

# What Does A **Safe Sleep Environment** Look Like?

The image below shows a safe infant sleep environment.

Baby's sleep area is in the same room, next to where parents sleep.

Use a firm and flat sleep surface, such as a mattress in a safety-approved crib\*, covered by a fitted sheet.

Baby should not sleep in an adult bed, on a couch, or on a chair alone, with you, or with anyone else.

Do not smoke or let anyone else smoke around your baby.

Do not put pillows, blankets, sheepskins, or crib bumpers anywhere in your baby's sleep area.

Keep soft objects, toys, and loose bedding out of your baby's sleep area. Make sure nothing covers the baby's head.

Dress your baby in sleep clothing, such as a wearable blanket. Do not use a loose blanket, and do not overbundle.

Always place your baby on his or her back to sleep, for naps and at night.

\* A crib, bassinet, portable crib, or play yard that follows the safety standards of the Consumer Product Safety Commission (CPSC) is recommended. For information on crib safety, contact the CPSC at **1-800-638-2772** or <http://www.cpsc.gov>.
