

Who Is Eligible for a Booster Dose?

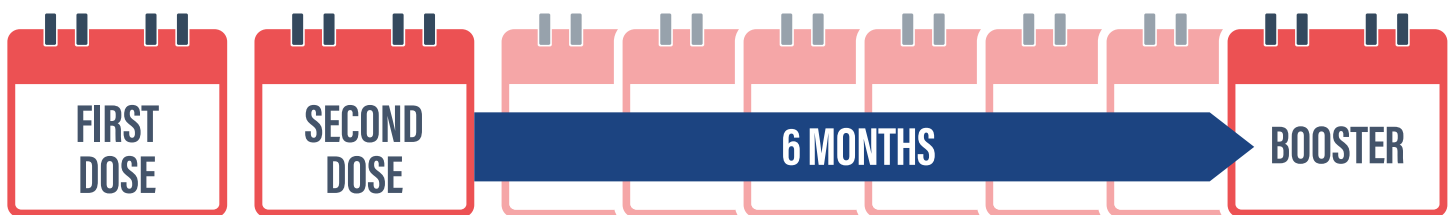

Who is eligible?

COVID-19 Vaccine booster doses are available to the following people who received **Pfizer** for their primary series:

- 65 years or older
- 18 years or older who have [underlying medical conditions](#)
- 18 years or older who work in [high-risk settings](#)
- 18 years or older who live in [high-risk settings](#)

When can I get a booster dose?

You can get your booster dose **at least 6 months** after your second dose of Pfizer

Please make an appointment in advance

Please make an appointment for your booster. This will help Rhode Island administer vaccines quickly and reduce wait time at your appointment. You can get a booster dose anywhere Pfizer is available.

Find appointments at [VaccinateRI.org](https://vaccinate.ri.org). If you need help making an appointment, please call **844-930-1779** or **2-1-1**. For more information on booster doses, visit covid.ri.gov/boosterdoses.
