

2020 MEDICAL MARIJUANA
PROGRAM REPORT TO THE
RHODE ISLAND GENERAL
ASSEMBLY
4/1/21 – 6/30/21

JUNE 2021

In accordance with the Edward O. Hawkins and Thomas C. Slater Medical Marijuana Act, § 21-28.6-6(l), the Rhode Island Department of Health (RIDOH) respectfully submits this report on applications for the use of medical marijuana for symptom relief for the time-period of April 1, 2021, to June 30, 2021.

As of June 30, 2021, there were 19,463 active registered patients, 656 active registered caregivers and 682 active authorized purchasers.

The numbers listed above may differ slightly from the Annual Report because the report is looking at just active status. Therefore, if a license status changes during the time the reports are run, the numbers will not match.

1) The number of applications for registrations as a qualifying patient, primary caregiver, or authorized purchaser made to RIDOH:

For the time-period of April 1, 2021 to June 30, 2021, RIDOH received 981 new patient applications, 49 new caregiver applications and 50 new authorized purchaser applications.

2) The number of approved registrations for qualifying patients, primary caregivers, and authorized purchasers:

For the time-period of April 1, 2021 to June 30, 2021 RIDOH approved 1,032 patient registrations, 52 caregiver registrations and 55 authorized purchaser registrations.

The number of applications approved is larger than the number received due to the fact there were a percentage of applications that were incomplete upon receipt prior to April 1, 2021. When we receive the requisite documentation and/or fees for incomplete applications, the application is approved and the registration is issued at that time.

3) The nature of the debilitating conditions of qualifying patients:

Practitioner Written Certifications contained the following debilitating conditions for the time-period of April 1, 2021 to June 30, 2021:

Please note that many patients have more than one diagnosis code. Therefore, the count of diagnosis codes will always be higher than the number of patients.

Qualifying Debilitating Condition	Percentage of Total Patients	Number of Patients
Severe Debilitating, Chronic Pain	57.45%	733
Severe Nausea	8.23%	105
