When Will I Get My First Dose of COVID-19 Vaccine?

This is an *estimated* timeline of when first doses will be offered to specific groups.

<table>
<thead>
<tr>
<th>2020</th>
<th>2021</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dec</td>
<td>Jan</td>
</tr>
</tbody>
</table>

- Healthcare workers, first responders, congregate settings, and other groups
- Age 75+<sup>1</sup>
- Age 74-65<sup>2</sup>
- Pre K-12 teachers, school staff, and licensed child care workers
- Age 64-16 with underlying health conditions<sup>3</sup>
  (For details on eligible conditions, visit [C19vaccineRI.org](http://C19vaccineRI.org).)
- Age 64-60
- Age 59-50
- Age 49-40
- Age 39-16

**Notes:** This estimated timeline assumes that supply will increase over time and uptake within each group will be 70%. Across this timeline, the State will continue efforts to speed up vaccine distribution in high-density communities with higher rates of hospitalization and death from COVID-19. This timeline is subject to change at any time due to factors outside of the State’s control (i.e. receiving more vaccine than expected or less vaccine than forecasted).

<sup>1</sup> Assumes 25% of those 75 and older were vaccinated in earlier groups.

<sup>2</sup> Assumes 15% of those 65-74 were vaccinated in earlier groups.

<sup>3</sup> Assumes 25% of adults with high-risk conditions were vaccinated in earlier groups.
