

# Rhode Island quarantine requirements

**Quarantine if you've recently arrived in Rhode Island from a location outside the 50 states or the District of Columbia (DC) or from a hot spot within the 50 states or DC, or if you've been in close contact with someone who tested positive for COVID-19.**

Close contact means you've been within 6 feet of someone with COVID-19 for a total of 15 minutes or more in a 24-hour period.

If you arrived from a hot spot within the 50 states or DC, you do not have to quarantine if you are traveling for work. For other exceptions, visit [covid.ri.gov/travel](https://covid.ri.gov/travel)

If you've gotten a final dose of a COVID-19 vaccine, you may not have to quarantine. Learn more at [covid.ri.gov/whattodo](https://covid.ri.gov/whattodo)

**If you get symptoms of COVID-19**, isolate at home, call your healthcare provider, and **get a COVID-19 test**.

The Centers for Disease Control and Prevention (CDC) requires all air passengers arriving in the US from a foreign country to provide a negative COVID-19 test result or documentation of recovery.

Learn more at [www.cdc.gov/coronavirus/2019-ncov/travelers/testing-international-air-travelers.html](https://www.cdc.gov/coronavirus/2019-ncov/travelers/testing-international-air-travelers.html)

The CDC continues to endorse 14-day quarantine as the safest protocol but has released new data and information to allow local public health officials to modify policies based on local conditions and needs.
