

# Wear a mask that protects your household

A mask **MUST** be worn here—at all times.

Wear a face covering any time you're near people you don't live with to protect yourself and your household from COVID-19. **Your mask should fit snugly but comfortably over your nose, mouth, and chin without any gaps.**

## RECOMMENDED

- **Great protection:** N-95, KN-95, or KF-94 mask
- **Good protection:** Medical procedure (paper) mask that fits
- **OK protection:** Cloth mask made of a tightly woven, breathable fabric that's at least two layers thick and fits

## NOT RECOMMENDED

- Face shield alone
- Bandana, scarf, or ski mask
- Mask with valve or vent
- Mask worn the wrong way or that doesn't fit
- Mask that makes it hard to breathe or is only one layer thick

Masks should not be worn by children younger than age two, anyone who has trouble breathing, or anyone who is unable to remove the mask without help.
