When Will I Get My First Dose of COVID-19 Vaccine?

This is an estimated timeline of when first doses will be offered to specific groups.

<table>
<thead>
<tr>
<th>2020</th>
<th>2021</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dec</td>
<td>Jan</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- **Healthcare workers, first responders, congregate settings, and other groups**
- **Age 75+**
- **Age 74-65**
- **Age 64-16 with underlying health conditions**
  (For details on eligible conditions, visit C19vaccineRI.org.)
- **Age 64-60**
- **Age 59-50**
- **Age 49-40**
- **Age 39-16**

**Notes:** This estimated timeline assumes that supply will increase over time and uptake within each group will be 70%. Across this timeline, the State will continue efforts to speed up vaccine distribution in high-density communities with higher rates of hospitalization and death from COVID-19. This timeline is subject to change at any time due to factors outside of the State’s control (i.e. receiving more vaccine than expected or less vaccine than forecasted).

1 Assumes 25% of those 75 and older were vaccinated in earlier groups.
2 Assumes 15% of those 65-74 were vaccinated in earlier groups.
3 Assumes 25% of adults with high-risk conditions were vaccinated in earlier groups.
