MOLLUSCAN SHELLFISH HANDLING

Recordkeeping

- Keep shellfish tags or labels with the product until the containers are empty.
- Keep shellfish tags or labels on file for 90 days after the container has been emptied.
- Keep shellfish tags and labels in chronological order of dates sold or consumed.
- For easy traceability keep a log of tags and labels and record the date the container is emptied on the tag (example below)

Receiving

- Verify shellfish shipments are from sources listed on the Interstate Certified Shellfish Shippers List at: https://www.fda.gov/food/federalstate-food-programs/interstate-certified-shellfish-shippers-list

- Check product temperature upon receiving. Verify that:
  - Live shellfish are at 50 F (10 C) or below.
  - Air temperature in delivery vehicle or shipping container is 45 F (7.2 C) or below.
  - Frozen product is received frozen.

- Verify that the quality and quantity in your product order is correct. Place shellfish under temperature control immediately.

- Accept only shellfish that are clean, alive and with whole unbroken shells.

  Keep tags and labels with the containers of live product.

Storage and Display

- Keep storage and display refrigerators cold enough to maintain product at 41 F (5 C) or less.

- Do not co-mingle (mix) different lots or species of shellfish.

- Store shellfish above or away from other raw animal foods that could drip or leak onto the shellfish.

- Protect shellfish from contamination, such as refrigerator condensation, that could drip onto the product.

- Store raw shellfish away from and below ready-to-eat foods.

- Monitor product daily. Remove any dead shellfish and badly broken shellfish.

- Clean and sanitize equipment and food contact surfaces regularly.

Personal Hygiene

- Wash your hands before handling or preparing food.

- Wash your hands during food preparation to prevent cross contamination.

- Wash your hands when switching between working with raw food and ready-to-eat food.

- Wash your hands after engaging in other activities that contaminate the hands.

- Use utensils or gloves to handle ready-to-eat shellfish. Never use your bare hands.
