiaries.

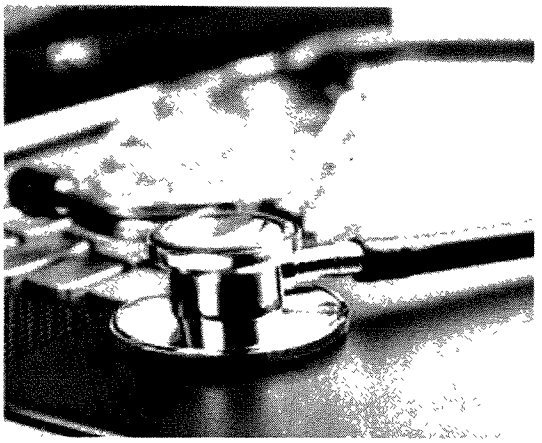
RIDOH 0596

False Claims Act

The Federal False Claims Act, 31 U.S.C. §§ 3729-33, prohibits the knowing and/or intentional use of false or fraudulent claims, records, or statements for the purposes of obtaining payment from the government. This law applies to Medicare and Medicaid reimbursement and prohibit, among other things, billing for services not rendered, billing for undocumented services, falsifying cost reports, billing for medically unnecessary services, assigning improper codes to secure reimbursement or higher reimbursement, and participating in kickbacks. The Federal False Claims Act, as well as its state law counterpart (Chapter 9-1.1 of the State of Rhode Island General Laws), seeks to prohibit fraud against Medicare and other federally funded health care programs and a violation of these laws may result in civil, criminal and/or administrative penalties, including monetary penalties, imprisonment, exclusion from participation in Medicare and/or Medicaid and loss of licensure status.

Additionally, the Federal False Claims Act allows private citizens to file a lawsuit on behalf of the government and to share in a percentage of any monetary recovery or settlement. The Federal False Claims Act, and this Code, prohibits retaliation against Individuals, agents or contractors because of their initiation of, or participation in a lawful false claims investigation, report, claim or proceeding. *For more information regarding the False Claims Act, please see CNE Providing Information About the False Claims Act #CNE-CC-14.*

If you become aware of any actual or perceived false claim, misrepresentation, inaccuracy or problem in billing, coding or documentation, it is necessary that the situation be immediately reported to your supervisor/manager, the Compliance Officer and/or the ***ComplianceLine*** by dialing 1.877.DIALCNE (1.877.836.2263) or sending an email to: cnecompliance@carene.org.



Non-Discrimination and Equal Employment Opportunity

CNE recognizes people are our greatest asset. Our organization's ability to deliver quality patient care is directly related to the skills and abilities of our employees, medical staff and volunteers. To promote diversity and equality in our workplace, we must all support the following standards:

- CNE provides an equal opportunity work environment where everyone is treated with fairness, dignity and respect; and
- In all of our personnel actions, we will comply with all applicable laws and regulations related to nondiscrimination. Specifically, there will be no discrimination against any person due to race, color, religion, sex, national origin, age, disability, genetic information, sexual orientation or any other protected status.

Drug, Alcohol and Smoke-Free Environment

To protect the interests of our employees and patients, we are committed to an alcohol and drug-free work environment. All Individuals must report to work free of the influence of alcohol and illegal drugs. Reporting to work under the influence of any illegal drug or alcohol, having an illegal drug in your system, or using, possessing, or selling illegal drugs while on CNE work time or property may result in termination. We may use drug testing as a means of enforcing this policy.

CNE recognizes that individuals may be directed by a physician to take prescription drugs that could impair judgment or other skills required in job performance. For employee and patient safety, if you believe a medication, either prescribed or over the counter, may impair your judgment or job performance, you must notify your supervisor/manager. If you have questions about the effect of such medication on your performance, consult with your supervisor/manager and your physician.

CNE is committed to creating a smoke-free environment for all employees, medical staff, students, volunteers, patients and visitors—both inside and outside of our facilities. A smoke-free environment will provide a healthier environment for employees, visitors and patients, and will underscore our commitment to support the health of our employees, patients and community.

Harassment and Workplace Violence

CNE believes that all employees should be able to enjoy a workplace free from violence, harassment and threats. CNE will not tolerate such incidents and will take appropriate responsive action, including disciplinary action.

Does workplace violence only include physical attacks?

No. CNE will not tolerate any type of workplace violence which includes not only physical attacks but threats (direct, conditional or veiled), harassing behaviors and/or property damage.

Does harassment only include sexual harassment?

No. Sexual harassment is one form of conduct prohibited by CNE; however, harassment may include behavior or communications designed or intended to intimidate, menace or frighten another person through any medium.

For more information regarding the CNE harassment and workplace violence policies, see CNE Workplace Violence #CNE-4002, and see CNE Sexual Harassment #CNE-4001.

If you observe or experience any form of harassment or violence, it is necessary that you immediately report any such harassment or violence to your supervisor/manager, CNE Security, the Compliance Officer and/or the *Compliance**Line*** by dialing 1.877.TELLCNE (1.877.835.5263) or sending an email to: *cnecompliance@carene.org*.

Health and Safety; Environment

CNE and its Affiliates will comply with all federal, state and local laws and regulations applicable to workplace health and safety. Individuals are expected to immediately advise their supervisor/manager of any workplace injury or any situation presenting a danger of injury so timely corrective action may be taken to resolve the issue.

CNE is committed to promoting sound environmental practices related to our operations that will prevent damage to the environment, enhance human and community resources and reduce or avoid exposure to environmental hazards. CNE and its Affiliates will comply with all applicable environmental laws and operate our facilities with the necessary permits, approvals and controls. CNE and its Affiliates will employ proper procedures with respect to handling and disposing of hazardous and bio hazardous waste. Individuals are expected to (i) strive to use resources efficiently; (ii) recycle when possible; (iii) properly dispose of waste; and (iv) work with authorities, as necessary, to remedy any contamination.

Personal Use of CNE Resources

It is the responsibility of each Individual to preserve the assets including time, materials, supplies, equipment, and information of CNE and each Affiliate. Assets are to be maintained for business-related purposes. As a general rule, Individuals must refrain from using the assets of CNE or any Affiliate for their own personal use. This includes the unauthorized use or taking of equipment, supplies, materials or services. Individuals must obtain authorization from an appropriate manager before engaging in any activity during working time which results in being paid for personal or non-work related use of the assets of CNE or any Affiliate. Any community or charitable use of our resources must be approved in advance by your supervisor/manager. Any use of resources for personal financial gain unrelated to the organization's business is prohibited.

Electronic Media and Security

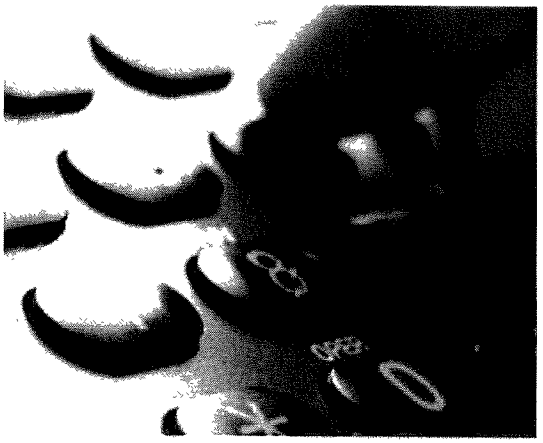
All communications systems, including, but not limited to, computers, electronic mail, intranet, internet access, telephones, and voice mail, are the property of CNE and are to be used primarily for business purposes in accordance with CNE's electronic communications policies and standards. Limited reasonable personal use of CNE communications systems is permitted; however these communications are not private. Users of computer and telephonic systems should presume no expectation of privacy in anything they create, store, send, or receive on the computer and telephonic systems, and CNE reserves the right to monitor and/or access communications usage and content consistent with system policies and procedures.

Individuals may not use internal communication channels or access to the Internet at work to view, post, store, transmit, download, or distribute any threatening materials; knowingly, recklessly, or maliciously false materials; obscene materials; or anything constituting or encouraging a criminal offense, giving rise to civil liability, or otherwise violating any laws. Also, these channels of communication may not be used to send chain letters, personal broadcast messages, or copyrighted documents that are not authorized for reproduction.

Individuals who abuse our communications systems or use them excessively for non-business purposes may lose these privileges and be subject to disciplinary action.

Individuals will comply with CNE's information security policies and standards governing the use of information systems. Individuals may only use officially assigned User IDs and passwords and are prohibited from sharing or disclosing any password that is used to access CNE systems or information. Portable devices and removable media, such as laptop computers, PDAs, USB drives, CDs and external hard drives, should be physically secured at all times. Individuals will never use tools or techniques to break or exploit CNE information security measures or those used by other companies or individuals.

RIDOH 0599



Confidentiality

In addition to maintaining the confidentiality of all patient and employee protected health information under HIPAA (as described above), Individuals may come in contact with information, documents, agreements, reports, work-product, analysis, compilations, studies or any other data of CNE and/or an Affiliate ("Confidential Information") during the course of their service with CNE and/or an Affiliate. Unless you have written consent of CNE or an Affiliate, you must maintain in confidence, and not disclose to any person or entity, or make any copy of or reproduce in any form or otherwise publicize, any Confidential Information. No Confidential Information may be used to compete with, obtain an advantage against or use adversely to CNE or an Affiliate or be used in any other manner that would create a conflict of interest (as described above).

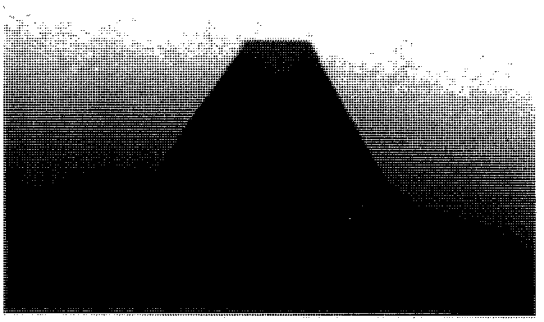
What are some examples of Confidential Information?

Confidential Information may include, but is not limited to:

- personnel data maintained by CNE or an Affiliate;
- patient lists, clinical information and patient programs;
- patient financial information;
- physician lists;
- employee information;
- passwords;
- pricing and cost data;
- details regarding federal, state and/or local tax examinations;
- research data;
- strategic plans;
- marketing strategies, operational plans and techniques;
- supplier and subcontractor information;
- information regarding business processes and practices;
- proprietary information (e.g. patents, trademarks, copyrights, software); and
- information regarding financial and billing matters.

This list is not an exhaustive list of Confidential Information. As a result, we look to you, as a valued member of the Care New England team, to act in an ethical and legal manner and exercise good judgment to *Do The RIGHT THING.*

RESEARCH, INVESTIGATIONS AND CLINICAL TRIALS



Research, Investigations and Clinical Trials

CNE and each Affiliate follows high ethical standards and complies with federal and state laws and regulations with respect to any research, investigations and clinical trials conducted by our physicians and professional staff. Additionally, CNE and each Affiliate has, and will continue to update and implement all necessary policies and procedures related to any research, investigations and clinical trials conducted by our physicians and professional staff. CNE does not tolerate intentional research misconduct. Research misconduct includes, but is not limited to, entering fictitious results, inaccurately editing or copying results from other studies without performing the clinical investigation or research.

The rights of any patient participating in clinical investigations or research projects are at all times protected and respected during such clinical investigation or research project. All patients asked to participate in a clinical investigation or research projects are given an explanation of alternative services that might prove beneficial to them. They are also fully informed of potential discomforts and are given a full explanation of the risks, expected benefits and alternatives. Patients are fully informed of the procedures to be followed, especially those that are experimental. Refusal of a patient to participate in a research study will not compromise his or her access to services. Informed consent to participate in clinical investigations or research is documented and retained pursuant to CNE policies, and the CNE Institutional Review Board (IRB) must be involved in reviewing all research projects.

RIDOH 0601

Conflicts of Interest

Each Individual has a responsibility to act at all times in the best interests of the organization and its patients and is prohibited from using information obtained as a result of his or her position for personal financial gain or to assist others in profiting in any way at the expense of the organization. All potential conflicts of interest of an Individual should be disclosed to supervisors/ managers upon hire and as they occur, this would include any additional employment accepted while employed by CNE or an Affiliate. All potential conflicts of interest of a director, officer and member of a committee of CNE and/or an Affiliate should be disclosed to the CNE Board or its designee prior to election or appointment and as they occur and in accordance with CNE's Conflicts of Interest and Confidentiality Policy.

What are some examples of a potential conflict of interest?

Conflicts of interest can arise in a variety of situations, such as:

- you accept outside employment in an organization that does business with CNE or an Affiliate or a competitor of CNE or an Affiliate and such employment interferes with your commitment to CNE's standards of professional and business conduct;
- you or an immediate family member has a material financial interest in an organization that does business with CNE or an Affiliate or a competitor of CNE or an Affiliate where the material financial interest may affect your decisions or actions;
- you or your immediate family member uses any confidential information about CNE or an Affiliate for personal gain or to benefit others;
- you or your immediate family member appropriates for personal use the benefit of any CNE or an Affiliate business venture, which business venture is learned while you are an Individual; or
- you or your immediate family member accepts gifts from any person or organization doing or seeking to do business with CNE or an Affiliate.

The above list is not an exhaustive list of areas where conflicts of interest may arise and this Code addresses additional areas below (i.e. vendor gifts, gratuities and business courtesies and contracts with vendors). As a result, we look to you, as a valued member of the Care New England team, to act in an ethical and legal manner and exercise good judgment to *Do The RIGHT THING.*

Vendor Gifts, Gratuities and Business Courtesies

Individuals must not solicit anything of value (including, but not limited to, gifts, gratuities and business courtesies) from vendors, contractors, subcontractors or potential business affiliates.

Individuals must not accept cash, or the equivalent of cash, from vendors, contractors, subcontractors or potential business affiliates.

Individuals must not accept anything of value (including, but not limited to, gifts, gratuities and business courtesies) from vendors, contractors, subcontractors or potential business affiliates if such acceptance (taking into account the importance of CNE's and its Affiliates' reputation in the community) (1) is intended, or could be

RIDOH 0602

construed, to influence business opportunities awarded to any such vendor, contractor, subcontractor or potential business affiliate; (2) would result in the appearance of impropriety; or (3) would be contrary to the interests of CNE or its Affiliates.

If acceptance of a gift, gratuity or business courtesy would not involve any of the above, then an Individual may accept an item of value that is not excessive or extravagant. However, you are expected to become familiar with any more restrictive policy or procedure related to vendor gifts, gratuities and business courtesies that may be adopted by an Affiliate and/or a department within an Affiliate and which may be applicable to your position. We look to you, as a valued member of the Care New England team, to act in an ethical and legal manner and exercise good judgment to *Do The RIGHT THING*. If you are unsure about whether you should accept a gift, gratuity or business courtesy, then you should ask your supervisor/manager or the Compliance Officer. Managers may also seek guidance from the CNE General Counsel when making judgments about what to authorize.

CNE also prohibits Individuals from giving anything of value to persons or businesses in a position to influence the referral of business, including patients and other customers, to CNE or any Affiliate. Customary business inducements such as appropriate commissions, rebates, discounts and allowances are acceptable if they are approved by management of CNE or an Affiliate, as appropriate, and provided they are not illegal or unethical. Such payments must be reasonable in value, competitively justified and properly documented. Furthermore, any such payments must be made to the business entity and not to individual employees or agents of the business.

A vendor has invited me to dinner after my attendance at a seminar, may I attend?

It is not unusual for vendors to invite representatives of customers and prospective customers to lunch or dinner during or after a seminar or other education event. In addition to attending an event that had an independent business purpose, the lunch or dinner may provide the opportunity to meet other experts employed by the vendors as well as their clients, and thus has a value from a networking point of view. Accepting the lunch or dinner would be acceptable if it does not involve any of the above threshold criteria and would be consistent with any other applicable Affiliate and/or department of an Affiliate policy.

I received a fruit basket or similar item from a vendor on my birthday or another holiday, is this okay?

Not if the value of the item, alone or together with other items received from the vendor, is excessive or extravagant, or could influence me with respect to business opportunities, result in an appearance of impropriety or be contrary to the interests of CNE or its Affiliates. If feasible, contributing the gift to a hospital or other charity or raffling it to employees might be an appropriate alternative, with the approval of your manager.

I received a gift certificate from a vendor on my birthday or another holiday, is this okay?

No. Gift certificates and restaurant certificates seem little different than cash. You should thank the vendor and return the gift certificate.

If you have questions regarding the appropriateness of gifts, gratuities and/or business courtesies, please contact the Compliance Officer and/or the CNE Compliance Office by dialing the ***ComplianceLine*** at 1.877.TELCNE (1.877.835.5263) or by sending an email to: *cnecompliance@carene.org*.

Contracting with Vendors

All business relationships with vendors must be conducted at arms' length. This means Individuals have a responsibility to:

- avoid using "insider" information for any business activity conducted on behalf of CNE or an Affiliate;
- disclose activities with vendors, both personal and business, which may appear to be influential;

RIDOH 0603

- obtain clarification from management when questionable issues arise; and
- comply with the conflict of interests policy.

Travel and Entertainment

It is a policy of CNE that employees should not suffer a financial loss or a financial gain as a result of business travel and entertainment that is conducted as part of their service to CNE and/or an Affiliate. In order to maintain this policy:

- travel and entertainment expenses should be consistent with the individual's responsibility and CNE's needs and resources;
- individuals should exercise good judgment and integrity in the use of CNE's assets and spend them as carefully as they would spend their own;
- individuals must comply with CNE's policies relating to travel and entertainment expense; and
- with the exception of the individuals serving as the President and Chief Executive Officer of CNE, Butler Hospital, Kent Hospital, WIH and the VNA, travel and entertainment expenses requiring approval will be approved by the person to whom the individual reports.

Travel and entertainment expenses of the individuals serving as the President and Chief Executive Officer of CNE, Butler Hospital, Kent Hospital, WIH and the VNA will be approved by the Chief Financial Officer of CNE, with any unresolved issues to be resolved by the Senior Vice President and General Counsel of CNE. All travel and entertainment expense of such President and Chief Executive Officers, whether or not requiring approval, will be reviewed quarterly by the Chairman of the Finance Committee of the CNE Board, and by the independent auditors of CNE as part of the annual financial audit.

Kickbacks, Referrals and Bribes

In general, the federal Stark Law, 42 U.S.C. § 1395nn(a)(1)(A) (the "Stark Law") prohibits a physician that has a financial relationship with a hospital from referring patients to that hospital for designated health services. The Stark Law further prohibits the hospital from billing for any designated health services furnished pursuant to a prohibited referral. The federal Anti-Kickback Statute, 42 U.S.C. § 1320a-7b (the "Anti-Kickback Statute") prohibits any entity or individual from knowingly and willfully paying or offering to pay, soliciting, or receiving anything of value in exchange for patient referrals. These federal laws, as well as their state law counterparts, govern our relationships with physicians and any business arrangement related directly or indirectly to items or services reimbursable by a federal healthcare program, including, but not limited to, Medicare and Medicaid. As a result, CNE and each Affiliate:

- will not pay or offer to pay for referrals—patient referrals and admissions will be based solely on the patient's medical needs and our ability to render the needed services;
- will not accept payments for referrals—Individuals are prohibited from soliciting or receiving anything of value, directly or indirectly, in exchange for the referral of patients;
- will not take into account the volume or value of referrals that a provider has made (or may make) when establishing business arrangements with a vendor, supplier or referral source; and
- will only pay for services or items provided and will not pay in excess of fair market value for such services or items.

What types of arrangements might implicate the Stark Law and/or Anti-Kickback Statute?

The following types of arrangements with physicians, other referral sources or items or services reimbursable by a federal healthcare program may implicate the Stark Law and/or Anti-Kickback Statute:

- excessive payments for medical directorships;

RIDOH 0604

- free or below market rents or fees for administrative services;
- interest-free loans;
- excessive payment for intangible assets in physician practice acquisitions; and
- joint ventures.

In other words, the Stark Law and Anti-Kickback Law can encompass a wide-variety of arrangements and may give rise to risk under other federal and state laws; therefore it is important to be familiar with these laws.

What does "anything of value" mean under the Anti-Kickback Statute?

The Anti-Kickback Statute is very broad and covers all situations in which something is provided either free of charge or at a reduced cost to any potential referral source (i.e. physicians, DME or other suppliers, nursing homes, and other providers). "Anything of value" may include the following items or services when provided free of charge or at a discount:

- equipment (e.g. microscopes, centrifuges, computers);
- office space;
- personnel services (e.g. nurses, phlebotomists, secretaries);
- CME (or other educational programs);
- recruitment incentives;
- health benefits; and/or
- many other goods and services.

What are "designated health services" under the Stark Law?

Under the Stark Law there are eleven (11) categories of designated health services:

- clinical laboratory services;
- physical and occupational therapy services;
- outpatient speech-language pathology services;
- radiology and certain other imaging services;
- radiation therapy services and supplies;
- durable medical equipment and supplies;
- parenteral and enteral nutrients, equipment and supplies;
- prosthetics, orthotics and prosthetic devices and supplies;
- home health services;
- outpatient prescription drugs; and
- inpatient and outpatient hospital services.

RIDOH 0605

To ensure compliance with these laws, all agreements need to be documented, compensation should be determined in advance and be consistent with fair market value. While it is not necessary to request CNE's Legal Department to review every agreement before it is finalized; we look to you, as a valued member of the Care New England team, to act in an ethical and legal manner and exercise good judgment in general business contracting matters and request a legal review when (i) the agreement involves physicians, other referral sources or items and services reimbursable by a federal healthcare program; or (ii) you are unsure whether an agreement is appropriate or legal.

Honoraria

Recognizing the interest of CNE in academic medicine, physician employees are encouraged to participate as faculty and speakers at educational programs and functions after obtaining the permission of their supervisor/ manager. However, honoraria exceeding one hundred dollars ($100) must be turned over to the CNE entity employing such physician unless such physician employee used paid time off to attend the portion of the program for which the honorarium was paid or unless a departmental policy to which the physician employee is subject and which has been approved by the executive management of the CNE entity employing such physician provides otherwise.

Workshops, Seminars and Training Sessions

Employees may attend local (i.e. not requiring airline travel or an overnight stay) vendor sponsored workshops, seminars and training sessions. However, employees must obtain the approval of their supervisor/manager before attending an out of town seminar, workshop or training session at a vendor's expense. The topic must be relevant to the employee's job role.

Ineligible Persons

Neither CNE nor any of its Affiliates contract with, employ or bill for services rendered by an individual or entity that is excluded or ineligible to participate in federal and/or state health programs; has been suspended or debarred from government contracts; or has been convicted of a criminal offense related to the provision of health items or services and has not been reinstated in a health program after a period of exclusion, suspension, debarment or ineligibility, provided that we are aware of such offense. CNE screens all employees, medical staff physicians and vendors on a monthly basis. *For more information regarding the CNE policy related to ineligible persons, please see Policy #CNE-CC-01.*

Solicitation and Distribution

Individuals are prohibited from soliciting any patients or family members and are prohibited from distributing any materials (unrelated to their health) to any patients, guests or family members. Individuals may not solicit during working time for any purpose. Individuals may not solicit any other Individual unless both the Individual soliciting and the Individual(s) being solicited are both on non-working time (breaks, meal time, before or after work) and only solicit in those areas permitted by the policy.

Political Activities and Government Relations

As described above, CNE and certain of its Affiliates are charitable organizations and as such are prohibited from intervening in any political campaign on behalf of or in opposition to any candidate for public office (e.g. lobbying or supporting specific candidates for office, reimbursing individuals for political contributions) and are limited in the manner in which they may participate in legislative activities (e.g. CNE may offer recommendations and take public positions on legislation, regulations or current issues that are related to CNE's operations where that might contribute to the understanding of the issues).

To ensure compliance with the laws, only CNE management may speak on behalf of CNE with respect to political issues including, but not limited to, pending legislation. Individuals must refrain from any appearance that (i) they are speaking for CNE in expressing their beliefs or positions on political issues in public forums; or (ii) they are providing any gifts, meals or gratuity to a public office on behalf of CNE.

CNE encourages Individuals to participate, on their own behalf, in the political process at all levels of government and does not restrict Individuals from making contributions in accordance with campaign finance law at their own expense.

If you are contacted by anyone regarding CNE's or an Affiliate's position on a public issue, direct him or her to CNE's Department of Marketing and Public Relations at 401-681-2815.

Report of Independent Auditors

Board of Trustees
Southeastern Healthcare System, Inc.

We have audited the accompanying consolidated balance sheets of Southeastern Healthcare System, Inc. and Affiliates (the System) as of September 30, 2011 and 2010, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the System's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Southeastern Healthcare System, Inc. and Affiliates as of September 30, 2011 and 2010, and the consolidated results of their operations and changes in net assets and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

1. Organization and Summary of Significant Accounting Policies

Organization

Southeastern Healthcare System, Inc. (SHSI), formed in 1997, is the sole corporate member or shareholder of Memorial Hospital of Rhode Island (the Hospital), Primary Care Centers of New England, Inc. (PCCNE), and Blackstone Health, Inc. (BHI) (collectively referred to as the System). The Hospital is the sole corporate member of R.S. Realty Company (RSR) and SHS Ventures, Inc. (Ventures).

The Hospital is a 294-bed, acute care, not-for-profit community teaching and research hospital located in Pawtucket, Rhode Island, and is affiliated with Brown University School of Medicine. RSR owns and leases apartments and office space primarily to Hospital employees. PCCNE provides staffing to Ventures and the Hospital. Ventures consists of Massachusetts-based physician practices. BHI receives and administers certain grant funds, and provides services to elderly and disabled residents in the local area.

Principles of Consolidation

The accompanying consolidated financial statements include the assets of SHSI and its controlled affiliates. The assets of any one of the members of the consolidated group may not be available to meet the obligations of other entities in the group. Intercompany balances and transactions between the organizations have been eliminated in consolidation.

Consolidated Statements of Operations and Changes in Net Assets

The consolidated statements of operations and changes in net assets include the deficiency of revenue over expenses. Changes in unrestricted net assets, which are excluded from the deficiency of revenue over expenses, consistent with industry practice, include contributions of long-lived assets, including assets acquired using contributions which, by donor restrictions, were to be used for the purpose of acquiring such assets, change in net assets related to pension, and net assets released from restrictions used to purchase property and equipment.

For presentation purposes, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as operating revenue and operating expenses. Other transactions not considered major or central to the provision of health care services are reported as nonoperating gains and losses, which primarily consist of investment income and unrestricted donations.

RIDOH 0635

1. Organization and Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Net Patient Service Revenue

The System has entered into payment agreements with Medicare, Medicaid, and various commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under those agreements includes prospectively determined rates per discharge, discounts from established charges, costs (subject to limits), fee screens, prospectively determined per diem rates, and capitation fees earned on a per-member-per-month basis. Net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Under the terms of various agreements, regulations and statutes, certain elements of third-party reimbursements are subject to negotiation, audit, and final determination by the third-party payors. Variances between preliminary estimates of net patient service revenue and final third-party settlements are included in net patient service revenue in the year in which the settlement or change in estimate occurs. During fiscal years 2011 and 2010, the System recorded increases in net patient service revenue of $771,118 and $225,478, respectively, related to changes in previously estimated third-party settlements.

Grant Revenue

The Hospital receives grants from agencies of the federal government and other sources to perform medical research and educational projects. Revenue related to these grants is recognized as the related costs are incurred. Grant revenues included in other revenue amounted to $5,704,174 and $4,861,889 for the years ended September 30, 2011 and 2010, respectively. Deferred revenues which relate to grant funds received prior to costs being incurred are included in accounts payable and accrued expenses and amounted to $800,260 and $1,079,789 at September 30, 2011 and 2010, respectively.

RIDOH 0636

1. Organization and Summary of Significant Accounting Policies (continued)

Functional Expenses

Substantially all expenses in the accompanying consolidated statements of operations and changes in net assets are related to the delivery of health care services and the performance of medical research and educational projects.

Disproportionate Share Program

The Hospital is a participant in the State of Rhode Island's Disproportionate Share Program, which was established in 1995 to assist hospitals that provide a disproportionate amount of uncompensated care. Under the program, the Hospital receives federal and state Medicaid funds as additional reimbursement for treating a disproportionate share of low-income patients. Payments to the Hospital under the Disproportionate Share Program of $5,757,941 and $8,489,049 for the years ended September 30, 2011 and 2010, respectively, are included in net patient service revenue in the accompanying consolidated statements of operations and changes in net assets.

Assessments

The state of Rhode Island assesses a licensing fee to all Rhode Island hospitals based upon each hospital's gross patient service revenue as reported on filed cost reports. The Hospital's licensing fee amounted to $7,549,028 and $7,178,101 for the years ended September 30, 2011 and 2010, respectively.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets consist of amounts restricted by donors for specific purposes. Permanently restricted net assets have been restricted by donors and are to be maintained by the System in perpetuity. Also included in permanently restricted net assets are assets held in externally administered irrevocable trusts which are not under the System's control. The System is the income beneficiary of certain perpetual trusts and has recognized its share of the fair value of the perpetual trusts as a permanently restricted asset. The System's share represents the percentage of interest the System has in the perpetual trust's income distributions. The System's share of the increase or decrease in fair value of the perpetual trusts is reported as an increase or decrease in permanently restricted net assets.

1. Organization and Summary of Significant Accounting Policies (continued)

Donor Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. Gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are reported as unrestricted donations.

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid debt instruments with maturities of three months or less when purchased, excluding assets whose use is limited or restricted.

Accounts Receivable

Patient accounts receivable result from the health care services provided by the System. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators.

Inventories

Inventories are stated at the lower of cost or market, cost being determined on a weighted-average basis, except for the pharmacy and central processing departments, which utilize the first-in, first-out basis.

Assets Whose Use Is Limited

Resources set aside for board-designated purposes or limited under terms of loan agreements are considered to be assets whose use is limited. Assets whose use is limited that are required for obligations classified as current liabilities are classified as current assets.

RIDOH 0638

1. Organization and Summary of Significant Accounting Policies (continued)

Assets whose use is limited by donors for designated purposes consist of amounts contributed for the design and renovation of the Hospital's facility. Assets whose use is limited by donors for permanent endowment funds contain a donor-imposed restriction stipulating that these resources be maintained permanently. However, the restriction permits the Hospital to use or expend all of the income and net gains derived from the donated assets. Accordingly, investment income on the assets is unrestricted. Rhode Island general law allows organizations to permanently restrict investment earnings on permanently restricted funds to maintain the purchasing power of the original dollar value of the funds. The law also allows the governing board to expend such funds as permitted under other laws, the terms of the applicable gift instrument, or the charter of the institution. Each year, the Board of Trustees has designated all income of permanently restricted assets, other than externally administered trusts, for future Hospital use and, therefore, the income has been classified as unrestricted.

The Hospital is the beneficiary of the income from assets held in externally administered trusts, which are not under its control. Income from these trusts is unrestricted, and the annual distributions received by the Hospital are reported as nonoperating gains in the consolidated statements of operations and changes in net assets.

Investments and Investment Income

Investments in equity securities with readily determinable fair values and investments in debt securities are measured at fair value in the consolidated balance sheets. Fair value is generally determined based on quoted market price. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in the deficiency of revenue over expenses.

Property and Equipment

Property and equipment purchased are carried at cost and those acquired by gifts and bequests are carried at fair value established at the date of contribution. The carrying amounts of assets and the related accumulated depreciation are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in income from operations. Depreciation of property and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives ranging from 3 to 50 years. The cost of additions and improvements are capitalized and expenditures for repairs and maintenance, including the cost of replacing minor items not considered substantial enhancements, are expensed as incurred.

RIDOH 0639

1. Organization and Summary of Significant Accounting Policies (continued)

Gifts of long-lived assets such as land, buildings, and equipment are reported as unrestricted contributions and are excluded from the deficiency of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long these long-lived assets must be maintained, expiration of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs

Deferred financing costs represent costs incurred in connection with the issuance of debt, which are being amortized over the term of the related debt issue. Amortization expense amounted to $26,752 and $26,751 for the years ended September 30, 2011 and 2010, respectively.

Tax Status

SHSI, the Hospital, Ventures and BHI have been recognized as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code). RSR has been recognized as a tax-exempt organization under Section 501(c)(2) of the Code. Those organizations are, therefore, exempt from federal taxes on related income pursuant to Section 501(a) of the Code. PCCNE is organized as a for-profit corporation and is, therefore, subject to tax. The provision for income taxes on the earnings of PCCNE is immaterial to the consolidated financial statements.

As of September 30, 2011, PCCNE has net operating loss carryforwards of approximately $600,000 for income tax purposes. These carryforwards resulted from PCCNE incurring operating losses in prior years. A deferred tax asset for these losses of approximately $240,000 is offset by a corresponding valuation allowance of the same amount.

RIDOH 0640

1. Organization and Summary of Significant Accounting Policies (continued)

Adoption of New Accounting Standards

In August 2010, the Financial Accounting Standards Board (FASB) issued amended guidance relating to measuring charity care for disclosures. The amended guidance requires that the level of charity care provided be presented based on the direct and indirect costs of the charity services provided. Separate disclosure of the amount of any cash reimbursements received for providing charity care must also be disclosed. The amended guidance is effective for fiscal years beginning after December 15, 2010. SHSI will adopt the disclosures required by the amended guidance in fiscal 2012.

In August 2010, the FASB issued amended guidance related to the presentation of insurance claims and related insurance recoveries. Under the new guidance, anticipated insurance recoveries and estimated liabilities for medical malpractice claims or similar contingent liabilities will be presented separately on the balance sheet. The guidance is effective for fiscal years beginning after December 15, 2010. SHSI will adopt the presentation changes to the balance sheet in fiscal 2012.

In July 2011, the FASB issued new guidance, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts.* The guidance requires certain health care entities to present the bad debt expense associated with the patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) rather than operating expense. The guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 31, 2011, with early adoption permitted.

2. Accounts Receivable for Patients and Net Patient Service Revenue

During fiscal years 2011 and 2010, the Hospital's net revenues from services to patients were 31% and 34% from Medicare and 19% and 17% from Medicaid, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term. The Hospital believes that it is in compliance with all applicable laws and regulations, and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital.

RIDOH 0641

2. Accounts Receivable for Patients and Net Patient Service Revenue (continued)

Net revenues from services to patients are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Revenue under third-party payor agreements is subject to audit and retroactive adjustments. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations.

Patient accounts receivable and revenues are recorded when patient services are performed. The Hospital has agreements with certain third-party payors, including health maintenance organizations, that provide for payments to the Hospital at amounts different from the Hospital's established billing rates. These differences are accounted for as allowances. Under those agreements, the Hospital receives reimbursement based on a number of different arrangements.

3. Uncompensated Care and Community Benefit

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The following table displays the level of charity care provided during the years ended September 30:

	2011	2010
Charges forgone, based on established rates	**$ 6,888,579**	$ 6,076,412
Estimated costs and expenses incurred to provide charity care	**$ 3,002,479**	$ 2,823,790

RIDOH 0642

3. Uncompensated Care and Community Benefit (continued)

In addition to the above-mentioned medical care rendered, the Hospital provides numerous other services to the community for which charges are not generated. These services include translation of medical information into various languages, physician referral services, health care screenings (including those done at employer sites), community support groups, health educational programs, physician services, and general community benefit services such as disaster relief. In addition, volunteer services are provided by Hospital staff to the community on their own time.

The Hospital also provides services to other indigent patients under the Medicaid program, which reimburses health care providers at amounts which are, in total, estimated to be less than the cost of services provided. The differences between the cost of services provided to indigent patients and the expected reimbursement are also considered to be charitable services by the Hospital but they have not been included in the amounts disclosed above.

In addition to the cost of charity care and other community service programs, the Hospital provided $16,371,134 and $15,657,416 for uncollectible patient accounts during the years ended September 30, 2011 and 2010, respectively.

5. Endowment

The System follows the requirements of the Rhode Island enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) as they relate to its permanently restricted endowments. The System's endowments consist of numerous individual funds established for a variety of purposes. Its endowments consist solely of donor-restricted endowment funds held by the System. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported on the existence or absence of donor-imposed restrictions.

The System classifies restricted donor funds in accordance with the state of Rhode Island and generally accepted accounting principles. The System classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) the accumulation of the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the System in a manner consistent with the standard of prudence prescribed by the state laws of Rhode Island and UPMIFA. The System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the System and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the System; and (7) the investment and spending policies of the System.

RIDOH 0645

5. Endowment (continued)

For the years ended September 30, 2011 and 2010, the System had the following changes in the endowment net assets:

RIDOH 0646

5. Endowment (continued)

It is the policy of the System that any appropriations from the appreciation in endowment funds be periodically requested of and approved by the Board of Trustees.

From time to time, the fair value of the assets associated with the individual donor-restricted endowment funds may fall below the level that the donor requires the System to retain as a fund of perpetual duration. There are no deficiencies of this nature which are reported in unrestricted net assets as of September 30, 2011.

6. Line of Credit

The Hospital has an unsecured revolving line of credit with a bank which provides for borrowings of up to $5,000,000 for both fiscal 2011 and 2010. Interest accrues at an effective rate of LIBOR plus 3.5% (4.75% at September 30, 2011).

7. Property and Equipment

Property and equipment consisted of the following at September 30:

	2011	2010

8. Long-Term Debt

Long-term debt consists of the following at September 30:

	2011	2010
Rhode Island Health and Educational Building Corporation Hospital Financing Revenue Refunding Bonds	**$ 12,520,000**	$ 14,080,000
Add premium	**173,484**	195,868

Less current portion	**(1,587,385)**	(1,582,385)
Long-term debt	**$ 11,106,099**	$ 12,693,483

In December 2003, the Rhode Island Health and Educational Building Corporation (RIHEBC) issued $25,000,000 of Series 2003 Hospital Financing Revenue Refunding Bonds (the Bonds) on behalf of the Hospital. RIHEBC loaned the proceeds of the Bonds to the Hospital pursuant to the Loan and Trust Agreement (the Agreement) dated December 1, 2003. The terms of the Agreement stipulate that interest will be paid at fixed rates ranging from 4.00% to 5.25% per annum (weighted-average rate at September 30, 2011 and 2010, was 4.59% and 4.53%, respectively), with principal installments commencing July 1, 2004, and ending July 1, 2019.

The Bonds are issued under and collateralized by the Agreement. The terms of the Agreement require that the Hospital make quarterly payments to the trustee which are sufficient to provide for payment of principal and interest due on the Bonds. The Bonds are collateralized by a lien on the Hospital's gross receipts. Additional debt collateralized on a parity with the Bonds may only be incurred by the Hospital in accordance with restrictions of the Agreement.

As required by the Agreement, the bonds are secured by a letter of credit from a commercial bank. Accordingly, the Hospital has entered into a Reimbursement Agreement, dated December 1, 2003 (Reimbursement Agreement), and an Unrestricted Endowment Account Control Agreement dated July 31, 2009 (Account Control Agreement). Under the terms of the Reimbursement Agreement the Hospital must meet the requirements of certain covenants. The Account Control Agreement grants the bank a security interest in certain investments held by the Hospital. For the year ended September 30, 2011, the Hospital was not in compliance with the required minimum cash flow coverage ratio covenant required by the Reimbursement Agreement. Under the terms of an Amendment to the Reimbursement Agreement dated February 29, 2012 (Amendment), the required minimum cash flow coverage ratio covenant was

RIDOH 0648

8. Long-Term Debt (continued)

waived for each of the 4 quarters ending September 30, 2011 and December 31, 2011. In addition, the requirement to provide annual audited financial statements to the trustee by February 27, 2012 was also waived. The amendment to the reimbursement agreement amends certain sections of the original reimbursement agreement and requires the Hospital to: fund a debt service fund in an amount equal to the monthly pro-rata portion of the annual debt service on the bonds; release funds to repay the existing line of credit and fund operating losses; and meet certain transaction milestones in fiscal year 2013. The Amendment also limits the amount of monthly losses from operations. As of September 30, 2011, December 31, 2011 and March 8, 2012 the Hospital was in compliance with the terms of the amended Reimbursement Agreement.

The aggregate maturities of long-term debt (prior to amortization of premium) for the next five fiscal years ending September 30 and thereafter are approximately as follows:

2012	$ 1,565,000
2013	1,565,000
2014	1,565,000
2015	1,565,000
2016	1,565,000
Thereafter	4,695,000

Cash paid for interest on all borrowings during the years ended September 30, 2011 and 2010, was approximately $1,182,000 and $1,325,000, respectively.

The fair value of long-term debt is reported in the accompanying consolidated balance sheets at principal value, plus unamortized premium, which totaled $12,693,484 at September 30, 2011. The fair value of these obligations at September 30, 2011, as estimated based on quoted market prices for similar bonds, totaled $12,967,120.

9. Pension Plan

The Hospital has a defined benefit pension plan (the Plan) covering substantially all of its employees. The plan benefits are based on years of service and employees' compensation during the last five years of covered employment. The Hospital makes annual contributions to the Plan, which approximates the amount of net periodic pension cost. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future.

RIDOH 0649

Assumptions

Weighted-average assumptions used to determine benefit obligations and net periodic pension cost at September 30, 2011 and 2010, and for the years then ended are as follows:

	Benefit Obligations		Net Periodic Pension Cost	
	2011	2010	2011	2010
Discount rate	**5.40%**	5.63%	**5.63%**	5.80%

Rate of compensation increase	**2.00%**	2.00%	**2.00%**	2.00%

The expected rate of return on plan assets was determined by the expected return on each asset class based on a model that considers historical and expected future performance.

RIDOH 0651

9. Pension Plan (continued)

The accumulated benefit obligation was $120,867,716 and $106,313,277 at September 30, 2011 and 2010, respectively.

Plan Assets

The Plan weighted-average asset allocations as of September 30, by asset category, are as follows:

	Target Allocation	2011	2010
Equity securities	33%	**30%**	34%
Annuities	50	**52**	47
Debt securities	13	**13**	12
Alternative investments	4	**2**	2
Cash equivalents	0	**3**	5
Total	100%	**100%**	100%

The goals of the Plan are to provide a secure retirement benefit for plan participants and to manage plan assets for the exclusive benefit of the participants. The invested assets will be managed on a long-term total return basis and measured against established benchmarks for each asset class. Risk management is achieved by limiting the size of asset class and individual security positions to achieve adequate diversification. The Plan will maintain a funded level sufficient to ensure benefit security.

Cash Flows

Contributions

The Hospital funds the Plan in accordance with guidelines prescribed by the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's contribution requirement is not yet known. Actual contributions for the fiscal year ending September 30, 2012, will be based on the contribution requirement and other factors, including the September 30, 2012, disclosure status.

Estimated Future Benefit Payments

Benefit payments, which reflect expected future service, are expected to be paid as follows:

2012	$ 4,720,000
2013	5,028,000
2014	5,332,000
2015	5,596,000
2016	6,090,000
2017 – 2021	37,923,000

10. Estimated Self-Insurance Liabilities

Professional Liability Insurance

Effective July 1, 2004, professional liability insurance coverage was provided on an occurrence basis. Such coverage was provided on a claims-made basis through June 30, 2004. The claims-made policies cover only claims made during the terms of the policies and not those occurrences for which claims may be made after expiration of the policies. The System is self-insured with respect to incurred but not reported (IBNR) claims incurred prior to July 1, 2004. Accordingly, the System has established a liability for such IBNR exposure of $579,313 and $582,000 at September 30, 2011 and 2010, respectively.

RIDOH 0655

10. Estimated Self-Insurance Liabilities (continued)

Workers' Compensation Insurance

The System is self-insured with respect to workers' compensation risks up to a maximum of $350,000 per claim. The provision for estimated self-insured workers' IBNR compensation claims includes estimates of the ultimate costs for both reported claims and claims. The estimates incorporate the System's past experience, as well as other considerations.

11. Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, many of whom are local residents and are insured under third-party payor agreements. The percentage of accounts receivable from patients and various third-party payors was as follows at September 30:

	2011	2010
Medicare	**28%**	26%
Blue Cross	**17**	19
Medicaid	**13**	18
Other third-party payors	**26**	24
Patients	**16**	13
	100%	100%

12. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets consist of the following at September 30:

	2011	2010
General activities	**$ 741,145**	$ 805,860
Research	**88,451**	97,478
Net appreciation (realized and unrealized)	**468,358**	111,935
	$ 1,297,954	$ 1,015,273

RIDOH 0656

12. Temporarily and Permanently Restricted Net Assets (continued)

Permanently restricted net assets consist of the following at September 30:

Principal portion of contributions restricted in perpetuity by donors	**$ 3,124,215**	$ 3,124,192
Assets held in externally administered trusts	**6,345,138**	6,588,975
	$ 9,469,353	$ 9,713,167

13. Commitments and Contingencies

The System is a defendant in several lawsuits, which are in various stages of progress or discovery. Management believes that its insurance coverage is adequate to cover claims made under all such lawsuits and, accordingly, no provision for loss has been reflected in the accompanying consolidated financial statements.

14. Fair Value Measurement

The System applies the methods of calculating fair value defined in Accounting Standards Codification (ASC) 820-10 to value its financial assets and liabilities, where applicable. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value. ASC 820-10 applies to other accounting pronouncements that require or permit fair value measurements, and does not require new fair value measurements. Fair value measurements are applied based on the unit of account from the reporting entity's perspective.

The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements.

RIDOH 0657

14. Fair Value Measurement (continued)

ASC 820 establishes a three-tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.

Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data.

Level 3: Unobservable inputs that are used when little or no market data is available. The Level 3 inputs are assigned the lowest priority.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, the System uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers nonperformance risk in its assessment of fair value.

14. Fair Value Measurement (continued)

Fair value for Level 1 is based upon quoted market prices. Fair value for Level 2 assets is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers, and brokers. The valuation for alternative investments included in Level 2 are stated at fair value, as estimated in an unquoted market. Fair value for alternative investments is determined for each investment using net asset values as a practical expedient, as permitted by generally accepted accounting principles, rather than using another valuation method to independently estimate fair value. The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the System believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

15. Subsequent Events

In accordance with ASC 855-10, *Subsequent Events*, management has evaluated subsequent events through March 9, 2012, which is the date the consolidated financial statements were issued. No events have occurred that require disclosure or adjustment of the consolidated financial statements.

Report of Independent Auditors

Board of Trustees
Southeastern Healthcare System, Inc.

We have audited the accompanying consolidated balance sheets of Southeastern Healthcare System, Inc. and Affiliates (the System) as of September 30, 2010 and 2009, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Organization's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the System as of September 30, 2010 and 2009, and the consolidated results of their operations and changes in their net assets and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

1. Organization and Summary of Significant Accounting Policies

Organization

Southeastern Healthcare System, Inc. (SHSI), formed in 1997, is the sole corporate member or shareholder of Memorial Hospital of Rhode Island (the Hospital), Primary Care Centers of New England, Inc. (PCCNE), and Blackstone Health, Inc. (BHI) (collectively referred to as the System). The Hospital is the sole corporate member of R.S. Realty Company (RSR) and SHS Ventures, Inc. (Ventures).

The Hospital is a 294-bed, acute care, not-for-profit community teaching and research hospital located in Pawtucket, Rhode Island, and is affiliated with Brown University School of Medicine. RSR owns and leases apartments and office space primarily to Hospital employees. PCCNE provides staffing to Ventures and the Hospital. Ventures consists of Massachusetts-based physician practices. BHI receives and administers certain grant funds, and provides services to elderly and disabled residents in the local area.

Principles of Consolidation

The accompanying consolidated financial statements include the assets of SHSI and its controlled affiliates. The assets of any one of the members of the consolidated group may not be available to meet the obligations of other entities in the group. Intercompany balances and transactions between the organizations have been eliminated in consolidation.

Consolidated Statements of Operations and Changes in Net Assets

The consolidated statements of operations and changes in net assets include the deficiency of revenue over expenses. Changes in unrestricted net assets, which are excluded from the deficiency of revenue over expenses, consistent with industry practice, include contributions of long-lived assets, including assets acquired using contributions which, by donor restrictions, were to be used for the purpose of acquiring such assets, change in net assets related to pension, and net assets released from restrictions used to purchase property and equipment.

For presentation purposes, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as operating revenue and operating expenses. Other transactions not considered major or central to the provision of health care services are reported as non-operating gains and losses, which primarily consist of investment income and unrestricted donations.

RIDOH 0682

1. Organization and Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Net Patient Service Revenue

The System has entered into payment agreements with Medicare, Medicaid, and various commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under those agreements includes prospectively determined rates per discharge, discounts from established charges, costs (subject to limits), fee screens, prospectively determined per diem rates, and capitation fees earned on a per-member-per-month basis. Net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Under the terms of various agreements, regulations and statutes, certain elements of third-party reimbursements are subject to negotiation, audit, and final determination by the third-party payors. Variances between preliminary estimates of net patient service revenue and final third-party settlements are included in net patient service revenue in the year in which the settlement or change in estimate occurs. During fiscal years 2010 and 2009, the System recorded increases in net patient service revenue of $225,478 and $923,712, respectively, related to changes in previously estimated third-party settlements.

Grant Revenue

The Hospital receives grants from agencies of the federal government and other sources to perform medical research and educational projects. Revenue related to these grants is recognized as the related costs are incurred. Grant revenues included in other revenue amounted to $4,861,889 and $3,333,161 for the years ended September 30, 2010 and 2009, respectively. Deferred revenues which relate to grant funds received prior to costs being incurred are included in accounts payable and accrued expenses and amounted to $1,079,789 and $910,973 at September 30, 2010 and 2009, respectively.

RIDOH 0683

1. Organization and Summary of Significant Accounting Policies (continued)

Functional Expenses

Substantially all expenses in the accompanying consolidated statements of operations and changes in net assets are related to the delivery of health care services and the performance of medical research and educational projects.

Disproportionate Share Program

The Hospital is a participant in the State of Rhode Island's Disproportionate Share Program, which was established in 1995 to assist hospitals that provide a disproportionate amount of uncompensated care. Under the program, the Hospital receives federal and state Medicaid funds as additional reimbursement for treating a disproportionate share of low-income patients. Payments to the Hospital under the Disproportionate Share Program of $8,489,049 and $8,346,204 for the years ended September 30, 2010 and 2009, respectively, are included in net patient service revenue in the accompanying consolidated statements of operations and changes in net assets.

Assessments

The State of Rhode Island assesses a licensing fee to all Rhode Island hospitals based upon each hospital's gross patient service revenue as reported on filed cost reports. The Hospital's licensing fee amounted to $7,178,101 and $7,303,539 for the years ended September 30, 2010 and 2009, respectively.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets consist of amounts restricted by donors for specific purposes. Permanently restricted net assets have been restricted by donors and are to be maintained by the System in perpetuity. Also included in permanently restricted net assets are assets held in externally administered irrevocable trusts which are not under the System's control. The System is the income beneficiary of certain perpetual trusts and has recognized its share of the fair value of the perpetual trusts as a permanently restricted asset. The System's share represents the percentage of interest the System has in the perpetual trust's income distributions. The System's share of the increase or decrease in fair value of the perpetual trusts is reported as an increase or decrease in permanently restricted net assets.

1. Organization and Summary of Significant Accounting Policies (continued)

Donor Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. Gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are reported as unrestricted donations.

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly-liquid debt instruments with maturities of three months or less when purchased, excluding assets whose use is limited or restricted.

Accounts Receivable

Patient accounts receivable result from the health care services provided by the System. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators.

Inventories

Inventories are stated at the lower of cost or market, cost being determined on a weighted-average basis, except for the pharmacy and central processing departments, which utilize the first-in, first-out basis.

Assets Whose Use Is Limited

Resources set aside for board-designated purposes or limited under terms of loan agreements are considered to be assets whose use is limited. Assets whose use is limited that are required for obligations classified as current liabilities are classified as current assets.

RIDOH 0685

1. Organization and Summary of Significant Accounting Policies (continued)

Assets whose use is limited by donors for designated purposes consist of amounts contributed for the design and renovation of the Hospital's facility. Assets whose use is limited by donors for permanent endowment funds contain a donor-imposed restriction stipulating that these resources be maintained permanently. However, the restriction permits the Hospital to use or expend all of the income and net gains derived from the donated assets. Accordingly, investment income on the assets is unrestricted. Rhode Island general law allows organizations to permanently restrict investment earnings on permanently restricted funds to maintain the purchasing power of the original dollar value of the funds. The law also allows the governing board to expend such funds as permitted under other laws, the terms of the applicable gift instrument, or the charter of the institution. Each year, the Board of Trustees has designated all income of permanently restricted assets, other than externally administered trusts, for future Hospital use and, therefore, the income has been classified as unrestricted.

The Hospital is the beneficiary of the income from assets held in externally administered trusts, which are not under its control. Income from these trusts is unrestricted, and the annual distributions received by the Hospital are reported as non-operating gains in the consolidated statements of operations and changes in net assets.

Investments and Investment Income

Investments in equity securities with readily determinable fair values and investments in debt securities are measured at fair value in the consolidated balance sheets. Fair value is generally determined based on quoted market price. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in the deficiency of revenue over expenses.

Property and Equipment

Property and equipment purchased are carried at cost and those acquired by gifts and bequests are carried at fair value established at the date of contribution. The carrying amounts of assets and the related accumulated depreciation are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in income from operations. Depreciation of property and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives ranging from 3 to 50 years. The cost of additions and improvements are capitalized and expenditures for repairs and maintenance, including the cost of replacing minor items not considered substantial enhancements, are expensed as incurred.

1. Organization and Summary of Significant Accounting Policies (continued)

Gifts of long-lived assets such as land, buildings, and equipment are reported as unrestricted contributions and are excluded from the deficiency of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long these long-lived assets must be maintained, expiration of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs

Deferred financing costs represent costs incurred in connection with the issuance of debt, which are being amortized over the term of the related debt issue. Amortization expense amounted to $26,751 and $26,751 for the years ended September 30, 2010 and 2009, respectively.

Fair Value of Financial Instruments

The fair value of the System's financial instruments approximates the carrying amount reported in the consolidated balance sheets for cash and cash equivalents, receivables, and payables. See Note 14 for the fair value of investments and assets whose use is limited and Note 8 for the fair value of long-term debt.

Deficiency of Revenue over Expenses

In the accompanying consolidated statements of operations and changes in net assets, deficiency of revenue over expenses is the performance indicator. Peripheral or incidental transactions are included in deficiency of revenue over expenses. Those gains and losses deemed by management to be closely related to ongoing operations are included in other revenue; other gains and losses are classified as non-operating.

Consistent with industry practice, contributions of, or restricted to, property and equipment, transfers of assets to and from affiliates for other than goods and services, net assets released from restrictions used for purchase of property and equipment, and changes in pension liabilities are excluded from the performance indicator but are included in the change in net assets.

RIDOH 0687

1. Organization and Summary of Significant Accounting Policies (continued)

Tax Status

SHSI, the Hospital, Ventures and BHI have been recognized as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code). RSR has been recognized as a tax-exempt organization under Section 501(c)(2) of the Code. Those organizations are, therefore, exempt from federal taxes on related income pursuant to Section 501(a) of the Code. PCCNE is organized as a for-profit corporation and is, therefore, subject to tax. The provision for income taxes on the earnings of PCCNE is immaterial to the consolidated financial statements.

As of September 30, 2010, PCCNE has net operating loss carryforwards of approximately $1,380,000 for income tax purposes. These carryforwards resulted from PCCNE incurring operating losses in prior years. A deferred tax asset for these losses of approximately $552,000 is offset by a corresponding valuation allowance of the same amount.

Adoption of New Accounting Standards

In August 2010 (ASU), the Financial Accounting Standards Board (FASB) issued Accounting Standard Update 2010-24, *Topic 954 – Presentation of Insurance Claims and Related Insurance Recoveries* ("ASU 2010-24"). The amendments in this update clarify that a health care entity should not net insurance recoveries against a related claim liability. Additionally, the amount of the claim liability should be determined without consideration of insurance recoveries. The amendments in this update permit retrospective application and are effective for fiscal years beginning after December 15, 2010. The System has not yet determined the effect that the adoption of ASU 2010-24 will have on its consolidated financial statements.

In December 2008, the FASB issued additional authoritative guidance regarding an employer's disclosures about postretirement benefit plan assets, currently included in Accounting Standards Codification (ASC) 715, *Compensation — Retirement Benefits*. This guidance requires disclosure about the major classes of postretirement benefit plan assets, including a description of the inputs and valuation techniques used to measure those assets and the designation of such assets by level; how investment allocation decisions are made; the effect of fair value measurements using significant unobservable inputs on changes in plan assets for the period; and significant concentrations of risk within plan assets. The adoption of this guidance did not have a significant impact on the System's consolidated financial statements for the year ended September 30, 2010.

In January 2010, the FASB issued Accounting Standards Update ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended ASC 820 to clarify certain

RIDOH 0688

1. Organization and Summary of Significant Accounting Policies (continued)

existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value, and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 becomes effective for reporting periods beginning after December 15, 2009. Management is currently evaluating the effect that the provisions of ASU 2010-06 will have on the consolidated financial statements.

2. Accounts Receivable for Patients and Net Patient Service Revenue

During fiscal years 2010 and 2009, the Hospital's net revenues from services to patients were 34% and 32% from Medicare and 17% and 17% from Medicaid, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term. The Hospital believes that it is in compliance with all applicable laws and regulations, and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital.

Net revenues from services to patients is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Revenue under third-party payor agreements is subject to audit and retroactive adjustments. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations. Third-party payor receivables included in accounts receivable for services to patients were $2.5 million and $3.1 million at September 30, 2010 and 2009, respectively.

RIDOH 0689

2. Accounts Receivable for Patients and Net Patient Service Revenue (continued)

Patient accounts receivable and revenues are recorded when patient services are performed. The Hospital has agreements with certain third-party payors, including health maintenance organizations, that provide for payments to the Hospital at amounts different from the Hospital's established billing rates. These differences are accounted for as allowances. Under those agreements, the Hospital receives reimbursement based on a number of different arrangements.

The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital.

3. Uncompensated Care and Community Benefit

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The following table displays the level of charity care provided during the years ended September 30:

	2010	2009
Charges forgone, based on established rates	**$ 6,076,412**	$ 4,851,732
Estimated costs and expenses incurred to provide charity care	**$ 2,823,790**	$ 2,374,879

In addition to the above-mentioned medical care rendered, the Hospital provides numerous other services to the community for which charges are not generated. These services include translation of medical information into various languages, physician referral services, health care screenings (including those done at employer sites), community support groups, health educational programs, physician services, and general community benefit services such as disaster relief. In addition, volunteer services are provided by Hospital staff to the community on their own time.

RIDOH 0690

3. Uncompensated Care and Community Benefit (continued)

The Hospital also provides services to other indigent patients under the Medicaid program, which reimburses health care providers at amounts which are, in total, estimated to be less than the cost of services provided. The differences between the cost of services provided to indigent patients and the expected reimbursement is also considered to be charitable services by the Hospital but they have not been included in the amounts disclosed above.

In addition to the cost of charity care and other community service programs, the Hospital provided $15,657,416 and $12,688,221 for uncollectible patient accounts during the years ended September 30, 2010 and 2009, respectively.

5. Endowment

The System follows the requirements of the Rhode Island enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) as they relate to its permanently restricted endowments. The System's endowments consist of numerous individual funds established for a variety of purposes. Its endowments consist solely of donor-restricted endowment funds held by the System. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported on the existence or absence of donor-imposed restrictions.

The System classifies restricted donor funds in accordance with the State of Rhode Island and generally accepted accounting principles. The System classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) the accumulation of the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the System in a manner consistent with the standard of prudence prescribed by the state laws of Rhode Island and UPMIFA. The System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the System and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the System; and (7) the investment and spending policies of the System.

RIDOH 0692

5. Endowment (continued)

For the year ended September 30, 2010, the System had the following changes in the endowment net assets:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning of year	$ –	$ 3,124,158	$ 3,124,158
Investment returns:			
Investment income	657,837	–	657,837
Net appreciation (realized and unrealized)	111,935	–	111,935
Total investment return	769,772	–	769,772
Appropriation of endowment assets for expenditure	(657,837)	–	(657,837)
Permanently restricted endowment contributions		34	34
Endowment net assets, end of year	$ 111,935	$ 3,124,192	$ 3,236,127

It is the policy of the System that any appropriations from the appreciation in endowment funds be periodically requested of and approved by the Board of Trustees.

From time to time, the fair value of the assets associated with the individual donor-restricted endowment funds may fall below the level that the donor requires the System to retain as a fund of perpetual duration. There are no deficiencies of this nature which are reported in unrestricted net assets as of September 30, 2010.

6. Line of Credit

The Hospital has an unsecured revolving line of credit with a bank which provides for borrowings of up to $5,000,000 for both fiscal 2010 and 2009. Interest accrues at an effective rate of LIBOR plus 3.5% (4.75% at September 30, 2010).

In December 2003, the Rhode Island Health and Educational Building Corporation (RIHEBC) issued $25,000,000 of Series 2003 Hospital Financing Revenue Refunding Bonds (the Bonds) on behalf of the Hospital. RIHEBC loaned the proceeds of the Bonds to the Hospital pursuant to the Loan and Trust Agreement (the Agreement) dated December 1, 2003. The terms of the Agreement stipulate that interest will be paid at fixed rates ranging from 2.00% to 5.25% per annum (weighted-average rate at September 30, 2010 and 2009 was 4.53% and 4.48%, respectively), with principal installments commencing July 1, 2004 and ending July 1, 2019.

RIDOH 0694

8. Long-Term Debt (continued)

The Bonds are issued under and collateralized by the Agreement. The terms of the Agreement require that the Hospital make quarterly payments to the trustee which are sufficient to provide for payment of principal and interest due on the Bonds. The Bonds are collateralized by a lien on the Hospital's gross receipts. Additional debt collateralized on a parity with the Bonds may only be incurred by the Hospital in accordance with restrictions of the Agreement.

As security for the payment of the principal amount of the Bonds, a bank letter of credit was issued under the terms of a Reimbursement Agreement between the Hospital and the bank dated December 31, 2003 (Reimbursement Agreement). Section 7 of the Reimbursement Agreement contains various covenants with which the Hospital must comply. As of September 30, 2010 and 2009, the Hospital was in compliance with all its covenants.

The aggregate maturities of long-term debt (prior to amortization of premium) for the next five fiscal years ending September 30 and thereafter are approximately as follows:

2011	$ 1,560,000
2012	1,565,000
2013	1,565,000
2014	1,565,000
2015	1,565,000
Thereafter	6,260,000

Cash paid for interest on all borrowings during the years ended September 30, 2010 and 2009 was approximately $1,325,000 and $1,255,000, respectively.

9. Pension Plan

The Hospital has a defined benefit pension plan (the Plan) covering substantially all of its employees. The plan benefits are based on years of service and employees' compensation during the last five years of covered employment. The Hospital makes annual contributions to the Plan, which approximates the amount of net periodic pension cost. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future.

RIDOH 0695

9. Pension Plan (continued)

On September 29, 2006, the FASB issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 123(R)* (hereafter referred to as ASC 715). In 2009, the System adopted the measurement date provisions of ASC 715. ASC 715 required the System to measure defined benefit plan assets and obligations as of September 30, the date of its fiscal year-end consolidated balance sheet. Prior to the implementation of this change, the measurement date for the System's pension and postretirement benefit plans was June 30. The adjustment to unrestricted net assets at adoption represents a decrease to net assets of $882,733 and an increase to accrued pension obligation.

The following table sets forth the status of the Plan as of September 30:

	2010	2009
Change in benefit obligation		
Projected benefit obligation at beginning of year	**$ 107,433,658**	$ 90,314,749

Unrecognized prior service credit	**(51,978)**	(60,313)

RIDOH 0696

9. Pension Plan (continued)

The actuarial loss and prior service credit included in unrestricted net assets at September 30, 2010, and expected to be recognized in net periodic benefit cost during the year ending September 30, 2011, are as follows:

Unrecognized actuarial loss	**$ 2,380,609**
Unrecognized prior service credit	**(8,335)**
	$ 2,372,274

Components of net periodic pension cost are as follows for the years ended September 30:

	2010	2009
Service cost – benefits earned during the year	**$ 3,657,470**	$ 4,329,294
Interest cost on projected benefit obligation	**6,134,459**	7,512,867
Actual return on plan assets	**(6,461,353)**	(8,217,105)
Net amortization and deferral	**2,149,489**	823,294
Net periodic pension cost	**$ 5,480,065**	$ 4,448,350

In 2009, the adoption of ASC 715 resulted in an additional three months of net periodic pension costs. The additional expense of $882,733 as a result of the adoption was recognized as a reduction of unrestricted net assets. The remaining $3,565,617 of expense is included within employee benefits expense.

Assumptions

Weighted-average assumptions used to determine benefit obligations and net periodic pension cost at September 30, 2010 and 2009 and for the years then ended are as follows:

	Benefit Obligations		Net Periodic Pension Cost	
	2010	2009	2010	2009
Discount rate	**5.63%**	5.80%	**5.80%**	6.75%
Expected rate of return on plan assets	**9.00%**	9.00%	**9.00%**	9.00%
Rate of compensation increase	**2.00%**	2.00%	**2.00%**	2.00%

The expected rate of return on plan assets was determined by the expected return on each asset class based on a model that considers historical and expected future performance.

RIDOH 0697

9. Pension Plan (continued)

The accumulated benefit obligation was $106,313,277 and $96,899,855 at September 30, 2010 and 2009, respectively.

Plan Assets

The Plan weighted-average asset allocations as of September 30, by asset category, are as follows:

	Target Allocation	2010	2009
Equity securities	38%	**34%**	34%
Annuities	42	**47**	47
Debt securities	20	**12**	12
Alternative investments	–	**2**	–
Cash equivalents	–	**5**	7
Total	100%	**100%**	100%

The goals of the Plan are to provide a secure retirement benefit for plan participants and to manage plan assets for the exclusive benefit of the participants. The invested assets will be managed on a long-term total return basis and measured against established benchmarks for each asset class. Risk management is achieved by limiting the size of asset class and individual security positions to achieve adequate diversification. The Plan will maintain a funded level sufficient to ensure benefit security.

Financial assets carried at fair value as of September 30, 2010 are classified in the following table in the following categories (see Note 14 for a description):

Estimated Future Benefit Payments

Benefit payments, which reflect expected future service, are expected to be paid as follows:

Professional Liability Insurance

Effective July 1, 2004, professional liability insurance coverage was provided on an occurrence basis. Such coverage was provided on a claims-made basis through June 30, 2004. The claims-made policies cover only claims made during the terms of the policies and not those occurrences for which claims may be made after expiration of the policies. The System is self-insured with respect to incurred but not reported (IBNR) claims incurred prior to July 1, 2004. Accordingly, the System has established a liability of $582,000 for such IBNR exposure.

RIDOH 0699

10. Estimated Self-Insurance Liabilities (continued)

Workers' Compensation Insurance

The System is self-insured with respect to workers' compensation risks up to a maximum of $350,000 per claim. The provision for estimated self-insured workers' IBNR compensation claims includes estimates of the ultimate costs for both reported claims and claims. The estimates incorporate the System's past experience, as well as other considerations.

11. Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, many of whom are local residents and are insured under third-party payor agreements. The percentage of accounts receivable from patients and various third-party payors was as follows at September 30:

	2010	2009
Medicare	**34%**	32%

Assets held in externally administered trusts	**6,588,975**	6,236,856
	$ 9,713,167	$ 9,361,014

13. Commitments and Contingencies

The System is a defendant in several lawsuits, which are in various stages of progress or discovery. Management believes that its insurance coverage is adequate to cover claims made under all such lawsuits and, accordingly, no provision for loss has been reflected in the accompanying consolidated financial statements.

14. Fair Value Measurement

The System has adopted the methods of calculating fair value as defined in ASC 820 to value its financial assets and liabilities, where applicable. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

ASC 820 establishes a three-tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.

Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data.

Level 3: Unobservable inputs that are used when little or no market data is available. The Level 3 inputs are assigned the lowest priority.

In determining fair value, the System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The System also considers nonperformance risk in the overall assessment of fair value.

RIDOH 0701

14. Fair Value Measurement (continued)

Financial assets, excluding assets held in the Plan, carried at fair value as of September 30, 2010 are classified in the following table in one of the three categories described above:

Report of Independent Auditors

Board of Trustees
Southeastern Healthcare System, Inc. and Affiliates

We have audited the accompanying consolidated balance sheets of Southeastern Healthcare System, Inc. and Affiliates (the System) as of September 30, 2009 and 2008, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of SHSI's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the System's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Southeastern Healthcare System, Inc. and Affiliates at September 30, 2009 and 2008, and the consolidated results of their operations and changes in net assets, and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Southeastern Healthcare System, Inc. and Affiliates

Notes to Consolidated Financial Statements

September 30, 2009

1. Summary of Significant Accounting Policies

Organization

Southeastern Healthcare System, Inc. (SHSI), formed in 1997, is the sole corporate member or shareholder of Memorial Hospital of Rhode Island (the Hospital), Primary Care Centers of New England, Inc. (PCCNE), and Blackstone Health, Inc. (BHI) (collectively referred to as the System). The Hospital is the sole corporate member of R.S. Realty Company (RSR) and SHS Ventures, Inc. (Ventures).

The Hospital is a 294-bed, acute care, not-for-profit community teaching and research hospital located in Pawtucket, Rhode Island, and is affiliated with Brown University School of Medicine. RSR owns and leases apartments and office space primarily to Hospital employees. PCCNE provides staffing to Ventures and the Hospital. Ventures consists of Massachusetts-based physician practices. BHI receives and administers certain grant funds, and provides services to elderly and disabled residents in the local area.

Principles of Consolidation

The accompanying consolidated financial statements include the assets of SHSI and its controlled affiliates. The assets of any one of the members of the consolidated group may not be available to meet the obligations of other entities in the group. Intercompany balances and transactions between the organizations have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

1. Summary of Significant Accounting Policies (continued)

Net Patient Service Revenue

The System has entered into payment agreements with Medicare, Medicaid, and various commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under those agreements includes prospectively determined rates per discharge, discounts from established charges, costs (subject to limits), fee screens, prospectively determined per diem rates, and capitation fees earned on a per-member-per-month basis. Net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Under the terms of various agreements, regulations and statutes, certain elements of third-party reimbursement are subject to negotiation, audit, and final determination by the third-party payors. Variances between preliminary estimates of net patient service revenue and final third-party settlements are included in net patient service revenue in the year in which the settlement or change in estimate occurs. During fiscal year 2009 and 2008, the System recorded a change in estimate of $923,712 and $ (12,188), respectively.

Consolidated Statements of Operations

The consolidated statements of operations include the excess of revenue over expenses. Changes in unrestricted net assets, which are excluded from the excess of revenues over expenses, consistent with industry practice, include contributions of long-lived assets, including assets acquired using contributions which, by donor restrictions, were to be used for the purpose of acquiring such assets, change in pension liability, the effect of change in measurement date for pension liability, and net assets released from restrictions used to purchase property and equipment.

For presentation purposes, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as operating revenue and operating expenses. Other transactions not considered major or central to the provision of health care services are reported as non-operating gains and losses, which primarily consist of investment income and unrestricted donations.

1. Summary of Significant Accounting Policies (continued)

Grant Revenue

The Hospital receives grants from agencies of the federal government and other sources to perform medical research and educational projects. Revenue related to the grants is recognized as the related costs are incurred. Grant revenues included in other revenue amounted to $3,333,161 and $3,891,994 for the years ended September 30, 2009 and 2008, respectively. Deferred revenues which relate to grant funds received prior to costs being incurred are included in accounts payable and accrued expenses and amounted to $910,973 and $755,538 at September 30, 2009 and 2008, respectively.

Functional Expenses

Substantially all expenses in the accompanying consolidated statements of operations are related to the delivery of health care services and the performance of medical research and educational projects.

Disproportionate Share Program

The Hospital is a participant in the State of Rhode Island's Disproportionate Share Program, which was established in 1995 to assist hospitals that provide a disproportionate amount of uncompensated care. Under the program, the Hospital receives federal and state Medicaid funds as additional reimbursement for treating a disproportionate share of low-income patients. Payments to the Hospital under the Disproportionate Share Program of $8,346,204 and $6,349,608 for the years ended September 30, 2009 and 2008, respectively, are included in net patient service revenue in the accompanying consolidated statements of operations.

Assessments

The State of Rhode Island assesses a licensing fee to all Rhode Island hospitals based upon each hospital's gross patient service revenue as reported on filed cost reports. The Hospital's licensing fee amounted to $7,303,539 and $4,567,793 for the years ended September 30, 2009 and 2008, respectively.

RIDOH 0726

1. Summary of Significant Accounting Policies (continued)

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets consist of amounts restricted by donors for specific purposes. Permanently restricted net assets have been restricted by donors and are to be maintained by the System in perpetuity. Also included in permanently restricted net assets are assets held in externally administered irrevocable trusts which are not under the System's control. The System is the income beneficiary of certain perpetual trusts and has recognized its share of the fair value of the perpetual trusts as a permanently restricted asset. The System's share represents the percentage of interest the System has in the perpetual trust's income distributions. The System's share of the increase or decrease in fair value of the perpetual trusts is reported as an increase or decrease in permanently restricted net assets.

Donor Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. Gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor restricted contributions whose restrictions are met within the same year as received are reported as unrestricted donations.

Cash and Cash Equivalents

Cash and cash equivalents include investments in highly-liquid debt instruments with maturities of three months or less when purchased, excluding assets whose use is limited or restricted.

Inventories

Inventories are stated at the lower of cost or market, cost being determined on a weighted-average basis, except for the pharmacy and central processing department, which utilize the first-in, first-out basis.

RIDOH 0727

1. Summary of Significant Accounting Policies (continued)

Assets Whose Use Is Limited

Resources set aside for board-designated purposes or limited under terms of loan agreements are considered to be assets whose use is limited. Assets whose use is limited that are required for obligations classified as current liabilities are classified as current assets.

Assets whose use is limited by donors for designated purposes consist of amounts contributed for the design and renovation of the Hospital's facility. Assets whose use is limited by donors for permanent endowment funds contain a donor-imposed restriction stipulating that these resources be maintained permanently. However, the restriction permits the Hospital to use or expend all of the income and net gains derived from the donated assets. Accordingly, investment income on the assets is unrestricted. Rhode Island general law allows organizations to permanently restrict investment earnings on permanently restricted funds to maintain the purchasing power of the original dollar value of the funds. The law also allows the governing board to expend such funds as permitted under other laws, the terms of the applicable gift instrument, or the charter of the institution. Each year, the Board of Trustees has designated all income of permanently restricted assets, other than externally administered trusts, for future Hospital use and, therefore, the income has been classified as unrestricted.

The Hospital is the beneficiary of the income from externally administered trusts, which are not under its control. Income from these trusts is unrestricted, and the annual distributions received by the Hospital are reported as non-operating gains in the consolidated statements of operations.

Investments and Investment Income

The Hospital has designated its investment portfolio as trading. Investments in equity securities with readily determinable fair values and investments in debt securities are measured at fair value in the consolidated balance sheets. Fair value is generally determined based on quoted market price. Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in the excess of revenues over expenses, net of investment expenses.

Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Equipment under capital leases is amortized using the straight-line method over the shorter of the period of the lease term or the estimated useful life of the equipment. Such amortization of capitalized leases is included with depreciation expense in the accompanying consolidated statements of operations.

1. Summary of Significant Accounting Policies (continued)

Gifts of long-lived assets such as land, buildings, and equipment are reported as unrestricted contributions and are excluded from the excess of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted contributions. Absent explicit donor stipulations about how long these long-lived assets must be maintained, expiration of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Deferred Financing Costs

Deferred financing costs represent costs incurred in connection with the issuance of debt, which are being amortized over the term of the related debt issue. Amortization expense amounted to $26,753 and $26,753 for the years ended September 30, 2009 and 2008, respectively.

Fair Value of Financial Instruments

The fair value of the System's financial instruments approximates the carrying amount reported in the consolidated balance sheets for cash and cash equivalents, receivables, and payables. See Note 13 for the fair value of investments and assets whose use is limited and Note 6 for the fair value of long-term debt.

Tax Status

SHSI, the Hospital, Ventures and BHI have been recognized as tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code (the Code). RSR has been recognized as a tax-exempt organization under Section 501(c)(2) of the Code. Those organizations are, therefore, exempt from federal taxes on related income pursuant to Section 501(a) of the Code. PCCNE is organized as a for-profit corporation and is, therefore, subject to tax. The provision for income taxes on the earnings of PCCNE is immaterial to the consolidated financial statements.

As of September 30, 2009, PCCNE has net operating loss carryforwards of approximately $1,380,000 for income tax purposes. These carryforwards resulted from PCCNE incurring operating losses in prior years. A deferred tax asset for these losses of approximately $552,000 is offset by a corresponding valuation allowance of the same amount.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* (Statement 168). Statement 168 establishes the FASB Accounting Standards Codification (ASC, also collectively known as the Codification) as the single source of authoritative GAAP to be applied by nongovernmental entities. The Codification was developed to organize GAAP pronouncements by topic so that users can more easily access authoritative accounting guidance. It is organized by topic, subtopic, section, and paragraph, each of which is identified by a numerical designation. Statement 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The System has adopted Statement 168 for its year ended September 30, 2009. Accounting references have been updated and replaced with ASC references.

In September 2006, the FASB issued Statement No. 157, *Fair Value Measurements*, (hereafter referred to as ASC No. 820) which defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. The System adopted ASC No. 820 effective October 1, 2008. The effect of adopting ASC No. 820 was not material to the System's financial statements.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities,* (hereafter referred to as ASC No. 825) which permits companies to choose to measure certain financial instruments and other items at fair value that are not currently required to be measured at fair value. The System adopted ASC No. 825 effective October 1, 2008. The System did not elect the option to value any other assets or liabilities at fair value.

In June 2009, the FASB issued a Statement on Subsequent Events. This statement provides authoritative accounting guidance and disclosure requirements for material events occurring subsequent to the balance sheet date and prior to the issuance of the financial statements. This statement is effective for the System for the year ended September 30, 2009. The System has evaluated the impact of subsequent events through March 1, 2010, representing the date at which the financial statements were issued.

Reclassifications

Certain reclassifications have been made to the year ended September 30, 2008 balances previously reported in the balance sheets in order to conform with the year ended September 30, 2009 presentation.

RIDOH 0730

2. Revenues from Services to Patients and Uncompensated Care

During fiscal years 2009 and 2008, the Hospital's net revenues from services to patients were 32% and 33% from Medicare and 17% and 16% from Medicaid, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term. The Hospital believes that it is in compliance with all applicable laws and regulations, and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital.

Patient accounts receivable and revenues are recorded when patient services are performed. The Hospital has agreements with certain third-party payors, including health maintenance organizations, that provide for payments to the Hospital at amounts different from the Hospital's established billing rates. These differences are accounted for as allowances. Under those agreements, the Hospital receives reimbursement based on a number of different payment arrangements.

Net revenues from services to patients is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. Revenue under third-party payor agreements is subject to audit and retroactive adjustments. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations.

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. In addition to the above-mentioned medical care rendered, the Hospital provides numerous other services to the community for which charges are not generated. These services include translation of medical information into various languages, physician referral services, health care screenings (including those done at employer sites), community support groups, health educational programs, physician services, and general community benefit services such as disaster relief. In addition, volunteer services are provided by Hospital staff to the community on their own time.

2. Revenues from Services to Patients and Uncompensated Care (continued)

The Hospital also provides services to other indigent patients under the Medicaid program, which reimburses health care providers at amounts which are, in total, estimated to be less than the cost of services provided. The differences between the cost of services provided to indigent patients and the expected reimbursement is also considered to be charitable services by the Hospital but they have not been included in the amounts disclosed above.

In addition to the cost of charity care and other community service programs, the Hospital provided $12,688,221 and $12,397,208 for uncollectible patient accounts during the years ended September 30, 2009 and 2008, respectively.

3. Assets Whose Use is Limited

Assets whose use is limited consists of the following at fair value at September 30:

	2009	2008
Interest and other receivables	**$ 1,282,145**	$ 1,219,524

RIDOH 0732

3. Assets Whose Use is Limited (continued)

The System's unrestricted investment return for the years ended September 30 consisted of the following:

	2009	2008
Interest income	$ 321,158	$ 800,262
Net realized (losses) gains on sales of investments	(3,115,944)	2,536,900
Income on assets held in trust	245,442	256,679
	(2,549,344)	3,593,841
Interest and dividend income on trustee funds included in other operating revenue	–	37,783
Change in (depreciation) appreciation of investments	3,314,461	(10,382,330)
	$ 765,117	$ (6,750,706)

4. Endowment

The System has interpreted the Rhode Island Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, beginning in fiscal year 2010, the System will classify as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment related to the direction of the applicable donor gift instrument at the time of the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the System in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund; (2) the purposes of the System and the donor-restricted endowment fund; (3) general economic conditions; (4) the possible effect of inflation and deflation; (5) the expected total return from income and the appreciation of investments; (6) other resources of the System; and (7) the investment and spending policies of the System.

RIDOH 0733

4. Endowment (continued)

The System's endowment consists of funds established for a variety of purposes. The endowment includes donor-restricted endowment funds. The System's net asset composition by fund type as of September 30, 2009 includes:

Changes in endowment net asset for the year ended September 30, 2009 is as follows:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning of year	$ –	$ 9,438,660	$ 9,438,660
Change in value of beneficial interest trust	–	(77,646)	(77,646)
Endowment net assets, end of year	$ –	$ 9,361,014	$ 9,361,014

From time to time, the fair value of assets associated with permanently restricted endowment funds may fall below the level determined under UPMIFA.

The System has adopted investment practices for endowment assets that attempt to provide a predictable stream of funding to programs supported by the endowment. To satisfy its long-term rate-of-return objectives, the System relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends).

5. Property and Equipment

Property and equipment consisted of the following at September 30:

	2009	2008
Land	$ **1,912,714**	$ 1,912,714
Land improvements	**1,539,572**	1,539,572
Buildings and improvements	**48,444,254**	48,332,401
Equipment	**57,003,672**	66,912,616
Construction-in-progress	**402,984**	257,610
	109,303,196	118,954,913
Less accumulated depreciation and amortization	**(74,358,061)**	(81,333,147)
Property and equipment, net	$ **34,945,135**	$ 37,621,766

RIDOH 0734

6. Line of Credit

The Hospital has an unsecured revolving line of credit with a bank which provides for borrowings of up to $5,000,000 for both fiscal 2009 and 2008. Interest accrues at the effective LIBOR rate of LIBOR plus 3.5% (4.75% at September 30, 2009).

7. Long-term Debt

Long-term debt consists of the following at September 30:

	2009	2008
Rhode Island Health and Educational Building Corporation Hospital Financing Revenue Refunding Bonds	**$ 15,640,000**	$ 17,200,000
Add premium	**218,253**	240,638
Less current portion	**(1,582,385)**	(1,582,385)
Long-term debt	**$ 14,275,868**	$ 15,858,253

In December 2003, the Rhode Island Health and Educational Building Corporation (RIHEBC) issued $25,000,000 of Series 2003 Hospital Financing Revenue Refunding Bonds (the Bonds) on behalf of the Hospital. RIHEBC loaned the proceeds of the Bonds to the Hospital pursuant to the Loan and Trust Agreement (the Agreement) dated December 1, 2003. The terms of the Agreement stipulate that interest will be paid at fixed rates ranging from 2.00% to 5.25% per annum (weighted-average rate at September 30, 2008 and 2009 was 4.36% and 4.48%, respectively), with principal installments commencing July 1, 2004 and ending July 1, 2019.

The Bonds are issued under and collateralized by the Agreement. The terms of the Agreement require that the Hospital makes quarterly payments to the trustee, which are sufficient to provide for payment of principal and interest due on the Bonds. The Bonds are collateralized by a lien on the Hospital's gross receipts. Additional debt collateralized on a parity with the Bonds may only be incurred by the Hospital in accordance with restrictions of the Agreement.

As security for the payment of the principal amount of the bonds, a bank letter of credit was issued under the terms of a Reimbursement Agreement between the Hospital and the bank dated December 31, 2003 (Reimbursement Agreement). Section 7 of the Reimbursement Agreement contains various covenants with which the Hospital must comply.

RIDOH 0735

7. Long-term Debt (continued)

At September 30, 2008 the Hospital was not in compliance with Section 7(k) of the Reimbursement Agreement which relates to leverage. This situation was primarily due to the deterioration of the financial markets and the related decline in the Hospital's investment portfolio. On March 13, 2009 the Hospital received a waiver from the bank whereby the bank agreed to waive such defaults as of September 30, 2008. On July 31, 2009 the Hospital received an amendment, which modified several terms of the Reimbursement Agreement, including certain financial ratios. At September 30, 2009 the Hospital was in compliance with all covenants contained in the Reimbursement Agreement. The aggregate maturities of long-term debt (prior to amortization of premium) for the next five fiscal years ending September 30 and thereafter are approximately as follows:

2010	$ 1,560,000
2011	1,560,000
2012	1,560,000
2013	1,560,000
2014	1,560,000
Thereafter	7,840,000

Cash paid for interest on all borrowings during the years ended September 30, 2009 and 2008 was approximately $1,255,000 and $1,295,000, respectively.

8. Pension Plan

The Hospital has a defined benefit pension plan (the Plan) covering substantially all of its employees. The plan benefits are based on years of service and employees' compensation during the last five years of covered employment. The Hospital makes annual contributions to the Plan, which approximates the amount of net periodic pension cost. Contributions are intended to provide not only for benefits attributed to service to date but also for those expected to be earned in the future.

RIDOH 0736

8. Pension Plan (continued)

On September 29, 2006, the FASB issued Statement No., *158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, and amendment of FASB Statements No. 87, 88, 106 and 123(R)* (hereafter referred to as ASC No. 715). In 2009, the System adopted the measurement date provisions of ASC No. 715. ASC No. 715 required the System to measure defined benefit plan assets and obligations as of September 30, the date of its fiscal year end statement of financial position. Prior to the implementation of this change, the measurement date for the System's pension and postretirement benefit plans was June 30. The adjustment to unrestricted net assets at adoption represents a decrease to net assets of $882,733 and an increase to accrued pension obligation. The adoption of the measurement date provision of ASC No. 715 had no effect on the System's financial results for fiscal 2009 or any prior period presented. It will not affect the System's operating results in future periods.

The following table sets forth the status of the retirement plan as of September 30:

	2009	2008
Change in benefit obligation		
Projected benefit obligation at beginning of year	**$ 90,314,749**	$ 86,998,357
Service cost	**4,329,294**	3,449,380
Interest cost	**7,512,867**	5,566,320
Benefits paid	**(2,712,676)**	(2,405,638)

8. Pension Plan (continued)

Components of net periodic pension cost are as follows for the years ended September 30:

	2009	2008
Service cost – benefits earned during the year	**$ 4,329,294**	$ 3,449,380
Interest cost on projected benefit obligation	**7,512,867**	5,566,320
Actual return on plan assets	**(8,217,105)**	(6,599,179)
Net amortization and deferral	**823,294**	387,964
Net periodic pension cost	**$ 4,448,350**	$ 2,804,485

The adoption of ASC No. 715 resulted in an addition three months of net periodic pension costs. Costs of $882,733 as a result of the adoption were recognized as a reduction of unrestricted net assets. The remaining $3,565,617 of expense is included within employee benefits expense.

Assumptions

Weighted-average assumptions used to determine benefit obligations and net cost at September 30, 2009 and 2008 and the years then ended are as follows:

	Benefit Obligations		Net Periodic Pension Cost	
	2009	2008	2009	2008
Discount rate	**5.80%**	6.75%	6.75%	6.50%
Expected rate of return on plan assets	**9.00%**	9.00%	9.00%	9.00%
Rate of compensation increase	**2.00%**	4.00%	2.00%	4.00%

The expected rate of return on plan assets was determined by the expected return on each asset class based on a model that considers historical and expected future performance.

The accumulated benefit obligation was $96,899,855 and $77,673,717 at September 30, 2009 and 2008, respectively.

The measurement date for determining plan assets and obligations is September 30.

RIDOH 0738

8. Pension Plan (continued)

Plan Assets

The pension plan weighted-average asset allocations as of September 30, 2009 and 2008, by asset category, are as follows:

	Target Allocation	2009	2008
Equity securities	38%	34%	37%
Annuities	42	47	41
Debt securities	20	12	16
Cash equivalents	–	7	6
Total	100%	100	100%

The goals of the pension plan are to provide a secure retirement benefit for pension plan participants and to manage pension plan assets for the exclusive benefit of the participants. The invested assets will be managed on a long-term total return basis and measured against established benchmarks for each asset class. Risk management is achieved by limiting the size of asset class and individual security positions to achieve adequate diversification. The Plan will maintain a funded level sufficient to ensure benefit security.

Cash Flows

Contributions

The Hospital funds its pension plan in accordance with guidelines prescribed by the Employee Retirement Income Security Act of 1974 (ERISA). The Hospital expects to contribute $5,480,065 to its pension plan in fiscal 2010.

Estimated Future Benefit Payments

Benefit payments, which reflect expected future service, are expected to be paid as follows:

2010	$ 3,544,000
2011	3,690,000
2012	4,215,000
2013	4,640,000
2014	4,963,000
2015 – 2019	30,721,000

RIDOH 0739

9. Estimated Self-Insurance Liabilities

Professional Liability Insurance

Effective July 1, 2004, professional liability insurance coverage was provided on an occurrence basis. Such coverage was provided on a claims-made basis through June 30, 2004. The claims-made policies cover only claims made during the terms of the policies and not those occurrences for which claims may be made after expiration of the policies. The System is self-insured with respect to incurred but not reported (IBNR) claims incurred prior to July 1, 2004. Accordingly, the System has recorded a liability of $444,037 at September 30, 2009 for such IBNR exposure.

Workers' Compensation Insurance

The System is self-insured with respect to workers' compensation risks up to a maximum of $350,000 per claim. The provision for estimated self-insured workers' IBNR compensation claims includes estimates of the ultimate costs for both reported claims and claims. The estimates incorporate the System's past experience, as well as other considerations.

10. Concentration of Credit Risk

The Hospital grants credit without collateral to its patients, many of whom are local residents and are insured under third-party payor agreements. The percentage of accounts receivable from patients and various third-party payors was as follows at September 30:

	2009	2008
Medicare	32%	33%
Blue Cross	30	31
Medicaid	17	16
Other third-party payors	15	15
Patients	6	5
	100%	100%

RIDOH 0740

11. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets consist of the following at September 30:

	2009	2008
General activities	$ 559,977	$ 604,235
Research	131,337	153,292
	$ 691,314	$ 757,527

Permanently restricted net assets consist of the following at September 30:

	2009	2008
Principal portion of contributions restricted in perpetuity by donors	$ 3,124,158	$ 3,124,158
Assets held in externally administered trusts	6,236,856	6,314,502
	$ 9,361,014	$ 9,438,660

12. Commitments and Contingencies

The System is a defendant in several lawsuits, which are in various stages of progress or discovery. Management believes that its insurance coverage is adequate to cover claims made under all such lawsuits and, accordingly, no provision for loss has been reflected in the accompanying consolidated financial statements.

13. Fair Value Measurement

The System has adopted the methods of calculating fair value as defined in ASC No. 820 to value its financial assets and liabilities, where applicable. ASC No. 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

ASC No. 820 establishes a three tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows:

Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.

RIDOH 0741

13. Fair Value Measurement (continued)

Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data.

Level 3: Unobservable inputs that are used when little or no market data is available. The Level 3 inputs are assigned the lowest priority.

In determining fair value, the System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The System also considers nonperformance risk in the overall assessment of fair value.

Financial assets carried at fair value as of September 30, 2009 are classified in the following table in one of the three categories described above (in thousands):

	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 8,602,217	$ –	$ –	$ 8,602,217
Mutual Funds	3,707,015	–	–	3,707,015
Equity securities	16,172,893			16,172,893

Investments at fair value	$ 35,142,817	$ 8,636,581	$ –	43,779,398
Interest and other receivables				1,282,145
Pledge receivable				403,319
Total investments				$ 45,464,862

The fair value of long-term debt, which is not required to be carried at fair value, is approximately $16,172,000 and 16,419,000 at September 30, 2009 and 2008, respectively. Fair value of long-term debt is based on current borrowing rate for similar types of debt using undiscounted cash flow analysis.

Report of Independent Auditors

To the Board of Directors
Care New England Health System

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations, changes in net assets and cash flows present fairly, in all material respects, the financial position of Care New England Health System and Affiliates ("Care New England") at September 30, 2012 and 2011, and the consolidated results of their operations, changes in their net assets and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Care New England's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual affiliates and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and cash flows of the individual affiliates.

Mission and Nature of Business

Care New England is dedicated to building an exemplary health care system. Care New England supports the three Hospitals, the Agency, and other affiliated organizations.

The mission of Butler Hospital is to provide treatment of psychiatric illness in an atmosphere of dignity and respect, and to contribute to knowledge through education and research, while continuously improving the ways Butler serves its patients and the community. Butler is a 117-bed, not-for-profit psychiatric teaching hospital, affiliated with The Warren Alpert Medical School of Brown University, providing services for the care of patients from Rhode Island and nearby Massachusetts. As a complement to its role in service and education, Butler actively supports research by members of its staff. Butler is accredited by The Joint Commission ("TJC").

The mission of Kent County Memorial Hospital is to continually improve the health and well-being of the people and communities it serves, offering its essential services without regard for the ability to pay. Kent is a 359-bed, not-for-profit general hospital providing a full range of services for the acute care of patients principally from Kent County, Rhode Island. Kent is affiliated with, and provides clinical training to, the students of the University of New England College of Osteopathic Medicine, and currently operates American Osteopathic Association approved residency programs in emergency medicine, family practice, internal medicine, and a fellowship program in hyperbaric medicine. Kent is accredited by TJC and the Commission on Accreditation of Rehabilitation Facilities. Toll Gate, a wholly owned subsidiary of Kent insures primary and excess hospital professional and general liability risks for the Hospital and its employees on an occurrence basis. Toll Gate insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians' professional liability on both a claims-made and occurrence basis. Toll Gate also insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians' professional liability on both a claims-made and occurrence basis.

The mission of Women & Infants Corporation is to support Women & Infants Hospital of Rhode Island and all other affiliated organizations. The mission of Women & Infants Hospital of Rhode Island is to improve the health and well-being of women and infants, and to provide essential services regardless of ability to pay. WIH is a 247-bed, not-for-profit regional center for women and infants' care in Rhode Island and southern New England. Among other university affiliations, Women & Infants is the primary teaching affiliate of the Warren Alpert Medical School of Brown University in obstetrics, gynecology and newborn pediatrics along with related sub-specialty and internal medicine services. As a complement to its role in service and education, WIH actively supports research by members of its staff. WIH is accredited by TJC. W&I Indemnity is a wholly owned subsidiary of WIH. W&I Indemnity insures excess hospital professional liability risks for the Hospital and its employees on an occurrence basis, and excess hospital professional liability risks for the Care New England Health System solely to the extent not covered by commercial insurance purchased by Care New England, Butler, or Kent. W&I Indemnity insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians' and residents' medical malpractice liability on an occurrence basis. W&I Indemnity also insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians' medical malpractice liability on both a claims-made and occurrence basis.

The mission of Kent County Visiting Nurse Association is to provide and administer a comprehensive, multidisciplinary, therapeutic, hospice, and public health nursing program. The Agency is a not-for-profit corporation, providing home care services to the residents of Rhode Island and nearby Massachusetts. Healthtouch, Inc. is a not-for-profit corporation providing private duty nursing and personal care services, primarily to residents of Rhode Island.

2. Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis and in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in accordance with the reporting principles of not-for-profit accounting as defined by Not-for-Profit Entities and the American Institute of Certified Public Accountants ("AICPA") Audit and Accounting Guide for Health Care Organizations.

Use of Estimates
The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates are made in the areas of patient accounts receivable, accruals for settlements with third-party payors, incurred but not reported liabilities for medical, workers' compensation, and medical malpractice insurance, and other accrued expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents
Care New England considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, excluding amounts whose use is limited by the Boards of Trustees (the "Boards") designation or other arrangements under trust agreements.

Investments
Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized and unrealized gains and losses on investments, other-than-temporary impairments in the value of securities, interest, and dividends) is included in the excess of revenues and gains over expenses unless the income or loss is restricted by donor or law.

Kent, WIH, Butler and the Agency follow the practice of pooling resources of unrestricted and restricted assets for long-term investment purposes. The investment pool is operated on the market value method whereby each participating fund is assigned a number of units based on the percentage of the pool it owns at the time of entry. Income, gains, and losses of the pool are allocated to the funds based on their respective participation in the pool.

Alternative investments (nontraditional, not readily marketable holdings) include hedge funds. Alternative investment interests generally are structured such that the Health System holds a limited partnership interest. The Health System's ownership structure does not provide for control over the related investees, and the Health System's financial risk is limited to the carrying amount reported for each investee, in addition to any unfunded capital commitment. There are no future funding commitments for alternative investments at September 30, 2012.

Individual investment holdings within the alternative investments include nonmarketable and market-traded debt and equity securities, and interests in other alternative investments. The Health System may be exposed indirectly to securities lending, short sales of securities, and trading in futures and forward contracts, options, and other derivative products. Alternative investments often have liquidity restrictions under which the Health System's capital may be divested only at specified times. The Health System's liquidity restrictions may be up to 90 days for certain investments. Liquidity restrictions may apply to all or portions of a particular invested amount. The Health System's policy is to record its ownership interest in certain alternative investments of less than 5% at cost.

Financial information used by the Health System to evaluate its alternative investments is provided by the investment manager or general partner, and includes fair value valuations (quoted market prices and values determined through other means) of underlying securities and other financial instruments held by the investee, and estimates that require varying degrees of judgment. The financial statements of the investee companies are audited annually by independent auditors, although the timing for reporting the results of such audits does not always coincide with the Health System's annual financial statement reporting.

There is uncertainty in the valuation for alternative investments arising from factors such as lack of active markets (primary and secondary), lack of transparency into underlying holdings, and time lags associated with reporting by investee companies. As a result, there is at least a reasonable possibility that estimates will change in the near term.

Income and realized net gains (losses) on investments of endowments and specific purpose funds are reported as follows:

- Increases (decreases) in permanently restricted net assets if the terms of the gift require that they be added to the principal of permanently restricted net assets;
- Increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on the use of the income or the income has not yet been appropriated; or
- Increases (decreases) in the unrestricted net assets in all other cases.

Assets Limited as to Use
Assets limited as to use primarily include endowment funds, assets held by trustees under indenture agreements and insurance programs, deferred compensation arrangements, and designated assets set aside by one or more of the Boards, over which the Boards retain control and may, at their discretion, subsequently use for other purposes. Amounts required to meet current obligations of the Hospitals have been reclassified to current assets.

Inventories
Inventories of drugs and supplies are stated at the lower of cost (first-in, first-out) or market. Inventories of $4,860,022 and $4,180,758 at September 30, 2012 and 2011, respectively are included in other current assets in the consolidated balance sheets.

Property and Equipment
Property and equipment acquisitions are recorded at cost. Donated property and equipment is recorded at fair value at the date of receipt. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Depreciation is recorded using the straight-line method based on the estimated useful life of each class of depreciable asset, as recommended by the American Hospital Association as follows:

Buildings and improvements	5 – 40 Years
Fixed and moveable equipment	3 – 20 Years

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support, and are excluded from the excess of revenues over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Assets recorded under capital leases are amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the asset. Such amortization is included with depreciation and amortization expense in the consolidated statements of operations.

Upon retirement or sale of assets, the cost of assets disposed of and the related accumulated depreciation are eliminated and the related gains or losses are recognized in other revenue in the consolidated statements of operations.

Care New England evaluates the potential impairment of property, plant and equipment whenever events or changes in circumstances indicate that the carrying value of a group of assets may not be recoverable.

Pledges
Pledges, less an allowance for uncollectible amounts, are recorded as receivables in the year made. Pledges receivable over a period greater than one year are stated at net present value. Pledges are recorded as additions to the appropriate net asset classification.

Deferred Financing Costs
Expenses related to issuance of bonds are deferred and amortized on a straight-line basis over the period during which the bonds are expected to be outstanding.

Self-Insurance Reserves
The reserves for self-insured programs are estimated based on actuarial studies and the Hospitals' and industry experience. The reserves include estimates of the ultimate cost for both reported claims and claims incurred but not yet reported. The Hospitals have established separate indemnification companies and trust funds for payment of certain self-insured claims including medical malpractice.

Care New England is self-insured for losses arising from workers' compensation claims. Loss reserves are estimated based on actuarial studies, and the Health System's and industry experience.

For the employees of the Hospitals and the Agency, Care New England is self-insured for losses arising from health insurance claims. Self-insured losses for both reported claims and claims incurred but not yet reported are estimated based on actuarial studies and the Health System's actual experience.

Temporarily and Permanently Restricted Net Assets
Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Excess of Revenues Over Expenses
The consolidated statements of operations and changes in net assets include excess of revenues and gains over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues and gains over expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and changes in the pension and postretirement liability.

Net Patient Service Revenue
The Hospitals and the Agency have individual agreements with many third-party payors that provide payments at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per-diem payments.

Net patient service revenue is reported at estimated net realizable amounts from patients, third-party payors, and others for services rendered, and includes estimated retroactive revenue adjustments due to such things as future audits and reviews. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known, or as years are no longer subject to such adjustments.

Research Revenue
Research revenue includes revenue from federal, state, institutional and other sources for the purposes of funding research activities.

Other Revenue
Other revenue includes underwriting income, rental income, cafeteria sales, laboratory services provided to nonpatients, sales of home medical equipment, vendor rebates and discounts, various services provided to physicians and other organizations and gains or losses upon the retirement or sale of assets.

Charity Care
The Health System provides care to patients who meet certain criteria under their charity care policies without charge or at amounts less than established rates. Because the Health System does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient revenue.

Contributions and Donor-Restricted Gifts
Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date when the condition is satisfied. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions.

Unrestricted contributions are reported net of direct fundraising expenses in the consolidated statements of operations.

Income Tax Status

Care New England, the Hospitals, the Agency, Healthtouch, Women & Infants Faculty Physicians, Inc., Women & Infants Corporation, Women & Infants Development Foundation, Palomar, and Kent Hospital Foundation are not-for-profit corporations, and have been recognized as tax exempt on related income pursuant to Section 501(c)(3) of the Internal Revenue Code. W&I Indemnity, Ltd. and Toll Gate Indemnity, Ltd. are foreign corporations with no material tax liability. Other affiliates are single-member limited liability companies which are treated as part of their sole member for tax purposes.

New Accounting Pronouncements

Measuring Charity Care for Disclosure

In August 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-23 (ASU 2010-23), *Measuring Charity Care for Disclosure* that requires health care entities to use cost as the measurement basis for charity care disclosures and defines cost as the direct and indirect costs of providing charity care. The Health System adopted the guidance on October 1, 2011, and the accompanying notes to the consolidated financial statements reflect the amended disclosure requirements. The cost of caring for charity care patients is disclosed in Note 4. This guidance amends disclosure requirements only; therefore, there was no impact to the Health System's consolidated financial statements upon adoption.

Presentation of Insurance Claims and Related Insurance Recoveries

In August 2010, the FASB issued ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries,* which prohibits the offsetting of conditional or unconditional liabilities with anticipated insurance recoveries from third parties. The Health System adopted the new guidance on October 1, 2011. The adoption of the guidance did not have a significant impact on the consolidated financial statements.

Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts

In July 2011, the FASB issued ASU 2011-7, *Presentation and Disclosure of Patient Service Revenue, the Provision for Bad Debts, and Allowance for Doubtful Accounts.* This guidance requires the Health System to modify the presentation of its consolidated statements of operations and changes in net assets by reclassifying the provision for bad debts associated with patient revenue from an operating expense to a deduction from patient service revenue. Additionally, the guidance requires enhanced disclosure about the Health System's policies for recognizing revenue and assessing bad debts, patient service revenue (net of contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts. The Health System adopted the guidance on October 1, 2011.

Reclassifications

Certain items in the 2011 financial statements have been reclassified to conform to the current year presentation.

3. Revision to the 2011 Consolidated Financial Statements

The Health System has revised the September 30, 2011 consolidated financial statements to reflect the correction of an error related to the misapplication of accounting principles related to temporarily restricted net assets. As a result of this correction, the following adjustments have been made to the previously reported September 30, 2011 temporarily restricted net asset.

	As Reported	Adjustment	As Revised
Unrestricted net assets	$223,493,967	$ 20,577,610	$244,071,577
Temporarily restricted net assets	46,947,206	(20,577,610)	26,369,596

4. Uncompensated Care and Community Services

The Health System maintains records to identify and monitor the level of charity care and community services it provides, including the amount of charges forgone for services and the estimated cost incurred to provide those services. The revenues forgone and estimated costs and expenses incurred to provide charity care for the years ended September 30 are as follows:

	2012	2011
Revenues forgone, based on established rates	$ 36,846,051	$ 35,271,183
Expenses and costs incurred	14,376,362	14,554,470

Of the Health System's total expenses reported ($835,341,996 and $796,939,662 in 2012 and 2011, respectively), an estimated $14,376,362 and $14,554,470 arose during 2012 and 2011 respectively, from providing services to charity patients. The estimated costs of providing charity services are based on a calculation which applies a ratio of costs to charges to the gross uncompensated charges associated with providing care to patients who qualify for charity care. The ratio of cost to charges is calculated based on total expenses (less bad debt expense) divided by gross patient service revenue. The Health System did not receive significant contributions that were restricted for the care of indigent patients during 2012 and 2011.

In addition to the above-mentioned medical care rendered, the Health System provides numerous other services free of charge to the community. These services include such things as transporting patients to the healthcare facilities, interpretation of medical information to various languages, volunteer services to other not-for-profit agencies, emergency and disaster relief services, various health, educational, research and teaching programs, healthcare screening services, therapeutic patient services, and provision of direct services to patients with multiple psychosocial needs.

	2012	2011
Approximated revenues forgone, or cost of the services provided to the community	$ 7,131,790	$ 7,397,062

The Health System also provides services to other indigent patients under the Medicaid/Rite Care Program, which reimburses healthcare providers at amounts which are less than the cost of services provided to the recipients.

In addition to the cost of charity care and other community service programs, the Health System provided $42,706,347 and $31,931,088 for uncollectible patient accounts during the years ended September 30, 2012 and 2011, respectively.

5. Allowance for Doubtful Accounts

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Health System analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the Health System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Health System records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay a portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The Health System's allowance for doubtful accounts for self-pay patients increased from 25.4% of net accounts receivable at September 30, 2011, to 26.7% of net accounts receivable at September 30, 2012. In addition, the Health System's self-pay charity and bad debt write-offs increased $7,154,000 from $63,285,000 for fiscal year 2011 to $70,439,000 for fiscal year 2012. Both increases were the result of increases in patients served who had no insurance coverage or who had higher co pays and/or deductibles than in the past. The largest increases were experienced at Kent where a significant increase in the number of patients treated in its emergency department also contributed to the increase in self-pay activity. The Health System has not changed its charity care or uninsured discount policies during fiscal years 2011 or 2012.

6. Pledges Receivable

Unconditional promises to give are recorded at present value as current and long-term assets based on expected time of collection. Future expected collections of these pledges as of September 30 are as follows:

	2012	2011
Within one year	$ 2,065,207	$ 2,195,890
One to five years	2,804,623	3,650,520

Care New England, the Hospitals, and the Agency routinely invest their surplus operating funds in various overnight repurchase agreements, money market funds, and fixed income U.S. agency bonds, which are classified as cash and cash equivalents.

Through its consolidated treasury management system, Care New England, on behalf of the Health System, has invested surplus operating cash in auction rate securities with varying maturity dates, which are backed by student loans. These loans are guaranteed for repayment by the federal government. During 2008, the auctions at which these securities were sold began to fail, requiring CNE to hold these securities indefinitely. However, payments of interest from the underlying loan pool remain current. As of September 30, 2012, these securities are recorded as long-term investments and as of September 30 2011, these securities are recorded as short-term and long-term investments in the consolidated balance sheets and Care New England has recorded an other-than-temporary impairment loss of $824,844 and $651,310, respectively, based on an independent valuation of the securities. During 2012, $6,250,000 of the auction rate securities were liquidated at face value, resulting in a nonoperating gain of $361,466. During 2011, $9,750,000 of the auction rate securities were liquidated at face value, resulting in a nonoperating gain of $548,825.

The summary of the current and long-term fair value of the auction rate securities is as follows:

The Certificate of Need also includes lobby renovations, the construction of a connector to the main hospital building, and the construction of a 10-bed short stay nursing unit in the vacated outpatient surgery space. The project will be funded through tax-exempt debt and philanthropic donations. Total estimated cost of the project is $15,000,000 and it is expected to be completed during fiscal 2013.

During November 2010, Butler received a Certificate of Need approval from the Rhode Island Department of Health to build a building that will house an updated Patient Assessment Service, and accommodate an increase in Butler's licensed bed complement of inpatient psychiatry beds by twenty-six. Rhode Island Health and Educational Building Corporation (RIHEBC) Bonds
In 2008, the Health System issued RIHEBC 2008 Series A variable rate bonds of $46,730,000. The bonds have mandatory sinking fund redemptions ranging from $1,430,000 in 2013 to $2,735,000 in 2032.

In 2008, the Health System issued RIHEBC 2008 Series B variable rate bonds of $38,210,000. The bonds have mandatory sinking fund redemptions ranging from $660,000 in 2013 to $1,810,000 in 2037.

The proceeds from the CNE 2008 Series A bonds were used to (1) refund the outstanding CNE 2002 Series A bonds, and (2) pay certain expenses related to the issuance of the CNE 2008 Series A bonds. The proceeds from the CNE 2008 Series B bonds were used to (1) defease a portion of the outstanding CNE 2002 Series B bonds, and (2) finance a portion of WIH's Certificated of Need project consisting of the construction, equipping, and furnishing of a five-story addition to WIH's existing hospital building, (3) finance a portion of routine capital improvements, and (4) pay certain expenses related to the issuance of the CNE 2008 Series B bonds. The CNE 2002 Series B bonds were defeased by depositing a portion of the proceeds of the CNE 2008 Series B bond proceeds and money contributed by the Obligated Group members, Butler, Kent, WIC and WIH in an account held by the trustee for the CNE 2002 Series B bonds to provide funds as and when necessary to pay the principal and interest on the CNE 2002 Series B bonds. The refunding trust had sufficient fixed income securities to meet the required payments on the outstanding balances, with final payment made on September 1, 2012.

The Series A and Series B bonds bear interest at a daily, weekly, or monthly rate, which is payable on the first business day of each month, and on maturity or redemption dates and the fixed rate conversion date. In no event will the interest rate borne by the bonds exceed 10% per annum. Since issuance in 2008, the bonds have borne weekly interest rate. CNE has pledged gross receipts backed by a bank letter of credit which expires on February 1, 2015. The bonds are subject to tender at the option of the owners thereof. To the extent the tendered bonds are not able to be remarketed, the letter of credit bank has committed to purchase the bonds. Amounts advanced by the bank to pay the purchase price on bonds being purchased and not reimbursed to the bank on the date of such drawing will be converted to a credit agreement loan and amortized over three years. CNE, Butler, Kent, WIC, and WIH are jointly and severally liable for repayment.

Under the terms of the Series A and Series B revenue bonds, CNE and the Hospitals are required to make periodic debt service payments with a trustee, which are included with assets limited as to use. The revenue bond indenture and letter of credit agreement also places limits on the incurrence of additional borrowings, and require that the Obligated Group satisfy certain measures of financial performance as long as the bonds are outstanding. The Health System is required to comply with certain debt covenants under the bond agreements, including a minimum debt service coverage ratio of 1.25 to 1 and a liquidity ratio of .75 to 1. The Health System has been, and remains, compliant with these terms.

In 2010, the Health System issued RIHEBC 2010 Series fixed rate bonds of $12,000,000. The bonds have mandatory sinking fund redemptions ranging from $439,618 in 2013 to $813,065 in 2030, with a final payment of $417,695 in 2031. These bonds were issued as Direct Purchase Tax Exempt Bank qualified bonds. The bonds bear a fixed interest rate of 3.65% through December, 2017 with 3 year optional tenders through December, 2030. The bonds bear interest on a per annum basis with semi-annual payments based on a 20 year amortization. The proceeds from the bonds are being used by Kent to finance (i) the renovation, equipping and furnishing of existing hospital space to house a ten (10) bed short stay unit: (ii) the construction, equipping and furnishing of a 30,000 square foot ambulatory surgical center with a connection to Kent's existing hospital building and (iii) cost of issuance. CNE, Butler, Kent, WIC and WIH are jointly and severable liable for repayment. Unspent bond proceeds of $9,123,660 are included in trustee-held funds in the consolidated balance sheet at September 30, 2012. The Health System is required to comply with certain debt covenants under the bond agreements, including a minimum debt service coverage ratio of 1.25 to 1 and a liquidity ratio of .75 to 1. The Health System has been, and remains, compliant with these terms.

In 2011, the Health System issued RIHEBC 2011 Series fixed rate bonds of $16,000,000. The bonds have mandatory sinking fund redemptions ranging from $612,216 in 2013 to $1,044,574 in 2031. These bonds were issued as unrated private placement tax exempt bonds. The bonds bear a fixed interest rate of 2.99% through July 31, 2018. The bonds bear interest on a per annum basis with semi-annual payments based on a 20 year amortization. The proceeds from the bonds are being used to finance (i) the construction, equipping and furnishing of a 32,000 square foot addition of Butler's existing hospital facility; (ii) refinancing of the Bank of Rhode Island mortgage held by WIC; (iii) refinancing of certain capital leases; (iv) purchase of capital equipment; (v) capitalized interest and (vi) cost of issuance. CNE, Butler, Kent, WIC and WIH are jointly and severable liable for repayment. Unspent bond proceeds of $8,061,841 are included in trustee-held funds in the consolidated balance sheet at September 30, 2012. The Health System is required to comply with certain debt covenants under the bond agreements, including a minimum debt service coverage ratio of 1.25 to 1 and a liquidity ratio of .75 to 1. The Health System has been, and remains, compliant with these terms.

Rhode Island Health and Educational Building Corporation Notes

In 2004, the Health System entered into a $300,000 RIHEBC Equipment Note due July 1, 2004 through June 1, 2014. Monthly interest and principal installments of $3,141 are due at a fixed interest rate of 4.72%. The note is collateralized by the equipment purchased with the proceeds by the Agency and guaranteed by the Health System.

Bank Mortgage Notes

In 2005, the Health System entered into a $3,750,000 mortgage note with Bank of America due August 2005 through July 2015. Interest and principal installments of $33,837 on August 1, 2005 to $24,883 on June 1, 2015 are due monthly, with a final payment of $1,899,215 due June 2015, at a fixed interest rate of 5.64%. The note is collateralized by the real estate purchased. The Health System is required to comply with certain debt covenants under the note agreement, including a minimum debt service coverage ratio of 1.25 to 1. The Health System has been, and remains, compliant with these terms.

In 2007, the Health System entered into a $4,000,000 mortgage note with Time Insurance Company due October 2007 through September 2027. Interest and principal installments of $25,261 are due monthly, with a final payment of $1,338,527 due September 2027, at a fixed interest rate of 5.79%. The note is collateralized by the real estate purchased.

Interest Rate Swaps

CNE maintains interest rate swap programs on certain of its 2008 Series A and B variable rate revenue bonds. These bonds expose the Health System to variability in interest payments due to changes in interest rates. The Health System entered into various interest rate swap agreements to manage fluctuations in cash flows resulting from interest rate risk. These agreements involve the exchange of fixed rate payments by CNE for variable rate payments from counterparties, based on the Securities Industry and Financial Markets Association (SIFMA) Index.

In 2004, CNE entered into an interest rate swap agreement with Bank of America Investments, effectively converting the $50,000,000 RIHEBC CNE 2002 Series A variable rate debt to a fixed rate of 2.99% for the period of October 1, 2005 through August 1, 2011.

As part of the 2008 Series A & B refinancing, CNE (1) maintained the interest rate swap agreement that was entered into in 2004 with Bank of America Investments which effectively converted $45,400,000 of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 3.02% for the period of February 1, 2008 through August 1, 2011. The notional amount of the swap at September 30, 2010 was $42,860,000, (2) entered into an interest rate swap agreement with Deutsche Bank Group which effectively converts all of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 4.216% for the period of August 1, 2011 through July 1, 2032. The notional amount of the swap at September 30, 2012 and 2011 was $40,275,000 and $41,655,000, respectively, and (3) entered into an interest rate swap agreement with Morgan Stanley Capital Services which effectively converts all of the RIHEBC CNE 2008 Series B variable rate bonds to a fixed rate of 3.857% for the period of February 1, 2008 through August 31, 2037. The notional amount of the swap at September 30, 2012 and 2011 was $28,570,000 and $29,885,000, respectively.

The Health System uses the interest rate swap agreements in order to manage its interest rate risk associated with its outstanding debt. These swaps effectively convert interest rates on variable rate bonds to fixed rates. The interest rate swap agreements meet the definition of derivative instruments. However, the change in the market value and cash flow impact of the derivative instruments are accounted for as a nonoperating activity. The swaps, while serving as an economic hedge, do not qualify as an accounting hedge.

The Hospitals classify certain noncancelable leases as capital leases, and include the property under lease in their property and equipment. Amortization expense for these assets is included in depreciation and amortization expenses in the consolidated statements of operations and changes in net assets. Ownership of the leased property converts to the Hospitals at the end of the lease term. RIDOH 0824

The Health System follows the requirements of the Rhode Island enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 as they relate to its permanently restricted endowments. The Health System's endowments consist of numerous individual funds established for a variety of purposes. Its endowments consist solely of donor-restricted endowment funds. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Health System classifies restricted donor funds in accordance with the laws of the State of Rhode Island and generally accepted accounting principles. The Health System classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Health System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purpose of the Health System and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, and (6) the investment policies of the Health System.

For the year ended September 30, 2012, the Health System had the following changes in the endowment net assets:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets at beginning of year	$ 16,702,976	$ 8,061,789	$ 24,764,765

In addition to permanently restricted endowments, Kent is an income beneficiary of various trusts. On September 30, 2012 and 2011, the market value of the trust assets, which are recorded as permanently restricted net assets, totaled $11,216,513 and $10,074,539, respectively. Distributions of income are made at the discretion of the trustees.

It is the policy of the Health System that any appropriations from the appreciation in endowment funds are periodically requested of and approved by the Board of Trustees.

The Board have responsibility for formulating investment policy. The investment policy is to invest in a conservative asset portfolio with minimal investment risk. Certain funds are included in a consolidated long term investment pool and invested in accordance with the investment strategy, authorized by the Boards.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Health System to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets are immaterial as of September 30, 2012 and 2011. These deficiencies resulted from unfavorable market fluctuations. The individual donor-restricted endowment funds with deficiencies will retain future income and appreciation to restore the required fair value of the assets.

During fiscal 2012 and 2011, net assets were released from donor restrictions by incurring expenses satisfying the following restricted purposes:

	2012	2011
Healthcare services	$ 1,234,809	$ 1,541,279

11. Retirement Plans

The Health System has two separate pension plans. One plan covers the employees of CNE and the Hospitals, with the exception of the unionized employees of WIH (who are covered under a multiemployer union plan) and certain WIH-employed physicians. The other plan covers the employees of the Agency.

Care New England Pension Plan
The Care New England Pension Plan (the "Plan"), established on October 1, 1998, is a defined benefit cash balance plan that covers all of the employees of CNE, and all of the Hospitals' employees, with the exception of the unionized employees and certain employed physicians at WIH. The benefits for the unionized employees at Butler are computed under a separate formula that was in effect when the Butler plan was a standalone noncontributory defined benefit plan. The Hospitals incur and fund their respective pension plan expenses within the guidelines established by the Employee Retirement Income Security Act of 1974.

The Care New England Board of Trustees voted, on September 23, 2010, to freeze the Plan effective December 31, 2010 for all employees with the exception of the Butler unionized employees. Effective December 31, 2010, compensation paid to a participant shall be disregarded for plan purposes, except for purposes related to determining benefits for the unionized employees at Butler. In addition, a participant's cash balance account will only increase annually for interest credit. In connection with the Plan freeze, the Health System enhanced contributions to the Care New England 403(b) Match and Savings Plan.

Included in cumulative changes in unrestricted net assets at September 30, 2012 that has not yet been recognized in net periodic pension cost is an actuarial loss of $81,856,881. Included in changes in unrestricted net assets at September 30, 2011 that has not yet been recognized in net periodic pension cost is an actuarial loss of $70,950,846.

The actuarial loss included as cumulative changes in unrestricted net assets and expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2013 is $1,777,022.

Net periodic pension cost includes the following components at September 30:

	2012	2011

RIDOH 0828

Plan Assets
The Plan's investment objectives are to achieve long-term growth in excess of inflation, and to provide a rate of return that meets or exceeds the actuarial expected long-term rate of return on plan assets. In order to minimize risk, the Plan attempts to minimize the variability in yearly returns. The Plan diversifies its holdings among sectors, industries, and companies. No more than 6% of the Plan's portfolio (measured on market value) may be held in an individual company's stocks or bonds.

To develop the expected long-term rate of return on plan assets assumption, the Health System considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

The Health System's pension plan asset allocations (based on market value) at September 30, by asset category, are as follows:

	Target Allocation	Actual 2012	Actual 2011
Asset category			
Alternative investments	18 %	25 %	26 %
Fixed income securities	26	28	24
Equity securities	56	47	50
	100 %	100 %	100 %

Contributions
The Health System contributed $9,500,000 and $15,325,000 to the Plan in 2012 and 2011, respectively. The Health System expects to contribute $6,000,000 to the Plan in 2013.

Estimated Future Benefit Payments
The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Fiscal Year	Pension Benefits
2013	$ 17,860,000
2014	15,535,000
2015	15,380,000
2016	15,433,000
2017	15,990,000
Years 2018–2021	82,637,000

Care New England 403(b) Match and Savings Plan
Effective January 1, 2009, the Pension Plan Protection legislation resulted in regulatory changes which discontinued the matching credits to the participants that were previously recorded in the CNE Pension Plan. As a result, CNE established the Care New England 403(b) Plan to account for future matching credits. The plan covers employees that meet certain eligibility requirements. Additionally, effective January 1, 2011, in connection with the freeze of the Care New England Pension Plan, the Health System also provides a nonelective contribution to participant accounts, as defined in the Plan document. Nonelective contributions are allocated to each eligible participant based on a percentage of salary, a combination of the recipients age and years of service, and are credited to each such participant as of the first day of the Plan year, as further described in the Plan document.

The Health System recorded an expense of $12,736,528 and $8,941,660 for the nonelective contribution to participant accounts for the fiscal years that ended September 30, 2012 and 2011, respectively. In addition, the Health System recorded an expense of $3,216,389 and $2,904,069 for matching credits for fiscal years ended September 30, 2012 and 2011, respectively. The Health System will fund the 2012 expense in calendar year 2013 and funded the 2011 expense in calendar year 2012.

WIH Union Plan
Payments to a multiemployer pension plan covering union employees at WIH for the years ended September 30, 2012 and 2011 were $8,150,291 and $7,766,513, respectively.

Kent County Visiting Nurse Association Pension Plan
The Agency has a noncontributory defined benefit pension plan covering all employees who have satisfied certain eligibility requirements that was frozen effective December 31, 2007, and replaced with a contributory retirement savings plan. Benefits under the defined benefit plan were based on years of service and employee's compensation levels.

Included in the charge to net assets at September 30, 2012 and 2011 is an unrecognized actuarial loss of $3,580,493 and $3,303,783, respectively. The actuarial loss expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2013 is $307,193.

The Agency's pension expense was $262,262 in 2012 and $187,497 in 2011.

The assumptions used to determine net periodic benefit cost for the years ended September 30 are as follows:

	2012	2011
Discount rate	4.75 %	5.00 %
Expected return on assets	7.50 %	7.50 %
Rate of compensation increase	N/A	N/A

The assumptions used to develop the projected benefit obligation as of September 30 are as follows:

	2012	2011
Discount rate	3.94 %	4.75 %
Rate of compensation increase	N/A	N/A

To develop the expected long-term rate of return on plan assets assumption, the Agency considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

Plan assets, valued at fair value, consist of 3% cash and cash equivalents and 97% mutual funds. The fair value of the Plan assets were $6,459,055 and $5,466,732 at September 30, 2012 and 2011, respectively.

The Agency made required contributions to the Plan of $266,294 and $308,354 in 2012 and 2011, respectively. The Agency is expected to make $227,221 in contributions to the Plan during 2013. Benefit payments are expected to be paid as follows:

Fiscal Year	Pension Benefits
2013	$ 243,000
2014	253,000
2015	298,000
2016	325,000
2017	384,000
Years 2018–2021	2,611,000

Effective January 1, 2008, the Agency established a 403(b) Retirement Savings Plan that covers employees who have met certain eligibility requirements. Discretionary contributions to the plan are based on years of service and compensation levels. For the fiscal years that ended September 30, 2012 and 2011, respectively, the Agency recorded an expense of $256,171 and $244,703.

12. Postretirement Plans

Kent sponsors an unfunded noncontributory defined benefit postretirement plan that provides medical and dental benefits to certain salaried and nonsalaried employees. In 1996, Kent amended the plans to eliminate benefits for all employees, except for certain employees with at least 25 years of service at that date.

Included in the charge to net assets are the following amounts that have not yet been recognized in net periodic postretirement benefit cost as of September 30, 2012 and 2011, respectively: unrecognized net transition obligation of $257,750 and $354,751 and unrecognized actuarial loss of $232,036 and $192,355. The unrecognized net transition obligation and actuarial loss expected to be recognized in net periodic postretirement costs during the fiscal year ended September 30, 2013 are $97,000 and $4,244, respectively.

The postretirement benefit cost for these plans was $181,839 in 2012 and $206,032 in 2011.

13. Patient Service Revenue

For the majority of the System's revenue, the Hospitals and the Agency have agreements with third-party payors that provide for payments to the Hospitals and the Agency at amounts different from their established rates. At the time of rendering service to the patients, the Hospitals and the Agency obtain assignment of benefits payable under the patient's health insurance program, plan, or policy (e.g., Medicaid, Blue Cross, health maintenance organizations, commercial insurance, Medicare, and others). The following is a breakdown of gross patient service revenue by payor type for the years ended September 30:

	2012	2011
Medicare and Medicare Managed Care	32 %	32 %
Medicaid and Medicaid Managed Care	21	20
Blue Cross	24	26
Managed care	11	11
Self-pay	5	4
Other third-party payors	7	7
	100 %	100 %

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there will always be a possibility that the recorded estimates of net revenue could change by a significant amount in the future. The Hospitals and the Agency believe they are in compliance with all applicable laws and regulations. Cost reports filed annually with third-party payors are subject to audit prior to final settlement. The Hospitals and the Agency are compliant with all reimbursement filings. A summary of cost report activity as of September 30, 2012 is as follows:

Medicare
Cost reports for the Hospitals and the Agency have been filed through 2011, and settled through 2011 for the Agency, 2008 for Butler, and 2006 for Kent and WIH.

State of Rhode Island (Medicaid)
Cost reports have been filed through 2010, and settled through 2006 for Butler, Kent and WIH. The implementation of a prospective payment system eliminated the need for Medicaid settlements after fiscal year 2010.

The filing of these cost reports and associated settlements require the use of estimates. Net patient service revenue was increased by approximately $200,000 and $3,300,000 in 2012 and 2011, respectively, to reflect the changes in the estimated settlements for certain prior years.

The Health System recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, the Health System recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates, if negotiated or provided by policy). On the basis of historical experience, a significant portion of the Health System's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Health System records a significant provision for bad debts related to uninsured patients in the period the services are provided. Patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), for the years ended September 30, 2012 and 2011 is summarized as follows:

	2012	2011
Patient service revenue (net of contractual allowances and discounts)		
Third-party payors	$764,152,967	$720,608,442
Self-pay	40,405,117	34,437,650
Total All Payors	$804,558,084	$755,046,092

14. Disproportionate Share

The government has long recognized the financial burdens which are borne by hospitals which serve an unusually large number, or "disproportionate share", of low-income patients. Kent and WIH received disproportionate share payments of $33,014,520 and $27,734,289 from the State of Rhode Island's Medicaid program for the years ended September 30, 2012 and 2011, respectively. Kent and WIH also recorded disproportionate share payments of $4,137,338 and $4,936,177 from Medicare during 2012 and 2011, respectively.

15. Concentration of Credit Risk

As of September 30, 2012 and 2011, Care New England, the Hospitals, and the Agency had cash and cash equivalents in excess of Federal Depository Insurance limits at major financial institutions. These financial institutions have a strong credit rating, and management believes that credit risks related to these deposits are minimal.

The Hospitals and the Agency receive a significant portion of its payment for services rendered from a limited number of governmental and commercial third-party payors, including Medicare, Medicaid, and Blue Cross. The organization has not historically incurred any significant concentrated credit losses in the normal course of business.

RIDOH 0833

In addition, the organizations routinely grant credit to patients without requiring collateral or other security. The mix of receivables, net of contractual allowances, from patients and third-party payors at September 30, 2012 and 2011, was as follows:

	2012	2011
Medicare and Medicare Managed Care	13 %	12 %
Medicaid and Medicaid Managed Care	13	18
Blue Cross	20	18
Managed care	12	14
Self-pay	27	23
Other third-party payors	15	15
	100 %	100 %

The Health System provides an allowance for doubtful accounts to address the risks of nonpayment of accounts receivable.

16. Commitments and Contingencies

Operating Leases

Care New England, the Hospitals, and the Agency have entered into operating lease agreements with several vendors for the lease of certain equipment and office space. Future minimum lease payments under noncancelable operating leases as of September 30, 2012 are:

2013	$ 5,525,000
2014	4,683,772
2015	3,770,024
2016	3,510,245
2017	3,632,359
Later years	37,056,002
Total minimum lease payments	$ 58,177,402

Total rent expense for operating leases for the years ended September 30, 2012 and 2011 amounted to $6,235,788 and $5,942,924, respectively.

Butler has entered into several agreements with various parties, mostly nonprofit organizations, to lease space on the Butler campus. Rental income in the amount of $3,033,054 and $3,007,056 for the fiscal years ending September 30, 2012 and 2011, respectively, is included in other operating revenues in the consolidated statements of operations.

Litigation

CNE, the Affiliates, and the Agency have been individually named as codefendants in several complaints. It is the opinion of management that the liability, if any, to CNE, the Affiliates, and the Agency in excess of insurance coverage will have no material adverse effect on the consolidated financial position of Care New England.

Collective Bargaining Agreements
At September 30, 2012, approximately 41% of the Health System's employees were covered by collective bargaining agreements. The collective bargaining agreement covering 41% of Butler's employees will expire on March 29, 2013, and be subject to negotiation. The remaining bargaining agreements will be in effect through fiscal 2013.

17. Professional and General Liability Claims

Due to strategic and economic issues, as well as the potential for limited availability of commercial insurance policies, the Care New England entities have moved over time to covering the majority of their professional and general liability insurance to self-insured approaches. The adequacy of the coverage provided, reserves, and the funding levels are evaluated annually by independent actuaries who review the soundness of the programs and recommend future funding levels. Potential losses are estimated based on industry as well as entity experience, and a provision for these losses is recorded.

Butler annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage. Butler's professional liability coverage for claims in excess of its primary coverage limits is provided by W&I Indemnity.

Kent Hospital established Toll Gate Indemnity in 2004, as an off-shore captive insurance entity to insure primary and excess hospital professional and general liability risks, as well as to supply indemnification coverage for certain eligible medical staff.

WIH annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage.

In addition to the trust fund, WIH established W&I Indemnity in 1994, as an off-shore captive insurance entity to provide coverage for claims in excess of its underlying policy, as well as to insure the contractual liability arising from indemnification agreements with certain eligible medical staff.

The provisions for anticipated losses were based upon expected undiscounted values. Trust fund and captive assets are available for the payment of claims.

CNE Wellness Centers, LLC and the Agency purchase general and professional liability insurance from Toll Gate Indemnity.

18. Other Self-Insurance Reserves

Care New England has established a workers' compensation trust fund to cover all past and future self-insured claims of workers' compensation activity for CNE, the Hospitals, and the Agency. The reserve for workers' compensation losses is based on an actuarial study and actual experience. At September 30, 2012 and 2011, the amounts accrued for estimated self-insurance costs have not been discounted.

CNE, on behalf of itself, the Hospitals, and the Agency, has entered into a self-insurance program for health insurance risks. This program covers the health insurance claims for all of CNE's, the Hospitals', and the Agency's employees, with the exception of the unionized employees at WIH. The provisions for health insurance losses are based on actuarial assumptions and actual claims experience.

19. Affiliation With Rhode Island Hospital

In 1981, RIH and WIH approved an agreement providing for the affiliation of the two Hospitals. The affiliation agreement provides for a program of shared medical services, thereby greatly increasing the scope of comprehensive acute-care services available to WIH in maternal, gynecological, and neonatal care. In accordance with the agreement, the Hospital relocated to the property of RIH.

20. Affiliation With Accredited Medical Schools

Butler and WIH are affiliated with the Warren Alpert Medical School of Brown University. The affiliation agreements provide that Butler and WIH will be the principal academic medical centers for psychiatry and healthcare unique to women and newborns, respectively. Kent is affiliated with the University of New England College of Osteopathic Medicine.

21. Functional Expenses

CNE provides healthcare services to residents within their geographic service areas. Expenses related to providing these services for the years ended September 30 are as follows:

	2012	2011
Healthcare services	$661,186,079	$628,362,863
General and administrative	174,155,917	168,576,799
	$835,341,996	$796,939,662

22. Fair Value of Financial Instruments

The Health System calculates fair value defined in ASC Topic 820 to value its financial assets and liabilities, where applicable. ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value. Topic 820 applies to other accounting pronouncements that require or permit fair value measurements, and does not require new fair value measurements. Fair value measurements, are applied based on the unit of account from the reporting entity's perspective. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements.

ASC Topic 820 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2 Observable inputs that are based on inputs not quoted in active markets, but corroborated by market data.

Level 3 Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, the Health System uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers nonperformance risk in its assessment of fair value.

Fair value for Level 1 is based upon quoted market prices. Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers, and brokers. Fair value for Level 3 is based upon unobservable inputs for the asset (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset (including assumptions about risk).

The Health System's ownership in alternative investments is limited partnership interests in private equity funds. The value of certain alternative investments represents the ownership interest in the Net Asset Value (NAV) of the respective partnership. The NAV of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities related. The Health System has performed significant due diligence around these investments to ensure NAV is an appropriate measure of fair value as of September 30.

The fair value of interest rate swap agreements is primarily determined using techniques consistent with the market approach. Significant observable inputs to valuation models include interest rates, treasury yields, and credit spreads.

Accounts Payable and Accrued Expenses
The carrying amount reported in the consolidated balance sheets for accounts payable and accrued expenses approximates its fair value.

Estimated Third-Party Payor Settlements
The carrying amount reported in the consolidated balance sheets for estimated third-party payor settlements approximates its fair value.

Long-Term Debt
The Health System's long-term debt obligations are reported in the accompanying statements of financial position at principal value less unamortized discount or premium, which totaled approximately $102 million at September 30, 2012, excluding capital leases. The estimated fair value of the Health System's long-term debt as of September 30, 2012 approximated its carrying value.

Report of Independent Auditors

To the Board of Trustees
Care New England Health System

In our opinion, the accompanying consolidated balance sheet and the related consolidated statement of operations, changes in net assets and cash flow present fairly, in all material respects, the financial position of Care New England Health System and Affiliates ("Care New England") at September 30, 2011, and the consolidated results of their operations, changes in their net assets and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Care New England's management; our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion. The financial statements of Care New England as of September 30, 2010 and for the year then ended were audited by other auditors whose report dated December 23, 2010 expressed an unqualified opinion on those statements.

Our audit was conducted for the purpose of forming an opinion on the 2011 consolidated financial statements taken as a whole. The supplementary consolidating information included on page 39 to 42 is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position and results of operations of the individual affiliates. Accordingly, we do not express an opinion on the financial position and results of operations of the individual affiliates. However, the consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

1. Description of Organization

Corporate Structure

Care New England Health System ("CNE", "Care New England", or the "Health System"), a not-for-profit corporation, was established in February 1996 as the holding company for the development of an integrated delivery network which consists of Butler Hospital, Kent County Memorial Hospital, and Women & Infants Hospital of Rhode Island (collectively, the "Hospitals"), and the Kent County Visiting Nurse Association, d/b/a VNA of Care New England (the "Agency").

("W&I Indemnity").
- Kent County Visiting Nurse Association and its affiliate, Healthtouch, Inc. (together, the "Agency").
- Care New England Wellness Centers, LLC.

Significant intercompany accounts have been eliminated in consolidation.

Mission and Nature of Business

Care New England is dedicated to building an exemplary health care system. Care New England supports the three Hospitals, the Agency, and affiliated organizations.

The mission of Butler Hospital is to provide treatment for psychiatric illness in an atmosphere of dignity and respect, and to contribute to knowledge through education and research, while continuously improving the ways Butler serves its patients and the community. Butler is a 117-bed, not-for-profit psychiatric teaching hospital, affiliated with the Warren Alpert Medical School of Brown University, providing services for the care of patients from Rhode Island and nearby Massachusetts. As a complement to its role in service and education, Butler actively supports research by members of its staff. Butler is accredited by The Joint Commission ("TJC").

The mission of Kent County Memorial Hospital is to continually improve the health and well-being of the people and communities it serves, offering its essential services without regard for the ability to pay. Kent is a 359-bed, not-for-profit general hospital providing a full range of services for the acute care of patients principally from Kent County, Rhode Island. Kent is affiliated with, and provides clinical training to, the students of the University of New England College of Osteopathic Medicine, and currently operates American Osteopathic Association approved residency programs in emergency medicine, family practice, internal medicine, and a fellowship program in hyperbaric medicine. Kent is accredited by TJC and the Commission on Accreditation of Rehabilitation Facilities. Toll Gate, a wholly owned subsidiary of Kent insures primary and excess hospital

professional and general liability risks for the Hospital and its employees on an occurrence basis. Toll Gate insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians' professional liability on both a claims-made and occurrence basis. Toll Gate also insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians' professional liability on both a claims-made and occurrence basis.

The mission of Women & Infants Corporation is to support Women & Infants Hospital of Rhode Island and all other affiliated organizations. The mission of Women & Infants Hospital of Rhode Island is to improve the health and well-being of women and infants, and to provide essential services regardless of ability to pay. WIH is a 247-bed, not-for-profit regional center for women and infants' care in Rhode Island and southern New England. Among other university affiliations, Women & Infants is the primary teaching affiliate of the Warren Alpert Medical School of Brown University in obstetrics, gynecology and newborn pediatrics along with related sub-specialty and internal medicine services. As a complement to its role in service and education, WIH actively supports research by members of its staff. WIH is accredited by TJC. W&I Indemnity is a wholly owned subsidiary of WIH. W&I Indemnity insures excess hospital professional liability risks for the Hospital and its employees on an occurrence basis, and excess hospital professional liability risks for the Care New England Health System solely to the extent not covered by commercial insurance purchased by Care New England, Butler, or Kent. W&I Indemnity insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians' and residents' medical malpractice liability on an occurrence basis. W&I Indemnity also insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians' medical malpractice liability on both a claims-made and occurrence basis.

The mission of Kent County Visiting Nurse Association is to provide and administer a comprehensive, multidisciplinary, therapeutic, hospice, and public health nursing program. The Agency is a not-for-profit corporation, providing home care services to the residents of Rhode Island and nearby Massachusetts. Healthtouch, Inc. is a not-for-profit corporation providing private duty nursing and personal care services, primarily to residents of Rhode Island.

2. Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis and in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in accordance with the reporting principles of not-for-profit accounting as defined by Not-for-Profit Entities and the American Institute of Certified Public Accountants ("AICPA") Audit and Accounting Guide for Health Care Organizations.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates are made in the areas of patient accounts receivable, accruals for settlements with third-party payors, incurred but not reported liabilities for health insurance, workers' compensation, and medical malpractice insurance, and other accrued expenses. Actual results could differ from those estimates.

Cash and Cash Equivalents
Care New England considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, excluding amounts whose use is limited by the Boards of Trustees (the "Boards") designation or other arrangements under trust agreements.

Investments
Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized and unrealized gains and losses on investments, other-than-temporary impairments in the value of securities, interest, and dividends) is included in the excess of revenues and gains over expenses unless the income or loss is restricted by donor or law.

Kent, WIH and the Agency follow the practice of pooling resources of unrestricted and restricted assets for long-term investment purposes. The investment pool is operated on the market value method whereby each participating fund is assigned a number of units based on the percentage of the pool it owns at the time of entry. Income, gains, and losses of the pool are allocated to the funds based on their respective participation in the pool.

Alternative investments (nontraditional, not readily marketable holdings) include hedge funds. Alternative investment interests generally are structured such that the Health System holds a limited partnership interest. The Health System's ownership structure does not provide for control over the related investees, and the Health System's financial risk is limited to the carrying amount reported for each investee, in addition to any unfunded capital commitment. There are no future funding commitments for alternative investments at September 30, 2011.

Individual investment holdings within the alternative investments include nonmarketable and market-traded debt and equity securities, and interests in other alternative investments. The Health System may be exposed indirectly to securities lending, short sales of securities, and trading in futures and forward contracts, options, and other derivative products. Alternative investments often have liquidity restrictions under which the Health System's capital may be divested only at specified times. The Health System's liquidity restrictions may be up to 90 days for certain investments. Liquidity restrictions may apply to all or portions of a particular invested amount. The Health System's policy is to record its ownership interest in certain alternative investments of less than 5% at cost.

Financial information used by the Health System to evaluate its alternative investments is provided by the investment manager or general partner, and includes fair value valuations (quoted market prices and values determined through other means) of underlying securities and other financial instruments held by the investee, and estimates that require varying degrees of judgment. The financial statements of the investee companies are audited annually by independent auditors, although the timing for reporting the results of such audits does not coincide with the Health System's annual financial statement reporting.

There is uncertainty in the valuation for alternative investments arising from factors such as lack of active markets (primary and secondary), lack of transparency into underlying holdings, and time lags associated with reporting by investee companies. As a result, there is at least a reasonable possibility that estimates will change in the near term.

RIDOH 0862

Income and realized net gains (losses) on investments of endowments and specific purpose funds are reported as follows:

- Increases (decreases) in permanently restricted net assets if the terms of the gift require that they be added to the principal of permanently restricted net assets;
- Increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on the use of the income or the income has not yet been appropriated; or
- Increases (decreases) in the unrestricted net assets in all other cases.

Assets Limited as to Use
Assets limited as to use primarily include endowment funds, assets held by trustees under indenture agreements and insurance programs, deferred compensation arrangements, and designated assets set aside by one or more of the Boards, over which the Boards retain control and may, at their discretion, subsequently use for other purposes. Amounts required to meet current obligations of the Hospitals have been reclassified to current assets.

Inventories
Inventories of drugs and supplies are stated at the lower of cost (first-in, first-out) or market. Inventories of $4,180,758 and $3,919,717 at September 30, 2011 and 2010, respectively are included in other current assets in the consolidated balance sheets.

Property and Equipment
Property and equipment acquisitions are recorded at cost. Donated property and equipment is recorded at fair value at the date of receipt. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Depreciation is recorded using the straight-line method based on the estimated useful life of each class of depreciable asset, as recommended by the American Hospital Association as follows:

Buildings and improvements	5 - 40 years
Fixed and moveable equipment	3 - 20 years

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support, and are excluded from the excess of revenues over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Assets recorded under capital leases are amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the asset. Such amortization is included with depreciation and amortization expense in the consolidated statements of operations.

Upon retirement or sale of assets, the cost of assets disposed of and the related accumulated depreciation are eliminated and the related gains or losses are recognized in other revenue in the consolidated statements of operations.

Care New England evaluates the potential impairment of property, plant and equipment whenever events or changes in circumstances indicate that the carrying value of a group of assets may not be recoverable.

Pledges
Pledges, less an allowance for uncollectible amounts, are recorded as receivables in the year made. Pledges are recorded as additions to the appropriate net asset classification.

Deferred Financing Costs
Expenses related to issuance of bonds are deferred and amortized on a straight-line basis over the period during which the bonds are expected to be outstanding.

Self-Insurance Reserves
The reserves for self-insured programs are estimated based on actuarial studies and the Hospitals' and industry experience. The reserves include estimates of the ultimate cost for both reported claims and claims incurred but not yet reported. The Hospitals have established separate indemnification companies and trust funds for payment of certain self-insured claims.

Care New England is self-insured for losses arising from workers' compensation claims. Loss reserves are estimated based on actuarial studies, and the Health System's and industry experience.

For the employees of the Hospitals and the Agency, with the exclusion of the unionized employees at Women & Infants Hospital, Care New England is self-insured for losses arising from health insurance claims. Self-insured losses for both reported claims and claims incurred but not yet reported are estimated based on actuarial studies and the Health System's actual experience.

Temporarily and Permanently Restricted Net Assets
Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Excess of Revenues Over Expenses
The consolidated statements of operations and changes in net assets include excess of revenues and gains over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues and gains over expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and changes in the pension and postretirement liability.

Net Patient Service Revenue
The Hospitals and the Agency have individual agreements with many third-party payors that provide payments at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per-diem payments.

Net patient service revenue is reported at estimated net realizable amounts from patients, third-party payors, and others for services rendered, and includes estimated retroactive revenue adjustments due to such things as future audits and reviews. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known, or as years are no longer subject to such adjustments.

Research Revenue
Research revenue includes revenue from federal, state, institutional and other sources for the purposes of funding research activities.

Other Revenue
Other revenue includes underwriting income, rental income, cafeteria sales, laboratory services provided to nonpatients, sales of home medical equipment, vendor rebates and discounts, various services provided to physicians and other organizations and gains or losses upon the retirement or sale of assets.

Charity Care
The Health System provides care to patients who meet certain criteria under their charity care policies without charge or at amounts less than established rates. Because the Health System does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient revenue.

Contributions and Donor-Restricted Gifts
Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date when the condition is satisfied. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions.

Unrestricted contributions are reported net of direct fundraising expenses in the consolidated statements of operations.

Income Tax Status
Care New England, the Hospitals, the Agency, Healthtouch, Women & Infants Faculty Physicians, Inc., Women & Infants Corporation, Women & Infants Development Foundation, Palomar, and Kent Hospital Foundation are not-for-profit corporations, and have been recognized as tax exempt on related income pursuant to Section 501(c)(3) of the Internal Revenue Code. W&I Indemnity, Ltd. and Toll Gate Indemnity, Ltd. are foreign corporations with no material tax liability. Other affiliates are single-member limited liability companies which are treated as part of their sole member for tax purposes.

New Accounting Pronouncements

Presentation and Disclosure of Net Revenues, Provision for Bad Debts, and the Allowance for Doubtful Accounts

In July 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-7 (ASU 2011-7), *Health Care Entities: Presentation and Disclosure of Net Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts.* Under the new guidance, bad debts relating to patient service revenue will be separately disclosed in the consolidated statements of operations and reported as a component of net patient service revenue. Bad debts associated with activities other than patient service revenue will continue to be reported as an operating expense. For Care New England, ASU 2011-7 would be effective for fiscal years beginning after December 15, 2011, but early adoption is permitted. The Health System has decided not to early adopt this standard.

Postretirement Benefit Plan Assets

In March 2008, the FASB issued ASC Topic 517-20-65-2, *Employers' Disclosures about Postretirement Benefit Plan Assets.* This Topic amends ASC Topic 958-715 to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The Health System adopted the provisions of the Topic beginning with the fiscal year ended September 30, 2010.

Derivative Instruments and Hedging Activities

In March 2008, the FASB issued ASC Topic 815-10-65-1, *Disclosures about Derivative Instruments and Hedging Activities – an amendment of Topic 815-10-50 (ASC Topic 815-10-65-1).* ASC Topic 815-10-65-1 builds upon the existing disclosure requirements of ASC Topic 815-10-50, *Accounting for Derivative Instruments and Hedging Activities,* by requiring enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under ASC Topic 815-10-50 and its related interpretations, and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. The Health System adopted ASC Topic 815-10-65-1 for its fiscal year ending September 30, 2010.

Reclassifications

Certain items in the 2010 financial statements have been reclassified to conform to the current year presentation.

3. Uncompensated Care and Community Services

The Health System maintains records to identify and monitor the level of charity care and community services it provides, including the amount of charges forgone for services and the estimated cost incurred to provide those services. The revenues forgone and estimated costs and expenses incurred to provide charity care for the years ended September 30 are as follows:

	2011	2010
Revenues forgone, based on established rates	$ 35,271,183	$ 26,405,197
Expenses and cost incurred	14,554,470	11,545,773

RIDOH 0866

In addition to the above-mentioned medical care rendered, the Health System provides numerous other services free of charge to the community. These services include such things as transporting patients to the healthcare facilities, interpretation of medical information to various languages, volunteer services to other not-for-profit agencies, emergency and disaster relief services, various health, educational, research and teaching programs, healthcare screening services, therapeutic patient services, and provision of direct services to patients with multiple psychosocial needs.

	2011	2010
Approximated revenues forgone, or cost of the services provided to the community	$ 7,397,062	$ 10,095,776

The Health System also provides services to other indigent patients under the Medicaid/Rite Care Program, which reimburses healthcare providers at amounts which are less than the cost of services provided to the recipients.

In addition to the cost of charity care and other community service programs, the Health System provided $31,931,088 and $36,700,064 for uncollectible patient accounts during the years ended September 30, 2011 and 2010, respectively.

4. Pledges Receivable

Unconditional promises to give are recorded at present value as current and long-term assets based on expected time of collection. Future expected collections of these pledges as of September 30 are as follows:

	2011	2010

Care New England, the Hospitals, and the Agency routinely invest their surplus operating funds in various overnight repurchase agreements, money market funds, and fixed income U.S. agency bonds, which are classified as cash and cash equivalents.

Through its consolidated treasury management system, Care New England, on behalf of the Health System, has invested surplus operating cash in auction rate securities with varying maturity dates, which are backed by student loans. These loans are guaranteed for repayment by the federal government. During 2008, the auctions at which these securities were sold began to fail, requiring CNE to hold these securities indefinitely. However, payments of interest from the underlying loan pool remain current. As of September 30, 2011 and 2010, these securities are recorded as short-term and long-term investments in the consolidated balance sheets and Care New England has recorded an other-than-temporary impairment loss of $651,310 and $1,182,086, respectively, based on an independent valuation of the securities. During 2011, $9,750,000 of the auction rate securities were liquidated at face value, resulting in a nonoperating gain of $548,825. During 2010, $3,225,000 of the auction rate securities were liquidated at face value, resulting in a nonoperating gain of $198,359. During October, 2011, an additional $4,250,000 were liquidated at face value, resulting in a nonoperating gain of $246,500.

Rhode Island Health and Educational Building Corporation (RIHEBC) Bonds
In 2008, the Health System issued RIHEBC 2008 Series A variable rate bonds of $46,730,000. The bonds have mandatory sinking fund redemptions ranging from $1,380,000 in 2012 to $2,735,000 in 2032.

In 2008, the Health System issued RIHEBC 2008 Series B variable rate bonds of $38,210,000. The bonds have mandatory sinking fund redemptions ranging from $1,315,000 in 2012 to $660,000 in 2013, with a final payment of $1,810,000 in 2037.

The proceeds from the CNE 2008 Series A bonds were used to (1) refund the outstanding CNE 2002 Series A bonds, and (2) pay certain expenses related to the issuance of the CNE 2008 Series A bonds. The proceeds from the CNE 2008 Series B bonds were used to (1) defease a portion of the outstanding CNE 2002 Series B bonds, and (2) finance a portion of WIH's Certificated of Need project consisting of the construction, equipping, and furnishing of a five-story addition to WIH's existing hospital building, (3) finance a portion of routine capital improvements, and (4) pay certain expenses related to the issuance of the CNE 2008 Series B bonds. The CNE 2002 Series B bonds were defeased by depositing a portion of the proceeds of the CNE 2008 Series B bond proceeds and money contributed by the Obligated Group members, Butler, Kent, WIC and WIH in an account held by the trustee for the CNE 2002 Series B bonds to provide funds as and when necessary to pay the principal and interest on the CNE 2002 Series B bonds. The refunding trust of $1,208,013 has sufficient fixed income securities to meet the required payments on the outstanding balances as of September 30, 2011.

The Series A and Series B bonds bear interest at a daily, weekly, or monthly rate, which is payable on the first business day of each month, and on maturity or redemption dates and the fixed rate conversion date. In no event will the interest rate borne by the bonds exceed 10% per annum. Since issuance in 2008, the bonds have borne weekly interest rate. CNE has pledged gross receipts backed by a bank letter of credit which expires on February 1, 2015. The bonds are subject to tender at the option of the owners thereof. To the extent the tendered bonds are not able to be remarketed, the letter of credit bank has committed to purchase the bonds. Amounts advanced by the bank to pay the purchase price on bonds being purchased and not reimbursed to the bank on the date of such drawing will be converted to a credit agreement loan and amortized over three years. CNE, Butler, Kent, WIC, and WIH are jointly and severally liable for repayment.

Under the terms of the Series A and Series B revenue bonds, CNE and the Hospitals are required to make periodic debt service payments with a trustee, which are included with assets limited as to use. The revenue bond indenture and letter of credit agreement also places limits on the incurrence of additional borrowings, and require that the Obligated Group satisfy certain measures of financial performance as long as the bonds are outstanding. The Health System is required to comply with certain debt covenants under the bond agreements, including a minimum debt service coverage ratio of 1.25 to 1 and a liquidity ratio of .75 to 1. The Health System has been, and remains, compliant with these terms.

In 2010, the Health System issued RIHEBC 2010 Series fixed rate bonds of $12,000,000. The bonds have mandatory sinking fund redemptions ranging from $424,000 in 2012 to $813,065 in 2030, with a final payment of $417,695 in 2031. These bonds were issued Direct Purchase Tax Exempt Bank qualified bonds. The bonds bear a fixed interest rate of 3.65% through December, 2017 with 3 year optional tenders through December, 2030. The bonds bear interest on a per annum basis with semi-annual payments based on a 20 year amortization. The proceeds from the bonds are being used by Kent to finance (i) the renovation, equipping and furnishing of existing hospital space to house a ten (10) bed short stay unit: (ii) the construction, equipping and furnishing of a 30,000 square foot ambulatory surgical center with a connection to Kent's existing hospital building and (iii) cost of issuance. CNE, Butler, Kent, WIC and WIH are jointly and severable liable for repayment. Unspent bond proceeds of $11,486,297 are included in trustee-held funds in the consolidated balance sheet at September 30, 2011. The Health System is required to comply with certain debt covenants under the bond agreements, including a minimum debt service coverage ratio of 1.25 to 1 and a liquidity ratio of .75 to 1. The Health System has been, and remains, compliant with these terms.

These bonds were issued as unrated private placement tax exempt bonds. The bonds bear a fixed interest rate of 2.99%. The bonds bear interest on a per annum basis with semi-annual payments based on a 20 year amortization. The proceeds from the bonds are being used to finance (i) the construction, equipping and furnishing of a 32,000 square foot addition of Butler's existing hospital facility; (ii) refinancing of the Bank of Rhode Island mortgage held by WIC; (iii) refinancing of certain capital leases; (iv) purchase of capital equipment; (v) capitalized interest and (vi) cost of issuance. The note is collateralized by the real estate purchased.

Interest Rate Swaps

CNE maintains interest rate swap programs on certain of its 2008 Series A and B variable rate revenue bonds. These bonds expose the Health System to variability in interest payments due to changes in interest rates. The Health System entered into various interest rate swap agreements to manage fluctuations in cash flows resulting from interest rate risk. These agreements involve the exchange of fixed rate payments by CNE for variable rate payments from counterparties, based on the Securities Industry and Financial Markets Association (SIFMA) Index.

In 2004, CNE entered into an interest rate swap agreement with Bank of America Investments, effectively converting the $50,000,000 RIHEBC CNE 2002 Series A variable rate debt to a fixed rate of 2.99% for the period of October 1, 2005 through August 1, 2011.

As part of the 2008 Series A & B refinancing, CNE (1) maintained the interest rate swap agreement that was entered into in 2004 with Bank of America Investments which effectively converted $45,400,000 of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 3.02% for the period of February 1, 2008 through August 1, 2011. The notional amount of the swap at September 30, 2010 was $42,860,000, (2) entered into an interest rate swap agreement with Deutsche Bank Group which effectively converts all of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 4.216% for the period of August 1, 2011 through July 1, 2032. The notional amount of the swap at September 30, 2011 was $41,655,000, and (3) entered into an interest rate swap agreement with Morgan Stanley Capital Services which effectively converts all of the RIHEBC CNE 2008 Series B variable rate bonds to a fixed rate of 3.857% for the period of February 1, 2008 through August 31, 2037. The notional amount of the swap at September 30, 2011 and 2010 was $29,885,000 and $33,765,000, respectively.

The Health System uses the interest rate swap agreements in order to manage its interest rate risk associated with its outstanding debt. These swaps effectively convert interest rates on variable rate bonds to fixed rates. The interest rate swap agreements meet the definition of derivative instruments. However, the change in the market value and cash flow impact of the derivative instruments are accounted for as a nonoperating activity. The swaps, while serving as an economic hedge, do not qualify as an accounting hedge.

The Hospitals classify certain noncancelable leases as capital leases, and include the property under lease in their property and equipment. Amortization expense for these assets is included in depreciation and amortization expenses in the consolidated statements of operations and changes in net assets. RIDOH 0875

The Health System follows the requirements of the Rhode Island enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 as they relate to its permanently restricted endowments. The Health System's endowments consist of numerous individual funds established for a variety of purposes. Its endowments consist solely of donor-restricted endowment funds. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Health System classifies restricted donor funds in accordance with the laws of the State of Rhode Island and generally accepted accounting principles. The Health System classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Health System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purpose of the Health System and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, and (6) the investment policies of the Health System.

For the year ended September 30, 2011, the Health System had the following changes in the endowment net assets:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets at beginning of year	$ 17,801,565	$ 7,957,205	$ 25,758,770

For the year ended September 30, 2010, the Health System had the following changes in the endowment net assets:

In addition to permanently restricted endowments, Kent is an income beneficiary of various trusts. On September 30, 2011 and 2010, the market value of the trust assets, which are recorded as permanently restricted net assets, totaled $10,074,539 and $10,574,465, respectively. Distributions of income are made at the discretion of the trustees.

It is the policy of the Health System that any appropriations from the appreciation in endowment funds are periodically requested of and approved by the Board of Trustees.

The Boards have responsibility for formulating investment policy. The investment policy is to invest in a conservative asset portfolio with minimal investment risk. Certain funds are included in a consolidated long term investment pool and invested in accordance with the investment strategy, authorized by the Boards.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Health System to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets are immaterial as of September 30, 2011 and 2010. These deficiencies resulted from unfavorable market fluctuations. The individual donor-restricted endowment funds with deficiencies will retain future income and appreciation to restore the required fair value of the assets.

During fiscal 2011 and 2010, net assets were released from donor restrictions by incurring expenses satisfying the following restricted purposes:

	2011	2010
Healthcare services	$ 1,541,279	$ 5,771,899

9. Retirement Plans

The Health System has two separate pension plans. One plan covers the employees of CNE and the Hospitals, with the exception of the unionized employees of WIH (who are covered under a multiemployer union plan) and certain WIH-employed physicians. The other plan covers the employees of the Agency.

Care New England Pension Plan
The Care New England Pension Plan (the "Plan"), established on October 1, 1998, is a defined benefit cash balance plan that covers all of the employees of CNE, and all of the Hospitals' employees, with the exception of the unionized employees and certain employed physicians at WIH. The benefits for the unionized employees at Butler are computed under a separate formula that was in effect when the Butler plan was a standalone noncontributory defined benefit plan. The Hospitals incur and fund their respective pension plan expenses within the guidelines established by the Employee Retirement Income Security Act of 1974.

The Care New England Board of Trustees voted, on September 23, 2010, to freeze the Plan effective December 31, 2010 for all employees with the exception of the Butler unionized employees. Effective December 31, 2010, compensation paid to a participant shall be disregarded for plan purposes, except for purposes related to determining benefits for the unionized employees at Butler. In addition, a participant's cash balance account will only increase annually for interest credit. As a result, the System realized a gain on the curtailment of the Plan in the fiscal year ending September 30, 2010 of $3,194,728, which is recorded in pension expense. In connection with the Plan freeze, the Health System will enhance contributions to the Care New England 403(b) Match and Savings Plan.

Included in cumulative changes in unrestricted net assets at September 30, 2011 that has not yet been recognized in net periodic pension cost is an actuarial loss of $70,950,846. Included in changes in unrestricted net assets at September 30, 2010 that has not yet been recognized in net periodic pension cost is an actuarial loss of $52,006,974.

The actuarial loss included as cumulative changes in unrestricted net assets and expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2012 is $1,471,248.

Net periodic pension cost includes the following components at September 30:

	2011	2010
Service cost	$ 4,078,458	$ 10,360,836

	2011	2010
Discount rate	5.03 %	5.26 %
Rate of compensation increase	4.00 %	4.00 %

Plan Assets

The Plan's investment objectives are to achieve long-term growth in excess of inflation, and to provide a rate of return that meets or exceeds the actuarial expected long-term rate of return on plan assets. In order to minimize risk, the Plan attempts to minimize the variability in yearly returns. The Plan diversifies its holdings among sectors, industries, and companies. No more than 6% of the Plan's portfolio (measured on market value) may be held in an individual company's stocks or bonds.

To develop the expected long-term rate of return on plan assets assumption, the Health System considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

The Health System's pension plan asset allocations (based on market value) at September 30, by asset category, are as follows:

	Target Allocation	Actual 2011	Actual 2010
Asset category			
Alternative investments	28 %	26 %	26 %
Fixed income securities	20	24	30
Equity securities	52	50	44
	100 %	100 %	100 %

Contributions

The Health System contributed $15,325,000 and $12,475,000 to the Plan in 2011 and 2010, respectively. The Health System expects to contribute $12,250,000 to the Plan in 2012.

Estimated Future Benefit Payments

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Fiscal Year	Pension Benefits
2012	$ 15,300,000
2013	15,600,000
2014	15,700,000
2015	16,200,000
2016	16,100,000
Years 2017–2021	81,400,000

Care New England 403(b) Match and Savings Plan

As a result of the Pension Plan Protection legislation, regulatory changes impacting matching credits previously recorded in the CNE Pension Plan were discontinued effective January 1, 2009. As a result, CNE established the Care New England 403(b) Plan to account for future matching credits. The plan covers employees that meet certain eligibility requirements. The Health System recorded an expense of $2,904,069 and $2,776,391 for fiscal years ended September 30, 2011 and 2010, respectively. The Health System funded $2,682,349 and $2,657,261 in fiscal 2011 and 2010 to the plan for the calendar year 2010 and 2009 matching credits, respectively.

Effective January 1, 2011, in connection with the freeze of the Care New England Pension Plan, the Health System will provide a nonelective contribution to participant accounts, as defined in the Plan document. Nonelective contributions will be allocated to each eligible participant based on a percentage of salary based on a combination of the recipients age and years of service, and will be credited to each such participant as of the first day of the Plan year, as further described in the Plan document. As a result, the Health System recorded an expense of $8,941,660 for fiscal year ended September 30, 2011, which will be funded in fiscal 2012.

WIH Union Plan

Payments to a multiemployer pension plan covering union employees at WIH for the years ended September 30, 2011 and 2010 were $7,766,513 and $7,535,000, respectively.

Kent County Visiting Nurse Association Pension Plan

The Agency has a noncontributory defined benefit pension plan covering all employees who have satisfied certain eligibility requirements that was frozen effective December 31, 2007, and replaced with a contributory retirement savings plan. Benefits under the defined benefit plan were based on years of service and employee's compensation levels.

Included in the charge to net assets at September 30, 2011 and 2010 is an unrecognized actuarial loss of $3,303,783 and $2,708,723, respectively. The actuarial loss expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2012 is $292,510.

The Agency's pension expense was $187,497 in 2011 and $165,914 in 2010.

The assumptions used to determine net periodic benefit cost for the years ended September 30 are as follows:

	2011	2010
Discount rate	5.00 %	5.50 %
Expected return on assets	7.50 %	7.50 %
Rate of compensation increase	N/A	N/A

The assumptions used to develop the projected benefit obligation as of September 30 are as follows:

	2011	2010
Discount rate	4.75 %	5.00 %
Rate of compensation increase	N/A	N/A

To develop the expected long-term rate of return on plan assets assumption, the Agency considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

Plan assets, valued at fair value, consist of 3% cash and cash equivalents and 97% mutual funds. The fair value of the Plan assets were $5,466,732 and $5,410,313 at September 30, 2011 and 2010, respectively.

The Agency made required contributions to the Plan of $308,354 and $97,165 in 2011 and 2010, respectively. The Agency is expected to make $330,826 in contributions to the Plan during 2012. Benefit payments are expected to be paid as follows:

Fiscal Year	Pension Benefits
2012	$ 227,000
2013	236,000
2014	246,000
2015	291,000
2016	317,000
Years 2017–2021	2,403,000

Effective January 1, 2008, the Agency established a 403(b) Retirement Savings Plan that covers employees who have met certain eligibility requirements. Discretionary contributions to the plan are based on years of service and compensation levels. For the fiscal years that ended September 30, 2011 and 2010, respectively, the Agency recorded an expense of $244,703 and $227,728.

10. Postretirement Plans

Kent sponsors an unfunded noncontributory defined benefit postretirement plan that provides medical and dental benefits to certain salaried and nonsalaried employees. In 1996, Kent amended the plans to eliminate benefits for all employees, except for certain employees with at least 25 years of service at that date.

Included in the charge to net assets are the following amounts that have not yet been recognized in net periodic postretirement benefit cost as of September 30, 2011 and 2010, respectively: unrecognized net transition obligation of $354,751 and $451,750 and unrecognized actuarial loss of $192,355 and $278,826. The unrecognized net transition obligation and actuarial gain expected to be recognized in net periodic postretirement costs during the fiscal year ended September 30, 2012 are $97,000 and $0, respectively.

The postretirement benefit cost for these plans was $206,032 in 2011 and $759,771 in 2010. Included in the benefit cost for the plan in 2010 was $581,795 related to the costs of offering an early retirement program.

11. Patient Service Revenue

For the majority of the System's revenue, the Hospitals and the Agency have agreements with third-party payors that provide for payments to the Hospitals and the Agency at amounts different from their established rates. At the time of rendering service to the patients, the Hospitals and the Agency obtain assignment of benefits payable under the patient's health insurance program, plan, or policy (e.g., Medicaid, Blue Cross, health maintenance organizations, commercial insurance, Medicare, and others). The following is a breakdown of gross patient service revenue by payor type for the years ended September 30:

	2011	2010
Medicare and Medicare Managed Care	32 %	31 %
Medicaid and Medicaid Managed Care	20	20
Blue Cross	26	26
Managed care	11	11
Self-pay	4	4
Other third-party payors	7	8
	100 %	100 %

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there will always be a possibility that the recorded estimates of net revenue could change by a significant amount in the future. The Hospitals and the Agency believe they are in compliance with all applicable laws and regulations. Cost reports filed annually with third-party payors are subject to audit prior to final settlement. The Hospitals and the Agency are compliant with all reimbursement filings. A summary of cost report activity as of September 30, 2011 is as follows:

Medicare: Cost reports for the Hospitals and the Agency have been filed through 2010, and settled through 2010 for the Agency, 2008 for Butler, and 2006 for Kent and WIH.

State of Rhode Island (Medicaid): Cost reports have been filed through 2010, and settled through 2006 for Butler, Kent and WIH.

The filing of these cost reports and associated settlements require the use of estimates. Net patient service revenue was increased by approximately $3,286,300 and $4,411,454 in 2011 and 2010, respectively, to reflect the changes in the estimated settlements for certain prior years.

12. Disproportionate Share

The government has long recognized the financial burdens which are borne by hospitals which serve an unusually large number, or "disproportionate share", of low-income patients. Kent and WIH received disproportionate share payments of $27,734,289 and $24,190,258 from the State of Rhode Island's Medicaid program for the years ended September 30, 2011 and 2010, respectively. Kent and WIH also recorded disproportionate share payments of $4,936,177 and $4,740,205 from Medicare during 2011 and 2010, respectively.

RIDOH 0883

13. Concentration of Credit Risk

As of September 30, 2011 and 2010, Care New England, the Hospitals, and the Agency had cash and cash equivalents in excess of Federal Depository Insurance limits at major financial institutions. These financial institutions have a strong credit rating, and management believes that credit risks related to these deposits are minimal.

The Hospitals and the Agency receive a significant portion of its payment for services rendered from a limited number of governmental and commercial third-party payors, including Medicare, Medicaid, and Blue Cross. The organization has not historically incurred any significant concentrated credit losses in the normal course of business.

In addition, the organizations routinely grant credit to patients without requiring collateral or other security. The mix of receivables, net of contractual allowances, from patients and third-party payors at September 30, 2011 and 2010, was as follows:

	2011	2010
Medicare and Medicare Managed Care	11 %	11 %
Medicaid and Medicaid Managed Care	29	30
Blue Cross	20	16
Managed care	12	9
Self-pay	16	19
Other third-party payors	12	15
	100 %	100 %

The Health System provides an allowance for uncollectible accounts to address the risks of nonpayment of accounts receivable.

14. Commitments and Contingencies

Operating Leases

Care New England, the Hospitals, and the Agency have entered into operating lease agreements with several vendors for the lease of certain equipment and office space. Future minimum lease payments under noncancelable operating leases as of September 30, 2011 are:

2012	$ 5,595,458
2013	4,501,011
2014	4,048,572
2015	3,347,513
2016	3,124,235
Later years	41,854,414
Total minimum lease payments	$ 62,471,203

Total rent expense for operating leases for the years ended September 30, 2011 and 2010 amounted to $5,942,924 and $5,545,102, respectively.

RIDOH 0884

Butler has entered into several agreements with various parties, mostly nonprofit organizations, to lease space on the Butler campus. Rental income in the amount of $3,007,056 and $2,939,233 for the fiscal years ending September 30, 2011 and 2010, respectively, is included in other operating revenue in the consolidated statements of operations.

Litigation
CNE, the Affiliates, and the Agency have been individually named as codefendants in several complaints. It is the opinion of management that the liability, if any, to CNE, the Affiliates, and the Agency in excess of insurance coverage will have no material adverse effect on the consolidated financial position of Care New England.

Collective Bargaining Agreements
At September 30, 2011, approximately 40% of the Health System's employees were covered by collective bargaining agreements. The collective bargaining agreement covering 49% of the Agency's employees will expire on May 31, 2012, and be subject to negotiation. The remaining bargaining agreements will be in effect through fiscal 2012.

15. Professional and General Liability Claims

Due to strategic and economic issues, as well as the potential for limited availability of commercial insurance policies, the Care New England entities have moved over time to covering the majority of their professional and general liability insurance to self-insured approaches. The adequacy of the coverage provided, reserves, and the funding levels are evaluated annually by independent actuaries who review the soundness of the programs and recommend future funding levels. Potential losses are estimated based on industry as well as entity experience, and a provision for these losses is recorded.

Butler annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage. Butler's professional liability coverage for claims in excess of its primary coverage limits is provided by W&I Indemnity.

Kent Hospital established Toll Gate Indemnity in 2004, as an off-shore captive insurance entity to insure primary and excess hospital professional and general liability risks, as well as to supply indemnification coverage for certain eligible medical staff.

WIH annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage.

In addition to the trust fund, WIH established W&I Indemnity in 1994, as an off-shore captive insurance entity to provide coverage for claims in excess of its underlying policy, as well as to insure the contractual liability arising from indemnification agreements with certain eligible medical staff.

The provisions for anticipated losses were based upon expected undiscounted values. Trust fund and captive assets are available for the payment of claims.

CNE Wellness Centers, LLC and the Agency purchase general and professional liability insurance from Toll Gate Indemnity.

16. Other Self-Insurance Reserves

Care New England has established a workers' compensation trust fund to cover all past and future self-insured claims of workers' compensation activity for CNE, the Hospitals, and the Agency. The reserve for workers' compensation losses is based on an actuarial study and actual experience. At September 30, 2011 and 2010, the amounts accrued for estimated self-insurance costs have not been discounted.

CNE, on behalf of itself, the Hospitals, and the Agency, has entered into a self-insurance program for health insurance risks. This program covers the health insurance claims for all of CNE's, the Hospitals', and the Agency's employees, with the exception of the unionized employees at WIH. The provisions for health insurance losses are based on actuarial assumptions and actual claims experience.

17. Affiliation With Rhode Island Hospital

In 1981, RIH and WIH approved an agreement providing for the affiliation of the two Hospitals. The affiliation agreement provides for a program of shared medical services, thereby greatly increasing the scope of comprehensive acute-care services available to WIH in maternal, gynecological, and neonatal care. In accordance with the agreement, the Hospital relocated to the property of RIH.

18. Affiliation With Accredited Medical Schools

Butler and WIH are affiliated with the Warren Alpert Medical School of Brown University. The affiliation agreements provide that Butler and WIH will be the principal academic medical centers for psychiatry and healthcare unique to women and newborns, respectively. Kent is affiliated with the University of New England College of Osteopathic Medicine.

19. Functional Expenses

CNE provides healthcare services to residents within their geographic service areas. Expenses related to providing these services for the years ended September 30 are as follows:

	2011	2010
Healthcare services	$ 660,293,951	$ 630,931,072
General and administrative	166,113,749	155,499,660
	$ 826,407,700	$ 786,430,732

20. Fair Value of Financial Instruments

The Health System calculates fair value defined in ASC Topic 820 to value its financial assets and liabilities, where applicable. ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value. Topic 820 applies to other accounting pronouncements that require or permit fair value measurements, and does not require new fair value measurements. Fair value measurements, are applied based on the unit of account from the reporting entity's perspective. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements.

RIDOH 0886

ASC Topic 820 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2 Observable inputs that are based on inputs not quoted in active markets, but corroborated by market data.

Level 3 Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, the Health System uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers nonperformance risk in its assessment of fair value.

Fair value for Level 1 is based upon quoted market prices. Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers, and brokers. Fair value for Level 3 is based upon unobservable inputs for the asset (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset (including assumptions about risk).

The Health System's ownership in alternative investments is limited partnership interests in private equity funds. The value of certain alternative investments represents the ownership interest in the Net Asset Value (NAV) of the respective partnership. The NAV of the securities held by limited partnerships that do not have readily determinable fair values are determined by the general partner and are based on appraisals or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities of the same issuer, and subsequent developments concerning the companies to which the securities related. The Health System has performed significant due diligence around these investments to ensure NAV is an appropriate measure of fair value as of September 30.

The fair value of interest rate swap agreements is primarily determined using techniques consistent with the market approach. Significant observable inputs to valuation models include interest rates, treasury yields, and credit spreads.

The following methods and assumptions were used in estimating the fair value of financial instruments other than investments:

Accounts payable and accrued expenses: The carrying amount reported in the consolidated balance sheets for accounts payable and accrued expenses approximates its fair value.

Estimated third-party payor settlements: The carrying amount reported in the consolidated balance sheets for estimated third-party payor settlements approximates its fair value.

Long-term debt: The Health System's long-term debt obligations are reported in the accompanying statements of financial position at principal value less unamortized discount or premium, which totaled approximately $106 million at September 30, 2011, excluding capital leases. The estimated fair value of the Health System's long-term debt as of September 30, 2011 approximated its carrying value.

21. Termination of Affiliation Agreement With Lifespan

From the time of the execution of this agreement through early 2010, the parties endeavored to procure regulatory approvals required to consummate this transaction. The parties mutually agreed to terminate the Affiliation Agreement in February 2010.

22. Subsequent Event

Independent Auditors' Report

The Board of Trustees
Care New England Health System

We have audited the accompanying consolidated balance sheets of Care New England Health System and Affiliates ("Care New England") as of September 30, 2010 and 2009, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of Care New England's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Care New England's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Care New England's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Care New England Health System and Affiliates at September 30, 2010 and 2009, and the consolidated results of its operations, changes in net assets, and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

As discussed in Note 8 to the accompanying consolidated financial statements, in 2009, Care New England changed its method of accounting for the appreciation on endowments.

RIDOH 0910

1. Description of Organization (continued)

The mission of Kent County Memorial Hospital is to continually improve the health and well-being of the people and communities it serves, offering its essential services without regard for the ability to pay. Kent is a 359-bed, not-for-profit general hospital providing a full range of services for the acute care of patients principally from Kent County, Rhode Island. Kent currently operates American Osteopathic Association approved residency programs in emergency medicine and family practice, and has been approved to establish an internal medicine residency program and a fellowship program in hyperbaric medicine beginning in 2011. Kent is affiliated with, and provides clinical training to, the students of the University of New England College of Osteopathic Medicine. Kent is accredited by TJC and the Commission on Accreditation of Rehabilitation Facilities. Toll Gate is a wholly owned subsidiary of Kent. Toll Gate insures primary and excess hospital professional and general liability risks for the Hospital and its employees on an occurrence basis. Toll Gate insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians' professional liability on an occurrence basis. Toll Gate also insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians' professional liability on both a claims-made and occurrence basis.

The mission of Women & Infants Corporation is to support Women & Infants Hospital of Rhode Island and all other affiliated organizations. The mission of Women & Infants Hospital of Rhode Island is to improve the health and well-being of women and infants, and to provide essential services regardless of ability to pay. WIH is a 247-bed, not-for-profit regional center for women and infants' care in Rhode Island and environs. It has university affiliations and serves as the tertiary care center for neonatology, as well as obstetrics, maternal fetal medicine, gynecology, and an array of internal medicine services for all of Rhode Island and portions of the neighboring states of Massachusetts and Connecticut. As a complement to its role in service and education, WIH actively supports research by members of its staff. WIH is accredited by TJC. W&I Indemnity is a wholly owned subsidiary of WIH. W&I Indemnity insures excess hospital professional liability risks for the Hospital and its employees on an occurrence basis, and excess hospital professional liability risks for the Care New England Health System solely to the extent not covered by commercial insurance purchased by Care New England, Butler, or Kent. W&I Indemnity insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from employed physicians' and residents' medical malpractice liability on an occurrence basis. W&I Indemnity also insures the Hospital's contractual liability (pursuant to certain Indemnification Agreements) arising from community physicians' medical malpractice liability on both a claims-made and occurrence basis.

The Agency is a not-for-profit corporation, providing home care services to the residents of Rhode Island and nearby Massachusetts. Healthtouch, Inc. is a not-for-profit corporation providing private duty nursing and personal care services, primarily to residents of Rhode Island.

2. Significant Accounting Policies

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Care New England considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, excluding amounts whose use is limited by Board designation or other arrangements under trust agreements.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized and unrealized gains and losses on investments, other-than-temporary impairments in the value of securities, interest, and dividends) is included in the excess of revenues and gains over expenses unless the income or loss is restricted by donor or law.

Kent and WIH follow the practice of pooling resources of unrestricted and restricted assets for long-term investment purposes. The investment pool is operated on the market value method whereby each participating fund is assigned a number of units based on the percentage of the pool it owns at the time of entry. Income, gains, and losses of the pool are allocated to the funds based on their respective participation in the pool.

2. Significant Accounting Policies (continued)

Alternative investments (non-traditional, not readily marketable holdings) include hedge funds and private equity funds. Alternative investment interests generally are structured such that the Health System holds a limited partnership interest. The Health System's ownership structure does not provide for control over the related investees, and the Health System's financial risk is limited to the carrying amount reported for each investee, in addition to any unfunded capital commitment. There are no future funding commitments for alternative investments at September 30, 2010.

Individual investment holdings within the alternative investments include non-marketable and market-traded debt and equity securities, and interests in other alternative investments. The Health System may be exposed indirectly to securities lending, short sales of securities, and trading in futures and forward contracts, options, and other derivative products. Alternative investments often have liquidity restrictions under which the Health System's capital may be divested only at specified times. The Health System's liquidity restrictions may be up to 90 days for certain investments. Liquidity restrictions may apply to all or portions of a particular invested amount.

The Health System's policy is to record its ownership interest in alternative investments of less than 3% at cost. The Health System has no ownership interest in excess of 3%, which could require such interests to be reported under the equity method of accounting. Under the equity method, the Health System would recognize its share of the increase or decrease in the investments' fair value in non-operating income.

Financial information used by the Health System to evaluate its alternative investments is provided by the investment manager or general partner, and includes fair value valuations (quoted market prices and values determined through other means) of underlying securities and other financial instruments held by the investee, and estimates that require varying degrees of judgment. The financial statements of the investee companies are audited annually by independent auditors, although the timing for reporting the results of such audits does not coincide with the Health System's annual financial statement reporting.

There is uncertainty in the valuation for alternative investments arising from factors such as lack of active markets (primary and secondary), lack of transparency into underlying holdings, and time lags associated with reporting by investee companies. As a result, there is at least a reasonable possibility that estimates will change in the near term.

2. Significant Accounting Policies (continued)

Income and realized net gains (losses) on investments of endowments and specific purpose funds are reported as follows:

- Increases (decreases) in permanently restricted net assets if the terms of the gift require that they be added to the principal of permanently restricted net assets;
- Increases (decreases) in temporarily restricted net assets if the terms of the gift impose restrictions on the use of the income or the income has not yet been appropriated; or
- Increases (decreases) in the unrestricted net assets in all other cases.

Assets Limited as to Use

Assets limited as to use primarily include assets held by trustees under indenture agreements and insurance programs, deferred compensation arrangements, and designated assets set aside by one or more of the Boards of Trustees (the "Boards"), over which the Boards retain control and may, at their discretion, subsequently use for other purposes. Amounts required to meet current obligations of the Hospitals have been reclassified to current assets.

Inventories

Inventories of drugs and supplies are stated at the lower of cost (first-in, first-out) or market.

RIDOH 0914

2. Significant Accounting Policies (continued)

Property and Equipment

Property and equipment acquisitions are recorded at cost. Donated property and equipment is recorded at fair value at the date of receipt. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. Installation costs, including labor, benefits, and travel, are capitalized as a component of information systems installations. Depreciation is recorded using the straight-line method based on the estimated useful life of each class of depreciable asset, as recommended by the American Hospital Association.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted support, and are excluded from the excess of revenues over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets, are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Pledges

Pledges, less an allowance for uncollectible amounts, are recorded as receivables in the year made. Pledges receivable over a period greater than one year are stated at net present value. Pledges are recorded as additions to the appropriate net asset classification.

Deferred Financing Costs

Expenses related to issuance of bonds are deferred and amortized on a straight-line basis over the period during which the bonds are expected to be outstanding.

Self-Insurance Reserves

The reserves for self-insured programs are estimated based on actuarial studies and the Hospitals' and industry experience. The reserves include estimates of the ultimate cost for both reported claims and claims incurred but not yet reported. The Hospitals have established separate indemnification companies and trust funds for payment of certain self-insured claims.

2. Significant Accounting Policies (continued)

Care New England is self-insured for losses arising from workers' compensation claims. Loss reserves are estimated based on actuarial studies, and the Health System's and industry experience.

For the employees of the Hospitals and the Agency, with the exclusion of the unionized employees at Women & Infants Hospital, Care New England is self-insured for losses arising from health insurance claims. Self-insured losses for both reported claims and claims incurred but not yet reported are estimated based on actuarial studies and the Health System's actual experience.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Excess of Revenues Over Expenses

The consolidated statements of operations and changes in net assets include excess of revenues and gains over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues and gains over expenses, consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), and changes in the pension and postretirement liability.

Net Patient Service Revenue

The Hospitals and the Agency have individual agreements with many third-party payors that provide payments at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per-diem payments.

Net patient service revenue is reported at estimated net realizable amounts from patients, third-party payors, and others for services rendered, and includes estimated retroactive revenue adjustments due to such things as future audits and reviews. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known, or as years are no longer subject to such adjustments.

RIDOH 0916

2. Significant Accounting Policies (continued)

Other Revenue

Other revenue includes underwriting income, federal research revenues, clinical trial revenues at WIH, rental income, cafeteria sales, laboratory services provided to non-patients, sales of home medical equipment, vendor rebates and discounts, and various services provided to physicians and other organizations.

Charity Care

The Health System provides care to patients who meet certain criteria under their charity care policies without charge or at amounts less than established rates. Because the Health System does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient revenue.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date when the condition is satisfied. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions.

Income Taxes

Care New England, the Hospitals, the Agency, Healthtouch, Women & Infants Faculty Physicians, Inc., Women & Infants Corporation, Women & Infants Development Foundation, Palomar, and Kent Hospital Foundation are not-for-profit corporations, and have been recognized as tax exempt on related income pursuant to Section 501(c)(3) of the Internal Revenue Code. W&I Indemnity, Ltd. and Toll Gate Indemnity, Ltd. are foreign corporations with no material tax liability. Other affiliates are single-member limited liability companies which are treated as part of their sole member for tax purposes.

New Accounting Pronouncements

Postretirement Benefit Plan Assets

In March 2008, the FASB issued ASC Topic 517-20-65-2, *Employers' Disclosures about Postretirement Benefit Plan Assets*. This Topic amends ASC Topic 958-715 to provide guidance on an employer's disclosures about plan assets of a defined benefit pension or other postretirement plan. The Health System adopted the provisions of the Topic beginning with the fiscal year ended September 30, 2010.

Derivative Instruments and Hedging Activities

In March 2008, the FASB issued ASC Topic 815-10-65-1, *Disclosures about Derivative Instruments and Hedging Activities -- an amendment of Topic 815-10-50*. ASC Topic 815-10-65-1 builds upon the existing disclosure requirements of ASC Topic 815-10-50, *Accounting for Derivative Instruments and Hedging Activities*, by requiring enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under ASC Topic 815-10-50 and its related interpretations, and how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. The Health System adopted ASC Topic 815-10-65-1 for its fiscal year ending September 30, 2010.

Reclassifications

Certain items in the 2009 financial statements have been reclassified to conform to the current year presentation.

RIDOH 0918

3. Uncompensated Care and Community Services

The Health System maintains records to identify and monitor the level of charity care and community services it provides, including the amount of charges forgone for services and the estimated cost incurred to provide those services. The revenues forgone and estimated costs and expenses incurred to provide charity care for the years ended September 30 are as follows:

	2010	2009
Revenues forgone, based on established rates	**$26,405,197**	$25,494,320
Expenses and costs incurred	**$11,545,773**	$11,293,563

In addition to the above-mentioned medical care rendered, the Hospitals and the Agency provide numerous other services free of charge to the community. These services include such things as transporting patients to the healthcare facilities, interpretation of medical information to various languages, volunteer services to other not-for-profit agencies, emergency and disaster relief services, various health and educational programs, research and teaching facilities, healthcare screening services, therapeutic patient services, and provision of direct services to patients with multiple psychosocial needs.

	2010	2009
Approximated revenues forgone, or cost of the services provided to the community	**$10,095,776**	$8,447,869

The Hospitals and the Agency also provide services to other indigent patients under the Medicaid/Rite Care Program, which reimburses healthcare providers at amounts which are less than the costs of services provided to the recipients. Hospital-employed physicians also render medical services to the community which are not billable, and for which no remuneration is received.

In addition to the cost of charity care and other community service programs, the Hospitals and the Agency provided $36,700,064 and $29,932,717 for uncollectible patient accounts during the years ended September 30, 2010 and 2009, respectively.

RIDOH 0919

	2010	2009
Interest and dividend income	**$ 2,685,828**	$ 3,297,021

Included in non-operating revenue	**12,908,797**	15,711,496
	$15,821,038	$15,406,339

Care New England, the Hospitals, and the Agency routinely invest their surplus operating funds in various overnight repurchase agreements, money market funds, and fixed income U.S. agency bonds, which are classified as cash and cash equivalents.

Through its consolidated Treasury Management System, Care New England, on behalf of the Health System, has invested surplus operating cash in auction rate securities with varying maturity dates, which are backed by student loans. These loans are guaranteed for repayment by the federal government. During 2008, the auctions at which these securities were sold began to fail, requiring CNE to hold these securities indefinitely. However, payments of interest from the underlying loan pool remain current. As of September 30, 2010 and 2009, these securities are recorded as long-term investments in the consolidated balance sheets and Care New England has recorded an other-than-temporary impairment loss of $1,182,086 and $1,490,000, respectively, based on an independent valuation of the securities. During 2010, $3,225,000 of the auction rate securities were liquidated at face value, resulting in a non-operating gain of $198,359. During 2009, $775,000 of the auction rate securities were liquidated at face value, resulting in a non-operating gain of $27,125.

During November 2005, WIH received a Certificate of Need approval from the Rhode Island Department of Health to build a five-floor addition to the Hospital. The addition contains 80 neonatal intensive care beds, 30 additional obstetrical services beds, and space for support services. The addition was funded through the issuance of tax-exempt debt, use of equity, and philanthropic donations. The addition became operational on September 16, 2009.

During November 2010, Butler received a Certificate of Need approval from the Rhode Island Department of Health to build a two-story building. The new building will house an updated Patient Assessment Service, and accommodate an increase in Butler's licensed bed complement of inpatient psychiatry beds by twenty-six. The building will be funded through the issuance of tax-exempt debt, use of equity, and philanthropic donations. Total estimated cost of the new building is $17,823,000.

During May 2010, the Kent received a Certificate of Need approval from the Rhode Island Department of Health to construct and relocate its outpatient surgical suites on one floor of a two-story medical building being built on the campus by a private developer. The Certificate of Need also includes lobby renovations, the construction of a connector to the main hospital building, and the construction of a 10-bed short stay nursing unit in the vacated outpatient surgery space. The project will be funded through the issuance of tax-exempt debt and philanthropic donations. Total estimated cost of the project is $15,000,000.

6. Property and Equipment (continued)

As of September 30, 2010, the Health System estimated the total cost of completion of construction and projects in progress to be approximately $37,112,000. The funding to complete these projects will come from Board-designated funds, philanthropic donations, tax-exempt debt, and operating cash.

WIH leases land for its facility from Rhode Island Hospital ("RIH"), for a nominal annual payment, under a 99-year lease agreement which expires December 31, 2085.

Butler owns approximately 110 acres of land, which was purchased with donated funds in the mid-19th century. This land has a book value of one dollar.

In the late 1940s, Kent acquired 57 acres of land, which is recorded at the acquisition price of $90,165.

Conditional asset retirement obligations are recorded at $1,580,875 and $1,550,322 as of September 30, 2010 and 2009, respectively. These obligations are recorded in other non-current liabilities in the accompanying consolidated balance sheets. There are no assets that are legally restricted for purposes of settling asset retirement obligations. During 2010 and 2009, there were no significant retirement obligations incurred or settled. Accretion expense of $64,576 and $61,963 was recorded during the years ended September 30, 2010 and 2009, respectively.

7. Long-Term Debt and Capital Leases

During February 2008, CNE and its other Obligated Group members, Butler, Kent, WIC, and WIH issued a total of $84,940,000 in RIHEBC Hospital Financing Revenue Bonds (the "Bonds"). These Bonds were issued as CNE 2008 Series A ($46,730,000) and CNE 2008 Series B ($38,210,000). The proceeds from the CNE 2008 Series A bonds were used to (1) refund the outstanding CNE 2002 Series A bonds, and (2) pay certain expenses related to the issuance of the CNE 2008 Series A bonds. The proceeds from the CNE 2008 Series B bonds were used to (1) defease a portion of the outstanding CNE 2002 Series B bonds, and (2) finance a portion of WIH's Certificate of Need project consisting of the construction, equipping, and furnishing of a five-story addition to WIH's existing hospital building, (3) finance a portion of routine capital improvements, and (4) pay certain expenses related to the issuance of the CNE 2008 Series B bonds. The CNE 2002 Series B bonds were defeased by depositing a portion of the proceeds of the CNE 2008 Series B bond proceeds and money contributed by the Obligated Group in an account held by the trustee for the CNE 2002 Series B bonds to provide funds as and

when necessary to pay the principal and interest on the CNE 2002 Series B bonds. The refunding trust has sufficient fixed income securities to meet the required payments on the outstanding balance of $2,763,393 as of September 30, 2010.

A summary of long-term debt at September 30 is as follows:

	2010	2009
Variable rate $46,730,000 RIHEBC 2008 Series A bonds, mandatory sinking fund redemptions ranging from $1,330,000 in 2011 to $2,735,000 in 2032. The bonds bear interest at a daily, weekly, or monthly rate, which is payable on the first business day of each month, and on maturity or redemption dates and the fixed rate conversion date. In no event will the interest rate borne by the bonds exceed 10% per annum. Since issuance in 2008, the bonds have borne a weekly interest rate. CNE has pledged gross receipts backed by a bank letter of credit which expires on February 1, 2015. The Series A bonds are subject to tender at the option of the owners thereof. To the extent the tendered bonds are not able to be remarketed, the letter of credit bank has committed to purchase the bonds. Amounts advanced by the bank to pay the purchase price on bonds being purchased and not reimbursed to the bank on the date of such drawing will be converted to a credit agreement loan and amortized over three years. CNE, Butler, Kent, WIC, and WIH are jointly and severally liable for repayment.	**$42,985,000**	$44,270,000

Under the terms of the revenue bonds, CNE and the Hospitals are required to make periodic debt service payments with a trustee, which are included with assets limited as to use. The revenue bond indenture and letter of credit agreement also places limits on the incurrence of additional borrowings, and require that the Obligated Group satisfy certain measures of financial performance as long as the bonds are outstanding. The Health System has been, and remains, compliant with these terms.

In 2004, CNE entered into an interest rate swap agreement with Bank of America Investments, effectively converting the $50,000,000 RIHEBC CNE 2002 Series A variable rate debt to a fixed rate of 2.99% for the period of October 1, 2005 through August 1, 2011.

RIDOH 0926

7. Long-Term Debt and Capital Leases (continued)

As part of the refinancing, CNE has (1) maintained the interest rate swap agreement that was entered into in 2004 with Bank of America Investments which effectively converts $45,400,000 of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 3.02% for the period of February 1, 2008 through August 1, 2011, (2) entered into an interest rate swap agreement with Deutsche Bank Group which effectively converts all of the RIHEBC CNE 2008 Series A variable rate bonds to a fixed rate of 4.216% for the period of August 1, 2011 through July 1, 2032, and (3) entered into an interest rate swap agreement with Morgan Stanley Capital Services which effectively converts all of the RIHEBC CNE 2008 Series B variable rate bonds to a fixed rate of 3.857% for the period of February 1, 2008 through August 31, 2037.

The Health System uses the interest rate swap agreements in order to manage its interest rate risk associated with its outstanding debt. These swaps effectively convert interest rates on variable rate bonds to fixed rates. The interest rate swap agreements meet the definition of derivative instruments. However, the change in the market value and cash flow impact of the derivative instruments were accounted for as a non-operating activity. The swaps, while serving as an economic hedge, do not qualify as an accounting hedge.

The Hospitals classify certain non-cancelable leases as capital leases, and include the property under lease in their property and equipment. Amortization expense for these assets is included in depreciation and amortization expenses in the consolidated statements of operations and changes in net assets. Ownership of the leased property converts to the Hospitals at the end of the lease term. The Health System follows the requirements of the Rhode Island enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 as they relate to its permanently restricted endowments. The Health System's endowments consist of numerous individual funds established for a variety of purposes. Its endowments consist solely of donor-restricted endowment funds. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

RIDOH 0929

8. Temporarily and Permanently Restricted Net Assets (continued)

The Health System classifies restricted donor funds in accordance with the laws of the State of Rhode Island and generally accepted accounting principles. The Health System classifies as permanently restricted net assets (1) the original value of gifts donated to the permanent endowment, (2) the original value of subsequent gifts to the permanent endowment, and (3) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure. The Health System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purpose of the Health System and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, and (6) the investment policies of the Health System.

For the year ended September 30, 2010, the Health System had the following changes in the endowment net assets:

	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets at beginning of year	$21,172,035	$7,804,023	$28,976,058

In addition to permanently restricted endowments, Kent is an income beneficiary of various trusts. On September 30, 2010 and 2009, the market value of the trust assets, which are recorded as permanently restricted net assets, totaled $10,574,465 and $9,840,045, respectively. Distributions of income are made at the discretion of the trustees.

It is the policy of the Health System that any appropriations from the appreciation in endowment funds are periodically requested of and approved by the Board of Trustees.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Health System to retain as a fund of perpetual duration. Deficiencies of this nature that are reported in unrestricted net assets are immaterial as of September 30, 2010 and 2009. These deficiencies resulted from unfavorable market fluctuations. The individual donor-restricted endowment funds with deficiencies will retain future income and appreciation to restore the required fair value of the assets.

RIDOH 0931

8. Temporarily and Permanently Restricted Net Assets (continued)

During fiscal 2010 and 2009, net assets were released from donor restrictions by incurring expenses satisfying the following restricted purposes:

9. Pension Plans

The Health System has two separate pension plans. One plan covers the employees of CNE and the Hospitals, with the exception of the unionized employees of WIH (who are covered under a multiemployer union plan) and certain WIH-employed physicians. The other plan covers the employees of the Agency.

Care New England Pension Plan

The Care New England Pension Plan (the "Plan"), established on October 1, 1998, is a defined benefit cash balance plan that covers all of the employees of CNE, and all of the Hospitals' employees, with the exception of the unionized employees and certain employed physicians at WIH. The benefits for the unionized employees at Butler are computed under a separate formula that was in effect when the Butler plan was a stand-alone non-contributory defined benefit plan. The Hospitals incur and fund their respective pension plan expenses within the guidelines established by the Employee Retirement Income Security Act of 1974.

Included in changes in unrestricted net assets at September 30, 2010 that has not yet been recognized in net periodic pension cost is an unrecognized actuarial loss of $52,006,974. Included in changes in unrestricted net assets at September 30, 2009 that has not yet been recognized in net periodic pension cost is an unrecognized prior service credit of $3,923,131, and an unrecognized actuarial loss of $44,084,451.

Plan Assets

The Plan's investment objectives are to achieve long-term growth in excess of inflation, and to provide a rate of return that meets or exceeds the actuarial expected long-term rate of return on plan assets. In order to minimize risk, the Plan attempts to minimize the variability in yearly returns. The Plan diversifies its holdings among sectors, industries, and companies. No more than 6% of the Plan's portfolio (measured on market value) may be held in an individual company's stocks or bonds.

To develop the expected long-term rate of return on plan assets assumption, the Health System considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

The Care New England Board of Trustees voted, on September 23, 2010, to freeze the Plan effective December 31, 2010. Effective December 31, 2010, compensation paid to a participant shall be disregarded for plan purposes, except for purposes related to determining benefits for the unionized employees at Butler. In addition, a participant's cash balance account will only increase annually for interest credit. As a result, the System realized a gain on the curtailment of the Plan in the fiscal year ending September 30, 2010 of $3,194,728, which is recorded in pension expense. In connection with the Plan freeze, the Health System will enhance contributions to the Care New England 403(b) Match and Savings Plan.

9. Pension Plans (continued)

Care New England 403(b) Match and Savings Plan

As a result of the Pension Plan Protection legislation, regulatory changes impacting matching credits previously recorded in the CNE Pension Plan were discontinued effective January 1, 2009. As a result, CNE established the Care New England 403(b) Plan to account for future matching credits. The plan covers employees that meet certain eligibility requirements. For the period of October 1, 2009 through September 30, 2010, the Health System recorded an expense of $2,776,391. For the period of January 1, 2009 to September 30, 2009, the Health System recorded an expense of $1,996,552. In the fiscal year that ended September 30, 2010, the Health System funded $2,657,261 to the plan for the calendar year 2009 matching credits, and will fund the calendar year 2010 matching credits during fiscal year 2011.

Effective January 1, 2011, in connection with the freeze of the Care New England Pension Plan, the Health System will provide a non-elective contribution to participant accounts, as defined in the Plan document. Non-elective contributions will be allocated to each eligible participant based on a percentage of salary based on a combination of the recipients age and years of service, and will be credited to each such participant as of the first day of the Plan year, as further described in the Plan document.

WIH Union Plan

Payments to a multiemployer pension plan covering union employees at WIH for the years ended September 30, 2010 and 2009 were $7,535,000 and $6,493,000, respectively.

Kent County Visiting Nurse Association Pension Plan

The Agency has a non-contributory defined benefit pension plan covering all employees who have satisfied certain eligibility requirements that was frozen effective December 31, 2007, and replaced with a contributory retirement savings plan. Benefits under the defined benefit plan were based on years of service and employee's compensation levels.

Included in the charge to net assets at September 30, 2010 is an unrecognized actuarial loss of $2,708,723. The actuarial loss expected to be recognized in net periodic pension cost during the fiscal year ended September 30, 2011 is $216,583.

The Agency's pension expense (income) was $165,914 in 2010 and $(24,000) in 2009.

RIDOH 0936

9. Pension Plans (continued)

Actuarial liabilities and pension costs were determined using actuarial assumptions consistent with the CNE plan. To develop the expected long-term rate of return on plan assets assumption, the Agency considered the historical return and the future expectations for returns for each asset class, as well as the target asset allocation of the pension portfolio.

Plan assets, valued at fair value, consist of 1% cash and cash equivalents and 99% mutual funds.

The Agency made required contributions to the Plan of $97,165 and $398,989 in 2010 and 2009, respectively. The Agency is expected to make $310,870 in contributions to the Plan during 2011. Benefit payments, which reflect expected future services, are expected to be paid as follows:

Fiscal Year	Pension Benefits
2011	$205,000
2012	212,000
2013	223,000
2014	234,000
2015	278,000
Years 2016 – 2020	2,174,000

Effective January 1, 2008, the Agency established a 403(b) Retirement Savings Plan that covers employees who have met certain eligibility requirements. Discretionary contributions to the plan are based on years of service and compensation levels. For the fiscal years that ended September 30, 2010 and 2009, respectively, the Agency recorded an expense of $227,728 and $232,457.

10. Patient Service Revenue

For the majority of the System's revenue, the Hospitals and the Agency have agreements with third-party payors that provide for payments to the Hospitals and the Agency at amounts different from their established rates. At the time of rendering service to the patients, the Hospitals and the Agency obtain assignment of benefits payable under the patient's health insurance program, plan, or policy (e.g., Medicaid, Blue Cross, health

maintenance organizations, commercial insurance, Medicare, and others). The following is a breakdown of gross patient service revenue by payor type for the years ended September 30:

	2010	2009
Medicare and Medicare Managed Care	**31%**	30%
Medicaid and Medicaid Managed Care	**20**	21
Blue Cross	**26**	26
Managed care	**11**	11
Self-pay	**4**	4
Other third-party payors	**8**	8
	100%	100%

CNE, on behalf of the Hospitals and the Agency, is in the process of negotiations with United Health Plan for renewal of a payment agreement representing a significant portion of the System's revenues. This agreement is set to expire on December 31, 2010. To date, there has been no agreement with respect to new contract terms.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there will always be a possibility that the recorded estimates of net revenue could change by a significant amount in the future. The Hospitals and the Agency believe they are in compliance with all applicable laws and regulations. Cost reports filed annually with third-party payors are subject to audit prior to final settlement. The Hospitals and the Agency are compliant with all reimbursement filings. A summary of cost report activity as of September 30, 2010 is as follows:

Medicare: Cost reports for the Hospitals and the Agency have been filed through 2009 and settled through 2009 for the Agency, 2008 for Butler, and 2006 for Kent and WIH.

State of Rhode Island (Medicaid): Cost reports have been filed for Butler and WIH through 2009, and Kent through 2008, and settled through 2006 for Butler and Kent, and 2003 for WIH.

RIDOH 0938

10. Patient Service Revenue (continued)

The filing of these cost reports and associated settlements require the use of estimates. Net patient service revenue was increased by $4,411,454 and $6,110,000 in 2010 and 2009, respectively, to reflect changes in the estimated settlements for certain prior years. There were no changes in other prior year estimates during 2010. In 2009, the change in other prior year estimates increased operating expenses by approximately $4,000,000 in 2009.

11. Disproportionate Share

The government has long recognized the financial burdens which are borne by hospitals which serve an unusually large number, or "disproportionate share", of low-income patients. Kent and WIH received disproportionate share payments of $24,190,258 and $25,016,538 from the State of Rhode Island's Medicaid program for the years ended September 30, 2010 and 2009, respectively. Kent and WIH also recorded disproportionate share payments of $4,952,000 and $4,617,926 from Medicare during 2010 and 2009, respectively.

12. Concentration of Credit Risk

As of September 30, 2010 and 2009, Care New England, the Hospitals, and the Agency had cash and cash equivalents in excess of Federal Depository Insurance limits at major financial institutions. These financial institutions have a strong credit rating, and management believes that credit risks related to these deposits are minimal.

The Hospitals and the Agency receive a significant portion of its payment for services rendered from a limited number of governmental and commercial third-party payors, including Medicare, Medicaid, and Blue Cross. The organization has not historically incurred any significant concentrated credit losses in the normal course of business.

RIDOH 0939

12. Concentration of Credit Risk (continued)

In addition, the organizations routinely grant credit to patients without requiring collateral or other security. The mix of receivables, net of contractual allowances, from patients and third-party payors at September 30, 2010 and 2009, was as follows:

	2010	2009
Medicare and Medicare Managed Care	**11%**	11%
Medicaid and Medicaid Managed Care	**30**	27
Blue Cross	**16**	17
Managed care	**9**	10
Self-pay	**19**	21
Other third-party payors	**15**	14
	100%	100%

The Health System provides an allowance for uncollectible accounts to address the risks of non-payment of accounts receivable.

13. Postretirement Plans

Kent sponsors unfunded non-contributory defined benefit postretirement plans that provide medical and dental benefits to certain salaried and non-salaried employees. In 1996, Kent amended the plans to eliminate benefits for all employees, except for certain employees with at least 25 years of service at that date.

Included in the charge to net assets are the following amounts that have not yet been recognized in net periodic postretirement benefit cost as of September 30, 2010 and 2009, respectively: unrecognized net transition obligation of $451,750 and $548,750 and unrecognized actuarial loss (gain) of $278,826 and $(143,634). The unrecognized net transition obligation and actuarial gain expected to be recognized in net periodic postretirement costs during the fiscal year ended September 30, 2011 are $97,000 and $2,619, respectively.

The postretirement benefit cost for these plans was $759,771 in 2010 and $191,907 in 2009. Included in the benefit cost for the plan in 2010 is $581,795 related to the costs of the special event, the offering of an early retirement program.

RIDOH 0940

14. Commitments and Contingencies

Operating Leases

Care New England, the Hospitals, and the Agency have entered into operating lease agreements with several vendors for the lease of certain equipment and office space. Future minimum lease payments under non-cancelable operating leases as of September 30, 2010 are:

Year Ending September 30:	
2011	$ 5,704,776
2012	4,773,973
2013	4,164,512
2014	3,652,393
2015	3,008,689
Later years	42,052,314
Total minimum lease payments	$63,356,657

Total rent expense for operating leases for the years ended September 30, 2010 and 2009 amounted to $5,545,102 and $3,791,000, respectively.

Butler has entered into several agreements with various parties, mostly non-profit organizations, to lease space on the Butler campus. Rental income in the amount of $2,939,233 and $3,026,139 for the fiscal years ending September 30, 2010 and 2009, respectively, is included in other operating revenues in the statements of operations.

Litigation

CNE, the Affiliates, and the Agency have been individually named as codefendants in several complaints. It is the opinion of management that the liability, if any, to CNE, the Affiliates, and the Agency in excess of insurance coverage will have no material adverse effect on the consolidated financial position of Care New England.

Collective Bargaining Agreements

At September 30, 2010, approximately 40% of the Health System's employees were covered by collective bargaining agreements. The collective bargaining agreement covering 27% of Kent Hospital employees will expire on June 30, 2011, and be subject to negotiation. The remaining bargaining agreements will be in effect through 2011.

RIDOH 0941

15. Professional and General Liability Claims

Due to strategic and economic issues, as well as the potential for limited availability of commercial insurance policies, the Care New England entities have moved over time to covering the majority of their professional and general liability insurance to self-insured approaches. The adequacy of the coverage provided, reserves, and the funding levels are evaluated annually by independent actuaries who review the soundness of the programs and recommend future funding levels. Potential losses are estimated based on industry as well as entity experience, and a provision for these losses is recorded.

Butler annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage. Butler's professional liability coverage for claims in excess of its primary coverage limits is provided by W&I Indemnity.

Kent Hospital established Toll Gate Indemnity in September 2004, as an off-shore captive insurance entity to insure primary and excess hospital professional and general liability risks, as well as to supply indemnification coverage for certain eligible medical staff.

WIH annually contributes to its self-insurance trust fund to provide for risks relating to its existing actuarially calculated primary level of professional and general liabilities, as well as the tail liability related to prior claims-made coverage.

In addition to the trust fund, WIH established W&I Indemnity, as an off-shore captive insurance entity to provide coverage for claims in excess of its underlying policy, as well as to insure the contractual liability arising from indemnification agreements with certain eligible medical staff.

The provisions for anticipated losses were based upon expected undiscounted values. Trust fund and captive assets are available for the payment of claims.

CNE Wellness Centers, LLC and the Agency purchase general and professional liability insurance from Toll Gate Indemnity.

RIDOH 0942

16. Other Self-Insurance Reserves

Care New England has established a workers' compensation trust fund to cover all past and future self-insured claims of workers' compensation activity for CNE, the Hospitals, and the Agency. The reserve for workers' compensation losses is based on an actuarial study and actual experience. At September 30, 2010 and 2009, the amounts accrued for estimated self-insurance costs have not been discounted.

CNE, on behalf of itself, the Hospitals, and the Agency, has entered into a self-insurance program for health insurance risks. This program covers the health insurance claims for all of CNE's, the Hospitals', and the Agency's employees, with the exception of the unionized employees at WIH. The provisions for health insurance losses are based on actuarial assumptions and actual claims experience.

17. Affiliation with Rhode Island Hospital

In 1981, RIH and WIH approved an agreement providing for the affiliation of the two Hospitals. The affiliation agreement provides for a program of shared medical services, thereby greatly increasing the scope of comprehensive acute-care services available to WIH in maternal, gynecological, and neonatal care. In accordance with the agreement, the Hospital relocated to the property of RIH.

18. Affiliation with Accredited Medical Schools

Butler and WIH are affiliated with Brown University. The affiliation agreements provide that Butler and WIH will be the principal academic medical centers for psychiatry and healthcare unique to women and newborns, respectively. Kent is affiliated with the University of New England College of Osteopathic Medicine.

19. Functional Expenses

CNE provides healthcare services to residents within their geographic service areas. Expenses related to providing these services for the years ended September 30 are as follows:

	2010	2009
Healthcare services	**$630,931,072**	$603,727,191
General and administrative	**155,499,660**	144,173,241
	$786,430,732	$747,900,432

RIDOH 0943

20. Fair Value of Financial Instruments

The Health System calculates fair value defined in ASC Topic 820 to value its financial assets and liabilities, where applicable. ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value. Topic 820 applies to other accounting pronouncements that require or permit fair value measurements, and does not require new fair value measurements. Fair value measurements, are applied based on the unit of account from the reporting entity's perspective. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements.

ASC Topic 820 establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs that are based on inputs not quoted in active markets, but corroborated by market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, the Health System uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible, and considers non-performance risk in its assessment of fair value.

RIDOH 0944

20. Fair Value Measurements (continued)

Financial instruments carried at fair value for the System's non-pension plan assets as of September 30, 2010 are classified in the table below in one of the three categories described above:

The amounts reported in the financial instruments table exclude alternative investments valued at approximately $8,524,103 as of September 30, 2010 and $7,852,000 as of September 30, 2009 (Note 5).

Financial instruments carried at fair value for assets invested in the Defined Benefit Pension Plan as of September 30, 2010 are classified in the table below in one of the three categories described above:

	Level 1	Level 2	Level 3	Total
Assets				
Cash and cash equivalents	$ 8,715,153	$ -	$ -	$ 8,715,153

Financial instruments carried at fair value for the pension plan assets as of September 30, 2009 are classified in the table below in one of the three categories described above:

	Level 1	Level 2	Level 3	Total
Assets				
Cash and cash equivalents	$ 671,648	$ -	$ -	$ 671,648

	$53,023,642	$41,684,345	$62,108,253	$156,816,240

Fair value for Level 1 is based upon quoted market prices. Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers, and brokers. Fair value for Level 3 is based upon unobservable inputs for the asset (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset (including assumptions about risk).

RIDOH 0946

20. Fair Value Measurements (continued)

The fair value of interest rate swap agreements is primarily determined using techniques consistent with the market approach. Significant observable inputs to valuation models include interest rates, Treasury yields, and credit spreads.

The following methods and assumptions were used in estimating the fair value of financial instruments:

Accounts payable and accrued expenses: The carrying amount reported in the consolidated balance sheets for accounts payable and accrued expenses approximates its fair value.

Estimated third-party payor settlements: The carrying amount reported in the consolidated balance sheets for estimated third-party payor settlements approximates its fair value.

Long-term debt: The Health System's long-term debt obligations are reported in the accompanying statements of financial position at principal value less unamortized discount or premium, which totaled approximately $83 million at September 30, 2010, excluding capital leases. The estimated fair value of the Health System's long-term debt as of September 30, 2010 approximated its carrying value.

RIDOH 0947

20. Fair Value Measurements (continued)

During the years ended September 30, 2010 and 2009, respectively, the changes in the fair value for the System's financial instruments in the non-pension plan assets measured using significant unobservable inputs (Level 3) were comprised of the following:

21. Termination of Affiliation Agreement with Lifespan

In July 2007, Care New England Health System and Lifespan Corporation entered into an Affiliation Agreement under which Care New England and its affiliates would merge into Lifespan Corporation. From the time of the execution of this agreement through early 2010, the parties endeavored to procure regulatory approvals required to consummate this transaction. The parties mutually agreed to terminate the Affiliation Agreement in February 2010.

22. Subsequent Event

By November 23, 2010, the Care New England Board of Directors and the Board of Directors of Butler, Kent, and Women and Infants Hospitals voted to approve one or more series of Rhode Island Health and Educational Building Corporation fixed interest tax exempt financing bonds in aggregate, principal amount not to exceed $40,000,000 to finance (1) approximately $10,000,000 in construction, equipping and furnishing of a two-story addition to Butler's existing hospital facility, (2) approximately $12,000,000 for (a) renovation, equipping, and furnishing of existing hospital space to house a 10-bed, short-stay unit and (b) equipping and furnishing of a 30,000 square foot ambulatory surgical center to Kent's existing hospital facility, (3) refinancing of (a) commercial mortgage between Women and Infants Hospital and Bank of America, NA and (b) commercial mortgage between Women and Infants Hospital and Bank Rhode Island (c) capital lease between Butler and Harbor Group Home, LLC, (4) reimbursing and financing a portion of the fiscal years ending 2010 through 2013 routine capital upgrades, (5) debt service associated with the bonds, and (6) issuance costs and capitalized interest. It is expected that the bonds, will be issued during the Health System's fiscal year ending September 30, 2011.

Executive Summary of
Care New England's Affiliation Agreement with Memorial Hospital of Rhode Island

The following is a summary of the material terms of Care New England Health System's ("**CNE**") proposed transaction with The Memorial Hospital of Rhode Island ("**MHRI**") and its parent organization Southeastern Healthcare System, Inc. ("**MHRI Parent**"), as reflected in the current draft of the Affiliation Agreement (the "**Agreement**").

Affiliation Agreement

1. Implementation of Affiliation and Governance

- CNE becomes the sole corporate member of MHRI Parent. In essence, this makes CNE the corporate parent of all of the entities within the Memorial system, but otherwise leaves their existing corporate structure intact.

- CNE, directly or indirectly, holds reserved powers over MHRI Parent and its affiliates.

- The CNE Board will be expanded to include four additional members, including three "At-Large Directors" nominated by MHRI and approved by CNE, and one "Ex-Officio Director," the President of the MHRI Medical Staff. The "At-Large Directors" will serve three year terms.

- The members of the MHRI Parent's and MHRI's Board of Trustees will be comprised of those individuals who from time to time serve as members of the CNE Board, and MHRI Parent's and MHRI's board officers will be identical to the CNE officers.

- CNE, MHRI Parent and MHRI will amend and restate their governing documents to reflect the items above.

- Individuals who formerly served on the MHRI Parent or MHRI Board of Trustees will be eligible to participate on certain CNE committees, subject to meeting certain qualifications and the approval of the CNE Board.

2. Financial and Operational Commitments

- No cash or similar financial consideration will be paid at Closing.

- MHRI will have access to the same capital pool and planning process as other hospitals in the CNE System.

- CNE will either (i) call, discharge or refinance MHRI's bond indebtedness (approximately $11M as of September 2012), or (ii) work with MHRI to form the most effective credit group structure, which may include the formation of a single obligated group, as determined by CNE.

- CNE will fund any operating shortfall of MHRI until September 30, 2016, as determined necessary by CNE.

- The Parties will endeavor to make charity care available to the communities MHRI serves, including the Blackstone Valley community, at a level comparable to the level of charity care provided to other similarly-situated entities in the CNE System.

- MHRI will be the combined system's primary academic teaching base for Brown University with respect to family medicine and internal medicine; MHRI's Chief of Family Medicine would be named the Executive Chief of Family Medicine for the CNE System; and MHRI's Chief of Internal Medicine would be named the Executive Chief of Internal Medicine for the CNE System. The Medical Staff of MHRI would remain independent.

- MHRI and its affiliates will retain their current names, and be identified as a "CNE Affiliate"

- CNE and MHRI will continue to be separate and distinct employers.

- CNE will provide MHRI the same centralized corporate services (such as legal compliance, risk management, human resources, and managed care contracting services) as CNE provides to other hospitals within the CNE System. CNE may choose to implement these services over time to ensure that existing contractual obligations to third-party service providers are honored and to ensure a smooth and seamless transition.

3. Representations and Warranties of MHRI Parent and MHRI

- MHRI Parent and MHRI each make numerous representations and warranties regarding the current and historic operations of MHRI Parent and its affiliates (e.g., financial statements, compliance with laws, benefits plans, environmental, medical staff, title to assets, etc.).

- If these representations and warranties prove to be untrue, CNE can elect not to close the transaction. At Closing, the representations and warranties terminate and have no further effect.

4. Pre-Closing Covenants of the Parties

- After the Agreement is executed, the parties will seek regulatory approvals and take other actions necessary to consummate the transaction.

- During this "pre-closing period", MHRI Parent and MHRI agree to preserve, protect and maintain the business, property and assets; preserve the accuracy of representations and warranties; give CNE access to information; and to refrain from discussing or entering into competing transactions with others.

- CNE makes similar pre-closing covenants to preserve its business, property and assets, and to refrain from entering into transactions that would prevent it from consummating the Affiliation.

5. Conditions Precedent to Closing

- Before CNE is required to consummate the transactions contemplated by the Agreement (i.e., after the Agreement is signed), certain conditions must be met. These include:

  - All regulatory approvals must be obtained.

  - All of MHRI Parent's and MHRI's representations and warranties must be true.

  - CNE has completed its due diligence investigation of MHRI Parent and its affiliates and, in its sole discretion, is satisfied with the results of such investigation.

  - MHRI must have delivered a title commitment and a Phase I Environmental Site Assessment Report for the real estate parcels comprising MHRI's main campus.

  - MHRI must have frozen its defined benefit pension plan.

  - The Parties will have developed a mutually agreeable plan with respect to Memorial's welfare plans.

  - CNE must have either: (i) refinanced Memorial's existing bond indebtedness and obtained such consents and approvals for Memorial to join CNE's Obligated Group; or (ii) obtained any consents related to CNE's bond indebtedness that are required for CNE to fund MHRI's operating shortfalls, at CNE's discretion.

  - Memorial, at its sole cost and expense, must have obtained a reporting endorsement on its insurance coverage that was underwritten on a claims-made basis.

  - None of MHRI Parent, the MHRI Affiliates and the PHO will: (i) be in receivership or dissolution; (ii) have made any assignment for the benefit of creditors; (iii) have admitted in writing its inability to pay its debts as they mature; (iv) have been adjudicated as bankrupt; or (v) have filed a petition in voluntary bankruptcy, a petition or answer seeking reorganization, or an arrangement with creditors under the federal bankruptcy law or any other similar law or statute of the United States or any state, nor will any such petition have been filed against MHRI Parent, any MHRI Affiliate or the PHO.

  - Memorial must have dissolved and wound up the affairs of The RS Realty Company, a Rhode Island corporation, and all proceeds must have been transferred to MHRI or another MHRI Affiliate.

6. MHRI Foundation

- Following the Closing Date, CNE is required to incorporate a Rhode Island non-profit corporation whose sole member is MHRI (the "**MHRI Foundation**") as the primary fund-raising entity for MHRI. Its board of directors will be elected by MHRI upon recommendation of the CNE Governance and Nominating Committee. For the first three years of its existence, at least 51% of the directors on the MHRI Foundation board must have been MHRI trustees prior to Closing.

7. Termination

- The Agreement may be terminated before the Closing Date upon the occurrence of the following:
  - Upon the written consent of the Parties;
  - In the event any of the conditions precedent to the performance of the obligations of the Parties cannot be fulfilled;
  - If any necessary consents or approvals are refused or withdrawn;
  - If the Closing does not occur by September 30, 2013; or
  - Upon receipt of a Second Request for Information from the Federal Trade Commission (the "**FTC**") following submission of the Parties' Hart-Scott-Rodino pre-merger notification filing (i.e., the FTC elects to further investigate the transaction before granting antitrust approval).

WHEREAS, the Parties desire to establish a long-term strategic relationship which integrates MHRI Parent and the MHRI Affiliates with and into the CNE System, all on the terms set forth in this Agreement (the "**Affiliation**").

NOW, THEREFORE, in consideration of the mutual promises and covenants contained in this Agreement, and other good and valuable consideration, the sufficiency and receipt of which hereby are acknowledged, the Parties agree as follows:

ARTICLE 1

CHARITABLE OBJECTIVES

1.1 **Deliberative Process**. The boards of directors of CNE, MHRI Parent and MHRI, in keeping with their fiduciary duties to oversee their respective organizations' charitable assets, have engaged in a deliberative process to explore ways to effectively serve their communities. These discussions have culminated in the Parties' mutual desire to implement the Affiliation, with a goal of optimizing clinical services and health benefits, creating a strong and effective long-term relationship between the Parties and ensuring that both organizations' charitable missions are achieved over the long term.

1.2 **Charitable Objectives**. As a means of furthering their common mission, the Parties believe that it is in their mutual best interests to enter into this Agreement and, subject to the terms hereof, establish the Affiliation. In doing so, the Parties have identified the following charitable objectives which they hope will be realized therefrom:

(a) Clinical excellence demonstrated by comprehensive and consistent quality across a range of services and procedures;

(b) Improvement in the quality of clinical programs and services;

(c) Patient access to a broader continuum of services over an expanded service area;

(d) The creation of operational efficiencies designed to improve performance and reduce costs;

(e) The maintenance of a strong academic and research platform that is essential to fostering clinical excellence and innovation;

(f) The development and maintenance of an integrated delivery system in which patient care is coordinated across a full continuum of health care providers, thereby providing CNE and MHRI a foundation for responding to the promises and challenges of the federal health reform legislation;

(g) The establishment of a "best practices" governance structure which will enable the CNE System to respond nimbly to industry changes, while affording MHRI the same benefits of other entities in the CNE System;

(h) The enhancement of physician recruitment, retention, and integration initiatives;

RIDOH 0975

(i) The improvement of facilities, equipment, and information technology platforms;

(j) The achievement of "employer of choice" status, ensuring that CNE's and MHRI's employees have opportunities to attain their professional goals in a supportive work environment;

POLICY

SUBJECT	PREPARED BY	EFFECTIVE DATE	POLICY NUMBER
CHARITY CARE	Bonnie Baker, Vice President for Finance Butler Hospital	10/1/07	Finance 1
PAGE 1 of 3	APPROVED BY John M. Sutherland, III Senior Vice President for Finance/CFO	REPLACES None	REPLACES None

Purpose:

Financial aid is intended to assist those low-income, self pay individuals who do not other wise have the ability to pay full charges as determined under the hospital's qualification criteria. It should take into account each individual's ability to contribute to the cost of his or her care. Hospital financial aid is not a substitute for employer-sponsored, public or individually purchased insurance.

Policy:

1. All patients will be provided treatment for essential medical services regardless of their ability to pay.
2. The decision to extend financial assistance will be based solely on the applicant's financial status as indicated by pre-determined eligibility requirements and will be granted to all qualifying patients, regardless of race, color, religion, age, national origin, marital status or legally protected status. This policy will be uniformly applied to any uninsured/underinsured resident.
3. Patients are eligible for financial assistance for essential medical services. Essential medical services are defined as hospital services that are reasonably required to make a diagnosis, correct, cure, alleviate, or prevent the worsening of conditions that endanger life or cause suffering or pain, or result in illness or infirmity, or threaten to cause or aggravate a handicap, or cause physical deformity or malfunction, and there is no other equally effective more conservative or substantially less costly course of treatment available or suitable for the person requesting the service.
4. Patients having no health insurance or inadequate health insurance coverage are eligible to apply for the program. To be considered for a discount under the Financial Assistance Policy, a self pay person must cooperate with the hospital to provide the information and documentation necessary to apply for other existing financial resources that may be available to pay for his or her health care, such as Medicare, Medicaid, RItecare, third party liability, etc.

5. The Financial Assistance Program shall encompass all essential medical hospital services and professional services furnished by hospital employed physicians.
6. Full financial assistance will be given to patients with gross family income equal to or below 200% of the Federal Poverty Levels (FPL), adjusted for family size, provided such patients are not eligible for other private or public health coverage and do not exceed the assets protection threshold.
7. Individuals with gross income between 201% and 300% of the FPL and who do not exceed the assets protection threshold are also eligible for financial assistance for a portion of the medical bill, based upon a sliding scale. The patient financial responsibility is subject to maximum cap limitations as defined by State regulations or as periodically set by Care New England.
8. The responsible party's financial obligation remaining after application of the sliding fee schedule will follow routine collection procedures to obtain payment.
9. To be eligible for 100% financial assistance or partial financial assistance, the maximum assets (excluding a primary residence and personal automobile) shall not exceed $8,000 for singles and $12,000 for family units for 2006 and thereafter increased annually by the most current Consumer Price Index, provided, however, that these thresholds do not block an individual patient's ability to qualify for the state's Medical Assistance program(s) in which case these thresholds may be replaced by those utilized by the state's Medical Assistance program(s). A family unit is defined as a group of two or more persons related by birth, adoption, marriage (legal or common law), or other legal means who either live together or who live apart and are claimed as dependents.
10. In determining eligibility for full charity care only, in cases where a patient/guarantor qualifies for full charity care under the income criterion but does not meet the assets criterion, the hospital will provide the highest discount offered under the sliding scale. The maximum liability to the patient/guarantor will be the actual assets less the applicable asset thresholds.
11. Individual consideration may be provided to a patient that can demonstrate undue financial hardship, even though gross income may exceed 300% of the FPL. Exceptions must be approved by the Vice President of Finance or his/her/designee.
12. The patient/guarantor may appeal a denial of eligibility for financial assistance by providing additional verification of income or family size within thirty (30) days of receipt of notification of denial. All appeals will be reviewed by the Chief Financial Officer (CFO) or her/his designee for final determination. An appeal by definition requires a review by at least one management level higher than that given for the original application. A request for appeal must be processed within 30 days from receipt of an appeal request. Written notification of the appeal results must be provided to the patient/guarantor.
13. The hospital may reserve the right to revoke financial assistance if it determines a patient has knowingly misrepresented their financial condition, the number of dependents or any other information necessary to determine financial status for purposes of this policy.
14. The 'Notice of Hospital Financial Aid' must be available on hospital websites, patient bills and upon request. It will also be posted in Emergency Departments, main lobbies and in admission/registration areas throughout the hospital. Any changes to the Notice must be approved by the Director of the Department of Health (Director).

15. The Financial-Aid Criteria must be available in other languages in accordance with the applicable "*Standards for Culturally and Linguistically Appropriate Services in Health Care" (Standards 4 & 7, based on Title VI of the Civil Rights Act of 1964).* They must be approved by the Director and made available to all persons on request.
16. Any changes to the Application for Financial-Aid must be approved by the Director.
17. The following information must be provided to the Department of Health on an annual basis or as required by the Director:
    a. Performance measures as determined by the Director,
    b. The public Notice of Hospital Financial-Aid,
    c. A copy of the hospital bill including the public Notice of Financial-Aid,
    d. A copy of the Financial Aid criteria,
    e. The Application for Financial Aid,
    f. A copy of the Financial Assistance Appeals process
    g. A copy of the Collections process.
