Parent's Worksheet for Child’s Birth Certificate

Please complete the information requested below before you leave the hospital. This information is required to create your child’s birth certificate, which is a document that will be used for legal purposes to prove your child’s age and parentage. IF YOU DO NOT return the completed form to the hospital’s Medical Records Office, your hospital admission record may be used to file your child’s birth certificate.

It is essential that you accurately answer all questions in their entirety. Health and medical researchers study much of this data to improve maternal child health. State laws provide protection against the unauthorized release of your information to ensure the confidentiality of the parent(s) and their child.

Please note: Once filed, birth certificates are not automatically provided to the parent(s). To obtain a certified copy of your child’s birth certificate, you must request one, for a fee, at any city or town hall in Rhode Island or at the Center for Vital Records at the Rhode Island Department of Health (open Monday-Friday, 7:30 a.m. to 3:30 p.m.). For more information, please visit www.health.ri.gov or call our Health Information Line at 401-222-5960.

### PLEASE PRINT CLEARLY
