

# How to Get Your COVID-19 Test Result

Date of Test:

/ /

Patient Name:

## You received a rapid antigen test.

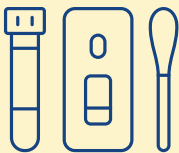

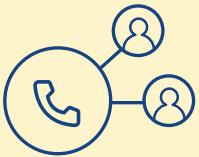

Rapid antigen tests are processed at the test site. The result of this type of test is ready in the same day. If you have symptoms of COVID-19, isolate at home while you wait for your test result.

You will get a text message or email when your test result is available online at [portal.ri.gov/results](https://portal.ri.gov/results). If you need help getting your test result, call **401-222-8022** or email [RIDOH.COVID19questions@health.ri.gov](mailto:RIDOH.COVID19questions@health.ri.gov).

### IF YOU TEST POSITIVE FOR COVID-19:

- **Isolate at home** and away from anyone you live with for at least 5 days. For more information, visit [covid.ri.gov/whattodo](https://covid.ri.gov/whattodo).
- **Write a list of the people you have been in close contact with recently.** Let them know that you have COVID-19 and they should monitor for symptoms.
- **RIDOH can help you notify your close contacts anonymously.** Go to [portal.ri.gov/results](https://portal.ri.gov/results), enter your information to view your positive test result, and fill out the COVID-19 survey that is linked there.
- **Ask your doctor about treatment.** If you test positive for COVID-19 and have mild to moderate symptoms, call your healthcare provider right away and ask about treatment. Treatment is most important if you are at high risk of becoming very sick from COVID-19. Learn more at [covid.ri.gov/treatment](https://covid.ri.gov/treatment).

### IF YOU TEST NEGATIVE FOR COVID-19:

- **Stay home until your symptoms go away.**
- **If you think your test result is incorrect,** test yourself again 24-48 hours later or contact a healthcare provider.
